American Railroad Journal.

Saturday, July 8, 1871.

Stock Exchange and Money Market.

The Money supply has been largely in excess of the urgent wants of borrowers, and rates have been quoted quite easy at from 2@5 mainly 3@4 per cent., on call and at 4@7, chiefly 4½@6 per cent. per annum on very choice to good mercantile credits. The diminished activity in financial and commercial negotiations, due, in good part, to the recurrence of the national holiday, tended to check the demand for aid, at even the low figures current through the week. The outflow of funds to the interior has been on a less extensive scale, and the city bank reserves show an important gain of strength, as the result of the week's operations. The city banks, last week, reported a gain of $2,511,235 of specie, a loss of $12,340 of legal tender notes, and an increase of $4,787,180 of deposits. They increased their loan and discount averages $2,328,314 and reduced their circulation $66,149. The city bank exchanges, last week, averaged $93,561,076; and thus far, this week, 61 millions daily. The banks now hold $18,174,492 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a loss of $1,527,804 of specie and of $1,183,559 of currency, as the result of the week's business. The receipts of the office were $8,105,522 in coin, and $5,617,256 in currency; payments, $9,633,326 in coin, and $6,800,816 in currency. The office received $2,864,000 in coin or its equivalent, from customs; and disbursed $7,756,112 of coin interest.

The receipts of the Sub Treasury from all sources in June were $53,149,253, including $10,676,315 from customs; payments, on all accounts, $48,582,158, including $26,399 of actual coin interest.

The specie reserve of the city banks according to the latest return is $16,526,451, against $31,611,330 same time last year. The city bank deposits are now $248,308,693 against $219,083,428 week ending July 2, 1870. The legal tender reserve amounts to $71,848,828 against $56,815,254 same time last year. The circulation now stands at $30,494,457, against $33,070,365 same time last year. The loans are now $296,237,959, against $276,496,503 at this date last year.

The subscriptions to the new refunding Five per cent. Loan now amount to about 68½ millions.

The U. S. Sub-Treasurer retired, last week, $2,053,099 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $2,707,842 in currency, and $55,436,122 in coin against a balance a week previous of $4,357,133 currency, and $60,052,971 coin.

Government revenues have been yielding quite satisfactorily for the season, since our last. The excises yielded last week nearly 4¼ millions. The customs at the port of New York, last week were $2,195,099; and at the outports, equal to about $700,000 more, all in coin, or coin certificates. The internal revenue yielded in the fiscal year ending July 1, 1871, about 147½ millions.

Internal revenue receipts on Wednesday were over a million dollars.

Gold has been more confidently dealt in, chiefly on speculative account, and the price has been quoted higher, with a buoyant look. The export drain has been unusually heavy; while the customs call has been moderate. The range of the price, during the week, has been from 112¾@113⅝, and the closing quotation on Wednesday was 113½ against 113 the preceding Wednesday. The outflow, last week, was $4,973,268; and on Wednesday of this week, ————. The Gold Exchange Bank clearances have been as follows: June 30, $30,997,000; July 1, $45,928,000; July 5, $44,985,000.

According to the July exhibit of the public debt the U. S. Treasury held on the 1st inst. a coin balance of $96,683,901, including $19,886,300 on deposit on private account, and a currency reserve of $9,533,363. The decrease of the debt in June was $5,856,386.

The customs at this port on Wednesday were $362,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt year ending July 1, 1871, $85,515,831, against $86,647,054 same time in 1869–'70.

The export drain was $4,973,268 last week, against 734,600, same week preceding year. The shipments year ending July 1, 1871, were $83,566,219, against $33,497,155 same time in 1869–'70.

The customs demand for Gold last week, averaged $394,000 a day; thus far, this week, it has averaged $370,000 a day, or equal to a weekly aggregate of $2,220,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $12,450 and since Jan. 1, 1871, have been $3,179,957 against $7,176,957 same time in 1870. The total customs revenue of the Government, in coin, at this port, year July 1, 1870, was $147,224,131 against $134,527,931 same time in 1869–'70.

Foreign Exchange has been less active, but generally strong in price, closing, however, less buoyantly on Wednesday, with Bankers' sixty day bills on London at 110⅜@110⅝; sight bills on London, 110⅞@111⅛.

The produce exports from this port, week ending with July 3, were to the currency value of $2,733,930.

Government securities have been in quite active request, chiefly on investment account, and have advanced in price, on a limited offering of bonds in the open market. Foreign dealers have been free purchasers.

Under the official programme of the Treasury Department for July, Government will sell during the month, at least four millions of Gold, as follows: Thursday, July 6, one million; Thursday, July 13, one million; Thursday, July 20, one million; Thursday, July 27, one million. And buy in, at least, four millions of Five Twenty Bonds as follows: Wednesday, July 5, one million; Wednesday, July 12, one million; Wednesday, July 19, one million; Wednesday, July 26, one million.

On Wednesday, Government bought in 4 million of Five-Twenties at 112 77@113 42, ex-interest. The amount of bonds offered was $1,811,750.

U. S. sixes of 1881 closed here on Wednesday of the current week at 115⅝@115¾, ex July coupon; U. S. Five-Twenties of 1862, 115⅛@115⅜; U. S. Five-Twenties of 1864 at 114⅜@114½; U. S. Five-Twenties of 1865, 114⅜@114½; U. S. Five-Twenties of 1865 consolidated, 113⅜@113½, ex July coupon; U. S. Five Twenties of 1867, 113⅜@113½, ex July coupon; U. S. Five-Twenties of 1868, 113⅝@113¾, ex July coupon; U. S. Ten-forties at 112¼@112⅝; U. S. Six per cent. currency bonds, 115@115¼.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 21.	June 28.	July 5.
Consols	92⅛	92 3/16	92
U.S. 5-20's of 1862	90¾	91	91 7/16
U. S. 5-20s, 1865	90½	90⅝	91 1/16
" 1867	*90	90 1/16	90⅜
" 10-40s	88¾	88¾	89 1/16
Erie	24⅛	24½	23½

* Ex July coupon.

State bonds have been in moderate demand at uniform prices.

Railway bonds have been in fairly active request and buoyant in price. Central Pacific Sixes closed at 99⅞@100, ex the July coupon of three per cent. in coin. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in quick demand at 92 per cent. and accrued interest. Union Pacific Sixes closed at 89½@89¾.

Business in Railway and miscellaneous share property has been less active; and values have been irregular, though closing more firmly, as a rule.

General business has been on a restricted scale, checked, in part, by the recurrence of the national anniversary, and the observance of Monday as well as Tuesday, as a holiday. Breadstuffs have been quoted cheaper. Provisions, firmer. Middling upland cotton closed on Wednesday at 20⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,888,340 bales, against 2,791,903 bales same time last year; exports 3,073,315 bales, against 2,098,209 bales same time last year; stock at the ports at latest dates, 174,710 bales, against 170,186 bales same date 1870.

At the Live Stock Markets, Beeves have been in very moderate demand at from 9@13½ cts; Veal Calves, at 5¾@11½ cts; Sheep at 4½@7¾ cts; Lambs at 8@11 cts; Swine, 4½@5 cts per lb., all live weight. The week's receipts were 7,156 Beeves, 2,279 Veal Calves, 26,020 Sheep and Lambs; and 25,488 Swine.

Foreign goods have been in less request, at yielding prices. The week's imports of foreign goods reached $5,450,222, including $1,559,894 of dry goods.

Ocean freights have been quiet and quoted less firm as to rates, on a rather better supply of room.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—South Side R. R., 72½; New York and New Haven R. R., 155; Boston, Hartford and Erie R. R., 2⅞; Albany and Susquehanna R. R., 93½; St. Louis and Iron Mt. R. R., 60½; Great Western 1st mort., 1888, 94; Central of New Jersey new bonds, 103½; Cleveland and Pittsburg consol. bonds, 93; Toledo, Peoria and Warsaw 1st mort., W. D., 89; do. 2d mort., 78; St. Louis, Jacksonville and Chicago 1st mort., 94; Long Dock bonds, 90¾: South Carolina 6s, new Jan. and July, 58¾; Louisiana 6s, levee bonds, 71; Georgia 7s, gold bonds, 94; Brooklyn 6s, W. L., 92½; Maryland Coal, 30; Consol. Coal of Md., 38; Spring Mt. Coal, 71; Am. Mer. Union Exp., 53¼; Adams Exp., 80½; Wells-Fargo Exp., 46½; U. S. Exp., 53½; Western Union Telegraph, 58¼.

Philadelphia.—Connecting R. R. bonds, 87; Penn. and New York Canal 7s, 96; Philadelphia and Reading R. R. 7s, 104; do. deben. bonds, 83⅝; West Jersey R. R. 7s, 102; Phila. and Sunbury 7s, 98; Lehigh Nav. con. gold loan, 93½; Huntingdon and Broad Top Mt. 2d mort, 85; Schuylkill Nav. 7s, Boat Loan, 85½; Warren and Franklin 7s, 92; Penn. Canal 7s, 95⅞; Allegheny County 6s, 92. The latest quotations are: City 6s, 99@100½; do. free of tax, 100¼@100¾; State 5s, coupon, 100@101; do. 6s, W. INVESTMENT SECURITIES.

JAY COOKE & Co. are now selling, and recommend as a profitable and safe investment for all classes, the First Mortgage 7-30 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on 23,000 Acres of Land to every mile of track, or 500 acres for each $1,000 Bond. They are exempt from United States tax; principal and interest are payable in gold. Denominations; Coupons, $100 to $1,000; Registered, $100 to $10,000.

Northern Pacific 7-30s are at all times receivable, at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price.

The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres in the most fertile portion of the Northwest, and the demand for the Company's lands for settlement already exceeds the ability of the Government to complete the surveys. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of U. S. Five-Twenties, who wish to convert them into a first-class railroad security, can do so at a present profit of about 12 per cent., while increasing their interest income nearly one-fourth, by exchanging them for Northern Pacific 7-30s.

All marketable stocks and bonds will be received in exchange at their highest current price. Full information, maps, pamphlets, etc., will be furnished on application to any agent for the loan, or to JAY COOKE & Co., New York, Philadelphia or Washington.

☞ Messrs. DREXEL, MORGAN & Co., have formed a copartnership for the transaction of a general foreign and domestic banking business under the firm names of DREXEL, MORGAN & Co., 53 Exchange Place, New York, DREXEL & Co., 34 S. 3rd Street, Philadelphia, Pa., and DREXEL, HARJES & Co., No. 3 Rue Scribe, Paris, France. The firm is composed of F. A. Drexel, A. J. Drexel, and J. H. Wright of Philadelphia; J. Pierpont Morgan, Jos. W. Drexel, and J. N. Robinson, of New York.

☞ A dividend of seventy cents per share on the preferred stock, and thirty-five cents per share on the common stock of the Schuylkill Navigation Company, will by paid to the stockholders on and after the 10th inst., clear of taxes.

☞ The Boston and Roxbury Mill Corporation has declared a dividend of $3 per share, payable July 10.

Narrow Gauge Railroads.

Gen. Wm. S. Rosecrans, in a letter to the *Alta-California*, expresses himself very emphatically in favor of the narrow gauge system of railroads. It would be difficult to put in fewer words, and with greater force, the argument in favor of the system than he has done in the following paragraphs which we quote:

Regarded economically, a railway is a hauling machine. Every unnecessary expense put upon this machine adds to the cost of hauling done by it. This cost comes out of the people. Every unnecessary cost in the construction and equipment of railways is a public evil. It matters not whether this cost results from blunders in engineering, blunders in management, or rascality in operating the road or watering the stock, the people have to pay the interest on it. In this view why should we pay for building a broad gauge if a narrow gauge will do all the work likely to be required? Evidently it would be a public wrong for the owners of railway franchises to build a broad gauge when a narrow gauge will do the work; and the public have a right to see that it is not done, and to hold those who thus prepare needless burdens responsible for it.

The question comes up, therefore, with every new railway line, and should be asked by the people, Will a narrow gauge do the work? The data for this answer are to be sought in reason and experience; but I will ask, Has the most crowded four foot eight and a half inch gauge railway in the United States more work than it can do?

If that line of road with this gauge which has the greatest traffic in the world does less than it can, and yet carries five times as much freight over each mile as does the most heavily-worked road in the United States, why does the latter need so much more capacity than it has work? If the heaviest worked road in our country has ten times as much to do as the average of roads in new countries can expect for the next twenty years, why should they be made to cost so much? Why should our new roads be constructed with a carrying capacity fifty times greater than the work they will be called upon to do? Any man who can show that they should be so constructed, can prove that one ought to get a six-horse Concord coach to give a baby an airing!

Locomotives for Narrow Gauge Railroads.

There has just been finished at the Baldwin Locomotive Works, a narrow (three feet) gauge locomotive, for the Denver & Rio Grande Railroad. It is stated to be the first narrow gauge locomotive for general passenger or freight service built in this country. The engine is six-wheeled, four of the wheels 40 inches in diameter, being coupled as drivers, and the one pair of leading wheels so arranged as to enable the engine to pass short curves readily, as the rigid wheel base is only 6 feet 3 inches. The general plan is similar to that of ordinary full gauge locomotives. The cylinders are outside and placed horizontally, and are 9 inches in diameter by 16 inches stroke. Its total weight in running order is 25,300 pounds, of which 20,500 are carried on the four driving wheels and so available for adhesion. A four-wheeled tender having a water capacity of 500 gallons, and a coal capacity of about one and one-half tons is attached. The proportion of driving wheels relatively to the stroke of piston admits of a speed of 30 to 40 miles an hour, with equal facility as on the full gauge. Two freight locomotives, having each three pairs of drivers and a pony truck, are also just finishing for the same road.

☞ The Western Maryland Railroad will, in all probability, be in running order as far as Sabillasville before the end of July. The heavy work now on hand is the construction of a Howe truss bridge, in two spans of 120 feet each, across Owing's creek, above Mechanicstown, which is making good progress.

Peteler Portable Railway.

The following is a description of the Portable Railway, made on what is known as the Peteler plain. It is designed to facilitate the removal and transport of earth on the cuts and fills, in railroad construction:

The track is formed of separate sections, twenty-five feet long. Each section consists of two three by six inch sleepers, twenty five feet long, placed two feet apart, and held together by four bolts of one-inch iron. Close to the inner edge of the upper surface of each sleeper is riveted a rail of half-oval iron about one and a half inches wide and one-half of an inch high. These form a track of twenty-inch gauge, the frame work being equivalent to the road-bed and ties of an ordinary railroad. This section supplies a complete railroad twenty-five feet long. To make a longer line the sections are placed on the surface of the ground, end to end, and fastened together by hooks and eyes, dowel joints, or othewise. As now employed, there are castings at the ends of the sleepers, those at one end forming a mortise, and those at the other a species of tenon with a hook, so that two adjoining sections are simply slipped together and then latched. These sections can be readily handled, loaded and unloaded by three or four men, and four men can lay one thousand feet in an hour. A few curved sections, and one section with a frog and switch are needed with every lot. The track can thus be laid on almost any surface—on rough ground or in marshes—and a good road thus be provided for vehicles. These vehicles have iron flanged wheels, twelve or fourteen inches in diameter, supporting a frame work on which swings a hopper-like box, which can be turned over to either side. The sides are hinged *at the top*, and when the box is turned upon one side, that side falls, thus leaving it a box without a bottom and the load is dumped. These cars are made to carry a cubic yard of earth, and they weigh about 350 pounds. Their sides are moderately low, so that they can be easily loaded. They are coupled together by chains and hooks.

Iron Telegraph Poles.

There is likely to be a further largely increased demand for Pennsylvania's great stable, iron, and from an entirely new market for consumption. Although the United States was the first nation in the introduction and use of the magnetic telegraph in practical business, the Prussian authorities have the credit of suggesting a great improvement. Considerable trouble and delay having been experienced there, particularly during the late war, from the falling (through rottenness) or blowing down of wooden telegraph poles in exposed situations, the authorities resolved to do away with this evil, and to that end concluded to make an experiment with iron telegraph poles, which were substituted for the wooden ones. The result has been a complete success, and it is now contemplated to introduce them on all the Prussian telegraph lines. In Switzerland, also, they have been satisfactorily tried, carrying the wires along railway lines extending for more than three hundred and fifty miles, and are also there rapidly taking the place of the old wooden poles. Owing to the frequent renewals made necessary with wooden poles, iron ones have been found much cheaper, after their first erection, besides which their appearance is very much more graceful and pleasing to the eye than the old-fashioned dilapidated and crooked monstrosities.—*Philadelphia Ledger.*

☞ The directors of the New York and Oswego Midland Railroad have let the unfinished portion of their road in Delaware and Sullivan counties to Culver & Simpson, contractors, to be finished in one year. This will complete the road from Oswego to New York.

☞ The first iron laid on the Wisconsin Central Railroad, was put down on Wednesday, June 21st, 1871.

BANKING AND FINANCIAL.

HARVEY FISK. A. S. HATCH.

☞ OFFICE OF FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 Nassau-st., New York, July 1, 1871.

The amount of the best class of securities now available in the market, at prices which render them desirable and profitable for investment, is limited in comparison with the amount of capital which must seek investment from the approaching July disbursements, and the most substantial of these must be rapidly absorbed. Preference will, of course, be given by prudent investors to those combining the best assurances of absolute safety with a liberal interest on their cost.

THE FIRST MORTGAGE GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY offer peculiar inducements to judicious investors.

1. The Road is under experienced, conservative and honorable management. The company is one of the strongest and most reliable and trustworthy corporations in the country, with a well established credit and possessing property and franchises of great value.

2. There is ample security for the entire mortgage, already existing in completed Road, Equipments and work done.

3. The regular and prompt payment of interest and the security of the principal are beyond question.

4. It is an old successful Road, with 227 miles now in profitable operation, and 100 miles additional nearly completed, extending itself in response to the demands of commerce, AS A GREAT EAST AND WEST TRUNK LINE FROM THE ATLANTIC TO THE OHIO, and for the accommodation of the immense mineral resources along its line.

5. The traffic necessary to render its extension profitable does not depend upon a slow future development, *but an enormous and profitable trade is already waiting for and inviting it.*

6. The Loan is sufficient in amount to become widely known, popular and marketable, while it will be but a slight tax upon the great earning capabilities of the Road.

Price of the bonds, until further notice, 92, and accrued interest from May 1.

FISK & HATCH.

☞ The east Saginaw (Michigan) *Enterprise* says arrangements have been effected with the Michigan Railway to run the cars of the Holly and Monroe extension of the Flint and Pere Marquette Railroad over their track to Toledo, and through trains will be run from Bay City to Toledo. There is every prospect that before the end of another year the entire line will be completed from Lake Michigan to Monroe, and through trains will run from Ludington to Toledo. A Western connection will also be secured by a line of steamers across the lake.

☞ The National Mining Company has declared a dividend of $1 per share from net earnings, payable at the office of J. W. Clark & Co., 28 Milk street, Boston, on the 5th inst.

☞ The Worcester and Gardner Railroad completed the laying of its rails from Gardner to Barber's Crossing in Worcester, a distance of twenty-three miles, on the 1st inst.

Journal of Railroad Law.

RAILROAD COMPANIES—DILIGENCE REQUIRED—WHAT IS NOT NEGLIGENCE *per se*.—DUTIES OF ADJOINING OWNERS.

The facts in the late case of The Ohio and Mississippi Railroad Company *vs.* Shanefelt, (47 Ill., 497), are fully and clearly stated in the following opinion by

WALKER, J.—This was an action of trespass on the case, brought by appellee, in the Marion Circuit Court, against the appellants. The declaration avers that appellee was the owner of one thousand rails, and twenty acres of meadow, situated on his farm, of the value of two hundred dollars; that appellants owned, and operated, a railroad running through the farm; that appellants owned the right of way fifty feet in width on each side of their track; and it was the duty of the appellants to keep the right of way free and clear from dry grass, weeds, &c., to prevent fire from communicating from their engines to such dry grass, and thence to the meadow; but that appellants negligently suffered their right of way, adjoining appellee's fence and meadow, to become foul with dry grass, and a locomotive of appellants whilst in charge of their servants, was run over their track, and fire was communicated therefrom, to the dry grass on their right of way, and from the same to the fence and meadow of appellee, and burned one thousand rails and twenty acres of meadow, appellee's property, and destroyed the same. To this declaration appellants filed a plea of not guilty.

It appeared from the evidence, on the trial, that appellants owned the road running through appellee's farm, and that there was dry grass and weeds on their right of way, and that fire was communicated from a passing engine, operated by the company, on the 28th of August, 1866, to the grass on their right of way, and ran thence into the fence and meadow of appellee; that eight hundred rails were destroyed, and sixteen acres of meadow burnt over; that there was dry grass in the meadow adjoining to the right of way. Appellants introduced evidence from which it appeared that the engine, from which the fire was communicated, was furnished and properly equipped with the most approved mechanical contrivances known to prevent the escape of fire, which was in good repair.

The case was submitted to the jury without instructions from the court and they found a verdict in favor of appellee, for $98.40 damages. Appellants entered a motion for a new trial, which was overruled by the court, and a judgment rendered on the verdict; to reverse which, the case is brought, by appeal, to this court, and the overruling of the motion for a new trial is assigned for error.

This record presents the question, whether a railroad company, having provided and used the best known contrivances to prevent the escape of fire from their engines, are, nevertheless, liable for not removing, or preventing the accumulation of, dry grass and weeds on their right of way, to prevent fire from communicating to adjoining lands. In other words, are such bodies bound to cultivate, mow, or otherwise prevent the growth of vegetation on their right of way? Is it *per se* negligence to permit dry grass and other vegetable matter, combustible in its nature, to remain on the side of their track? That such bodies, like individuals, are required, by the law, to use all reasonable precautions to prevent injury to others, and this rule applies, to the same extent, and no farther, to corporate bodies as it does to natural persons. It then follows, that appellants were bound to use the same degree of effort to prevent injury to others, whilst exercising their franchises and corporate privileges, as an individual is under to other persons.

Again it is the settled law of this court, that negligence is relative, and if both plaintiff and defendant are negligent a recovery cannot be had, unless the defendant has been guilty of gross negligence, amounting to willful misconduct. If a plaintiff is guilty of such negligence as necessarily contributes to the injury, it must appear that the defendant was guilty of a higher degree of negligence. When the plaintiff, by his own carelessness, has contributed to produce the injury, the defendant is not absolved from all further care and effort, on his part, to avoid the injury, but is still required to use all reasonable efforts to prevent its recurrence, and failing to do so he must be held liable. But, in the very nature of things, it must be, that where the plaintiff has, by his negligence increased the hazard, it becomes more difficult for the defendant to avoid the injury, and, unless it appears that he could have done so, he will not be held liable.

In the case of The Illinois Central R. R. *vs.* Mills, 42, Ill. 407, it was said, that it was not an indispensable conclusion of law, that a railway company is guilty of negligence, to be inferred from the fact that a fire ignited in dry weeds or grass upon their land; but that it is a question of fact to be determined by the jury, in view of the extent to which the weeds and grass have been permitted to accumulate on their right of way, the season of the year, and all other circumstances affecting the liability to fire. It was also held, that the company were bound to use the same diligence in removing such weeds, grass and other combustible material, from exposure to ignition by the locomotive, that a cautious and prudent man would use in reference to combustible matter upon his own premises, if exposed to the same hazard from fire as dry grass upon the side of the railway.

In that case, as in this, it was contended, that it was negligence *per se* to permit dry weeds and grass to accumulate on the right of way of a railway company; that its presence there created a legal presumption of negligence. But it was held to be error to so instruct the jury, and the judgment was reversed for that error. That such an accumulation may be evidence from which negligence may be inferred, is certainly true, under some circumstances; but we are aware of no legal principle which has declared it, of itself to be negligence. The statute has not required such bodies to remove such a growth nor has any decision held it to be a legal duty. Such bodies, like individuals, are bound to use reasonable precautions to prevent the escape of fire from their engines and premises, and so are individuals, and the one is under no greater obligation than the other; both are under the same obligation, resulting, alone, from the rules of the common law and, in each case, the question of negligence must depend upon the circumstances which surround it.

In this class of cases both parties are required to use care and diligence to avoid the loss; and it should appear that a plaintiff suing for a loss from the escape of fire from the engine or railway grounds, has not contributed to the injury by equal neglect of duty. If he has permitted his lands, adjoining the right of way of the road, to become foul and highly calculated to ignite, this would be evidence from which a jury would be warranted in the inference that he had been guilty of negligence, contributing to the injury. We are at a loss to perceive why a railroad company should be required, in the absence of statutory requirement, to mow their right of way, and the adjoining land owner be permitted to let his lands become foul, and liable to ignite; on the contrary, both should be required to use all reasonable efforts to prevent the escape and spread of fire. Where the corporators have adopted, and have in use and in proper repair, the best known mechanical appliances to prevent the escape of fire, and a land owner is equally negligent in permitting grass and weeds to accumulate on his adjoining land, as upon their right of way, no reason is perceived why it should not be held that the land owner has contributed to the loss.

If adjoining land owners were to permit such combustible materials to accumulate, and fire was, accidentally or unavoidably, to get into the field of one, and thence communicate to the other, would any one say that they had not contributed equally to the loss? It would not be contended that one was any more bound to remove the dry grass and weeds from his fields than the other. And, in such a case, each takes the hazards of accidents. Nor are we able to perceive the difference in that and the case at bar. Having provided the best known contrivances, and having employed them, and kept them in good order, the escape of fire is accidental, and where both parties have permitted their adjoining lands to accumulate combustible material, and fire escapes, whether on the right of way, or from the field of the owner, we can not see that the company should be held liable for negligence.

In this case the railroad employed the best known machinery to prevent the escape of fire, and the evidence shows that it was in good order at the time.

It also appears that there was combustible material on the land of appellee, adjoining the right of way of appellants. And, as each party was under obligation to use all reasonable precautions to prevent the injury we do not see that the negligence of appellants was so much greater than that of appellee as to render them liable. Had appellee taken reasonable precautions to guard against the injury, and the company had omitted any duty, such as neglecting to use spark arresters, or those employed had been in bad condition, then the case would have been different, but, in this case, we think the evidence fails to disclose a right of recovery by appellee and the judgment of the court below must be reversed.

Judgment reversed.

☞ The Delaware and Hudson Canal Company are about to lay down a third rail on the Susquehanna road and its connections to Scranton. The Iron is already purchased, and the work will commenced at once.

The Public Debt Statement.

The following is a recapitulation of the public debt statement June 30, 1871:

DEBT BEARING COIN INTEREST.	
Five per cent. bonds	$274,236,450 00
Six per cent. bonds	1,613,897,300 00
Total	$1,888,133,750 00
Accrued interest	44,278,318 63
DEBT BEARING INTEREST IN LAWFUL MONEY.	
Three per cent. certificates	$31,885,000 00
Navy Pension fund 3 per cent	14,000,000 00
Certificates at 4 per cent	678,000 00
Total	$46,563,000 00
Interest	429,853 78
Debt on which interest has ceased since maturity	$1,948,902 26
Interest	317,331 69

Balance of interest paid by United States	7,780,049 42	

Atlantic and Great Western Railway.

Official notice is given that the sales of the property of this Company under the Decrees of Foreclosure are advertised for 18th, 22nd, and 26th July, in New York, Pennsylvania and Ohio respectively. The payment of £3 10s. per cent., on the Certificates of Debentures of 1864, will be made on and after the 1st August, at the offices of Messrs. Bischoffsheim and Goldschmidt, on production of the representative certificates (Bischoffsheim's), to endorsed with the amount paid, and on signing a receipt for the payment.—*Herapath.*

☞ The directors of the New York Railway Company have a large number of surveyors employed along the proposed line of the railway to make surveys of the property to be taken.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart,	A. Oakey Hall,
William M. Tweed,	John Jacob Astor,
August Belmont,	Peter B. Sweeny,
Charles A. Lamont,	Levi P. Morton,
James F. D. Lanier,	Hugh Smith,
Franklin Osgood,	William T. Blodgett,
William Butler Duncan,	Richard O'Gorman,
John J. Bradley,	Jose F. Navarro,
Charles L. Tiffany,	Henry Smith,
William R. Travers,	Edward A. Wesley,
Joseph Seligman,	Manton Marble,
Richard B. Connolly,	John Taylor Johnston,
Henry Hilton.	

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,

Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

New York, June 16, 1871.

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water from the commencement of navigation to the 30th of June inclusive, during the years 1870 and 1871, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1870	87,100	4,503,500	457,500	82,400
1871	78,700	4,328,300	4,258,400	40,100
Dec	8,400	175,200	*4,800,900	42,300

* Increase.

By reducing the wheat to flour the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a decrease of 43,440 bbls. of flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 30th of June, in the years indicated:

	1869.	1870.	1871.
Canal opened—	May 6.	May 10.	April 24.
Flour, bbls.	78,800	87,100	78,700
Wheat, bushels	4,106,400	4,503,500	4,328,300
Corn, bushels	1,403,100	457,500	4,258,400
Barley, bushels	11,800	82,400	40,100
Oats, bushels	980,400	862,100	999,600
Rye, bushels	182,100	236,900	46,200
Malt, bushels	87,400	154,700	265,000
Feed, lbs.	1,285,600	3,477,400	1,679,500

☞ The Augusta and Hartwell Railroad Company proposes to construct a road from Augusta, Ga., to the Blue Ridge Road, in the northeast corner of the State—125 miles. Two routes have been surveyed, and the least costly will be adopted.

Movements of Produce.

Receipts of certain articles of domestic produce at the port of New York during the first six months of the year—

	1870.	1871.

☞ The Pittsburg *Chronicle* says that the product of Bessemer steel rails at the Pennsylvania Steel Company's Works, near Harrisburg, is going forward now at the rate of fourteen thousand tons per annum. This will construct about one hundred and forty miles of steel railway track a year.

Railroad Building in California.

The San Francisco *Bulletin* says that with the opening of summer there is renewed activity in railroad building in California. In the lower part of the state, besides the Southern Pacific, which is going ahead beyond Gilroy, work has been resumed on the San Joaquin Valley, already completed twenty miles beyond Stockton, and forty miles additional will be finished during the present season. The Copperopolis Railroad, built for twenty eight miles from Stockton, is also to be pushed forward. Here we have two railroads, on nearly parallel lines, now under way in the San Joanquin Valley, pushing for the southern extremity of the state; while on a line nearer the coast a third road, the Southern Pacific, is advancing in the same direction. The commencement of the Texas Pacific from San Diego may be reckoned as one of the certain events of the season. What may be done with the projects for one or two branch lines to intermediate towns on the coast remains to be seen.

North of San Francisco, a large force is at work grading for the Sonoma branch of the Vallejo, or California Pacific Railroad. A report is current that a contract has also been let for 145 miles of the Eastern Extension of this road, reaching from Davisville, a few miles southeast of Sacramento, to a point in the Upper Sacramento Valley, near Shasta. The report is probably premature. This section of the eastern extension will be entirely on the west bank of the Sacramento river. On the east bank the Oregon branch of the Central Pacific is already in operation one hundred and twenty-seven miles north of the state capital, and is to be extended to the Oregon border, about two hundred miles further.

Altogether, there will be considerable railroad building in California this season, widening the field for labor and extending the facilities of cheap and rapid communication. A much larger proportion of the agricultural region than ever before will be accessible by rail before another farming season opens.

St. Paul and Sioux City Railroad.

Capt. Gere, Engineer of the St. Paul and Sioux City Railroad, left St. James yesterday to make the final location of line between that point and Sioux City. The road has been graded 30 miles southwest of St James. Another stretch of the grading work, extending over a distance of 20 miles, is now being done, and will be completed at an early day. Of the 30 miles already graded this season, the bridging and culverts are completed for a distance of fifteen miles—the latter being in readiness for the iron. Three miles of track have been laid, without any other than good human will and muscle. The latter portion of the work of railroad building will progress more rapidly. There are nearly a thousand men at work on the extension west of St. James, and construction is going forward with wonderful rapidity. Not the least important information in regard to the progress of this great thoroughfare between the Missouri and Mississippi rivers, is the fact that the company have determined not to limit themselves to the 50 miles already under contract to be built this year, but will continue grading upon the line without cessation or interruption, and it will be finished through to Sioux City this year, and thus the company will be enabled to commence running trains through from St. Paul to Sioux City early in the month of July next.—*St. Paul Press.*

☞ The directors of the Winterport (Me.) Railroad Company have elected Theophilus H. Cushing of Winterport, President, in place of Charles E. Dole, resigned.

☞ Seven hundred men are now employed on the Holyoke and Westfield (Mass.) Railroad, two-thirds of the whole line is graded, and the whole will be finished ready for the track by October.

One Rail Railway.

A one-rail railway has been in successful operation between Raney and Montfermeil, near Paris, for two years. The locomotive for a one-rail road has four wheels, two being placed, one at the front and one at the rear of the engine, bearing on the rail. These give the direction, and are double flanged. The other pair of wheels are placed in a transverse plane passing on a line in front of the fire-box. They run on oak plank or macadamized road, as the case may be, and are the driving wheels. This sort of railway can be built in France for about $1,000 per mile. The locomotives weigh six and ten tons; the former runs fourteen miles an hour, drawing, besides its own weight, thirty-five tons up a grade of two feet in a hundred; the latter will draw fifty tons at a rate of eight miles an hour up the same grade; on a level it would draw one hundred and eighty tons. This system is the invention of M. Larmanjat, a French civil engineer, and many believe that it may be successfully introduced on turnpike roads with the grades and curves which the common highway generally has.

☞ The new bridge across the Mohawk river, a short distance below Schenectady, for the branch of the Saratoga Railroad, was completed last week. The total cost was $40,000.

☞ The Portland and Ogdensburg Railroad was completed to Conway Centre on the 1st of July.

No. 53 Exchange-Place, New York, June 30, 1871.

THE COPARTNERSHIP HERETOFORE existing between the subscribers, under the firm name of

DABNEY, MORGAN & CO.,

expires this day by its own limitation, and is dissolved.

Either partner will sign the name of the firm in liquidation.

The business heretofore conducted by us will be continued by

DESIRABLE HOME SECURITIES,

OFFICE OF

MEAD & CLARK,

BANKERS,

141 Broadway, NEW YORK.

The attention of Capitalists and Investors generally is invited to the

FIRST MORTGAGE 7 Per Cent. Gold Bonds

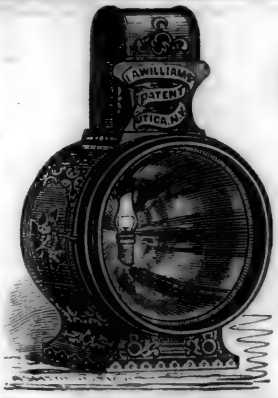
OF THE

WALKILL VALLEY RAILWAY CO.,

which we offer for sale at 90 and accrued interest in Currency.

The Railway is situated on the West side of the Hudson River, and is now running for 20 miles to New Paltz, and is under contract to be in working order to Kingston next fall.

The Bonds are a first-class investment, and we invite the closest investigation of them.



The Principal and Interest are PAYABLE IN GOLD.

The Coupons are paid semi-annually in this city on the first days of April and October, free of Government Tax, and the issue of Bonds is limited to $20,000 per mile of completed Road.

Any information concerning them will be given at our office.

ERASTUS F. MEAD and THOMAS CLARK, Jr.,

Financial Agents.

I. A. WILLIAMS',

UTICA HEAD LIGHT WORKS,

UTICA, NEW YORK.

Established 1851.

Williams' New Patent Coal Oil Head Light,

WITH BRAZED SAFETY BURNER,

Which will not take *fire* or *explode*, and is adapted to any make of Head Light Chimney. These Head Lights are either of Cylindrical or Square Form, and of first class workmanship. The Silver Plating on the Reflectors is warranted for fifteen years. They are acknowledged by all to be the best Head Light manufactured and are used on nearly all principal Railroads in the country.

I. A. WILLIAMS, Patentee.

RAILROAD IRON.

1,000 tons LLYNVI VALE.
1,000 " BAILEY BROS.
50 LBS. ERIE PATTERN. Now in yard and for sale by

DANAS & LITCHFIELD,
49tf **18 William street**

NEW YORK State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

Railroad Enterprises in Arkansas.

The favorable prospect of the proposed Southern Pacific Railroad has called attention to the railroads of the Southwest, which will connect this great line with the general railroad system of the country. Its effect has been particularly to encourage several enterprises in Arkansas, which had already been begun in anticipation of a final connection with the Pacific coast. A review of these enterprises shows at once that Arkansas, which before the war had hardly fifty miles of railroad in operation, will in a few years be one of the most important States in railroad affairs, and that Little Rock must be the centre of vast lines connecting not only the Atlantic and the Pacific States, but the northern and southern lines of trans-continental railway.

One important railroad in Arkansas has just been completed, from Hopefield, on the Mississippi river, opposite Memphis, to Little Rock; it is called the Memphis and Little Rock Railroad, and is already influencing the shipping business of the interior. Notwithstanding the embarrassments which have attended all railroad enterprises in that State until this time, the company is now in a condition, it seems, to make important improvements. The road is about one hundred and fifty miles long. For nearly one fourth of this distance the road-bed is so low that it is liable to be overflowed by the floods which so often swell the Mississippi and its tributaries. The new officers of the company are encouraged by the prospect of business to raise the grade of the road so as to place it beyond this danger.

One important line of road to connect with the Memphis and Little Rock is proposed, to start from a point east of Little Rock, running southwest to Marshall, Texas, to connect with the Southern Pacific Railroad. This will be the most direct central route to Southern California and the important territories of New Mexico and Arizona. It is understood that the Memphis and Louisville Railroad Company, who really control the Memphis and Little Rock road, propose to aid this new line to Texas, and thus its early completion seems assured.

A line of railroad is now building to connect the Memphis and Little Rock Railroad with the western border of the State at Fort Smith, a distance of one hundred and fifty miles. Trains are already running fifty miles west of Little Rock to Lewisburg, and about half the remainder of the distance is partially graded. At Fort Smith this road will connect with a road which is to be built from Kansas City southward through the Indian Territory. When completed, which will be at an early day, these roads will give a short outlet to the grain fields of Kansas, Western Missouri and Arkansas by way of the Mississippi river, which has long been needed.

Important interests are also combined to connect Little Rock with the Mississippi river at or near St. Louis. Twenty miles of the railway northward from Little Rock, is completed, and it is graded nearly eighty miles beyond. The St. Louis and Iron Mountain railroad is rapidly extending southward to meet this line, and it is reported that, as soon as the Southern Pacific railroad is completed, the Illinois Central and some other companies, having connecting roads will aid the construction of a road from a point on the Mississippi river, near Cairo, to connect with the Little Rock road, and thence to extend the line southwest to connect with the Southern Pacific at Dallas in Texas.

Other railroad enterprises proposed in Arkansas are the Little Rock, Pine Bluff and New Orleans railroad, which will run from Little Rock down the valley of the Arkansas river; the Kansas Central, connecting Little Rock with the Mississippi at Helena; the Mississippi, Onachita and Red River, connecting at the Mississippi river with the Little Rock and Pine Bluff road and running directly west 160 miles to intersect the Missouri and Arkansas Southern line at the Red River near Fulton, and several others of less importance. The State aids nearly all these enterprises. For the next few years apparently, the growth of the railroad system in Arkansas will be exceeded by that of very few States.

New York, West Shore and Chicago R. R.

The New York, West Shore and Chicago Railroad Company are about to commence the construction of a double track road from this city to Buffalo, a distance, by the route proposed, of 420 miles, which is twenty-four miles less than the distance by the Hudson River and New York Central Railroad. The road will follow the west shore of the Hudson River, close to the water's edge, until it reaches Catskill, when it will leave the river and go in an almost direct line to Schenectady on the Mohawk. Thence the route will lie along the west side of the Mohawk and Erie Canal to Utica, from which it will run in a direct line to Buffalo, leaving Rochester some distance to the north. At Buffalo the road will connect, through the International Bridge, now being built, with the Great Western and Grand Trunk Railways in Canada and through them, and more especially through the Great Western, with the Michigan Central. The Chief Engineer, in his report to the Directors, just published, proposes a double track road of four feet eight and a half inches gauge, with cuts and embankments twenty four feet wide at grade, the bridges to be of wrought iron, the rails of steel, weighing sixty pounds per yard, with ties of white oak and ballast of broken stone. The total cost of the 420 miles he estimated at $26,213,500, or a little over $62,000 a mile. This estimate, however, does not include the cost of station houses or rolling stock. The gentlemen engaged in this enterprise have already substantially completed arrangements in England by which the money necessary for the construction of the road is to be procured at seven per cent. per annum, and Mr. John Courtney, accompanied by the Hon. Wm. M. Evarts, counsel for the company, left for London on the 5th instant to consummate the negotiations.

Chicago, Rock Island and Pacific Railroad.

The gross receipts of this company for the years ending March 31, 1870 and 1871, were as follows:

	1870.	1871.
From passengers	$1,786,956 78	$1,713,123 16
" freight	3,587,002 20	4,023,271 60
" mails	50 931 52	83.190 63
" express	91,351 52	83,543 70
" rents	84,415 44	82,820 42
" inter't on loans, etc	394,608 79	42,337 78
	$5,995,266 20	$6,028,287 29
Expenses, viz:

Taxes on real estate	116,849 94	133.117 11
U. S. Gov. tax	44,452 85	28,847 09
	$3 456,791 24	$3,405,459 06
Net earnings	$2,538,474 96	$2,622,828 23
From which deduct—		
Rent of Peoria and Bureau Valley Railroad	$125,000 00	
Interest on bonds	617,751 75	
Dividends, includ'g tax	1,229,466 00	
		1,972,217 75
Leaving a balance of		$650,610 48
Add balance of income account March 31, 1870		2,068,767 41
Total, as in Balance Sheet		$2,719,377 89

Compared with the previous year the gross earnings of 1870-'71 show an increase of $33,029 09; with a decrease in operating expenses of $51,332 18—making the increase in net earnings, $84,253 27.

A further comparison of the foregoing figures will show that while the earnings from passenger traffic have fallen off $73,833 67, or 4.13 per cent, the receipts from freight have increased $486,269 40, or 12½ per cent—showing an actual increase in the earnings of the road, exclusive of the item of interest, etc., over the earnings of 1869-'70, of $385,292 10.

There has been expended during the year on account of construction and equipment as follows:

Land and land damages	$589,848 65
Equipment	349,369 04
Grading, including masonry	209,724 00
Superstructure and bridging second and side tracks	122.660 54
Quarrying stone and ballasting track	56,645 86
Station buildings, shops and fixtures	132.342 89
Water stations, Artesian wells, etc.	20,190 70
Fencing account	102.098 77
Engineering account	4,282 76
Chicago new shops, (including tools and machinery)	31,076 40
Railroad Bridge at Rock Isl'nd, (new)	37,158 41
3,011 tons steel rail, (excess in cost over Iron)	59 931 78
Cattle Guards, Sidewalks, Drains, etc.	2 859 71
Total	$1,718,184 51

The leading items of expenditure for repairs and renewals of track, have been as follows:

110,979 Ties	$59,898 64
2,872 Tons iron rails re-rolled	95,102 08
3,012 Tons steel rails	305,993 58
110 Tons steel-capped rails	6,088 60
250,520 lbs. railroad spike	11,365 88
263,504 lbs. fish bars and bolts	10.825 81
16,061 Joint fastenings for steel rails	16,628 46
18,876 Rails repaired in company's shops	13,865 24

During the year 30.46 miles of track were laid with re rolled rails; 33.24 with steel rails; and 1.13 with steel-capped rails—total, 64.83 miles. Total steel rails now in use 63.14 miles. The Superintendent in his report says that "the steel rails continue to give entire satisfaction. Those that have been the longest in service show but slight evidence of wear, and more fully demonstrate the advantage and economy of adopting steel for lines of heavy traffic." The average cost of steel rails in currency was $101 59 per ton. The President in his report says:

During the past year the affairs of the company have worked smoothly, business has been very fair, no serious accidents have occurred, reductions in operating expenses have been made, cost of transportation of freight and passengers reduced, corresponding reductions have been made in charges, to the gratification of producers and shippers along your lines of roads, the road-bed and equipments generally were never in better condition, and the Board of Directors think they may well congratulate you upon the success and future prospects of the company.

The new bridge being built by the Government and this company across the Mississippi is not yet completed. The delay is occassioned by no fault of this company, as the Government undertook to build across the main channel itself. That part of the work being done by the company, to approach the main bridge, is well advanced, and will easily be completed, before the Government will be ready to allow our trains to cross the main channel.

A suit has been commenced to reach certain assets of the Mississippi and Missouri Railroad Company in the hands of a Receiver to reimburse this company for one-half the amount paid to redeem the Railroad Bridge Company bonds, as stated in the last annual report.

The bonds of the Chicago and Rock Island Railroad Company, due July last, (being the only indebtedness of that company), have been paid, except $104,000, not yet presented for payment.

CHICAGO AND SOUTHWESTERN RAILWAY.

This company have made good progress during the last year in the construction of their line of road, and have 145 miles in operation, from Washington to Princeton. There are also 54 miles completed and in operation from the Missouri river to Cameron, on the Hannibal and St. Joseph Railroad. It is expected that the road will be completed, ready for use the whole distance from Washington to Leavenworth in the month of August next.

The part of the road east of Princeton is being operated by your company. No definite and final contract as to terms of operating has yet been made, but probably soon will be.

A large increase of equipment will be necessary when this line shall come into full operation, and in view thereof the company have contracted for twenty five locomotives, which are now in course of delivery, and it is proposed to build an increased number in the shops of the company, at Chicago, during the present year. It will also be necessary to procure a largely increased number of cars, and it is proposed to purchase whatever may be required that cannot be manufactured in the shops of the company.

LAND GRANT.

The Land Commissioner reports that the grant has been pretty much adjusted; that during the past year he has received from the Interior Department certificates for 160,373 10/100 acres, under the act of Congress of June, 1864, which is all that is claimed except some few scattering tracts now in course of investigation at Washington.

Sales have been made during the past year of 28,022 08/100 acres, for the sum of $213,575 39, an average of $7.63 per acre. In addition to this, there has been received something over $4,000 from compromise of the title to about 2,000 acres of "Rejected Swamp Selections," referred to in last Annual Report. The sales have been made almost exclusively to actual settlers, in small tracts, and farms are being opened up on nearly every tract. The market price of lands has increased during the past year in nearly all the counties where the company's lands are situated, and it is expected that the average price of lands sold during the coming year will be fully $8.50 per acre. Such steps as have been deemed advisable have been taken in the way of advertising, publication and distribution of maps and pamphlets, to induce immigartion along the line of the company's land, a large increase of population is expected in the counties west of Des Moines along the line of our road.

The Board of Directors have, during the past year, provided for a sinking fund to retire the mortgage bonds of the company, and the net proceeds of sales of these lands will be paid over from time to time to the Commissioners of the sinking fund and invested by the purchase of such bonds.

It has been determined to extend the Washington Branch of the company's road to Sigourney, in Keokuk county, a distance of about thirty miles. Surveys have been made and construction will soon begin.

The proposed construction of other roads has rendered the extension of this branch a necessity in order to retain the business properly belonging to this company.

The company have 145 locomotives—all coal burners but two. Eight locomotives have been added during the year by purchase, and four have been constructed in the company's shops; 59 have been repaired and generally overhauled; 65 have had tires turned once; 82 painted or varnished; 28 fitted with patent safety valve; 59 with glass bearings; and 3 with Westinghouse Air Brake; 386 pairs new truck and tender wheels and axles were used.

The company have also 10 sleeping and 53 day coaches; 8 railway postoffice, 23 baggage, mail and express, 60 caboose and drivers', 1858 box freight, 267 stock, 780 flat and coal, 2 pile driving, 1 wrecking and 1 pay cars. One passenger coach,

8 baggage and express cars and 51 freight cars have been built, to replace those worn out or destroyed. One coach has been upholstered; 28 coaches and baggage cars painted; 22 do., varnished; 22 do., fitted with Miller's Patent Platforms and Couplers, and 6 with Westinghouse Air Brake; 20 freight cars have had new trucks; 24 do., new roofs, and 111 have been repainted; 43 hand cars for track, and 23 rubble cars have been built, 588 car axles and 1593 car wheels were used in the repairs and renewal of cars.

The number of miles run by locomotives on passenger trains was 928,116; on freight trains, 2,267,614; on wood, construction and repair trains, 414,887—total 3,610,117, equivalent to 24,897 miles for each engine, at an average cost per mile run for repairs, oil, waste, fuel, and wages of engineers, firemen and wipers of 22 01 cents. Earnings per mile run by passenger trains, $2.02; by freight trains, $1.77. Expenses per mile run by all trains, $0.95.

The number of passengers transported during the year was 708,815, of which, 693,439 were first-class, 12,751 second-class and 2,625 third-class. Of the total number, 62,865 were through and 645,950 way; 337,972 going east, and 370,843 west. Number of passengers carried one mile, 44,609,479; equivalent to carrying each passenger 62.93 miles. Av. rate per passenger per mile, 3.84 cents.

The amount of freight transported during the year was 1,828,690,104 lbs.—an increase over the previous year of 115,845,695 lbs., or 57,677 tons. Freight carried one mile, 151,864,519 tons; equivalent to moving each ton 166 miles. Av. earnings per ton per mile, 2.64 cents.

The number of pounds of freight transported over the Mississippi Bridge during the year was 760,196,750. The number of loaded cars passed over the bridge was 51,433. Number of foot passengers, 110,965. The number of steamers, barges and rafts passing the draw was 2,589.

There are in use 21 miles of second track on Illinois division, viz: from Englewood to Washington Heights, 5¼ miles; from Seneca to Marseilles, 4¾ miles; from De Pue to Bureau, 4¼ miles; and from Port Byron Junction to Rock Island, 6¾ miles.

The company own—from Chicago to Missouri River (Main Line) 493 miles; from Milton to Washington (Washington Branch) 50½ miles—total, 543½ miles; and lease Peoria and Bureau Valley Railroad, 46½ miles—making the total number of miles operated, 590. To which add 108 miles of side and 21 miles of second track—making of main line and sidings, 719 miles.

Gen'l Superintendent.—HUGH RIDDLE.

Ass't Gen'l Superintendent.—P. A. HALL.

The Viaduct Railway.

An important change in the location of the proposed down-town depot of the Viaduct Railway has been determined on by the Directors, who have concluded that the area of the Tryon-row block is insufficient for the purposes of the company, and not altogether so convenient as might be wished. It is, therefore, now proposed to take a slice off the eastern side of the City Hall Park, running from Chambers st. to the road in front of the City Hall, and going back as far as the Tax-Office. This will give a space 500 feet long and 130 feet deep: and, if needful, the depth can be increased to 200 feet after passing the Tax Office. The new arrangement will compel the removal of the engine house at the Chambers-st. corner, the Park Hospital, and the Hall of Records. The entire area will be covered with a magnificent open arcade, probably terminating at the south-east corner with a handsome tower. Over the arcade will be the depot at one end, and an open plaza at the other. To carry out this plan a slight deviation in the route from Pearl-st. becomes necessary. As now proposed it will not touch a single house in Chambers-st. or the Tyron row block. The route, on leaving Pearl-st., will pass through the block bounded by City Hall-place, Pearl st., Park-st., and Duane-st., and entirely composed of tenement houses, and very small places of business; thence across Duane-st., taking the block bounded by City Hall-place, Reade, Centre, and Duane-sts., and then across Reade-st., taking the triangular block which has its base on Reade-st. and its apex at the junction of Chambers and Centre sts. A single arch, of elegant structure, will span Centre-st. from the north-east to the south-west corner of Chambers-st., and communicate immediately with the top of the arcade on which the depot will stand.

This alteration in the plan will not at all affect the appearance or usefulness of the Park, for the greater part of the space which it is proposed to take is covered with the unsightly buildings already mentioned. The Hall of Records is a massive and ugly building, which was erected long before the Revolution as a county jail for debtors, and is consequently one of the oldest structures in the city. About 50 years ago, it was changed from a jail into department offices, and up to a few years since was occupied by the Registrar, the Controller, the Surrogate, and the Street Commissioner. The last two officials left a few years ago, and the Controller last year, as the increasing accumulation of the Registrar's Office compelled his using the entire building.

Inquiries were recently made of the President of the Viaduct Railway Company as to the rumors which had been circulating for several days in reference to other quick transit lines. Judge Hilton laughed at the idea of buying them up, and declared that such a policy had never been contemplated by the Directors, and should never be carried out so long as he remained President of the Company. "We have no money for any such purpose," he said; "our money has been raised to build a railroad with, and we mean to build a railroad with it, and nothing else."

Illinois Central Railroad.

The statement of this Company for the month of June, 1871, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	8,893.70 for	$61,298 60
Acres Int. Fund Lands sold	80.00	836 00
Acres Free Lands sold	99.43 for	2,494 62
Total sales during month of June, 1871	9,073.13 for	$64,629 22
To which add Town Lot Sales		1,719 90
Total of all	9,073.13 for	$66,349 12
Cash collected in June, 1871		$141,622 37

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 402 Miles.	Total. 1109 Miles.
Freight	$418,846 00	$72,693 00	$491,039 00
Passengers	122,313 53	40,261 65	162,575 18

Other sources	74,000 00	2 940 67	76,940 67
Tot. June, '71.	$621,034 53	$118,954 65	$739,989 18
Tot. act'l earn'gs, June, '70	$578,379 65	$134,266 98	$712,646 63

Western Maryland Railroad.

The grading of the new route for the Western Maryland Railroad between Baltimore and Owing's Mills is rapidly going on under Messrs. James McGucken & Co., contractors, who have about two hundred men employed at different points on the route, which number will be increased as the work progresses. This route will be used by the Western Maryland Road in place of the track of the Northern Central Railway, which they now use to Owing's Mills, and will lessen the distance about four miles. The whole extent of the work is eight miles, and the contractors contemplate having it ready for use during the present year. The terminus of the road at this point will be the Union Depot, to be constructed on Charles street. The work has been delayed to a considerable extent by the great number of cases of condemnation required to secure the right of way, and a number are still unadjudicated. The contractors will, however, push on the work as rapidly as possible, and employ additional force as the way is made clear for them.

☞ At a meeting of the stockholders of the Eastern Shore railroad company at Princess Anne, Md., on the 4th ult., the Acting Board was re-elected without opposition, and by them Dr. Geo. R. Dennis was elected President, vice Hon. John W. Crisfield, who we believe has held the responsible position since the organization of the company. We are pleased to state that the road appears now to be in a paying condition.

The New York (Viaduct) Railway.

Chap. 300.

AN ACT to incorporate The New York Railway Company for the purpose of providing rapid transit through the city and county of New York and Westchester county, and to provide for the construction and operation of railways therefor.

Passed April 5, 1871; three fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Peter B. Sweeny, William M. Tweed, Jr., Hugh Smith, Richard B. Connolly, Forbes Holland, Shephard F. Knapp, John J. Serrell, Leopold Eidlitz, James J. Burnett, William R. Travers, George A. Osgood, Jose F. Navarro, William R. Dwyer, Peter Cooper, Charles Banks, Alexander T. Stewart, Israel Tappen, James G. Bennett, Jr., August Belmont, Samuel T. Francis, Simeon B. Chittenden, Manton Marble, Luther Farwell, Wilson G. Hunt, Horace Greeley, John N. Knapp, John T. Agnew, Charles A. Dana, Sidney A. Stevens, Henry Hilton, Robert L. Stuart, Morgan A. Dayton, Jr., John McB. Davidson, John Cox, Cornelius Corson, Aaron J. Vanderpoel, Richard A. Storrs, John B. Trevor, Marc Eidlitz, Alanson S. Page, William A. Booth, John Taylor Johnston, Sturtevant J. Moore, John Jacob Astor, Levi P. Morton, Stephen North, Oswald Ottendorfer, Addison G. Rice, Richard Schell, William B. Duncan, John W. Downer, William R. Martin, James Turner, Charles A. Donalds, Walter Shanley, Samuel F. Barger, James H. Coleman, Edward B. Wesley, Terence Farley, Henry Smith, Charles M. Morgan, William Turnbull, George Bolton Alley, George M. Van Nort, William Cook, Nelson J. Waterbury, Edward K. Willard, Henry A. Smith, James M. Sweeny, James M. McGregor, Edward H. Tracy, Gustave Herter, William T. Blodgett, Bernard Kelley, Walter Roche, Henry N. Smith, Walter Leonard, William Lalor, Edward J. Shandley, Henry Chamberlin, Philip H. Jones, Jr., Philo Remington, William E. King, Charles E. Loew, Charles H. Horton, John F. Moffett, Henry C. Jones, William G. Faxon, William H. Rix, James B. Swain, Charles S. Brown, Alfred H. Abby, John T. Conover, are hereby created a body corporate and politic by the name of "The New York Railway Company." The said corporation shall continue for one hundred years from the passage of this act, and the capital stock of said corporation shall be twenty-five millions of dollars, divided into two hundred and fifty thousand shares of one hundred dollars each, with power to increase such stock from time to time as shall be required for the purposes herein authorized and as hereinafter provided.

§ 2. The business and affairs of said corporation shall be managed by a board of not less than ten directors, to be elected within three months after the passage of this act by the above-named corporators or their assigns, the ten first named of whom, or a majority of them, shall determine the day when and the place where such election shall be held and the number of directors to be chosen, and shall give due notice thereof to each of the said corporators hereinbefore named, which notice shall be delivered at or mailed to their respective places of abode or business at least ten days prior to the time of such election, and such of said corporators as shall attend such election in person or be there represented by proxy shall appoint two tellers to conduct such election and declare the result, and the directors then chosen shall divide by lot into five classes of an equal number of directors as near as may be, who shall respectively hold office for one, two, three, four, and five years, and until others are chosen in their places as herein provided; and an election of the stockholders of said corporation shall be held annually thereafter, upon notice of ten days being given in at least three daily papers published in the city of New York, and the persons owning the majority of the stock then present or represented by proxy of such election shall elect the required number of directors in place of those going out of office. All vacancies occurring in the board of directors by resignation or death shall be filled by the remaining members of said board for the remainder of the respective terms.

§ 3. The corporation hereby created shall possess all the powers and privileges and be subject to all the provisions of an act entitled "An act to authorize the formation of railroad corporations, and to regulate the same," passed April second, eighteen hundred and fifty, and the several acts amendatory thereof and additional thereto, so far as applicable, and except so far as the provisions of said act are modified by or are inconsistent with the provisions of this act, and the said corporation is hereby authorized to make, construct, and maintain viaducts and other road-beds, to be built by said corporation upon the land acquired under this act, and upon and across all streets, roads, avenues, public places, rivers, and streams as required, and to construct, operate and use thereon railways with the necessary sidings, and to convey passengers, freight, and property, in cars propelled by steam or other power, over and across certain streets, roads, avenues, squares, and grounds in the city of New York, as hereinafter provided, and also to extend their said roads, by viaduct or otherwise, into the county of Westchester, as hereinafter provided.

§ 4. The viaducts and railways hereby authorized to be constructed and enjoyed by said corporation in the city of New York shall follow as near as shall be found practicable a route commencing at or near to Chambers street between Broadway and Chatham street, and running from thence northwardly through the blocks and across streets between Broadway and Chatham street and the Bowery to or near to Houston street or Bleecker street, and from thence with one branch of said viaduct and railway diverging easterly through the blocks and across the streets to and across the Bowery in the vicinity of Bond street or Great Jones street, and from thence passing north-easterly through the blocks and across the streets, roads, or avenues between the Third avenue and the East river to the Harlem river, and also with another branch of said viaduct and railway diverging westerly from the first-mentioned line from near Houston street or Bleecker street and running through the blocks and across the streets to and across Broadway near to Houston street or Bleecker street; thence running westerly through the blocks and across the streets to and across Carmine street or the Sixth avenue, and from thence through the blocks and across the streets, roads, or avenues west of the Sixth avenue and west of Central Park to the Harlem river or Spuyten Duyvil creek near to Kingsbridge. The said corporation may make on the routes aforesaid the necessary depots, connections, turnouts, switches, and other conveniences for the proper working of said railways.

§ 5. For the purpose of making, constructing, and operating the said viaducts and railways, said corporation is hereby authorized and empowered to enter upon and cross the several streets, roads, avenues, squares, public places, and lands herein provided for, and into and upon the soil of the same to construct and maintain said viaducts and railways along the routes and to the points or places herein specified and contemplated, such viaducts and railways to be constructed in the most thorough manner and upon the most approved plans and of sufficient dimensions for the purposes of said viaducts and railways, and in such manner as will, when completed, tend to insure the unimpeded traffic through said streets, avenues, roads, or public places as enjoyed by the public before such construction, except as otherwise required for the purposes of this act, and also excepting the necessary foundations, piers, columns, or other structures which may be required to insure the safety of construction and maintenance of said viaducts and railways, and except also that during the progress of construction it shall be lawful to make such openings and excavations in said streets, roads, avenues, and public places over which said viaducts and railways shall be constructed as shall be necessary from time to time, and in all cases the surface and pavements of said streets, roads, avenues, and public places shall be restored around such foundations, piers, or columns to the condition in which they were before such excavations were made, as near as possible, and if practicable one-half of the width of said streets, roads, or avenues shall be always kept open for the public travel; but where temporary obstructions for the full width of the streets, roads, or avenues shall be made, they shall not be oftener at any one time nor more than one in each quarter mile of said routes, nor shall they be so obstructed for a longer period than sixty days in any one place, except by the consent in writing of the commissioner of public works of said city.

§ 6. The said corporation shall have the right to acquire the title to and hold such real estate or interest therein as may be necessary to enable it to construct and operate said viaducts and railways as herein provided, and in case it cannot agree with the owner or owners of such real estate or interest for the purchase or use thereof it may acquire the title to the same in the manner specified in the acts hereinbefore referred to, except that in any of the proceeding for any of the purposes authorized by this section it shall not be necessary that the petition of the court shall make any allegation of or reference to any act of incorporation, capital stock, surveys, maps, or the filing of any certificate of location.

§ 7. Whenever the routes of said viaducts and railways shall intersect with or cross above any horse railway tracks now occupying the surface of any streets, roads, or avenues, such tracks shall not be unduly obstructed, and temporary bridges or structures shall be constructed in such manner as not to interfere with the practical operation or working of such horse railway tracks, and upon the completion of said viaducts and such portion of the route thereof where such changes of the horse railway tracks may be made the same shall be restored as near as practicable to the condition in which they were previous to the construction of said viaducts, and all such bridges or structures and restorations of tracks shall be made at the proper costs and charges of this corporation.

§ 8. Said viaducts and railways shall be exclusively for the uses and purposes of said railway company, and it shall not be lawful for any person or persons, other than a public officer in the execution of his duty as such, with his agents and assistants, to enter or pass through the same or any portion thereof on foot or in any other way than in the proper cars provided for that purpose without the consent of said corporation, under penalty of fifty dollars for each offense, to be recovered by this corporation. And the mayor, alderman, and commonalty and the officers of the corporation of the city of New York are hereby prohibited from giving any permission or authority to any other person, officer, or corporation to do any of the acts or things hereby authorized, or to hinder, delay, or embarrass the construction or operation of said viaducts and railways, and other things as are herein authorized.

§ 9. The said corporation shall be and is hereby authorized to collect and receive not exceeding the sum of fifteen cents for any distance between Chambers street and the Harlem river near the Third avenue, and twenty cents for any distance between Chambers street and Kingsbridge, for every seat hired or taken in all cars (except in the hereinafter mentioned special cars), such seats not to be less than twenty inches in width, but the said corporation shall not be compelled to permit passengers to stand in such cars or to allow more than one passenger to occupy any one seat. All trains starting from each terminus between the hours of six and eight o'clock in the morning and six and eight o'clock in the evening shall have attached to the same at least two special cars, each capable of seating at least forty-eight passengers, for the accommodation of citizens and others desiring to travel to and from their work, and no fare shall be charged in such special cars exceeding five cents for any distance between the termini; and said corporation shall be compelled also to admit to all such special

cars any passenger who has paid his fare, even after all seats are filled, whenever necessary for the convenience of the public.

§ 10. The said corporation shall have subscriptions to its stock to the amount of five million dollars before the construction of said viaducts and railways is commenced, and one year from the passage of this act within which to commence the same, and three years within which to complete said viaduct and railway to Forty-second street, and five years to complete the same to the Harlem river, necessary and unavoidable delays from the pendency of legal proceedings against said corporation excepted.

§ 11. The directors aforesaid are required to open books for subscription to the bonds or stock of said corporation, and shall give at least ten days' notice, to be published in at least four daily newspapers printed and published in said city, of the place or places where said books shall be opened, that an opportunity shall be given those who desire to subscribe for said stock; and the said books shall be kept open for at least thirty days; and in the event of a larger amount being subscribed than the capital stock of said corporation, then such subscribers shall be entitled to a pro rata number of shares of said stock as near as may be, and in proportion to the amount so subscribed; but each subscriber shall at the time of subscribing pay to the treasurer of said corporation ten per cent. of the par value of each share so subscribed.

§ 12. Before any maps, plans, or profiles showing the route for the railways hereby authorized to be constructed shall be filed in the manner before mentioned, and before any proceedings shall be taken by the corporation hereby created to acquire title to the lands and premises required therefor, it shall be the duty of said corporation to submit full and proper maps, plans, and profiles showing the location, width, and extent of the lands proposed to be acquired and taken for the purposes of said railways or of parts of the same, and also plans showing the proposed construction of said railways, unto a board of commissioners to be known as the "New York railway commissioners," consisting and constituted of the governor of the state of New York, the mayor of the city of New York, the commissioner of public works of the said city; and the approval in writing of said commissioners or of a majority of them, of the route and plans as aforesaid, shall be a condition precedent to any proceedings by said corporation for acquiring title to any lands or premises required for such railway; and if at any time hereafter the corporation hereby created shall desire to build additional lines of railways or branches from the railway hereby authorized in any part of said city or into and in the county of Westchester by viaducts or otherwise, it shall be lawful for them to do so, and for that purpose to construct the necessary bridge or bridges across any river or stream, and to create and issue such additional amount of stock as shall be necessary therefor, and to construct, operate, and maintain the same, and charge and collect fares for transit on and over the same at not exceeding proportionably the rates hereinbefore mentioned; and all the provisions of this act in relation to the viaduct or other railways hereinbefore mentioned shall be deemed and taken to be applicable so far as the same may be applied to the additional lines or railway or branches provided for in this section, the same as if their routes and location had been included and mentioned in section four of this act; but no part or section of the route of the said railway shall be constructed without the approval of the said railway commissioners or a majority of them; and nothing herein contained shall be deemed or taken to authorize the laying of rails for the purposes of said railway upon the surface of any of the streets or avenues of said city.

§ 13. For the proper equalization of the interests of shareholders who may subscribe and pay in moneys at different times, and for the equitable adjustment of profits upon stock and bonds subscribed and paid to advance the interests of said viaduct railways or branches respectively, the directors of the corporation hereby created may cause to be kept separate sets of books of account for each of said railways or branches, and receive subscriptions separately for each of said railways or branches, and also issue stocks, bonds, scrip or other evidences of indebtedness and ownership, by or in each or either of said railways or branches separately; and said directors shall also have the power to issue to shareholders from time to time, as they may pay instalments on the stock subscribed by them, scrip for interest on such payments, payable out of the earnings of said railways or branches respectively, and it shall be lawful for said directors to issue and sell bonds denominated "income bonds" secured by and payable, with the interest thereon, from the income of the said railways or branches respectively.

§ 14. The mayor, aldermen, and commonalty of the city of New York are hereby authorized and directed through the comptroller of said city to subscribe for five millions of dollars of the stock of the said company, provided that no subscription for said stock shall be made without the approval of the commissioners of the sinking fund of said city, and then only for such amounts within the said sum as the said commissioners shall authorize. There shall be issued by the comptroller of said city in the name of the mayor, aldermen, and commonalty of the city of New York the aforesaid amount of five millions of dollars in stock of the city of New York, which shall be known as the "New York railway fund stock." The certificates representing said stock shall be signed by said comptroller and countersigned by the mayor of the city of New York, and be sealed with the common seal of the city of New York, attested by the clerk of the common council thereof. Said stock shall bear interest at a rate not exceeding seven per cent. per annum, and the principal thereof shall be payable in annual instalments, but no instalment shall be payable within thirty years from the date of its issue. The faith of the said mayor, aldermen, and commonalty is hereby pledged for its payment and the annual interest thereon. To provide the amount authorized by this section before the said stock shall be issued, the comptroller of said city is authorized to issue revenue bonds from time to time in anticipation of the sale of said stock, payable at such times as he shall determine, and from the proceeds of said stock redeem and cancel such revenue bonds. The board of supervisors of the county of New York are hereby authorized and directed to order and cause to be raised by tax upon the estates by law subject to taxation in the city and county of New York in each and every year the amount required to pay the annual interest on the loans authorized by this section, and also to raise in each year, when said stock shall become due and payable, the amount required for that purpose. The comptroller is hereby authorized and directed to pay the said railway company the amount herein authorized to be subscribed by the said mayor, aldermen, and commonalty from time to time as may be called for by said railroad company, and receive the certigcates of stock of said company for the amount so paid. The interest of the mayor, aldermen, and commonalty in said stock shall be represented by the comptroller of said city. On the completion of either of the branches or lines of said railway to the line of Westchester county, the board of supervisors of Westchester county may authorize the issue of the bonds of such county, redeemable in not less than thirty years from the date of their issue, for the purpose of aiding in the construction and extension of said railway through such county, to such an amount as the said board of supervisors may deem proper; and the board of supervisors of any county whose bonds are authorized to be issued for such purpose shall annually raise by tax on the estates, real and personal, of such county subject to taxation, an amount sufficient to pay the interest thereon, and at their maturity to redeem the same.

§ 15. This act shall take effect immediately.

Chap. 808.

AN ACT supplementary to chapter three hundred and seventy one, entitled "An act to incorporate The New York Railway Company, for the purpose of providing rapid transit through the city and county of New York and Westchester county, and to provide for the construction and operation of railways therefor," and to amend the same.

Passed April 28, 1871; three fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. It shall not be lawful for the mayor, aldermen, and commonalty of the city of New York to make any subscription whatever to the capital stock of the company incorporated by chapter three hundred of the laws of the year eighteen hundred and seventy-one, entitled "An act to incorporate the New York railway company for the purpose of providing rapid transit through the city and county of New York and Westchester county, and to provide for the construction and operation of railways therefor," until other parties shall have actually subscribed for and taken at least one million of dollars of the stock of the said company, and paid thereon to the treasurer of the company, in money, at least ten per centum of the par value thereof.

§ 2. The property of the company incorporated by the said act shall be exempt from lien and sale for taxes and assessments during the time allowed by said act for the final completion of the viaducts and railways thereby authorized; but if, at the expiration of that time, any of the real estate of the company shall not be in actual use for the purposes of a railway, taxes and assessments thereon shall be collected for the whole period of its ownership by the company, at the same rate or rates as the other taxes and assessments levied or imposed during the same period, and at a valuation proportionate to that of the adjoining property.

§ 3. The said company shall have full power to establish and fix the point at which the branches of its viaduct and railway shall diverge, as provided in the fourth section of the said act, but the said point shall not be north of Eighth street.

§ 4. The fares which the said company are authorized to collect and receive by the ninth section of the said act shall be full fares, but children under twelve years of age shall be carried, except in the special cars mentioned in said section, for one half of the fare charged by the company.

§ 5. In no proceedings authorized by said act to acquire title to any lands or premises shall any greater or other notice to parties owning or interested in the lands or premises be necessary or required than is required to be given in the case of applications by the mayor, aldermen, and commonalty of the city of New York to acquire title to lands for use as public streets; except that such notice shall be not less than ten nor more than twenty days, and shall be given by the publication thereof in at least four daily newspapers published in the city of New York for a longer period than ten days. The use which the said company is authorized by law to make of any lands, streets, or places shall be taken and held to be a public use.

§ 6. The said company shall have power to build a branch railway from any of its tracks or railways across any lands, streets, or places to connect with any other railroad authorized by law, and to agree with the owners of such railroad for the running of trains partly on one railroad and partly on the other.

§ 7. This act shall take effect immediately.

☞ The Wyoming *Tribune* of May 27 says that near Aspen, on the Union Pacific Railroad, there has been discovered some of the richest silver leads yet known. Claims have been taken, and a company is now being formed, known as the Aspen Mining Company and Smelting Works, with a capital stock of $75,000.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 15, 1871.

Stock Exchange and Money Market.

Money has been in liberal supply all through the week, and though the demand for speculative and mercantile purposes, particularly the latter, has been somewhat brisker, rates have been comparatively steady at from 3@5 mainly 3@4 per cent., on call and at 4@7, chiefly 4½@6 per cent. per annum on very choice to good business credits. The loan and discount movement through the week has been a very uniform one, with no perceptible pressure for accommodation on any day. The wants of all responsible borrowers have been readily provided for, on the basis of the quoted figures. The chief increase of activity has been in the discount line, which however has had but little effect on the reserves of the city banks. The lawful money reserve of the banks shows a decrease, while the Sub-Treasury office reports a handsome increase in its currency balance, with a moderate gain in its specie hoard. The city banks, last week, reported a gain of $2,199,323 of specie, a loss of $1,372,003 of legal tender notes, and an increase of $2,998,860 of deposits. They increased their loan and discount averages $2,840,618 and reduced their circulation $82,585. The city bank exchanges, last week, averaged $71,469,835; and thus far, this week, 87 millions daily. The banks now hold $18,999,748 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $212,789 of specie and of $1,404,960 of currency, as the result of the week's business. The receipts of the office were $6,339,212 in coin, and $6,115,399 in currency; payments, $6,126,423 in coin, and $4,710,440 in currency. The office received $2,178,114 in coin or its equivalent, from customs; and disbursed $3,702,576 of coin interest.

The specie reserve of the city banks according to the latest return is $19,445,774, against $35,734,434 same time last year. The city bank deposits are now $251,307,553 against $219,725,468 week ending July 9, 1870. The legal tender reserve amounts to $69,976,825 against $53,848,970 same time last year. The circulation now stands at $30,411,872, against $33,100 357 same time last year. The loans are now $299,078,577, against $277,783,427 at this date last year.

The U. S. Sub-Treasurer retired, last week, $2,054,114 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,916,108 in currency, and $56,527,335 in coin against a balance a week previous of $2,707,842 currency, and $55,436,122 coin.

Government revenues have been yielding quite liberally, since our last. The excises yielded last week over four millions. The customs at the port of New York, last week were $2,178,114; and at the outports, equal to about $725,000 more, all in coin, or coin certificates.

The Gold speculation has been decidedly less confident since our last, with a less firm foreign exchange market, and a lighter export movement. The customs call has been on a moderate scale. The supply of Gold, available for prompt delivery, has been more liberal. The range of the price, during the week, has been from 112¼@113⅛, and the closing quotation on Wednesday was 112½ against 113½ the preceding Wednesday. The outflow, last week, was $1,710,666; and on Tuesday of this week, $514,500; and on Wednesday, $468,000. The Gold Exchange Bank clearances have been as follows: July 6, $54,746,000; July 7, $47,605 000; July 8, $56,954,000; July 10, $42,189,000; July 11, $51,610,000; July 12, $41,189,000.

The coin balance of the Treasury Department on Tuesday morning was $89,097,000. The outstanding gold certificates amounted to $21,794,000.

The customs at this port on Wednesday were $420,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 10, 1871, $53,551,401, against $53,876,290 same time in 1870.

The export drain was $1,710,666 last week, against $997,886, same week preceding year. The shipments since January 1 1871, have been $46,441,084, against $18,185,566 same time in 1870.

The customs demand for Gold last week, averaged $435 623 a day; thus far, this week, it has averaged $440,000 a day, or equal to a weekly aggregate of $2,640,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $33,973 and since Jan. 1,

1871, have been $3,219,930 against $7,232,251 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $79,096,845 against $71,920,798 same time in 1870.

Foreign Exchange has been in better supply and quoted a fraction cheaper, with a very moderate inquiry noted at the reduced figures. Bankers' sixty day bills on London closed on Wednesday at 110¼@110⅜; sight bills on London, 110¾@111⅞.

The produce exports from this port, week ending with July 10, were to the currency value of $4,908,228.

Government securities have been in less demand, and prices have been quoted lower, influenced, mainly, by the decline in Gold. The offerings of all issues, however, have been very moderate at the reduced figures. The latest dealings showed rather more steadiness.

Under the official programme of the Treasury Department for July, Government will sell Gold during the month, as follows: Thursday, July 13, one million; Thursday, July 20, one million; Thursday, July 27, one million. And buy in, Five Twenty Bonds as follows: Wednesday, July 12, one million; Wednesday, July 19, one million; Wednesday, July 26, one million.

On Wednesday, Government bought in a million of Five-Twenties at 112 20@112 27, ex-interest, including $989,950 from Messrs. Jay Cooke & Co., at 122 27. The amount of bonds offered was $3,161,900.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114⅞@115; U. S. Five-Twenties of 1862, 114⅛@113¼; U. S. Five-Twenties of 1864 at 113⅛@113⅜; U. S. Five-Twenties of 1865, 113⅞@114⅛; U. S. Five-Twenties of 1865 consolidated, 112⅜@112½; U. S. Five Twenties of 1867, 112⅜@112½; U. S. Five-Twenties of 1868, 112½@112⅝; U. S. Ten-forties at 112¼@112½; U. S. Six per cent. currency bonds, 114@114⅛.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 28.	July 5.	July 12.
Consols	92 3/16	92	93¾
U.S. 5-20's of 1862	91	91⅞	92⅜
U. S. 5-20s, 1865	90⅝	91⅛	91¾
" 1867	90 3/16	90⅜	90¾
" 10-40s	88¾	89¾	90½
Erie	24½	23½	——

State bonds have been in fair demand at pretty well supported prices.

Railway bonds have been moderately active and generally firm in price. Central Pacific Sixes closed at 99⅜@99⅝, ex the July coupon of three per cent. in coin. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling quite freely at 92 per cent. and accrued interest. Union Pacific Sixes closed at 89½@89¾.

Business in Railway and miscellaneous share property has been comparatively slow and spiritless, particularly on speculative account, and prices have been depressed and irregular though closing more firmly. President John F. Tracy, of the Chicago, Rock Island and Pacific Railroad Company on Monday notified the Stock Exchange that twenty thousand new shares of that stock will be issued thirty days hence, to facilitate the completion and better equipping of the Chicago and Southwestern Railroad, and to extend the Washington branch of the company's road to the town of Sigourney, Iowa—some thirty miles; as well as for other purposes.

General business has shown but a moderate degree of animation, with some irregularity in values. Breadstuffs, Cotton, and Petroleum closed less firmly. Provisions, steadier; Naval Stores, stronger. Middling upland cotton closed on Wednesday at 20⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,906,071 bales, against 3,801,474 bales same time last year; exports 3,081,209 bales, against 2,122,739 bales same time last year; stock at the ports at latest dates, 198,851 bales, against 146,399 bales same date 1870.

At the Live Stock Markets, Beeves continue in very moderate demand at from 8@13 cts; Veal Calves, at 4@10½ cts; Sheep at 4@6¾ cts; Lambs at 8@10½ cts; Swine, 5¼@5⅜ cts per lb., all live weight. The week's receipts were 7,953 Beeves, 3,311 Veal Calves, 26,822 Sheep and Lambs; and 26,184 Swine.

Foreign goods have been in limited request as a rule, at about former prices. The week's imports of foreign goods reached $6,696,248, including $1,485,468 of dry goods.

Ocean freights continue generally quiet with less firmness in rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Railway Enterprise in Costa Rica.

The Government of Costa Rica has made a contract with Henry Meiggs, the railway king of South America, for the construction of a railway from San Jose, the capital, to the port of Limon, on the Atlantic. The price to be paid is seven millions of dollars. The projected road, says a Panama letter, is very popular with the people, and will be the means of rapidly advancing the country by opening up its immense area of rich lands on the Atlantic slope, which to the present have remained in almost their virgin state, and induce immigration, which above all other wants is most required in Costa Rica, her present population, 120,000, not being sufficient to gather the rich coffee crop of the republic. The Government has just obtained a loan of £500,000 sterling, in Europe, on the most favorable terms, with which to commence the road. It is to be completed in three years.

Narrow Gauge and York.

Many of our readers who first glance at the unique heading of this article, will wonder what it all means. All who are at all conversant with the great questions of the day, must see that not the least among them is that of the Narrow Gauge railroad interest in this country, as a matter of economy, as well as utility, under circumstances most deleterious to roads of a broad gauge.

These roads have been in successful operation for a number of years in England, Scotland and Wales; but their introduction to America was reserved for the present year, when through the superior sagacity, and general business qualifications of Gen. W. Q. Palmer, formerly of the Pennsylvania railroad, and then of the Kansas Pacific, the Denver and Rio Grande railroad (3 ft. gauge) was projected and is rapidly approaching completion. When finished, this road will reach its iron arm from Denver in Colorado, over mountain into valley, through the canyon, and down where the shining ores woo the toil and sweat of man, till its touch shall bid the land of Montezuma lay down the sword for the plow, and the spear for the pruning hook, and through this channel aid us in dispensing peace and plenty through the land. It is often asked, why not build at once a road that will carry more, last longer, and in every respect be like those now in general use? Perhaps the most comprehensive answer to this query will be manifest to our readers in the quaint remark of a friend, who, in speaking of the advantages of the narrow over the broad gauge roads, suggested that if he couldn't afford to wear broad cloth breeches he'd wear linsey woolsey, for breeches he would have. This remark of our friend may not in itself be a knock down argument for narrow gauge roads, but when we remember that strength and cheapness are combined with utility, we can see its force as a figure of speech. The cars for these roads are correspondingly reduced in size, which cannot be objectionable, since the carrying strength is proportionately greater in the small cars, as is demonstrated on narrow gauge roads now in actual operation, where the proportion is three tons of load, to one of car weight; while on the broad gauge roads it is but about one ton of freight to one ton of car weight. Here is an advantage which has given anxiety to very many fertile brains, without a satisfactory remedy for the trouble; and still we must look on a broad gauge car as a cumbersome thing, that can comfortably carry only its own weight; while these pigmies will carry three times theirs without creaking.

Railroad men throughout the land are working up to their interests in this matter, and already a score of narrow gauge roads are earnestly talked of and that too by men who mean work. Among those whose practical minds have grasped the idea as feasible, and destined to work a revolution in railroading in this country, so far as cheapness of transportation and economical construction are concerned, is our wide awake firm of Billmeyer & Smalls, who are even now showing their faith by their works, and erecting what will make, when finished as it soon will be, the largest Car Establishment in this part of the country.—This new structure, independent of their already more than extensive works, will be brick, 60 feet front by 170 feet in depth; and when finished will be supplied with all the machinery and fixtures of a first class shop, and be ornamental as well as useful. This building is designed exclusively for the manufacture of narrow gauge cars, and will be capable of turning out from ten to thirty new cars each working day. The energetic chief of this firm, Mr. D. E. Small, has the honor to be, with General Palmer and others, a pioneer of the the Narrow Gauge Railroad interest in America, and through him his firm have secured the building of the first one hundred narrow gauge cars ever used in this country, most of which are already far on their way to the Rocky Mountains. They are for the Denver and Rio Grande Railroad, which we have before referred to.—*York Daily.*

Wilmington and Western Railroad.

A new railroad traversing the northern part of Delaware and bringing the City of Wilmington into communication with the towns in Delaware and Chester counties, Pennsylvania, is now under contract. The ceremony of "breaking ground" was performed on Saturday last at Brandywine Springs. The prospects of the road were fully set forth in a speech made by the President of the company, J. T. Heald, Esq., an extract from which we publish:

It has some peculiarities which have given it a peculiar interest. There are three points: It is a most admirably located road. Leaving Wilmington for three miles in a very straight line, it extends up Red Clay creek through fine agricultural fields and among manufactories of many hundred thousand dollars' productions a year—manufacturing interests that can be developed through co-operation of the railroad. Then through Hockessin Valley, with its fine agricultural farms, and full of mineral resources. Then to White Clay creek and to Landenberg.

It runs through a country about as much in need of a railroad as any other unsupplied I know of. It is an important connection of the Pennsylvania and Delaware Railroad from Pomeroy to Delaware City. It makes a junction at Landenburg with that road. It is in connection with an extended railroad system from Wilmington, which we claim to be most valuable, running through Hanover Junction, passing Peach Bottom, Gettysburg, to Pittsburg and the West, that is fifty miles shorter than any other road connecting with the Delaware river.

☞ The shipments of coal from Cumberland, Md., for the six months ending July 1, 1871, were 1,107,075.12 tons, of which 399,397.12 tons were by Chesapeake and Ohio Canal, and 707,678 tons by Baltimore and Ohio Railroad.

☞ Chancellor Zabrisbie has denied the motion of R. S. Guild to vacate the order heretofore made for the sale of the Paterson and Newark Railroad. The road will consequently be sold August 1, 1871.

☞ It is announced that the Quincy Mining Company will pay a dividend of $4 per share in August, which, together with a similar dividend in February last, amounts to $8 per share for the year.

☞ B. M. Smith, of Alexandria, Va., Heikel & Harris, of Harrisburg; and Small & Co., of York, Pa., have been awarded the contracts for furnishing the timber for the Long Bridge, about two millions of feet.

☞ The Maine Central Railroad Company pays a semi-annual dividend of 3 per cent. on the stock of the Portland and Kennebec Railroad on the 25th inst.

☞ The Directors of the Belfast and Moosehead Lake Railroad Company have elected Charles B. Hazeltine President, Asa Faunce Treasurer, and John H. Quimby Clerk.

☞ The Baltimore, Catonsville and Ellicott's Mills Passenger Railway Company has declared a semi-annual dividend of 3 per cent., payable 12th instant, clear of United States tax.

Journal of Railroad Law.

RAILROAD COMPANIES NOT LIABLE—WHEN INJURED PERSON ONLY IN FAULT—DUTY TO PUBLIC AS TO STATIONARY CASES.

The facts in the recent case of The Chicago and Alton Railroad Company *vs* McLaughlin (47 Ills., 265), are fully and clearly stated in the following opinion by

LAWRENCE, J.—This was an action brought by James McLaughlin against the railway company, for injuries received by him from the alleged carelessness of one of the employees of the corporation. It appears that the track of the road is laid down through one of the public streets of the City of Springfield, and its freight depot fronts upon the street. The track is thus accessible to the public. The plaintiff was at play with other boys upon the track, or street, and climbed upon the step or stirrup of a freight car standing there. The yard-master came and mounted the same car, going to the top by the same stirrup, at the south end of the car. As he went up the stirrup the boy let go and stood by the side of the car. The yard-master passed, on the roof of the car, to the north end and loosened the brakes. The car then began to move, from what cause does not appear, as it was an isolated car, but we suppose it was standing on a descending grade. Before the car had moved over a space equal to its length, it passed over the foot of the boy, inflicting serious injury. This is the account given by the witnesses for the plaintiff. It does not appear how the boy's foot happened to be caught by the car wheel, but each count of the declaration avers that the plaintiff was on the car when it was set in motion, and was cast upon the ground. If that be so he must have again climbed upon the stirrup after the yard-master had mounted the car. That he had let go his hold when the latter went up, and was standing upon the ground, there can be no doubt. His witness so testifies, and he would undoubtedly let go the stirrup, on which the witness says he was swinging, to allow the yard-master to pass. The yard-master gave no signal that the car was about to move.

How the yard-master was guilty, in this transaction of culpable negligence, we are wholly unable to perceive. Waiving all question of what degree of negligence is attributable to parents who permit their children to play about railway depots and cars, we are of opinion that this evidence discloses no omission of duty, or any wrongful act on the part of the railway employee. It is to be inferred from the instructions, that the case was tried in the Court below, on the theory that it was the duty of the railway company to keep a guard over their cars left upon the track, in order to keep boys from getting under or upon them, and that, in this case, the yard-master should have given a signal before loosening the brakes. Neither proposition is maintainable. A railway car standing by itself upon the track, is, ordinarily, a very harmless object, and, unless there is something in or about it that renders it dangerous, we know no reason why the railroad company should be required to establish a guard over it. As to the neglect of the yard-master, in this case, to give a signal, the witness testifies that after mounting the car he could not see the boy upon the ground. As the boy had let go his hold upon the stirrup before the yard-master mounted, and as he had no right to climb up the car, the yard-master might well suppose, when he loosened the brakes, that the boy was still on the ground where he had left him. Not seeing him upon the car, and having no reason to suspect he was there, the omission to give him warning was certainly not negligence. He had no cause for suspecting the boy to be in danger. The motion of the car, starting by itself on the removal of the brakes, would, necessarily, be very slow, and not dangerous to the boy, even if the yard-master had known him to have again climbed upon the stirrup. But he could not have known it, or have had good reasons to suspect it, and it would be very unreasonable to hold that, under such circumstances it was negligent in him to remove the brakes without giving a signal. He could see no occasion for a signal.

The verdict is wholly unsustained by the evidence, and the first and fourth instructions given for the plaintiff will require modification so as to conform to the foregoing views. They assume it was the duty of the yard-master to give warning. We hold there was no such duty, unless he knew or had reason to believe that the boy was in a position where he would be placed in peril by the movement of the car.

Judgment reversed.

Funding the Virginia State Debt.

The funding of the Virginia State debt commenced at the Treasurer's office, Richmond, on the 5th inst., when $88,632 25 were funded, and on the 6th $151,726 69. The total amount funded up to the 10th of July was nearly one million. The State Treasurer has decided to permit foreign bondholders to fund for fractional parts of their bonds to facilitate exchange. The new bonds, as described by the Richmond *Enquirer*, are beauties in design and finish, and all differ in shade. Every modern precaution has been taken to guard against counterfeiting. The coupon and registered bonds are both of the denominations of $100, $500 and $1,000—the registered running up to $5,000 and $10,000. On the $100 coupon bond there is a likeness of Governor Walker, and the coat of arms of Virginia s ands out conspicuously. This bond, when folded, has the following superscription, "Consolidated Debt of Virginia, 1st of July, 1871. Six per cent Coupon Bond—$100. Interest payable January 1st and July 1st of each year." The registered bond, on the other hand, has a power of attorney on the back. The fractional bonds have likenesses of Auditors Taylor and Rogers on their faces. The one third certificates, representing West Virginia's portion of the debt, have upon their face the Washington Monument. The sterling interest certificates are also lithographed.

Worcester and Somerset Railroad.

The result of the visit of the President and Secretary of the Worcester and Somerset Railroad Company to Philadelphia and New York during the past week, aside from bringing the enterprise favorably before capitalists, was that of decided benefit in the way of subscriptions to the capital stock, as well as receiving a few very flattering propositions from railmill agencies to furnish the iron for the road. Philadelphians in particular deserve much credit for the very liberal manner in which they "came down" with the one thing needful in railroad building, as well as arguments why the road should be pushed forward to completion with as little delay as possible. They are, as a general thing, not the men to "despise the day of small things," for well they know that short as the line is, it passes through a rich and productive country, and that its power of attraction when completed will be equal, if not greater, than the business of the main line itself, and that it all must ultimately empty itself into Philadelphia market.—*Newton (Md.) Gaz.*

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of June, were:

ENTERED FOR CONSUMPTION.

	1870.	1871.
Manufactures of wool.....	$585,340	$736,746

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart, A. Oakey Hall,
William M. Tweed, John Jacob Astor,
August Belmont, Peter B. Sweeny,
Charles A. Lamont, Levi P. Morton,
James F. D. Lanier, Hugh Smith,
Franklin Osgood, William T. Blodgett,
William Butler Duncan, Richard O'Gorman,
John J. Bradley, Jose F. Navarro,
Charles L. Tiffany, Henry Smith,
William R. Travers, Edward A. Wesley,
Joseph Seligman, Manton Marble,
Richard B, Connolly, John Taylor Johnston,
Henry Hilton.

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham-st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,

Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company

New York, June 16, 1871.

☞ We learn from Chicago that Judge Drummond of the United States Circuit Court has decided in the patent case of Thomas Sayles against the Chicago and Northwestern Railroad for an infringement of Tanner's double acting car brake, in favor of the Tanner patent upon all points of the controversy. The case has been in the courts nearly ten years. Nearly all the railroads in the United States, including the horse railroads, by this decision are infringing on Tanner's patent, and the result involves millions of dollars. Samuel D. Cozzens of New York was counsel for the pursuer, and B. R. Curtis of Boston for the defender.

☞ The Kanawha *Republican* says that the work of laying track on the Chesapeake and Ohio railroad is being rapidly pushed forward both ways from Coalsmouth. The locomotive and cars are now on the track, and in running order. The immense saw mill at St. Alcans, built at an expense of nearly $60,000, is working finely, and will soon be cutting railroad ties as fast as they can be laid. It is the intention of the company to have trains running over the entire western division by the end of September.

☞ John King, Jr. has been elected President, and Johns Hopkins, Thomas Whitridge and Hugh Sisson, of Baltimore, ; Joseph H. Sherrard of Winchester, and George A. Hupp, of Strasburg, directors of the Winchester and Strasburg Railroad Company.

Locomotive Performance.

We have received from Messrs. M. BAIRD & Co., Philadelphia, a circular containing a communication from A. J. CASSATT, Esq., General Superintendent Pennsylvania Railroad, giving the particulars of the performance of Passenger Locomotive, No. 422, on that road. Its continuous mileage, (158,280) without ever being off its wheels for repairs, is, so far as we are informed, unprecedented in extent, and is the more remarkable in view of the unusually severe service in which the engine has been engaged. The figures are given with the belief that they will be of interest to the railroad community.

THE PENNSYLVANIA RAILROAD CO.
Office of the General Superintendent,
Altoona, Pa., June 12th, 1871.

Messrs. M. BAIRD & Co.,
Baldwin Locomotive Works,
Philadelphia, Pa.

Gentlemen :—Engine 422 has been taken into the shop for repairs, and as her performance has been an extraordinary one, you will, I am sure, desire to know some of the particulars of her career thus far.

She was placed on the road on the 17th day of October, 1867, and ran until the 14th day of May, 1871. During the whole of this time she hauled fast and heavy passenger trains over the Middle Division, and made the wonderful run of 158,280 miles, losing only three trips, which was during November, 1869, to have six new flues put in and to clean the mud out of the waiste of the boiler. She also lost six round trips in May, 1870 getting a larger tank, to enable her to make the run from Altoona to Harrisburg (132 miles) without a stop.

This, however, was no fault of the engine and should not be counted against her.

As an offset against the nine trips lost, she made eleven and one-half extra trips between Altoona and Harrisburg.

The total cost for repairs up to the time she was laid off, amounted to $3,727.06, or 2 44 cents per mile. Our book account makes these amounts somewhat greater, but I have deducted all items not actually running repairs, such as the new tender, cost of applying air brakes, &c., which, although under our system of accounts are necessarily charged to repairs, actually do not belong there.

When Engine 422 was taken into the shop, she was reported as run down in the working parts, but uniformly so; all the bearing surfaces being smooth and good and her general condition being better than is usual with engines taken in for repairs. The cost of placing her in thorough repair is estimated at $1,262.73.

Yours truly, A. J. CASSATT,
General Superintendent.

The above express passenger locomotive was built by M. Baird & Co. for the Pennsylvania Railroad Company, and delivered September 9, 1867. Its general dimensions are: Cylinders, 17 inches diameter; 24 inches stroke. Drivers, 67 inches diameter. Weight, in working order, 71,000 pounds.

☞ The contracts for building and equipping the Ashtabula, Youngstown and Pittsburg railroad were let on the 30th of June. The road is to extend from the harbor of Ashtabula to Youngstown, thus furnishing a third line from Pittsburg to Lake Erie. It is the intention of the projectors to push the work as rapidly as possible, and it is probable the entire line will be completed and opened to traffic within one year from the present time.

Canals and Navigation Improvements of Pennsylvania.

A tabulation showing the Stock and Bond Account, the Length and character of the Works, the Cost, Earnings, Expenses and Dividends, &c., for the fiscal year 1870.

Compiled from the Reports of Companies returned to the Hon. J. F. HARTRANFT, Auditor General of the State.

Narrow Gauge.

A letter addressed to Mr. Samuel Wilkeson, Secretary of the Northen Pacific Railroad, touching upon the subject of narrow gauge railways refers to the Denver and Rio Grande Railway enterprise and presents some statistics which will at least interest those of our citizens who are pushing the narrow gauge project between Pittsburg and Economy. After noting the construction of the rolling stock a comparison is made of the actual power of engines and actual weights of rolling stock on the three feet and four feet eight and a half inch gauges respectively. The Pennsylvania Railroad is taken for the purposes of this illustration. The standard passenger engine in use on that road has a weight on drivers of 40,000 pounds, or just double the capacity of the engine on the Denver and Rio Grande, but has a total weight, including tender, of 105,000 pounds, or fifty-two and a half tons. Their usual local passenger train consists of:

	Tons.
4 passenger cars, seating 53 passengers each, and weighing each 40,000 pounds, or 20 tons	80
1 baggage car	14
1 engine and tender	52½
Total	146½

This train will accommodate 212 passengers, if full.

To carry the same number of passengers on the three-feet gauge, are required,

	Tons.
6 passenger cars, seating each 35 passengers, and each weighing 8 tons	48
1 baggage car	4
1 engine and tender	20
Total weight	72

or less than one-half the total weight of the train on the standard gauge. Then, since the smaller engine has one-half the power of the larger, it follows that it can readily take its load wherever the larger engine can go; and on the authority of competent judges, can take it at a speed of thirty-six miles per hour as readily as the other can run forty miles per hour.

But follow this out in freight traffic, which is the paying traffic of any road, and see the result.

The capacity of the freight engine on

	Tons
Three feet gauge is, on average low grades	405
Deduct weight of engine and tender	22½
Leaving for load	382½
Cars weigh two tons to carry five tons of this load then 2 7 would be cars, or say	108
Leaving for paying freights	273½
On standard gauges freight engines having double the weight on drivers will have double the capacity, or	810
Deduct engine and tender	60
Leaving for load	750
Cars weigh ten tons and carry ten tons, then of load one-half will be weight of cars	375
Leaving for paying freight	375

This shows an actual capacity for the narrow gauged freight engines of nearly three-fourths that of an engine of more than two and one-half times its weight.

But it is supposed, in this case, that cars on both gauges are always filled, which is far from being the case. Statistics show that on standard gauges more than four tons of dead or non-paying weight are annually carried over these roads, to each ton of paying freight. In other words the average amount of freight carried in each car is but one-fourth of its capacity. Allowing that this discrepancy may extend to the three-feet gauge also, which, from the smaller size of cars, can scarcely be expected, and this is the result:

THREE FEET GAUGE.

	Tons.
Cars weigh two tons, and have capacity of	5
Then in load as above of	382
There will be weight of cars	284
Leaving weight of paying freight	146

FOUR-EIGHT AND ONE HALF GAUGE.

In load as above of	750
Weight of cars	600
Weight of freight	150

or only four tons more than on the narrow gauge.
—*Pittsburg Chronicle.*

☞ The George's Creek Coal and Iron Company, Baltimore, has declared a semi-annual dividend of $3 per share, payable on and after 14th instant, clear of all taxes except United States tax.

☞ The Atlantic and George's Creek Coal Company, Baltimore, have declared a dividend of fifteen cents per share, payable on and after the 12th inst.

☞ The Vera Cruz Railroad has reached Cordova, and will be finished to the capital by the end of the year.

Notice to Contractors.

COLONIAL SECRETARY'S OFFICE, May 23, 1871.

THE Government of Prince Edward Island will until 19th of July next, receive Tenders for the construction and equipment of a Railway of 3 feet 6 inches gauge, from Cascumpec to Georgetown, a distance of about 120 miles.

Payments will be made in Prince Edward Island Government Debentures, bearing six per cent. interest, payable half-yearly, redeemable in 30 years.

Specifications may be seen, and forms of tender, and other information obtained at the Government Engineer's Office, Charlottetown, after 20th June next.

No tender will be recognized unless made on the printed form.

The Government do not bind themselves to accept the lowest or any tender.

Tenders will be received for either the whole distance from Cascumpec to Georgetown in one contract or in three contracts as follows:

No. 1. From Charlottetown to Summerside, with Station Houses and Wharves at both places.

No. 2, From Charlottetown to Georgetown, with Stations and Wharf at Georgetown.

No. 3. From Summerside to Cascumpec, with Station Houses and Wharf at Cascumpec.

T. HEATH HAVILAND,
Colonial Secretary.

Great Western Railway of Canada.

The Directors are prepared to receive tenders for the fourth division of their Canada Air Line, extending from Canfield to Fort Erie, a distance of about forty-four miles. Plans and specifications will be on exhibition at the office of George Lowe Reid, Esq., Chief Engineer, Hamilton, on and after 10th July, and sealed tenders, marked "Tender for Fourth Division Air Line," addressed to the undersigned, will be received to the 24th July.

JOSEPH PRICE,
Treasurer, &c.

Chief Offices, Hamilton, Ontario, May 27, 1871.

YORK CAR WORKS.
ESTABLISHED IN 1852.
Billmeyer & Smalls,
YORK, PENN.

This old established firm continue to build all kinds o Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly. A contract has just been made with the pioneer Narrow Gauge Road—3 ft. Gauge—on this Continent—(The Denver and Rio Grande R W.)—for 100 cars; also for a Georgia Road.

Comparative weights of Narrow and Full Gauge Cars sent by mail free of charge.

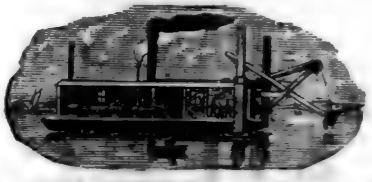
NEW YORK State Railroad Bonds.
A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS
OF THE
RONDOUT AND OSWEGO RAILROAD.
Principal and Interest payable in Gold.
SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.



The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

Copper Mines of Lake Superior.

We have received from H. MCKENZIE, Esq., Editor *Portage Lake Mining Gazette*, Houghton, Mich., a statement showing the Lake Superior Copper Business from the commencement of operations in 1845 to January 1, 1871, including detailed statements of operations for the year 1870, carefully collected and compiled by himself. From this we make the following extracts:

PRODUCT OF THE COPPER MINES IN 1870.

Portage Lake District:	Tons.	Pounds.
Calumet-Hecla	8,792	1,393
Quincy	1,522	1,676

RECAPITULATION.

Portage Lake district	12,731	1,469
Ontanagon district	826	1,473
Keweenaw district	2,624	1,097
Grand total	16,183	39
Grand total in 1869	15,288	1,483
Increase, in 1870	894	556

The product of the Lake Superior Copper Mines from 1845 to 1871, has been as follows:

	Tons.
1845 to 1854	7,642
1854 to 1858	11 312
1858	3,500
1859	4,200
1860	6,000
1861	7,400
1862	9,962
1863	8,548
1864	8,472
1865	10,791
1866	10,876
1867	11,735
1868	13 049
1869	15,288
1870	16,183
Total	144,458

The following is an approximate statement of ingot copper produced and its value:

	Tons.	Value.
1845 to 1858	13,955	$9 000,500
1858	4,100	1,886,000
1859	4 200	1,890,000
1860	6,000	2 610 000
1861	7,500	3,337 500
1862	6,800	3,402,000
1863	5 500	4,420,000
1864	6,500	6,110,000
1865	7,000	5,145,000
1866	7,000	4,760,000
1867	8,200	4,140,000
1868	9,985	4,592,000
1869	12,200	5,368,000
1870	72,946	5,696,240
Total	112,386	$62,357,240

The assessment to conduct the business of 1870 was as follows:

Phœnix, October, 1870. .... $60,000

The assessments levied, as nearly as can be ascertained, since the commencement of operations in 1845, have amounted to $16,706,500.

DIVIDENDS FROM THE EARNINGS OF 1870.

Hecla	$500,000
Calumet	300,000
Quincy	80,000
Central	50,000
Copper Falls	20,000
Total dividends	$950,000
Total assessments	60,000
Excess of dividends over assessments.	$890,000

TOTAL DIVIDENDS DECLARED.

Hecla	$600 000
Calumet	300,000
Quincy	1,000,000
Central	420,000
Copper Falls	80,000
Franklin	220,000
Minnesota	1,760,000
Pittsburg and Boston	2,280,000
National	280,000

Boston, Concord and Montreal Railroad.

The earnings of this road for the years ending March 31, 1870 and 1871, were as follows:

	1870.	1871.
From passengers	$179,425 95	$194,572 88
" freight	309,845 22	361,084 62
" mails	10,168 49	10,198 48
" express	6,250 00	6,000 00
" miscellaneous	833 50	639 36
	$506,523 16	$572,495 29
Expenditures, viz:		
Maintenance of way	$173,426 61	$182,750 42
" motive power	108,429 16	108 845 09
Cost of working road	108,308 31	115,505 32
" management	11,984 16	12 059 24
Miscellaneous	23,683 06	27,335 22
	$425,831 30	$446,495 29
Net balance	$80,691 86	$126,000 00
Balance, March 31, 1870		197,020 97
Interest received during the year		8,611 70
In hands of superintendent less than last year		1,582 35
Total		$333,215 02
Appropriated as follows:		
Paid coupons, back coupons, interest on over-due bonds, etc		$68,357 11
Paid preferred stock dividends		48,369 00
Wood, oil and stock on hand more than last year		7,089 72
Engineer department more than last year		14,598 54
Paid trustees of sinking fund		12,500 00
Paid sundry expenses		6,667 80
Bonds and cash on hand		175,632 85
Total, as above		$333,215 02

Compared with the previous year, the gross earnings show an increase of $65 972 13; with an increase in expenses of $20,663 99—making an increase in the net earnings of $15,308 14. The report says:

The above shows an increase of business over previous years, owing, in part, to the extension of the road to Whitefield and Lancaster.

The road-way and superstructure are in good condition. We have laid 74,491 sleepers, and put in 1,600 tons of new 56-lb. iron, taken out 1,000 tons of 50-lb. iron, and disposed of the same to the extension, and have also made full and extensive repairs on all bridges and culverts of the road.

We have made additions to the equipment, of two first-class monitor-top passenger cars, two mail and baggage cars, two first-class passenger engines, and have made full and ample repairs on all engines and cars.

We have also made extensive repairs and improvements where the road was damaged by the freshet in October, 1869, and rebuilt fences.

The directors feel justified in saying that the road, with all its equipments, is in better condition and order for business, than at any previous time.

There has been no change in our business relations with the connecting roads, but they remain in the same unsettled state as at the date of our last report.

The two dividends for the year on the preferred stock have been declared and paid, and charged in the accounts.

The sinking fund, with its accumulations, and the annual payment of $12,500, which has been made, now amounts to $281,000.

The $350,000 of convertible mortgage bonds that became due the 1st of July last, have been arranged in this way. $233,700 of them have been extended for five years, by attaching coupons for that time, at same rate of interest.

The holders of the balance declined to do this, and the bonds have been, with the exception of $3,200, taken up, and held to be arranged as the road may wish.

The suits in equity, White Mountains Railroad (old corporation) and others *vs.* B., C. and M. Railroad and White Mountains, (N. H.) Railroad, have been amicably settled and discharged.

The extension of the White Mountains, (N. H.) R. R. was completed and opened to Lancaster in November last, for business, and we have been running passenger and freight trains there regularly since, with an increasing business and a prospect that it will continue to do so.

There has been expended by the corporation for this purpose to this time, about $433,000, which is not included in the accounts, but will be when the road is completed. This amount is to be repaid to us by stock and bonds of the extension, secured by mortgage on the road, from Littleton to its terminus, wherever i may be when the road is completed.

Of the above amount, $75,000 has been obtained by the three notes of the B., C. & M. R. R. Co. of $25,000 each, which are not included in our accounts.

The present charter allows us to build to the Grand Trunk Railway in Northumberland, which is about ten miles from Lancaster. This, it is thought, will be very desirable for this road to do, making connection with the Grand Trunk Railway for Western business.

It is also thought to be for the interest of this road, as soon as it is able to do so, to extend the road to Colebrook, and above, and for this purpose, we shall ask for a charter from the Legislature at its coming session.

At the June session of the Legislature, 1869, this road obtained a charter to build a branch road from the extension at the Wing Road, so called, in Bethlehem, to the foot of Mount Washington, and we have had surveys made.

The directors think it for the interest of the corporation to build this year to Pierce's Bridge, so called, in Bethlehem.

The total number of passengers carried during the year was 134,282; equal to 8,056,920 carried one mile. Total number of tons of freight, 75,020; equal to 4,501,200 tons carried one mile.

TRIAL BALANCE, March 31, 1871.

Construction		$2,850,000 00
Wood, oil, etc., on hand		27,343 97

Superintendent.—J. A. DODGE.

The Petroleum Trade.

The export of petroleum from the United States, in 1870, amounted to 141,208,155 gallons, against 99,281,000 gallons in 1868, showing an increase of 41,927,155 gallons, or 42.2 per cent. in two years. In 1860, the export amounted to 1,500,000 gallons. The first sale for export was noticed in May, 1861, when 10,000 gallons were sent out to foreign ports. During the same year Antwerp took 5671 gallons, and increased the amount to over 800,000 gallons in 1862. In 1861, Great Britain took 579,000 gallons, and, in 1862, there were 3,288,000 gallons sent to that country. In reference to the product of petroleum at the present time, it is stated that in December, 1867, the average daily yield of the oil districts of Pennsylvania was 10,400 gallons, which, in December, 1870, had increased to 15,214 gallons. The home consumption of petroleum is estimated as equal to one half the quantity exported, or 70,604,077 gallons a year, so that the total annual consumption of petroleum in 1870 amounted to 211,812,232 gallons. Estimating the price of petroleum at twenty cents a gallon, the value of the yield for 1870 amounted to the handsome sum of $42,362,446. This return is certainly wonderful, and particularly when it is recollected that petroleum was almost entirely unknown to commerce twelve years ago.

Railway Enterprise in Canada.

The spirit of railway enterprise is abroad to such an extent throughout Canada at the present time, that some think there is danger it may be overdone. We believe, however, that this will rarely be the case, and that nearly all the lines projected at present will, when completed, contribute greatly to the advancement and prosperity of the districts through which they will pass and, in a lesser degree, to the progress of the whole country.

The number of men at present employed and the amount of capital being expended on new railways throughout the Province of Ontario alone, must be very large. The branch from Harrisburg to Brantford, to connect the G. W. R. with that town, is being rapidly pushed forward, and is expected to be finished and running before the winter. The two narrow gauge lines from Toronto, and the Wellington, Grey and Bruce, are proceeding as fast as several thousand men, with the usual accompaniments of horses and carts can perform the work. Then there is the G. W. R. Loop line from Glencoe, and the Southern (Thompson) Airline—both of these enterprises, which run for so long a distance almost side by side, are in the hands of enterprising contractors, whose employees, if all were collected together, would make a small army. East of Toronto, the work on more than one line is progressing steadily, and it may therefore be truthfully said, that in every section of the Province large expenditures in capital and labor are being made on new railway lines.

That very important work, the International Bridge at Fort Erie, is, we are pleased to learn, making substantial progress. The immense advantage which this Bridge will be to the railways centering at that point, and through them to the public at large, will not be fully appreciated until it is opened for traffic. The tunnel from Windsor to Detroit will, it is expected, be completed in two years from the present time. The names of Mr. Joy, of the Michigan Central Railroad, and the other gentlemen who compose the tunnel company, are the best guarantee that, if no unforseen engineering difficulties occur, trains will be whirling under the Detroit River by the time stated. With the opening of the Bridge at Fort Erie, and the Tunnel at Detroit, the facilities for travel between the Eastern and Western States, across the Canadian peninsula, will be complete, and our route must quite take the precedence of those on the south shore of the lake.

Several of the newer railway enterprises, although not yet commenced, are in a fair way of being proceeded with. The city of London has

voted substantial aid ($100,000) to the projected line from that city northward into Huron and Bruce, and if the country municipalities are prepared to act with similar liberality, the road may yet become *une fait accompli*. Milton and Streetsville have voted $30,000 and $20,000 respectively to the proposed Credit Valley Railway. Should the projectors of this line succeed, they propose to extend the western terminus from Milton to the manufacturing town of Galt. The ratepayers of the latter place sanctioned the by-law granting $25,000 in aid of this extension on the 4th of July. At the present time the G. T. R. has a branch from Berlin to Doon. This is within five miles of Galt, and Mr. C. J. Brydges agreed that if the people of Galt will make the five miles of road-bed, with right of way, &c., the G. T. R. Co. will put down the rails and run the road. The Hamilton people are pushing the projected road from that city towards Lake Erie, to connect with the G. T. R. at Caledonia. If we are to judge by what took place at the recent annual meeting of the Company, the business men of that city, notwithstanding their close connection with the G. W. R., are determined to leave no stone unturned to secure a connection with its powerful rival.—*Toronto Monetary Times.*

(From Poor's Railroad Manual.)

Railroads of the United States.

PROGRESS OF RAILROADS IN THE UNITED STATES, AND THE PROBABLE EXTENT OF THEIR CONSTRUCTION IN THE FUTURE.

We have, in previous series of the Manual, given a detailed sketch of the rise and progress of internal improvements in the United States. In no other country have similar works been undertaken and executed on so grand a scale, for in no other has there been a similar necessity for their use. Our people, advancing inland over unoccupied wastes, had no markets but those they left behind. The value of their products depended wholly upon the cost of transportation. The earlier settlements, consequently, followed, as far as possible, the lines of navigable watercourses. As these were numerous along the whole coast, and of unrivaled excellence, they served for a long time as the means of social intercourse, as well as routes of commerce. It was not till after our people had crossed the Allegheny range of mountains, and descended upon the great plains beyond, that the necessity for improved highways began to be seriously felt. It was then seen that, without them, the trade and commerce of the vast region would float down its two great rivers, having their outlets—one under the climate of the tropics, the other under the cold, almost, of the polar circle—and both far distant from the great seats of population on the Atlantic coast. It was felt, too, that the political fortunes of the future inhabitants of that region—in time to become a majority of the nation—would be moulded and controlled by their material interests; and that, as our government was founded on compact—not on force—the only way in which such widely separated communities could be held together would be to supply adequate means of intercourse between them. It was with such objects and spirit that all our great works were at first undertaken. A sentiment of patriotism, as well as of interest—a wise political forecast, as well as considerations of material advantage—mingled themselves in, and gave additional strength to, all propositions for the construction of our great lines of public works.

The works first undertaken were canals. Four great lines, of the kind, were commenced by the States of New York, Pennsylvania, Maryland and Virginia, for the purpose of connecting their navigable tide-waters with the branches of the Mississippi, or with the great lakes. From the formidable obstacles encountered, only one—the Erie Canal—was completed. The others, after making considerable progress, were abandoned, so soon as the superior value of railways, as a means of transportation, was fully proved. The latter have now, with the exception of the Erie Canal, wholly superseded the former. They are everywhere practicable, and are everywhere, and speedily, to become the common highways of our people.

The railroad first constructed in the United States was the Baltimore and Ohio, of which 23 miles were opened for use in 1830. It was for two years thereafter worked by horse-power. The following statement will show the number of miles opened each year since the date.

Year.	Miles in operation.	Annual Inc. of mileage.	Year.	Miles in operation.	Annual Inc. of mileage.
1830..	23	....	1851...	10,982	1,961
1831..	95	72	1852...	12,908	1,926
1832..	229	134	1853...	15,360	2,452
1833..	380	151	1854...	16,720	1,360
1834..	633	253	1855...	18,374	1,654
1835..	1,098	265	1856...	22,017	3,643
1836..	1,273	175	1857...	24,508	2,491
1837..	1,497	224	1858...	26,968	2 460
1838..	1,913	416	1859...	28,789	1,821
1839..	2,302	389	1860...	30,635	1,846
1840..	2,818	515	1861...	31,256	621
1841..	3,525	717	1862...	32,120	864
1842..	4,026	491	1863...	33,170	1,050
1843..	4,185	159	1864...	33,908	738
1844..	4,377	192	1865...	35,185	1,277
1845..	4,633	256	1866...	37,017	1,832
1846..	4,939	297	1867...	39 244	2,227
1847..	5,599	669	1868...	42,277	3,033
1848..	5,996	397	1869...	47.254	4 999
1849..	7,365	1,369	1870...	53,399	6,145
1850..	9,021	1,656			

The number of miles constructed in the decade ending in 1840 was 3,513; in that ending with 1850, 5,508; in that ending with 1860, 21,614; and in that ending with 1870, 22,764. The greatest number of miles constructed in any one year was in that just passed, in which 6,145 miles were opened. The mileage constructed in 1869 and 1870 equaled 11,144 miles. The progress of railroads, as will be seen by reference to accompanying tables, was seriously interrupted by the war of secession. During the four years of its continuance, only 3,278 miles were opened—2,872 miles less than were opened during the past year. In that period only a very small extent of mileage was constructed in the Southern States. Within the past two years, great progress has been made in these works in that section of country.

Of the ultimate extent of railway mileage to be constructed in this country no safe estimate can be made. It is likely to increase very rapidly for many years to come. The progress made will depend largely upon the amount of increase of our population; but, as the same number of people double their traffic to these works every ten years, railroads will, for a long time, make rapid progress even in those States whose population is comparatively stationary. The State of Massachusetts has one mile of railroad to 5.27 square miles of territory. A similar ratio would give to the States of New York and Pennsylvania 9,000 miles of line respectively, or more than twice their present mileage. It would give to the State of Illinois nearly 11,000 miles, or two and a half times its present mileage. In each of these States, the construction of railroads will proceed rapidly till the ratio of Massachusetts is reached. The same may be said of other States having, in the aggregate, an area of 500,000 square miles. When a mileage of 100,000 miles is reached, the same necessity will be felt for the continued construction of these works that now exist.

LEGAL PROVISIONS FOR THE CONSTRUCTION OF RAILROADS.

The construction of railroads in the United States has proceeded without reference to any general system, and without anything like supervision or oversight by the different States, from which the authority to construct such works has been solely derived, except in the case of what are termed "Pacific Railroads," or of lines forming parts or branches of the same. At an early period, acts of incorporation were granted, as a matter of course. In 1850, the State of New York set the example of enacting a general law by which the construction of these works was thrown open to the public. By its provisions, any body of men, (of the requisite number,) upon filing with the proper State officers articles of association, are made corporations and invested with the full authority to construct railroads upon any route they might select. Nearly all the States have adopted similar laws, and the construction of railroads is as open to the public as any other commercial enterprise. There can be no doubt of the wisdom of such general provisions for the safety of investors, as well as the welfare of the public. Neither the Federal nor State governments are competent to exercise a wise superintendence over such works. When the right to construct a railroad is always open, it is not likely to be rashly entered upon. As the corrective of bad or oppressive management always exists, the fear of it is likely to secure the good management of existing works. At any rate, such is the theory which prevails in this country—a theory which is receiving constant strength from the operation of our general laws.

As already remarked, the construction of railroads in this country is thrown freely open to the public, the several States having, as a rule, passed general laws for their construction. For a similar reason, very little oversight or control is exercised over the manner in which they are conducted. At an earlier period in their history, the need of such oversight was not felt. The leading object in the roads first undertaken was to increase the trade of the cities in which they terminated. The Baltimore and Ohio Railroad was constructed mainly to promote that of Baltimore; the Pennsylvania, that of Philadelphia; the Erie, that of New York. Such considerations, for a time, exerted great influence in establishing rates for transportation of freight; and as for all important points in the interior, the lines were competitors, the rates established by one controlled those of the others. Our railroads have now passed almost wholly under control of powerful cliques, or parties, actuated by considerations of private rather than public interest. The relationship of feeling which originally existed is almost entirely lost. The principal object of the parties now controlling these works is to increase their traffic for the purpose of increasing their revenues. As means to such ends, consolidations have been entered into by various companies on such a colossal scale that the internal commerce of the country is largely controlled by ten or twelve great corporations. The question, therefore, arises whether public opinion, or the laws of trade, as in ordinary commercial affairs, will supply the adequate corrective to incompetent or oppressive management? This question is now everywhere attracting great attention? It is one of paramount importance, as the welfare and prosperity of the whole country depends upon the manner in which these works are conducted. In the meantime, however, it is certain that there has been a rapid reduction in the charges of transportation, due in great measure to a reduction in cost. A vigorous competition has existed the last year between our great lines, notwithstanding efforts made to prevent it. The future of this question will be watched with great interest.

PROGRESS AND AMOUNT OF THE EARNINGS OF THE RAILROADS OF THE UNITED STATES, AND OF THEIR TONNAGE TRAFFIC.

The rapidity of the increase of earnings of the railroads of the United States, and of the quantity and value of their tonnage traffic, is still more remarkable than the rapid progress of these works. Their tonnage, which last year exceeded 125,000,000 tons, has been almost wholly created by them since 1851, the year of the opening of the Erie Railroad, and the removal of canal tolls from the New York Central line. The earnings of all the roads in the United States that year were $39,466,858; the earnings from freight being $20,192,104, as shown in the following statement:

Statement showing the length, earnings from passengers, earnings from freight, and total earnings of all the railroads in the several States in actual operation in 1851.

States.	Miles of railroad in operation.	Earnings from pass'ng'rs. $	Earnings from freight. $	Total earnings. $

Indiana ...	86	109,589	245,047	354,636
Illinois....	116	147,676	188,634	336,310
Michigan .	357	550,583	710,168	1,260,751
	8,876	19,274,254	20,192,104	39,466,358

The total earnings of the 50,000 miles of railroads in operation in the United States the past year, at $9,000 per mile of line, equaled $450,000,000. The increase in 20 years equaled $400,000,000, or $20,000,000 annually.

The total tonnage in 1851 of all the railroads of the State of New York, having a mileage of 1,703 miles, was 1,093,381 tons. The average tonnage per mile equaled 623 tons. The number of miles of railroads in the United States, and transporting freight that year, was 8,838 miles. A tonnage for all these, equal to that per mile of the railroads of New York, would give an aggregate of about 5,000,000 tons.

The gross tonnage traffic of the railroads of the United States is now ascertained with still more accuracy. In Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Ohio and other States, the railroad companies are required to make returns, among other things, of their tonnage traffic. The tonnage traffic of the railroads of Pennsylvania, with connecting lines, the past year, equaled 43,643,799 tons, or 8,000 tons per mile. That of the railroads of Massachusetts for the same year equaled 7,378,083 tons, or 5,438 tons to the mile. The tonnage of the New York roads for 1870 equaled 13,803,159 tons, or 4,000 tons to the mile. The aggregate tonnage of these three States, equaled 64,825,791 tons, or 6,338 tons to the mile of line. A similar tonnage per mile, for all the railroads of the United States, embracing say 50,000 miles of line, would give an aggregate of more than 300,000,000 tons. The tonnage of the railroads of the other States will not come up to the average of those named. The average tonnage for the whole cannot, however, be less than 2,500 tons to the mile. Such a rate, for all our roads, assuming the average mileage in operation for the year to be 50,000 miles, would give an aggregate of 125,000,000 tons. From this aggregate, however, must be deducted duplicated tonnage—or tonnage passing over more than one road, estimated at 30,000,000 tons. The net quantity would, therefore, equal 95,000,000 tons.

The value of this tonnage is estimated at $150 per ton, after deducting, say 22,500,000 tons for coals, ores, and other low-priced freights—that of the tonnage for the whole country being estimated at the ascertained value of that of the railroads of New York. The tonnage of the railroads of that State is classified, in the returns made to the Legislature, in the same manner as is that transported on the canals of the State. The value of the tonnage of the latter, classified under the following heads: "Products of the Forest," "Products of Animals," "Vegetable Food," "Other Agricultural Products," "Manufacturers," "Merchandise," and "Other Articles," is carefully ascertained. Applying a similar rate of valuation to the different classes of the tonnage of the New York roads, the value of the latter would equal, on the average, $150 per ton. It is assumed that the tonnage of the railroads of other States equals, in value, that of the New York roads. Such a rate would, for the merchandise tonnage of all our roads—to wit, 72,500,000 tons—give a gross value of $10,875,750,000.

The tonnage transported by the railroads in 1851 equaled 5,000,000. In 1870, the net tonnage equaled 72,500,000 tons; the increase of tonnage in a period of 20 years equaled 67,500,000, or at the rate of 3,375,000 yearly. The value of the railroad tonnage transported in 1851, at $150 per ton, equaled $810,725,200. In 1870, its value, at $150 per ton, equaled $10,875,750,000. The total increase of value in this period of twenty years equaled $10,065,354,800. The annual increase of value equaled $503,267,740.

This vast commerce has been wholly created by the reduction effected in the cost of transportation. The cost, for example, of transporting Indian corn and wheat over ordinary highways will equal 20 cents per ton per mile. At such a rate, as already shown, the former will bear transportation only 125 miles to market, where its value is equal to 75 cents per bushel; the latter only 250 miles, where its value is $1 50 per bushel. With such highways only, our most valuable cereals will have no commercial value outside of circles having *radii* of 125 and 250 miles respectively. Upon a railroad, the cost of transportation equals 1¼ cents per ton per mile. With such a work, consequently, the circle within which corn and wheat at the prices named, will have a marketable value, will be drawn upon *radii* of 1,600 and 3,200 miles, respectively. The area of a circle with a *radius* of 125 miles is 49,087 square miles; that of a circle drawn upon a *radius* of 1,600 miles is about 160 times greater, or 8,042,406 square miles. Such a difference, enormous as it is, only measures the value of the new agencies employed in transportation, and the results achieved, compared with the old.

The railroads of this country have an importance in the domestic economy of its people possessed by no other. They are, in fact, the markets to every portion of it. Wheat, that will bear transportation 2,500 miles over railroads, will not bear transportation for more than one-tenth that distance over ordinary highways. Wherever they are constructed, they give immediately, and everywhere, a high commercial value to the products of labor. The value and the influence they everywhere exert is well illustrated by the following statement, prepared by the Treasurer of Iowa, of the progress of the railroads of the State for the past nine years, and of their earnings per head of population during this period:

Years.	Miles of railroad.	Miles opened each year.	Population.	Miles of railroad pr head of popul'n.
1862.	626	...	778,000	1.243
1863.	653	27	830,000	1.271
1864.	727	74	882,000	1.212
1865.	847	120	934,000	1.103
1866.	1,060	213	986,000	.930
1867.	1,228	168	1,038 000	.838
1868.	1,448	220	1,040,000	.734
1869.	2,081	633	1,142,000	.550
1870.	2,683	602	1,194,000	.445

Years.	Gross earnings.	Earnings per mile.	Earnings per head of pop.
1862....	$1,109,346	$1,772	$1 42
1863 ...	1,570,546	2,405	1 89
1864....	2,553,699	3,512	2 89
1865....	3,871,783	4,572	4 14
1866....	4,118,006	3,884	4 12
1867....	5,867,501	4,778	5 65
1868....	8,024,931	5,541	7 86
1869....	10,409,950	5,002	9 12
1870....	11,982,352	4,447	10 00

The result for the whole country is almost equally striking. In 1840, there were 2,818 miles of railroad in the United States. At $3,000 per mile of line, (a large estimate,) their earnings were $8,454,000, or 49 cents per head. In 1850, there were 9,021 miles in operation, the earnings of which, at $4,000 per mile, were $36,084,000, or $1.55 per head. In 1860, there were 30,635 miles in operation, the earnings of which, at $4,000 per mile, equaled $153,175,000, or $4.90 per head. In 1870, there were say 50,000 miles in operation, the earnings of which, at $9,000 per mile, equaled $450,000,000, or $11.75 per head. Such an increase of earnings measures, accurately, that of the wealth and commerce of the country due to the construction of railroads, and explains fully the eagerness with which works, which can produce such marvelous results, are pushed.

It would be interesting to compare the progress of the internal commerce of the country, in amount and value, with that of its population. In 1850, the net merchandise tonnage of its railroads did not exceed 4,500,000 tons, or 400 pounds per head. In 1860, the total tonnage was 18,500,000, or 1,200 pounds per head. In 1870, the total net tonnage equaled 72,500,000 tons, or 3,816 pounds per head. The value of the tonnage per head in 1850 equaled $29; in 1860, $84; in 1870, $285 per head. Of course, this ratio of increase will not be maintained after railroad facilities shall have been supplied to every portion of the country. But in the older States, whose population shows the slowest increase, the tonnage of their railroads, without much increase of line, duplicates itself as often as once in ten years. The tonnage of the railroads of Massachusetts, in 1860, equaled 4,094,364 tons; in 1870, 8,044,498 tons. The increase of population of the State in this period did not exceed 12 per cent. The increase of tonnage of the railroads of New York for a similar period shows a ratio of increase twice greater. It is safe to estimate that the railroad tonnage of the country would duplicate itself as often as once in ten years, were there no increase of line or population, from the progress made in its industries and in the mechanic arts.

RELATION OF THE RAILROADS OF THE COUNTRY TO THE NATIONAL FINANCES.

The rapid increase of the wealth of the country, resulting from the progress of its railroads, is solving most satisfactorily the problem of the future of its public debt. Added to this increase of wealth is that of its number, in the increase of which this country has no example. In no other country but our own is the annual increase of population an element of first-rate magnitude in the calculation of its statesmen. In each year 1,000,000 is added to our numbers, assuming the rate of increase to be only 2½ per cent. annually. For the decade before the war, the rate was 3½ per cent. annually. Were there no relative increase of wealth, the rate of taxation could be reduced in ratio of increase of numbers, and its burdens sensibly lessened. But by the progress made in the mechanic arts, in the use of natural forces, and in the processes that abridge labor, it is certain that the productive capacity of our people increases four-fold to that of their numbers; that in each decade their products are doubled in quantity and value. Assuming the increase in value of the railroad tonnage to measure the increased wealth of the whole nation, the rate of the latter is much greater than the estimate given, as quantity and value of freight passing over our railroads increase at a rate exceeding 20 per cent. annually. With the same rate of taxation maintained, it is safe to estimate that the public revenues would increase at the rate of 10 per cent. annually. For the same reason, the rates can yearly be largely reduced, without decreasing the total amount collected. With an increase, which is demonstrative, of 10 per cent. in the productive capacity of our people, the utmost confidence may be felt as to the future, especially when it is remembered with how much ease the present debt was borne while the nation was torn by civil war, and more than all, now that firm

political unity is secured, by basing all our institutions upon the principal of abstract right.*

The payment of the public debts of other countries is a proposition not for a moment to be entertained. Where they exist, they are institutions a part, as it were, of government itself. On the other hand, the public debts of the United States are, and always have been, regarded in the light of commercial obligations, for the constant reduction and ultimate payment of which adequate provisions are always to be made and maintained The same parties that contracted the debt bear the burden of it. It is felt that there is no more reason in perpetuating the burden of public than of private debt. Both alike rest upon precisely the same principle. No sooner were public debts contracted, either by the nation or by the States, than provisions were immediately made for their redemption. The debts of the former, contracted in support of the War of Independence, as well as that of 1812, though more burdensome, considering the means of the people, than the present one, were in time fully paid. Since the close of the war, the debt incurred for its prosecution has been discharged at the rate of $100,000,000 annually. The debts of the States have, for similar reasons, been constantly reduced, and many of them wholly paid off. The traditional policy of the people, which springs mainly from our form of government, when united with ample means, which are increasing with marvelous rapidity, is a sure guarantee not only that the interest, but that the principal will, at an early day, be fully paid.

THE PACIFIC RAILROADS.

The comparative ease with which the Great Line, spanning the Continent, was accomplished, and the wonderful success which has followed its construction, has led to the commencement of two similar enterprises—one upon the northern route, commencing on Lake Superior and following the depression in the continent occupied by the Upper Missouri and the Columbia rivers, and terminating on Puget Sound. The other, commencing in Northeastern Texas and terminating on the Pacific coast at the port of San Diego. The length of these works will be about 2,000 miles respectively. Both have very extensive and valuable land grants, but have received no other aid from government. Both will open up immense areas of territory, possessing every variety of climate, soil and mineral—a territory that without such works is wholly beyond the reach of settlement or of commerce. In addition to the local advantages which they will secure, they will bring our people into still more intimate relations with the Pacific coast, and with the hundreds of millions of inhabitants in Eastern Asia, as commercial and, in many respects, as highly civilized as our own. No bounds can be set to the future commerce of the two continents. A problem not less interesting in the future is the result that is to follow such a close contact of two civilizations almost wholly diverse—one Asiatic, without change for centuries; the other daily adapting itself to the progress of ideas, and to the new conditions which science and art impose.

LAND GRANTS TO RAILROADS.

One of the most remarkable things connected with the progress of this country is the construction of railroads in advance even of the lines of settlement of our people. Such a result is largely due to the grants made by government of lands for the encouragement of these works. Never was a policy more wise or more beneficent. The government has been greatly the gainer in a direct pecuniary point of view, as it was enabled to sell the land reserved at twice the established rate. The public has reaped the advantage of the construction of some 10,000 miles of railroad that otherwise would not have been built. The construction of such an extent of line has led to an expenditure of some $400,000,000—a very considerable portion of which was drawn from the old world. The commerce which has been created thereby amounts to many hundred millions of dollars, annually, in value. They have undoubtedly been instrumental in adding more than 1,000,000 to our population within the last decade. It is, in fact, the poorer class of our population which has received the most benefit from these land grants. They go where employment is to be found, and nowhere are wages so remunerative as in the newly settled States in which numerous lines of railroad are being constructed. The pioneer, too, can better pay $10 an acre for land by the side of a railroad than to cultivate it as a gift beyond the reach of such a work. The population of a new State increases just in ratio as rail road facilities are supplied. Such facts, which are palpable to every one, should silence at once the clamor which has been raised against such grants. There are now in the new States of Iowa, Minnesota, Nebraska, Kansas, California and Nevada, and in the territories of Colorado, Utah and Wyoming, 9,000 miles of railroad. The number of inhabitants in these States and territories equals 2,847,000. The ratio of mileage of railroads to population, consequently, exceeds one of the latter to about every 300 of the former. This is certainly a most wonderful exhibit, and is one no other nation can display, and which, in our case, has only been secured by the wise, benevolent policy of our government, which, in this way, did more to give remunerative employment to the poorer classes than any other legislation it could adopt.

In the preparation of a work of this kind, great difficulty will always be experienced in obtaining adequate information. The more powerful companies, that have often but a small number of stockholders, treat their road as private property, and give as little information as possible. The companies that are embarrassed, of course, adopt the same rule. Several of the States, fortunately, require returns to be made, according to certain specifications, to their legislatures. But these are often unaccompanied by explanations that are often necessary to give correct ideas as to the real condition of a company or its affairs. In only two of the States—Massachusetts and Ohio—has the subject of railway management received any other attention than the mere publication of the returns that are made. In the former, a commission has been constituted which has taken the whole subject of railway economy vigorously and intelligibly in hand. Already has this commission, in its two annual reports, made very valuable contributions to this great subject; and, if allowed to prosecute their labors, will undoubtedly accomplish very valuable results. In Ohio, a similar work has been committed to Mr. George B. Wright, Commissioner of Railroads and Telegraphs for that State. He has published four annual reports and a thorough compilation of laws relating to its railroads. He has rendered a very valuable service to its railway interests, and to the public, by the painstaking and lucid manner in which he has discussed the whole subject of railways, and by the information he has supplied. Without the result of his labors, it would have been almost impossible to have given anything like a satisfactory statement of the railroads of his State. We trust other Western States will follow the example of Ohio. States that have now 3,000 or 4,000 miles of railroads, with an invested capital of $200,000,000, cannot be too careful in having these works under the supervision and, to a certain extent, under the control of a faithful and public-spirited officer, of their own appointment.

The purpose of this work is to present an accurate statement of the condition of each railroad in the United States, and, where it is possible, comparative statements of their financial conditions and operations for a series of years, to supply the best, and only means of forming a correct opinion as to the value of their securities. When no reports were published, application was, in all cases, made to the proper parties for the information desired. In some cases, information has been refused; in others, grudgingly and scantily given. When it is not fully supplied, the public may be assured that the fault is not our own. When it is not, it has the right to infer that full statements are not given because they would show something wrong or unfavorable in the affairs of the delinquent company. No opinions are given; only the means, as far as possible, of forming an opinion. It is always to be regretted that full and complete statements could not be supplied for every road. Considering, however, the immense number of railroad companies in the United States, and that but few of them have their domiciles in any one place, it is perhaps remarkable that so much information has been obtained.

Car Wheels and Axles.

In an action recently tried in England against a railroad company, scientific evidence was heard in reference to the construction, character and durability of the wheels and axles of railroad cars. It was testified that experience has shown that by tapping, defects can be detected in the wheels but not in the axles, but that the only way to find out whether an axle is sound or not, is to apply force and break it, a method which is so severe as to defeat its object. Practically, the plan adopted is to break several specimens taken at random from a lot of axles, in order to find whether the iron is good. If the test be satisfactory, the rest of the axles are taken on trust. It is, however, stated that the breaking of railway axles very seldom occurs. In the case before the court, which was an action for damages against the railroad company, arising from injuries caused by the breaking of an axle, it was proved that this particular axle had been in use for eighteen years, and that after it broke a fracture extending around it to the depth of half an inch was discovered.

☞ The first-narrow gauge passenger engine ever built in America, the Montezuma, was shipped from the locomotive works of M. Baird & Co., Philadelphia, to Pike's Peak on the 13th inst,

* When the incidental advantages resulting from railroads in this country are so demonstrable, and while such advantages are regarded as a basis upon which the construction of such works may be securely undertaken, on an almost unlimited scale, it is certainly surprising that European governments have not, upon a similar idea, done more to encourage their construction. Our people reason in this way: The construction of a railroad will add five times its cost to the value of the aggregate value of the property of the community constructing it. The commerce and wealth which it will create annually will exceed five times its cost. The country, consequently, is vastly better off for it, even should it produce not a dollar of direct revenue. Our government, in its land grants, has itself acted upon this idea. The progress of this country in wealth has been so rapid that the government has not felt itself called upon to take direct measures to increase its revenues. It would be supposed that in other countries, where the possession of the government is a vested right, and the whole nation in the nature of an estate, the most sedulous means would have been taken to increase the value of such an estate. If Russia, a country like our own in the vastness of its territory, in the sparseness of its population, and in the absence of its domestic markets, could imitate the example of this country in the construction of railroads, it would have been relieved of all concern as to its revenues. With 50,000 miles of railroad, they would, with no increase in the rate of taxation, have been quadrupled, and its military and political influence increased in like ratio, to say nothing of the beneficial influence such works would have exerted over the character and habits of its people. The same remarks apply with somewhat less force to other European countries, particularly to Austria and Spain. England alone, in her East Indian possessions, has adopted the policy that has added so vastly to the wealth and consequence of the United States.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 23, 1870.

Stock Exchange and Money Market.

The money market has been working all through the week in favor of the borrowing interests, influenced by the steady accumulation of capital at this centre, and the comparatively slow call from all sources for accommodation, in the absence of anything like active movements in Gold, Stock, Produce or Merchandise. Lenders have been very liberal of aid, and rates have ruled low, at from 2@5 mainly 3@4 per cent., on call and at 4@7, chiefly 4½@6 per cent. per annum on very choice to good business credits. The city banks, last week, reported a gain of $312,506 of specie, $598,051 of legal tender notes, and $6,224,741 of deposits. They increased their loan and discount averages $2,263,656 and reduced their circulation $30,911. The city bank exchanges, last week, averaged $80,281,256; and thus far, this week, 85 millions daily. The banks now hold $18,554,592 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $2,018,061 of specie and of $1,077,118 of currency, as the result of the week's business. The receipts of the office were $6,976,717 in coin, and $4,626,956 in currency; payments, $4,958,656 in coin, and $3,549,837 in currency. The office received $2,247,000 in coin or its equivalent, from customs; and disbursed $2,961,968 of coin interest.

The specie reserve of the city banks according to the latest return is $19,758,280, against $41,135,688 same time last year. The city bank deposits are now $257,532,294 against $234,332,355 week ending July 16, 1870. The legal tender reserve amounts to $70,574,876 against $58,461,341 same time last year. The circulation now stands at $30,380,961, against $32,027,786 same time last year. The loans are now $301,842,283, against $285,377,318 at this date last year.

The U. S. Sub-Treasurer retired, last week, $2,374,283 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $4,962,787 in currency, and $59,512,868 in coin, against a balance a week previous of $4,916,108 currency, and $56,527,335 coin.

Government revenues were up to a moderate average, last week. The excises yielded last week about 3½ millions. The customs at the port of New York, last week were $2,523,283; and at the outports, equal to about $850,000 more, all in coin, or coin certificates.

Gold has been quoted somewhat stronger as to price, but has not been very confidently dealt in at the advance, and the speculation evinces but little spirit. There has been a freer inquiry for coin, for custom house purposes. The export movement has been moderate. The range of the price during the week, has been from 112@112⅝, and the closing quotation on Wednesday was 112½ against 112½ the preceding Wednesday. The outflow, last week, was $1,962,814; and on Tuesday of this week, $281,500; and on Wednesday, $465,000. The Gold Exchange Bank clearances have been as follows: July 13, $31,465,000; July 14, $69,636,000; July 15, $47,967,000; July 17, $34,747,000; July 18, $33,892,000; July 19, $17,541,000.

The customs at this port on Wednesday were $561,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 17, 1871, $56,513,369, against $56,895,151 same time in 1870.

The export drain was $1,962,814 last week, against $2,740,267, same week preceding year. The shipments since January 1, 1871, have been $48,403,898, against $20,925,133 same time in 1870.

The customs demand for Gold last week, averaged $441,167 a day; thus far, this week, it has averaged $584,000 a day, or equal to a weekly aggregate of $3,504,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $13,570 and since Jan. 1, 1871, have been $3,293,500 against $7,281,647 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $81,745,053 against $74,506,390 same time in 1870.

Foreign Exchange has been steady, though not in urgent request. The offerings of prime bills have been moderate. Bankers' sixty day bills on London closed on Wednesday at 110⅛@110⅜; sight bills on London, 110⅝@110¾.

The produce exports from this port, week ending with July 17, were to the currency value of $4,440,652.

Government securities have been in more general demand, and firmer in price. The late issues of the six per cent. gold bonds, and the Ten Forty Five per cents have been sought after to a fair extent for shipment to Europe.

Under the official programme of the Treasury Department for July, Government will sell Gold during the month, as follows: Thursday, July 27, one million. And buy in, Five Twenty Bonds as follows: Wednesday, July 26, one million.

On Wednesday, Government bought in only $385,600, of Five-Twenties at 112 35@112 37, exinterest. The amount of bonds offered was $1,278,900.

U. S. sixes of 1881 closed here on Wednesday of the current week at 115¼@115⅜; U. S. Five-Twenties of 1862, 114¼@114½; U. S. Five-Twenties of 1864 at 113⅝@113¾; U. S. Five-Twenties of 1865, 113⅞@114; U. S. Five-Twenties of 1865 consolidated, 112⅝@112⅞; U. S. Five-Twenties of 1867, 113@113⅛; U. S. Five-Twenties of 1868, 113@113¼; U. S. Ten-forties at 113@113⅛; U. S. Six per cent. currency bonds, 113¾@114.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 5.	July 12.	July 19.
Consols	92	93¾	93¾
U. S. 5-20's of 1862..	91⅞	92⅜	92½
U. S. 5-20s, 1865....	91½	91¾	92¼
" 1867	90⅜	90¾	91⅜
" 10-40s	89¾	90½	91⅛
Erie.	23½	——	24¼

State bonds have been in moderate demand at less buoyant prices.

Railway bonds have been in request and quoted generally firm. Central Pacific Sixes closed on Wednesday at 98¾@99. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in fair investment demand at 92 per cent. and accrued interest. Union Pacific Sixes closed on Wednesday at 88@88½.

Business in Railway and miscellaneous share property has been generally less active, and without very marked fluctuation in values, as a rule, closing rather heavily.

General business has been comparatively tame since our last, though prices, in most instances, have been in favor of purchasers. Middling upland cotton closed on Wednesday at 20⅞ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,922,626 bales, against 2,811,587 bales same time last year; exports 3,088,581 bales, against 2,143,386 bales same time last year; stock at the ports at latest dates, 182,454 bales, against 138,603 bales same date 1870.

At the Live Stock Markets, Beeves have been in slack request at from 8@12½ cts; Veal Calves, at 3½@10 cts; Sheep at 4@6¼ cts; Lambs at 7@10¾ cts; Swine, 5¼@5½ cts per lb., all live weight. The week's receipts were 7,899 Beeves, 3,490 Veal Calves, 29,431 Sheep and Lambs; and 21,713 Swine.

Foreign goods continue in limited request as a rule, at less buoyant prices. The week's imports of foreign goods reached $6,726,295, including $1,929,185 of dry goods.

Ocean freights have been more active with more firmness in rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau street,
NEW YORK, July 19, 1871.

THE FIRST MORTGAGE GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY offer peculiar inducements to judicious investors.

1. The Road is under experienced, conservative and honorable management. The company is one of the strongest and most reliable and trustworthy corporations in the country, with a well established credit and possessing property and franchises of great value.

2. There is ample security for the entire mortgage, already existing in completed Road, Equipments and work done.

3. The regular and prompt payment of interest and the security of the principal are beyond question.

4. It is an old successful Road, with 227 miles now in profitable operation, and 100 miles additional nearly completed, extending itself in response to the demands of commerce, AS A GREAT EAST AND WEST TRUNK LINE FROM THE ATLANTIC TO THE OHIO, and for the accommodation of the immense mineral resources along its line.

5. The traffic necessary to render its extension profitable does not depend upon a slow future development, *but an enormous and profitable trade is already waiting for and inviting it.*

6. The Loan is sufficient in amount to become widely known, popular and marketable, while it will be but a slight tax upon the great earning capabilities of the Road.

The exchange of Five-twenties for these Bonds may be made with entire safety, and will now yield a profit of over 20 per cent.

Price of the bonds, until further notice, 92, and accrued interest from May 1. The Bonds are in denominations of $1,000, $500, and $100. Interest payable May 1 and November 1.

FISK & HATCH.

☞ THE contract for grading forty additional miles of the Grand Rapids and Indiana road has been awarded to E. B. TALCOTT & CO. The section of twenty miles, north from Paris, just finished by them, is now being rapidly ironed. The completion of the contract made for the above forty miles will bring the road to within twenty miles of the Grand Traverse bay, the northern terminus of the road.

☞ On the 26th of July the sheriff of Summit county, Ohio, will offer for sale the Atlantic and Great Western Railroad, subject to certain mortgages, to be knocked down at not less than two-thirds of its appraised value, which is, $6,653,283.

☞ The Elizabethtown & Paducah Railroad, Ky., is under contract to be finished by April, 1872. The entire road is 195 miles long.

Portland amd Rochester Railroad.

The formal opening of the Portland and Rochester railroad to Rochester, N. H., took place on the 11th inst.

The York and Cumberland road was first designed and built to meet the Boston and Maine at Great Falls, but the enterprise of the citizens of Rochester led to the selection of the latter place as the best terminus, especially in contemplation of further connections up and across New Hampshire.

The old York and Cumberland road, some years since, passed into the hands of the bondholders, and from this possession came the Portland and Rochester road—a new corporation, beginning under favorable auspices and managed by influential and enterprising men.

The new portion of the road from Saco river to Rochester, 34 miles, is one of the finest in New England, being built in a most substantial manner. The old portion from Portland to Saco river, 18 miles, is being rapidly put in superior order. So that the whole line from Portland to Rochester, 52 miles, will be unsurpassed by any other railroad. The rails are mostly from the Portland Rolling Mills, and are proving to be first class in all respects.

Grand Rapids & Indiana Railroad.

Jesse L. Williams, receiver of the Grand Rapids & Indiana Railroad Company, has made his final report and accountas such, and has been discharged from the duties thereof by an order of the Circuit Court of the United States for the Western District of Michigan. J. K. Edgerton, in his official announcement of the same, says the contract now in force between the Grand Rapids & Indiana Railroad Company and the Continental Improvement Company obligates the latter to complete and equip, at its own cost, the Grand Rapids & Indiana Railroad, with all its structures, material, furniture and appurtenances, including station grounds and right of way, suitable for a first-class railroad, from its terminus in Fort Wayne to Little Traverse Bay, Mich., 330 miles, by June 3, 1874, in consideration of which the Continental Improvement Company has the right, during the period of construction, to operate the road, receiving its earnings, etc, but will pay all expenses for running the same. The road north of Paris, its present northern terminus, 200 miles from Fort Wayne, is being pushed forward rapidly.

☞ Horatio Allen has handed in to the Poughkeepsie Bridge Company a plan for a suspension bridge 130 feet above the surface of the water and 3,400 feet in length, with two spans of 1,100 feet in length, and half spans of 650 feet each, the towers to be of masonry and the foundations to be constructed seventy feet below the surface of the water. The cables are to be of steel or iron, and the carrying capacity of the bridge to be half a ton to the lineal foot. The whole structure is to cost $2,600,000.

☞ The entire stock in the Massachusetts Central Railroad ($3,000,000), has been taken, and the towns along the line will soon be called upon for 20 per cent. of their subscriptions. In several, however, new meetings must be held ratifying formal votes, owing to re-locations, or other conditions upon which the money was voted. But there is no likelihood of a change in any of them, and the road may at last be considered an accomplished fact.

INVESTMENT SECURITIES.

JAY COOKE & Co. are now selling, and recommend as a profitable and safe investment for all classes, the First Mortgage 7-30 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on 23,000 Acres of Land to every mile of track, or 500 acres for each $1,000 Bond. They are exempt from United States tax; principal and interest are payable in gold. Denominations; Coupons, $100 to $1,000; Registered, $100 to $10,000.

Northern Pacific 7-30s are at all times receivable, at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price.

The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres in the most fertile portion of the Northwest, and the demand for the Company's lands for settlement already exceeds the ability of the Government to complete the surveys. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of U. S. Five-Twenties, who wish to convert them into a first-class railroad security, can do so at a present profit of about 12 per cent., while increasing their interest income nearly one-fourth, by exchanging them for Northern Pacific 7-30s.

All marketable stocks and bonds will be received in exchange at their highest current price. Full information, maps, pamphlets, etc., will be furnished on application to any agent for the loan, or to JAY COOKE & Co., New York, Philadelphia or Washington.

☞ A meeting of gentlemen interested in the building of the Portland, Rutland, Oswego and Chicago Railroad will be held at Portland on Wednesday, July 26, at which time Senator Hamlin will make an exposition of his great railroad bill to secure cheap transportation of breadstuffs and provisions from the West to the seaboard at uniform rates throughout the year. Measures of business character are to be carried out to secure the formation of the proposed line.

☞ Messrs Jay Cooke & Co. write that since the first of July the daily sales of the Northern Pacific Seven-thirties have nearly doubled, and the investment demand for them is steadily increasing in all parts of the country. Work on the road is progressing satisfactorily, nearly 10,000 men being employed.

☞ The Connecticut Valley Railroad from Hartford to Saybrook, 44 miles, will be formally opened on Saturday the 22d inst.

Horse or Street Railroads of the State of New York.

A tabular statement of their length and Cost, Stocks, Bonds and Debts, and Earnings, Expenses and Dividends for the year ending September 30, 1870.

Narrow Gauge Rolling Stock.

We have already referred to the fact that this city and Philadelphia have thus far made the only contracts for furnishing the rolling stock for the new narrow-gauge railroads projected in various directions, M. Baird & Co., Philadelphia, furnishing the locomotives, and Jackson & Sharp Company, of this city, the cars.

The last named company has just completed the cars for stocking the new narrow-gauge Denver and Rio Grande railroad, in Colorado and will send them away to-morrow. This Denver and Rio Grande road is projected to extend from Denver to El Paso, in New Mexico, a distance of 850 miles. It is expected that it will be tapped by numerous local roads, affording a net-work of communication throughout Colorado and New Mexico.

The train now built includes two first-class passenger cars, two smoking cars, and two baggage and mail cars. The passenger cars are in their outward appearance, in everything except size, precisely like other first-class cars. In their internal arrangements, however, they are necessarily quite different. The width of the car allows but three seats across the car, a double seat on one side of the aisle and a single seat on the other. To balance the cars, the double seats from the middle to one end of the car are arranged on the right srde of the car, and from the middle to the other end on the left side. These cars are divided by a partition into two apartments, but this, of course, would not be necessary if the company felt able to run an entire car devoted to the exclusive use of ladies. The windows of the cars also let down with a strap like coach windows, instead of sliding up as they do in ordinary cars, and we do not see but what the lowering plan is the best after all. The cars are elegantly finished inside, in walnut, Hungarian ash, &c., and are painted, inside, of a rich, dark green, relieved by gilt, precisely like the Pullman Palace cars, built by the Jackson and Sharp Company.

The smoking cars are quite differently arranged, and have walnut and ash seats, (such as we now see in many of our city street cars) running lengthwise, back to back, the whole length of the car, so that passengers face the windows. The baggage and mail cars differ in nothing except size from the similar cars of the ordinary gauge.

The baggage and smoking cars have each but four wheels, but the passenger cars have eight wheels, as is used with the larger cars. The wheels for all of them are manufcfured by the Lobdell Car Wheel Company of this city, from models made expressly for the new gauge.

These cars are but the forerunners of many more, for the Jackson & Sharp Company has already received orders for about twenty cars for narrow-gauge railroads, and has several of the number now under way.

The roads ordering them are that already mentioned in Colorado, two roads in Georgia, one in Arkansas, and one in New York State, and if the new gauge is as successful as we believe it will be, the demand for this class of work will greatly increase. Wilmington has aleady got the lead, and will doubtless keep it; the cars we have just described being the first of the kind ever built in the world, and the first passenger cars of any kind for a narrow-gauge railway ever built in America.—*Wilmington, Del., Commercial, July* 14.

☞ The track laying is progressing rapidly on the European and North American Railway, both westward and Vanceborough and east from Mattawamkeag. Fully thirty miles of the fifty eight between Winn and Vanceborough are already laid, and the chief engineer reports that all can be laid by the 20th of August.

☞ J. W. Phelps of Springfield, and Mr. Hendricks of Easthampton, have about 100 men constructing the Mount Tom and Easthampton Railroad, and good progress is made even in the heaviest work.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart,	A. Oakey Hall,
William M. Tweed,	John Jacob Astor,
August Belmont,	Peter B. Sweeny,
Charles A. Lamont,	Levi P. Morton,
James F. D. Lanier,	Hugh Smith,
Franklin Osgood,	William T. Blodgett,
William Butler Duncan,	Richard O'Gorman,
John J. Bradley,	Jose F. Navarro,
Charles L. Tiffany,	Henry Smith,
William R. Travers,	Edward A. Wesley,
Joseph Seligman,	Manton Marble,
Richard B. Connolly,	John Taylor Johnston,

Henry Hilton.

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham-st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,

Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

New York, June 16, 1871.

A National System for Time on Railroads.

The confusion experienced by the travelling public in respect to time is so great that anything like a practical system in this direction must be received with favor. Mr. C. F. Dowd, of Saratoga, New York, has devised such a system, which he calls "A National System of Time for Railroads." It is based upon national longitude. It adopts Washington time for the eastern portion of the country as standard time; one hour slower than Washington time for the Mississippi Valley; two hours slower for the Rocky Mountain section, and three hours slower for the Pacific States. These standards are designated by the small figures 0 1, 2, 3, respectively placed in a little elevated position before the names of the stations. Then, to designate the minute difference between the local time of any station and railroad time or standard time, small figures are placed in a little elevated position after the names of the stations. These figures, when they indicate that railroad time is too fast, have the sign † before them, and the sign — when they indicate railroad time too slow. The whole system is very simple, and if adopted would very soon be understood by the travelling public. If adopted, the traveller could keep his own time wherever he might go, and take the cars by his own watch as well in one part of the country as in another.

The work was an immense labor, involving about 8,000 computations for longitude. The scientific part receives the endorsement of Professors Loomis and Newton, of Yale College, Prof. Hough, of the Albany Observatory, and the Professor of Astronomy at the Military Academy at West Point. The practicability and feasibility o

it is already endorsed by the superintendents of many of our most important roads, such as the Boston and Albany, Connecticut River, Hartford and New Haven, Hartford, Providence and Fishkill, New York Central, Erie, Harlem, Lake Shore and Chicago, and others.

Journal of Railroad Law.

HORSE RAILROADS—FAST DRIVING AT CROSSING—RULE AS TO NEGLIGENCE.

The facts in the late case of Barrett *vs.* The Third Avenue Railroad Company (8 Abbott R. S. 205) are fully and clearly stated in the following opinion by

McCunn, J.—This action is brought for injuries sustained by the plaintiff, while riding as a passenger in defendants' car, a car which came in collision on the crossings just below the Cooper Institute, with a Harlem Freight car, going up on the 4th Avenue track.

The trial was had before Mr. Justice Monell and a jury, and resulted in a verdict of two thousand dollars.

A motion was afterwards made for a new trial, upon the case, before Mr. Justice Jones, who granted the motion, and now we are sent the record from Special Term to be inspected, and after such inspection we are to say which of the judges below has committed error.

After as close and fair an examination as some of us are capable of bestowing upon any subject, we have arrived at the conclusion that the Judge at Special Term was clearly wrong in setting aside the verdict of the jury; and that on the contrary, the case at Circuit was correctly tried and all questions of law properly disposed of.

It will be seen, after disposing of all minor points, and after a careful examination of the facts, that the real question in the case (and I must say I see but one question) is whether there was negligence on the part of the Third Avenue Road, and whether the question of such negligence was fairly submitted to be passed upon by the jury.

There is no dispute but that, at the time of the collision, the Third Avenue car was going at an unusual rate of speed.

Indeed, this was expressly admitted by the defendants' counsel on the trial, and there is just as little doubt, but the Harlem car was going slowly, not trotting or walking, but a slouching gait between the two.

It is also undisputed that by the uniform custom and practice of the drivers and conductors of both railroads, the Harlem Company had the right of way.

Now the evidence on the part of the plaintiff goes to show that the Harlem freight car was much nearer the crossings where the accident occurred, when they saw each other than the Third Avenue car.

This being so, it was gross negligence on the part of the Third Avenue car not to stop until the Harlem car had passed.

Indeed, I fully agree with the plaintiff's counsel that the accident was the result of a reckless and wicked horse racing experiment on the part of the Third Avenue driver.

Dooley says, and he is a fair witness, that when he first discovered the Fourth Avenue car he should judge he was 150 or 200 feet from it. He says that some distance above the crossings the conductor came out and hurried up the driver, who accordingly whipped his horses; and on this point he is not contradicted.

On the contrary he was corroborated in his statement by Morrill, by Remer, and by Pruden; and he says that in his judgment the forward part of the small car was struck.

Indeed, the learned Justice who tried the case at Circuit left every point as to which there was any possible doubt or dispute, or which could have any bearing on the question of negligence, to the jury, and no rule is better settled than that which requires to have the issue of negligence submitted to the jury, when it depends upon conflicting evidence, or on inferences to be deduced from a variety of circumstances, in regard to which there is room for fair difference of opinion among intelligent men (Wolfkiel *vs.* Sixth Avenue R. R. Co., 38 N. Y. 49). It will not be seriously urged that the negligence of the Harlem Company contributed to bring about the collision, and that such negligence is a bar to this action. In discussing this branch of the case I cannot do better than quote the language of Judge Grover, in the case of Clark *vs.* Eight Avenue R. R. Co., 36 N. Y. 138, where he says, "If the negligence of the defendant contributed to the injury, it is no defense that the negligent act of another contributed thereto, if the injury would have occurred, but for the negligence of the defendant. The defendant, it is manifest, is only made responsible for the result of his own wrong. That wrong produced the injury; and although it would not have occurred, but for the wrongful act of another, that circumstance furnishes no excuse for the defendant, so far as an innocent party is concerned."

There is no virtue in the point, urged by the defendants' to the effect that a new trial on the ground of surprise ought to be granted upon the affidavits attached to the case.

The evidence of Pruden was offered in rebuttal; and the defendants had no right to open the question again, if they had had a thousand witnesses present to contradict Pruden when he left the stand.

The new evidence therefore, for the introduction of which a new trial is sought, is purely cumulative; consequently there is no law for granting a new trial on the grounds presented (People *vs.* Superior Court 10 Wend. 285). Though a witness proves a fact to the surprise of the other party and though by mistake he was not cross examined nor was evidence given to contradict him, nor any observation made on his evidence, the court will not grant a new trial. Such was the rule held by Lord Ellenborough in Bell *vs.* Thompson 2 Chitty 194.

Indeed, the verdict is never set aside to give the party an opportunity of impeaching the credit of witnesses sworn at a former trial (Bunn *vs.* Hoyt 3 Johns. 255). And to set aside a verdict when the testimony is conflicting, and the question doubtful, would be, not an exercise of discretion, but a gross usurpation of power. (Cothrane *vs.* Collins 29 How. Pr. 255.) I fully concur with the learned Justice who tried the cause, when he says, that, "The Law in respect to the carriers of passengers holds them to the highest responsibility."

They are required to exercise the utmost care, and to adopt all known and tested improvements calculated to secure the safety of passengers. Story says, "passenger carriers bind themselves to carry safely those whom they take into their coaches, so far as human care and foresight will go, that is, for the utmost care and diligence of very cautious persons."

There is no virtue in the point raised by the defendants, to the effect that the plaintiff having been paid by the Harlem Company something, such payment has satisfied the claim against the defendants. The answer to such a proposition is, that no evidence was given of any release or receipt of money in satisfaction of damages, or of any written or verbal agreement or understanding to that effect. The court after fully stating the law, charged the jury that what had been proven did not amount to a discharge of the Harlem Company, and was not, therefore, a defense to his action.

And in this we fully concur. The rule is well settled that a release of one of several covenantors will not discharge his co-covenantors, unless it be a technical release under seal. A parol agreement to release will not have that effect (De Zeng *vs.* Bailey, 9 Wend. 886).

The order at Special Term granting a new trial should be reversed, and the judgment entered below ordered to stand.

☞ The Central Pacific Railroad Company have commenced the construction of an air line railroad from San Francisco to Red Bluff, on the west side of the Sacramento river, and will complete that portion between Sacramento and Red Bluff by the 1st of January next, the rails being already in California.

☞ The Pennsylvania Railroad Company has leased the Jeffersonville and Indianapolis Railroad, including the Madison branch, paying six per cent. interest on the capital stock. This road is about two hundred miles long, and also owns a large portion of the stock of the Louisville Bridge Company.

☞ It is reported that the Omaha and Southwestern Railroad has made arrangements with the Chicago, Rock Island and Pacific Company, whereby a bridge across the Platte river will be built at once and the road completed to Nebraska City to meet the road from the south and west, giving that company connection with Lincoln and Southwestern Nebraska.

☞ The trade of the Chesapeake and Ohio Canal for the month of June amounted to $60,023 58. The current expenses for the month were $16,069 32, and the number of tons of coal transported were 107,211.

☞ The contract for grading the first three miles of the Pittsburgh, Virginia & Charleston Railroad, on the South Side, has been undertaken by Mr. John F. Gordon.

☞ The Maine Central extension is rapidly approaching completion. It is probable that trains will run over it regularly by the middle or last of August.

☞ The opening of the Athol and Enfield railroad was celebrated at North Dana on the 11th inst.

☞ The grading of the Bridgeton and Port Norris road, about eighteen miles long, is nearly completed from Bridgeton, the present southern terminus of the West Jersey Railroad, to Fairton, and track-laying is commenced. It will connect the West Jersey with Delaware Bay near the mouth of Maurice river.

☞ Arrangements have been consummated by the Lake Superior and Mississippi Railroad Company to build a railroad bridge at Stillwater, to connect with the West Wisconsin Railroad, an injunction having been granted against bridging the St. Croix River at Hudson, Minnesota.

☞ Mr. Jeremiah Prescott, for the past sixteen years superintendent of the Eastern (Mass.) Railroad, has resigned his position and accepted the superintendency of the Northern Pacific road, with head-quarters at St. Paul, Minnesota.

NOTICE TO CONTRACTORS AND BRIDGE BUILDERS.

DEPARTMENT OF SURVEYS,
224 South Fifth Street, Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until three o'clock P. M. of September 6, 1871, for the construction of a Bridge over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, with approaches to Twenty-fifth and Spring Garden streets, in the Fifteenth ward, and to a point about 144 feet westward of Thirtieth street, in the Twenty-fourth ward, as follows:

First. For the Bridge superstructure over the river, including all materials, workmanship, and erecting ready for use. It will be of wrought iron, 348 feet from centre to centre of end posts, and 34 8-10 feet from centre of lower to centre of top chord, and also two trusses for Thirtieth street, to be 84 feet from centre to centre of end posts, and 10 5-10 feet from centre of lower to centre of top chord, also of wrought iron. Detailed plans with complete strain sheets for these bridges, conforming to specifications, to accompany proposals, which on main Bridge shall give prices for both a two and three truss bridge.

Second. For all the iron work on *approaches* to be erected complete, as per plans and specifications.

Third. For the gradation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of the contract. The City reserves the privilege of rejecting any and all bids that may not be satisfactory, and each proposal as herein divided will be considered separately and will be so allotted.

Payments will be made monthly in bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond for the sum of five hundred ($500) dollars has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock.

Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained, on and after the 22nd day of July, inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly. A contract has just been made with the pioneer Narrow Gauge Road—3 ft. Gauge—on this Continent—(The Denver and Rio Grande R. W.)—for 100 cars; also for a Georgia Road.

Comparative weights of Narrow and Full Gauge Cars sent by mail free of charge.

NEW YORK State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS

OF THE

RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,

New York Saturday, July 29, 1871.

New York (Viaduct) Railway.

At a meeting of the Executive Committee of the New York Railway Company, held on Monday, July 24, 1871, the President presented the following report, which was accepted and adopted by the committee:

To the Executive Committee of the New York (Viaduct) Railway Company:

Having now progressed sufficiently with the investigation of the proposed route, and consequently the proposed cost of the road, it seems appropriate at this time to lay before you the following views entertained on consultation with our engineers respecting the ultimate results which will attend upon our positively assuring "*Rapid Transit*" to the citizens of New York. The views presented are purposely made moderate, and it is believed they cannot be disputed. However, they are submitted to you as the result of our convictions, after carefully investigating the entire subject.

The cost of real estate to be acquired, the cost of construction and running expenses, contrasted with the receipts for rents and passengers and freight traffic, are the elements which must determine the probable profits on capital invested. For the purpose of arriving at a fair conclusion, it is proposed to review these items separately, and make such seasonable allowances as may be suggested upon any of them.

The estimate of the cost of the Eastern Viaduct, from Chambers-st. to the Harlem River at One-hundred and thirtieth-st., is considered equally applicable to that of the Western Viaduct to Manhattanville.

The cost of necessary real estate for viaducts and depots is estimated at $1,000,000 per mile, or say for 80 lots, with buildings, at an average cost of $12,500 each. The construction of the viaduct, including rails and permanent road-bed and running stock, will cost $2,000,000 per mile. The distance from the City Hall to the Harlem River at One-hundred and Thirtieth-st., or to Manhattanville, being 7¼ miles, would make the cost of each branch of the road $22,500,000, and with an allowance of $2,500,000 for unforeseen contingencies, would make the entire cost of each branch of the road $25,000,000.

It is proposed that each branch road shall have four tracks—two for fast travel, making stoppages at about two miles apart, and two for way travel, making stops at about each half mile. Twenty trains per hour can be safely run upon each track, each train to average 300 fares of passengers, which would make the number of passengers that could be carried in 14 hours of the day, upon the four tracks, 336,000. But it must be remembered that during three hours of each morning and evening, the travel on the road will be greater than during the remainder of the day, and that as soon as the road is found not competent to accommodate the travel offered during the morning and evening hours, other roads must be built to accommodate the surplus. Hence it is that the projected roads will not at any time have the opportunity to carry as many passengers as their full capacity will admit during ten hours of daily work.

Trains of about two-thirds of full capacity will probably be required in the middle of the day, and consequently the ultimate transit on each road ought to be estimated at not more than 248,000 passenger fares per day, and this is calculated to include the night travel beyond 14 hours assumed as a day's work. In addition to this each road will be capable of carrying a very large amount of freight during the night, and of doing a large express and light freight business at all hours of the day.

At present we have official information that there are being carried on the horse railroads of this city over 136,000,000 passengers per annum, 70,000,000 of whom are carried upon the lines east of Broadway and Fifth-ave., running north and south. In addition to this, very many millions are carried in omnibuses and upon the Harlem, New-Haven, and Hudson River Railroads, by steam power, and by the five Harlem steamboats which run continually throughout the day. The transportation business of the horse railroads and Harlem steamboats is all the growth of a very few years, and is increasing rapidly year by year, the increase during the past year being over 20 per cent. The largest increase is on the lines which run with the greatest speed, showing conclusively the desire of the people for "*rapid transit.*"

The continual increase of population and the constant absorption of residences in the lower portions of the city for business purposes, are compelling the inhabitants to find homes in the upper portions of the island, or across the ferries, and now a considerable portion of the business community in the lower portions of the city have their residences across the ferries, because they can reach them in less time than they could if located on the upper portions of the island.

The most densely populated districts in the upper part of the city owe their growth entirely to the present facilities of transportation, and although these facilities are greater than they have been at any previous time, they are still inadequate to the wants of the people. To go from Sixty-fifth-st. to the City Hall by the Madison and Fourth-ave. horse railroad line takes about one hour, and by the Third-ave. line about 45 minutes; and to go from Harlem to the City Hall by the Third-ave. horse railroad line takes an hour and 20 minutes, and by the steamboats about 45 minutes. The New York Railway Company will convey passengers between the City Hall and Harlem in

20 minutes, and to intermediate points in a proportionately short time.

At Harlem we may expect to receive a large amount of through travel and traffic from the interior of the country. Several new lines of railroad are now being built, which will terminate on the banks of the Harlem River, and will be completed by the time that the New York Railway Company can reach that point. One or more of these roads will connect with the whole interior system of railroads in New England, Northern New York, and the West. We may therefore count, not merely on the local travel of the island, but also on a large business from the interior of the country, consisting not only of passengers, but also of freight.

The receipts for freight on the four great trunk lines of railroads are more than three times that for passengers, and the receipts on the New York and Harlem Railroad are greater for freight than they are for passengers, including their passenger receipts from their horse railroad. It is, therefore, fair to assume that the receipts for freight by the New York Railway Company will be very large. The receipts for freight on the New York and New Haven Railroad are about one-third of those for passengers, being less, in comparison with their receipts for passengers, than on any first-class railroad in the country.

But to put our estimate at an amount so reasonable as to be beyond question, let us assume that 300,000 persons now ride daily up and down into and through the City of New York on railroads, steamboats, street horse-cars, and stages; in other words, that 600,000 fares are now daily paid for riding in public conveyances into and through the city—is it not fair to assume that 250,000 of that number of fares, or 125,000 passengers, would at once patronize the Viaduct railways, if both branches were built, and this without necessarily reducing the profits of street cars or stages. Fewer cars for awhile might be run, but those would be entirely filled with passengers going but short distances.

Hence, if New York City was not to increase in population from the time the Viaduct roads are finished, it is but reasonable to assert that such roads, if *both branches were now in operation*, would receive 250,000 fares daily, and the railroads, steamboats, horse-cars, and stages would still retain 350,000 fares per day, and such 350,000 fares and their natural increase would yield them as large if not a larger profit than that derived from 600,000 now employing that mode of conveyance. The reason of this may be found in the fact that very many persons who will use the Viaduct road will also use the horse-cars and stages to carry them short distances, to the Viaduct Railway depots and elsewhere, and also in the fact that short travel increases with increased facilities.

There can be no doubt, however, that simultaneously with the construction of either branch of the Viaduct, many houses will be erected in the upper part of the city, and by the time the *easterly branch of the Viaduct is completed to One-hundred and twenty-fifth-st.*, 5,000 additional houses, tenements and factories will furnish 10,000 persons, or 20,000 fares, who will use the road, up and down, once a day, and will make the total daily fares on this branch at least 140,000. From many sources the number will increase during the first ten years of the operation of either branch of the road, until is reached its full capacity.

Each Viaduct will occupy over 600 lots, between Chambers-st. and One-hundred and twenty-fifth-st.; 500 of which may be let for stores and manufacturing purposes, and each of these will comprise a store of 25 feet by over 90 feet, and of from 12 to 16 feet high in the clear; also a basement of the same size. It is safe to assume that each of such stores will rent for $1,000 per year; but if an allowance of 20 per cent. is made for contingencies, an annual rent of $400,000 will be derived from them, provided it shall not be found that their use may be more beneficial to the Company than any income that might be derived from their rental.

Assuming, then, that the travel on the *Eastern* branch of the New York Railway will be 140,000 per day, or 50,000,000 passenger fares per annum (and this is a very moderate estimate, as one line of horse-cars alone is now carrying annually over 30,000,000 passengers), the receipts will be as follows:

Passengers—say 50,000,000 per annum, or 140,000 fares per day at an average of 13 cents	$6,500,000
Freight, mail, and express matter, 40 per cent. of above	2,600,000
Rents, as above	400,000
Making gross annual income	$9,500,000
The expenses for maintenance, transportation, repairs, etc., of first class roads doing a heavy passenger business are usually about 55 per cent. of gross receipts. This road will be much less because it must necessarily be built more compactly and will therefore be less needing the usual and expensive repairs incidental to a rail-track laid on the ground, subject to frosts, thaws, storms and earth-washings. But allowing for maintenance, etc., 45 per cent.	4,250,000
We have a net annual income from each line of viaduct of	$5,250,000
Equal to interest at 7 per cent. on $17,000,000 of bonds, or	$1,190,000
And say 50 per cent. on $8,000,000 of stock	4,060,000
Total	$5,250,000
Or equal to interest at 7 per cent. on $12,500,000 raised on bonds	$875,000
And say 35 per cent. dividend on $12,500,000 capital stock	4,375,000
Total	$5,250,000

The attention of the engineers has also been given to the subject of connecting the lower part of the city with the trunk line of viaduct near the City Hall, by one or more branch lines, as authorized by section 12 of the charter of the Company, and also to the subject of encircling the business part of the city with an elevated or viaduct railway, along the projected line of new bulkheads, as soon as they may be completed, and connecting them with the track of main line of viaduct at the principal stations, as by such means all persons arriving in the city by ferries or steamboats could immediately, and without crossing South-st., be transferred to the main lines.

The engineers, after full consideration of the subject, did not consider it expedient or proper to extend the main trunk line below the City Hall, because the number of passengers to be transported below that point must certainly be so much less than above it, that it would not be remunerative to run all trains to the lower end of the city, but they have considered the propriety of constructing a branch road from the depot near the City Hall in a direct line to the Battery, near the South Ferry, and have estimated that a two-track road, occupying not more than 25 feet width, with cars propelled by steam-power at the rate of about 20 miles per hour, and making stoppages in each direction in the vicinity of Pine-st., or Wall-st., could be built simultaneously with the trunk line, and be sufficient for the accommodation of the middle part of the city below the Park and New Post Office, because no part of such distance would then be more than one-fifth of a mile from a depot. The expense of constructing such a line would be great, as it would unavoidably have to pass through very valuable property, and we are doubtful if it would be remunerative in so high a degree as either the Easterly or Westerly Viaduct above the City Hall. The powers of the Company, under its charter, seems to be ample for the construction and operation of such a branch viaduct in connection with the trunk lines, and for the entire separation of the cost of it and its earnings and profits; and if citizens and property-owners in the district to be benefitted by such a branch, are desirous and willing to subscribe the necessary capital for its construction, there does not appear to be any valid reason against its being built at the same time with the Eastern branch of the road as contemplated.

HENRY HILTON, President.

New York, July 24, 1871.

From the Port Chester (N. Y.) Journal.

Narrow and Broad Gauge Railways.

There seems to be a variety of opinion with Engineers and Railway Managers, in reference to the most suitable gauge for Railways in the United States, some advocating the narrow gauge, others the medium (4 feet 8½ in.,) while many are decidedly in favor of the broad gauge (6 ft.) But the whole thing can be taken in at a glance by any practical man, let him be an engineer, or hewer of wood, or a delver of the earth, viz: different localities require different gauges. For instance, the Railway now building from here to Danbury should not be over a three foot gauge, for such a road would cost but little over one half as much to build, equip and run for the next ten years, as the 4 ft. 8½ in. road would cost, which in ten years would be a saving of at least two millions of dollars in investment, interest and economy in running, and would do all the business that possibly could be offered in the above named time. The ties, at the end of ten years, would be rotten and would have to be replaced; the iron or steel could be taken up and used in building branches to the various lateral villages which, in that time, would naturally spring up, and the narrow gauge could be replaced by a 4 ft. 8½ in.; while, in the meantime, the transportation of material could be done by the narrow gauge preparatory for laying the broad gauge, much cheaper than by horses and carts.

The great objection urged by the opponents of the narrow gauge, is the re-shipment of freight, which is a mere bagatelle compared to the immense saving which, probably, on a fair computation would not be over one-eighth or one tenth of the amount saved. In other words, if a 4 ft. 8½ in. would pay 7 per cent. per annum for the ten years, the narrow gauge would, for the same time, pay 40 or 50 per cent. Therefore, as well might you, Mr. Editor, have an elephant to draw

a horse's load, or a giant to do a boy's work, as to build broad gauge roads where narrow gauge will do as well. In the meantime, I will merely add, that there are some localities near our large cities, which will in a short time, for comfort and economy, require much broader gauges than ever yet has been introduced in this or any other country, the detailed plan of which I will give you in your next issue; a road that will be free from dust and cinders, a traveling Palace, which will be comparatively free from noise; in which lectures, concerts, or political speeches can be given to five or six hundred persons who are comfortably and pleasantly flying over the earth with entire safety, at the rate of 30 or 40 miles per hour; a road that will accommodate the multitude of people living in the city of New of York at less than half the rates now charged, yet will be highly remunerative to the stockholders, and be the great breathing artery for our noble metropolis. ***

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings of this road for the years ending December 31, 1869 and 1870, compare as follows:

	1869.	1870.
From passengers	$840,773 54	$843,830 25
" freight	2,090,542 76	2,269,038 36
" express	85,562 61	72,993 67
" mail	61,993 00	61,993 00
" rents	49,304 57	56,218 75
" interest and dividends	14,019 15	19,481 63
" miscellaneous	694 28	4,725 39
	$3,142,889 91	$3,328,281 05
Expenses, viz:		
Transportation exp.	$707,070 80	$758,232 35
General expenses	68,147 93	64,598 07
Repairs of locomotiv's	179,861 87	189,224 54
Repairs of pass. cars	37,940 76	54,062 61
Repairs of freight cars	102,420 97	117,317 46
Repairs of track	469,654 20	514,281 23
Repairs of buildings	35,619 12	47,550 59
Repairs of fences	5,650 92	12 473 95
Repairs of bridges	28,256 38	24,110 26
Oil, tallow and waste	38,309 99	36,951 78
Fuel account	261,719 17	309,503 87
Damage to stock	4,827 05	5,630 20
Loss and damage to freight	8,495 47	18,978 34
Gratuities & personal damages	9,273 45	17,666 85
Telegraph expenses & repairs	23,153 04	34,420 53
Balance car service	34,454 01	80,736 33
	$2,014,855 13	$2,285,738 96
Net earnings	$1,128,034 78	$1,042,542 09
Interest and taxes	322,588 38	357,772 08
Balance	$805,446 40	$684,770 01
Add balance from previous year		152,347 40
Total		$837,117 41
Deduct two dividends of 3½ pr ct. each		742,528 50
Surplus December 31, 1870		$94,588 91

Compared with the previous year the gross earnings of 1870 show an increase of $185,391 14; with an increase in working expenses of $270,883 83—making a decrease in net earnings of $85,492 69. Deducting interest and taxes, the net income shows a decrease of $120,676 39. The total tonnage moved in 1870 was 935,840; and in 1869, 825,464—increase, 110,376, or 13.37 per cent. The increase of earnings from freight transportation during the same period was $178,495 60. The report says:

It will be observed that large expenses have been necessary to operate and maintain the equipment of the company, owing, mainly, to a large increase in freight tonnage.

The competition between rival trunk lines continued through the year to such a degree as to show a less percentage of increased earnings than increased tonnage, mileage and expenses.

The principal traffic of your railway being freight, the necessity for an increased equipment is apparent by the balance paid in mileage on the cars of other railroad companies.

The coal from the Hocking Valley mines having proved superior for locomotive use, it has been determined to change the freight locomotives to coal burners, as rapidly as repairs are needed on them. The price at which this coal can be obtained at Columbus, warranting the conclusion that the change will reduce the expenditures for fuel.

The expenditures in the engineer's department have been large. The increase over the previous year arises to some extent from the increased traffic and consequent wear, but mainly in the fact of a large amount of renewals being required on the Indianapolis Division. A marked improvement has been made in the track on that Division, but the renewals of iron for the coming year should be equal in miles to the past.

The Indianapolis and St. Louis Railroad Company, (of which this company owns one-half the capital stock,) opened its railroad for business July 11, 1870, and its earnings for the remainder of the year were very satisfactory, being at the rate of over $8,000 per mile per annum, with the local traffic almost entirely undeveloped. Extensive preparations are being made, by owners of coal lands, for mining the superior "Block Coal," found in large quantities along its line of road. The traffic to and from that mineral region will increase largely.

The necessity having arisen for this company to have an independent connection with the City of Cincinnati under its own control, to enable it, at all times, to furnish its eastern railroad connections a through route satisfactory to them, your Board of Directors concluded a contract which will secure that result at an early day, and submitted the same to a special meeting of the stockholders, on the 25th day of January, 1871, at which meeting it received their unanimous approval.

The business relations of your railroad with connecting roads are harmonious.

The company have 90 locomotives, 43 first class passenger, 2 palace sleeping, 15 baggage and express, 5 mail, 926 box, 224 stock, 390 flat, 54 coal, and 38 caboose cars. Four locomotives were added during the year—two freight and two passenger. The two freight engines were constructed for burning coal, and six others were changed to coal burners during the year. The company have now nine coal burning locomotives. The working of these engines has thus far proved successful and satisfactory.

The total number of passengers carried was 559,728, of whom 487,244 were way and 72,484 through. Number of passengers carried one mile, 28,561,844. Tons of freight carried, 935,840. Total tons carried one mile, 148,875,519. Average rate per ton per mile, 1.524 cents.

Number of miles run by passenger trains, 777,449; by freight trains, 1,675,329; gravelling and repairs, 48,670; fuel, 107,585—total, 2,609,333. Cost per mile run for repairs, 7.21 cents.

The condition of the road has been steadily improved during the year—18¼ miles having been relaid with Bessemer Steel Rail, and 37¾ miles with new and rerolled iron rail. Fifty miles have been ballasted, and 164,051 cross-ties put in the track.

The assets and liabilities of the company, as shown on its books, are as follows:

Assets.		
Cost of road, depots, shops and equipment		$12,624,416 97
Materials on hand:		
For repairs track and fences	$90,072 60	
For repairs cars and engines	150,675 46	
Fuel, oil and waste	130,906 93	
		371,654 99
Cash and cash assets:		
Cash in hands of Treas.	$454,036 61	
Due from agents	58,415 49	
Due from other Cos.	200,345 85	
Due from Post Office Department	13,068 05	
		725,866 00
Other assets:		
Indianapolis & St. Louis Railroad stock	$300,000 00	
Indianapolis & St. Louis Railroad bonds	335,000 00	
Indianapolis & St. Louis Railroad trustees	73,998 40	
Scioto & Hocking Valley Railroad bonds	2,000 00	
Real estate not used for road and depots	24,202 29	
Wood lands	44,114 06	
Pendleton Stone Quarry	4,915 46	
Bills receivable	12,592 73	
		796,822 94
		$14,518,760 90
Liabilities.		
Capital stock		$11,620,000 00
Less amount owned and held by this company		859,100 00
		$10,760,900 00
C., C. and C. R. R. mortgage bonds $25,000 falling due each year		365,000 00

Bills audited		246,580 99
Dividend No. 6, payable Feb. 1, '71		376,516 00
Previous dividends unpaid		5,675 00
Surplus		94,588 91
		$14,518,760 90

President.—Oscar Townsend.

Vice President.—H. B. Hurlbut.

Directors.—L. M. Hubby, Oscar Townsend, H. B. Hurlbut, A. Stone, Jr., Selah Chamberlain, Geo. Worthington, S. Williamson, T. P. Handy, Wm. Collins, Cleveland, O.; Horace F. Clark, Augustus Schell, New York; Jno. Miller, Columbus, O.; Jno. W. Burson, Muncie, Ind.

Secretary and Treasurer.—Geo. H. Russell.

Superintendent.—E. S. Flint.

Chief Engineer.—Frank Ford.

☞ The Queen Anne's and Kent Railroad has been completed to Centreville, Md., and the cars will soon be placed upon the road. This road connects with a branch of the Delaware Railroad from Townsend to Massey's, at which point the Kent road unites. The ultimate terminus of the road in Queen Anne's county, is to be at Queenstown, near the Chester river, a few miles beyond Centreville.

☞ The St. Louis *Times* says that twenty miles of grading has been completed on the Arkansas branch of the Iron Mountain road south of Annapolis. It is expected the road will be at Schaeferville by the 29th inst.

Richmond and Petersburg Railroad.

The receipts from operations of this road for the fiscal years ending September 30, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$82,128 57	$81,159 77
" extra baggage and express freight	4,533 58	5,864 22
" U. S. mail	4,936 25	3,675 00
" freight	65,656 34	70,518 87
" miscellaneous	3,691 12	9,475 57
	$160,945 86	$170,693 43
Expenses, viz:		
Repairs of road	$23,954 53	$14,024 74
" bridges	140 50	56 05
" depots, &c.	2 129 92	2,130 73
" engines	6,790 00	7,711 09
" cars	13,699 08	6,872 48
" tools, etc.	83 08	708 74
Oil, tallow and waste	1,470 66	1,794 10
Wood	10,417 45	6,543 07
Train expenses	12,928 24	13,386 01
Depot	6,999 99	7,350 45
Officers' salaries	7,800 00	6,900 00
Stationery, etc	1,874 81	1,650 91
Insurance on buildings	1,431 55	2,477 55
Taxes	2,490 05	2,855 43
Loss and damage	222 00	392 20
Clover Hill trans. exp.	6,683 81	5,689 00
All other expenses	24,986 17	39,773 23
	$123,601 84	$120,315 78
Net earnings	$37,344 02	$50,377 65

Included in the above expenses for 1870, are the following pertaining to extraordinary expenses:

New buildings	$3,118 53
Reconstruction	13,586 17
New freight cars	1,104 32
New coal cars	6,452 87
James River Bridge	7,454 90
Total	$31,717 39

—deducting these, will leave the total ordinary expenses $88,598 39; and the net balance $82,095 04, or about 48.10 per cent. of receipts. The President in his report says:

The receipts of the road exceed those of the preceding year $9,747 57, and exhibit the largest earnings of any year during its existence, omitting the exceptional period of the war. They would, it is believed, have been still greater but for the general stagnation in business during the past summer, causing a decline in coal and local freights. The operating expenses have decreased $3,286 06, and thus an improvement in net income is shown of $13,033 63.

In accordance with the resolution passed by the stockholders at their last annual meeting, application was made to the legislature to create a new loan for $175,000, to renew that for a like amount which became due the first of September last. A copy of the act is herewith submitted, which, under the resolution of the stockholders, was accepted by the Board. The new loan was directed by the Board to consist of one hundred and seventy-five bonds of one thousand dollars each, to be dated the first day of April, 1870, bearing interest at the rate of eight per cent. per annum, principal and interest payable at the office of the company in this city, and the principal to become due in instalments of $25,000 each year, commencing with the first of April, 1880, until the whole shall have been paid. These bonds were readily negotiated on more favorable terms than the previous loan of 1865. The proceeds were used to meet the payment of the bonds which matured the first of September last, all of which have been paid and cancelled except six, the ownership of which is the subject of litigation. The whole funded debt of the company remains now the same in amount as at your last annual meeting, namely, $319,000.

The negotiations which were pending when you last met for the lease of our James river bridge and tracks, to make a connection between the Richmond, Fredericksburg and Potomac Railroad and the Richmond and Danville Railroad, for the conveyance of passengers, mails and express freights between those two roads, were satisfactorily concluded shortly after your adjournment. This connection has been in operation since the first of Septmeber last, but it is yet too soon to form an accurate estimate what income it will produce to this company. For the month of September there was reported 1,686 passengers and 159,242 lbs. of express freight, producing, at the rates agreed on, $672 06. For the month of October, 1,113 passengers were reported, producing $417 37. The express freight for that month, and the mail pay for both months, have yet to be ascertained.

It will be noticed from the accompanying tables that the receipts from through travel again show an increase over those of the past fiscal year, and we have reason to expect a continuance of a profitable income from this branch of our business. The completion of an all rail route between Richmond and Washington by the Fredericksburg and Alexandria Railroad, now in process of construction, will expedite travel between those two cities so greatly as to place it beyond competition, and our road must of necessity share in the increased number of passengers thereby induced to pass north and south through Richmond.

In addition, when the Chesapeake and Ohio Railroad shall have been extended to the Ohio River, both Richmond and Petersburg must be largely benefited by so direct a communication with the productive and populous States of the west and northwest, while, with the growth of these two cities in business and population will follow a very great and permanent enhancement in the revenue and the traffic of this road.

The tonnage of through freights this year has exceeded that of the past fiscal year more than fifty per cent. The quantity of coal transported during the twelve months was very slightly in excess of that of the preceding year, while the amount received for this service was rather less, owing to a reduction made in the charge for the transportation of fine coal. I am advised by the President of the Clover Hill Railroad Company, as well as by Mr. Franklin Stearns, President of the Winterpock Coal Company, that they are prepared, and, in conjunction with the pits of Messrs. James H. Cox & Co., intend to raise a greater quantity of coal for transportation this year than has ever yet been sent to market from that region. It is reasonable, therefore, to expect the present year a considerable addition to the tonnage, and consequently to the revenue derived from the movement of coal.

The material condition of the property of the company is much better than at any period since the close of the war, and consequently its business can be more economically managed. Each year, as the roadway, rolling stock and machinery are put in better order, the cost of maintenance must diminish. It is the well considered opinion of railroad experts that no road can be made profitable to its owners unless it is put in good order and kept so. The officers of this company have labored diligently to accomplish that result with this road. In pursuance of this policy two hundred tons of extra quality iron rails were contracted to have been delivered on the first of October last, but have, from several causes, been delayed. They are now daily expected, and when laid down will enable our efficient and skilful roadmaster to put the whole track in excellent condition to pass through the winter weather. An addition to the number of our freight and coal cars is needed to provide for those growing classes of our business. Some other expenditures have been authorized by the Board, involving, however, only a moderate outlay. When they shall have been made, and our present small floating debt paid off, the net earnings of the road may again be regularly divided among the stockholders, as was the case for so many years prior to the close of the war.

The company have 7 locomotives, 3 first class and 7 second class passenger cars, 3 baggage and express, 27 box, 15 platform, 93 coal, and 10 gravel cars; besides this company's proportion of 10 first class, and 5 second class passenger, 5 baggage and 5 express and mail cars, in the through trains running between Acquia Creek and Weldon. Number of miles run, 91,869, at a cost for repairs of about 7.74 cents per mile run. Number of passengers carried, 60,515, of whom 29,520 were through, 29,038 local, and 1,957 Clover Hill passengers. Number of passengers carried one mile, 1,349,010. In addition to the above, 5,014 were carried free, and 14,946 on excursion trains. Tons of freight transported (including 38,893 tons of coal), 67,564. Tons carried one mile, 1,721,810.

The financial condition of the company September 30, 1869 and 1870, were as follows:

	1869.	1870.
Cash	$797 60	$3,773 60
Debts due to the Co.	51,798 67	21,432 47

Pres't and Sup't.—THOMAS H. WYNNE.

Directors, on the part of the stockholders, R. B. Haxall, B. W. Haxall and Charles Ellis, Richmond, Va.; and on the part of the State, John L. Bacon, Richmond, and F. R. Scott, Petersburg.

Treasurer.—M. W. YARRINGTON.

☞ Hon. John Cessna, President of the Bedford and Bridgeport railroad company, advertises in the Cumberland *News* for proposals, to be received until August 1st, for the graduation, masonry and bridging of the extension of that road to the State Line, about eight miles. "This is the road," says the *News*, "that is to be built to connect our coal fields with New York and elsewhere north and east by a route through Pennsylvania. These eight miles, with about three from the Cumberland and Pennsylvania railroad to the Maryland State line, will complete the connection."

☞ The construction of the Vineyard Sound, Mass., railroad is to be commenced in September, and completed by the 1st of June next.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 29, 1871.

Stock Exchange and Money Market.

Money has been quite easy all through the week, the supply having been in excess of the requirements of borrowers, whose wants have been readily met within the range of from 2@5 mainly 3@4 per cent., on call and at 4½@7½, chiefly 4½@6 per cent. per annum on very choice to good business credits. While the city banks have been losing in their deposit and specie lines, they have been gaining in their average of legal tender notes, so that they show a substantial increase of strength in their last weekly exhibit, as the result of the week's business. The U. S. Sub-Treasury office also added to its specie and currency reserves, and closed the week with the prospect of a further augmentation of its resources in both forms. The comparative tameness of the speculative movements in Gold, Bonds, and Stocks has been decidedly adverse to an active employment of Money for street purposes, and consequently, to anything like buoyancy, in the loan and discount rates. The city banks, last week, reported a loss of $1,616,293 of specie, with a gain of $1,844,794 of legal tender notes, and a loss of $1,797,231 of deposits. They reduced their loan and discount averages $1,273,509 and reduced their circulation $9,775. The city bank exchanges, last week, averaged $76,158,481; and thus far, this week, 78 millions daily. The banks now hold $19,035,095 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $1,219,483 of specie and of $136,612 of currency, as the result of the week's business. The receipts of the office were $4,823,361 in coin, and $3,304,843 in currency; payments, $3,603,878 in coin, and $3,168,231 in currency. The office received $3,269,000 in coin or its equivalent, from customs; and disbursed $1,406,000 of coin interest.

The specie reserve of the city banks according to the latest return is $18,141,987, against $34,358,612 same time last year. The city bank deposits are now $255,735,063 against $233,965,513 week ending July 23, 1870. The legal tender reserve amounts to $72,419,670 against $53,978,711 same time last year. The circulation now stands at $30,371,186, against $32,999,337 same time last year. The loans are now $300,068,724, against $286,090,798 at this date last year.

The U. S. Sub-Treasurer retired, last week, $2,975,419 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $6,089,145 in currency, and $60,222,872 in coin against a balance a week previous of $4,962,787 currency, and $59,512,868 coin.

Government revenues have been rather more prolific, since our last, particularly in the form of customs, in which there has been an important increase both at this, and at the outports. The excises yielded last week about three millions, thus far since July 1, $10,649,309. The customs at the port of New York, last week were $3,145,419; and at the outports, equal to about $1,050,000 more, all in coin, or coin certificates.

Gold has been less firm, and the speculation has shown but little spirit. The supply of gold available for prompt delivery has been more liberal. While the customs call has been more active, the export drain has been on a reduced scale. The range of the price during the week, has been from 111¾@112⅝, and the closing quotation on Wednesday was 112⅜ against 112½ the preceding Wednesday. The outflow, last week, was $1,479,859; and on Tuesday of this week, $65,000; and on Wednesday, $300,000. The Gold Exchange Bank clearances have been as follows: July 20, $19,189,000 July 21, $21,230,000; July 22, $33,777,000; July 24, $38,358,000; July 25, $30,044,000; July 26, $30,423,000.

The Treasury Department on Wednesday controlled a coin reserve of $84,032,000, including $20,306,000 on private deposit, represented by outstanding coin certificates.

The customs at this port on Wednesday were $490,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 24, 1871, $57,919,369, against $59,599,740 same time in 1870.

The export drain was $1,479,859 last week, against $6,107,352, same week preceding year. The shipments since January 1, 1871, have been $49,883,757, against $27,027,185 same time in 1870.

The customs demand for Gold last week, averaged $544,834 a day; thus far, this week, it has averaged $500,000 a day, or equal to a

weekly aggregate of $3,000,000. The arrivals of specie from Europe, Havana and other foreign ports last week were $112,656 and since Jan. 1, 1871, have been $3,346,156 against $7,317,101 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $85,015,650 against $74,084,498 same time in 1870.

Foreign Exchange has been in better supply, and quoted a fraction cheaper, yet has not been in anything like active request, and the tendency of rates at the close was in favor of purchasers. The offerings of produce bills were more liberal. Bankers' sixty day bills on London closed on Wednesday at 110@110¼; sight bills on London, 110½@110⅝.

The produce exports from this port, week ending with July 24, were to the currency value of $5,272,595.

Government securities show more firmness as to values, but the very limited offerings of all issues have been against an active business.

On Wednesday, Government bought in a million of Five-Twenties at 112 10@112 23, ex-interest. The amount of bonds offered was $2,608,800.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116⅛@116¼; U. S. Five-Twenties of 1862, 114@114¼; U. S. Five-Twenties of 1864 at 113½@113¾; U. S. Five-Twenties of 1865, 113¾@113⅞; U. S. Five-Twenties of 1865 consolidated, 112½@112⅝; U. S. Five-Twenties of 1867, 112⅞@113; U. S. Five-Twenties of 1868, 112⅞@113; U. S. Ten-forties at 113⅛@113¼; U. S. Six per cent. currency bonds, 113⅞@114.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 12.	July 19.	July 26.
Consols	93¾	93⅞	93⅝
U.S. 5-20's of 1862..	92⅜	92½	92⅝
U. S. 5-20s, 1865	91¾	92¼	92¼
" 1867	90¾	91⅜	91⅝
" 10-40s	90½	91½	91½
Erie.	——	24¼	——

State bonds have been in fair demand at steadier prices.

Railway bonds have been in quite moderate supply and fair request at well supported prices. Central Pacific Sixes closed on Wednesday at 98¾@99. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been selling to a fair extent at 92 per cent. and accrued interest. Union Pacific Sixes closed on Wednesday at 87½@88.

Business in Railway and miscellaneous share property has been very moderately dealt in, but values have been comparatively strong through the week. Towards the close, the dealings indicated less buoyancy.

The earnings of the Union Pacific R. R. Co., in June, were $728,174, against $746,450 same month last year; and from Jan. 1st to July 1, $3,410,285 against $3,797,916 same time in 1870.

General business has been up to a fair average degree of activity for the season. Breadstuffs and Provisions opened heavily but closed with more steadiness. Middling upland cotton closed on Wednesday at 20¾ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,923,276 bales, against 2,818,688 bales same time last year; exports 3,109,310 bales, against 2,160,916 bales same time last year; stock at the ports at latest dates, 170,490 bales, against 126,750 bales same date 1870.

At the Live Stock Markets, Beeves have been in rather more request at from 7@12½ cts; Veal at 4@9½ cts; Sheep at 4@6¾ cts; Lambs at 6@10¼ cts; Swine, 5¼@5½ cts per lb., all live weight. The week's receipts were 5,991 Beeves, 3,670 Veal Calves, 28,512 Sheep and Lambs; and 24,846 Swine.

Foreign goods have been in rather better demand as a rule, at uniform prices. The week's imports of foreign goods reached $6,094,317, including $1,941,029 of dry goods.

Ocean freights have been fairly active and rates have been generally quoted stronger.

At the auction sale of Scranton Coal on Wednesday, there were 130,000 tons disposed of at generally firmer prices, the range having been from 4.37½@5.55, against 4.37½@5.45 in June.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Alabama 5s, 70; do., 8s, 99; Georgia 6s, 84½; do., 7s, 93; do. 7s, gold, 98; South Carolina 6s, new Jan. and July, 56½; North Carolina 6s, special tax, 19½; New York State 7s, Bounty Loan reg., 108½; Arkansas 6s, Fund Act, 54; St. Louis and Iron Mt. R. R., 59½; do. 1st mort., 95; Cedar Falls and Minn. 1st mort., 84; Albany and Susquehanna R. R., 93; do. 2d mort., 95½; Illinois and Southern Iowa 1st mort., 83; Long Dock bonds, 90¼; New York and New Haven 6s, 100; Toledo, Wabash and Western consol. mort., 89; Galena and Chicago 2d mort., 98; Central of New Jersey new bonds, 104⅛; Toledo, Peoria and Warsaw 1st mort., E. D., 89; do. 2d mort., 78; Rome, Watertown and Ogdensburg R. R., 116; South Side R. R., 74½; Consol. Coal of Md., 36¾; Maryland Coal, 30; Cumberland Coal and Iron, 40; Spring Mt. Coal, 72; Western Union Tel., 57; Quicksilver pref., 12; Am. Mer. Union Exp., 53½; Adams Exp., 81⅝; Wells-Fargo Exp., 43⅜; U.S. Exp., 54¼; Central gold, 0.07; La Crosse, 0.20.

Philadelphia.—Belvidere Delaware R. R. 3d mort., 85; West Pennsylvania R. R. bonds, 82; Wilmington and Reading, 54⅞; do., 7s, 98½; Penn. and New York Canal 7s, 96¾; Harrisburg and Lancaster 6s, 92⅝: Allegheny Valley R. R. 7 3-10s, 95; Huntingdon and Broad Top Mt. consol. bonds, 47½; Warren and Franklin 1st mort., 92¼; Pennsylvania Canal 6s, 78½; Schuylkill Nav. 6s, 1895, 80; Catawissa 7s, 95; West Jersey R. R., 62¼; do. 7s, 103¼; East Pennsylvania R. R., 40; Chesapeake and Delaware Canal, 38; Fifth and Streets R. R., 45; Allegheny County, 5s, 76½. The latest quotations are: City 6s, 100½@100¾; do. free of tax, 100⅞@101; State 5s, conpon, 100@100; do. 6s, W. L., 102⅞@—; do. 1st series, 102@102; do. 2d series, 105@105¼; do. 3d series, 106½@108; Reading, 55⅝@55⅝; do. 7s, 1893, 105@105; do. mort. 6s, 1880, 95@97; Camden and Amboy, 126¾@127; do. mort. 6s, 1889, 95¾@96; do. 1883, 93@93½; do. 1889, 90@90; Pennsylvania R. HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau st., NEW YORK, July 24, 1871.

TO PERSONS DESIRING TO INVEST MONEY OR to FUND THEIR FIVE-TWENTIES, we offer and recommend with the fullest confidence, the FIRST MORTGAGE GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY as an ENTIRELY SAFE AND RELIABLE INVESTMENT.

The great value of the property now existing, in completed road in successful operation, RENDERS THE SECURITY AMPLE, AND INDEPENDENT OF FUTURE CONTINGENCIES.

THE TRAFFIC awaiting the extension of the Road to the Ohio River as a great East and West Trunk Line, now in progress and rapidly approaching completion, WILL BE IMMENSE AND PROFITABLE.

The experienced, prudent, and honorable management for which the Company is distinguished, and the well-known character of its officers and directors, are a sufficient guarantee of good faith, and insure for their securities a high credit and standing in the market, which must render them always popular and salable.

The exchange of Five-twenties for these Bonds may be made with a profit of about 20 per cent. and a continuance of 6 per cent. gold interest.

Price, 92 and accrued interest from May 1. The Bonds are in denominations of $1,000, $500, $100.

FISK & HATCH.

☞ The Pennsylvania portion of the Atlantic and Great Western Railway, extending from Salamanca in the State of New York to Dayton in the State of Ohio, together with the Franklin and Meadville Branch and the Oil City Branch, was sold at public auction in Philadelphia on the 22d inst., and purchased by Senator Thurman, of Ohio, for $620,000.

☞ The New York portion of the Atlantic and Great Western Railway was sold at Jamestown, N. Y., on the 19th inst., and purchased by Senator Thurman for $655,000.

☞ The Ohio portion of the Atlantic and Great Western Railway was sold at Akron, Ohio, on the 26th inst., to Senator Thurman, for $4,435,500.

☞ At a meeting recently held in Boston, at which the Central Branch of the Union Pacific, Chicago, Burlington and Quincy, Hannibal and St. Joseph, Chicago and Southwestern and Atchison, Topeka and Santa Fe Railroad Companies were represented, it was agreed to construct a bridge across the Missouri river at Atchison, the work to be commenced immediately.

Chesapeake and Ohio Railroad.

Reports continue to multiply concerning new connections building and to be built as feeders to the new trunk line between Eastern ports and the Mississippi Valley. The latest incorporation is the Kentucky and Great Eastern Company which proposes to build an Air Line from Covington opposite Cincinnati to Cattellsburg on the West Virginia boundary, thence by the Chesapeake and Ohio road, now nearly completed, to Charleston or Greenbrier, and thence by roads now building to Pittsburg or Chambersburg, Pa. It is claimed that this line will be 120 miles shorter between New York and Cincinnati than the present Pennsylvania Central route. The very heavy profit derived from East and West transportation, by the two great lines in operation, together with the certainty of an immense development of this carriage of Western produce, is stimulating new lines. Those having the best grade and cheapest fuel will naturally be enabled to have freight with the greatest profit, and in this respect very great advantages are claimed for the Chesapeake and Ohio route.

☞ The Minneapolis and Duluth Railroad is now completed from White Bear Lake to Minneapolis. This section of road will be operated by the Lake Superior and Mississippi Railroad Company, thus placing Minneapolis in direct communication with Lake Superior. The Minneapolis and St. Louis Railroad Company will immediately commence laying their track from the former city to Carver, where it forms a junction with the St. Paul and Sioux City Railroad.

☞ The Hempstead and Rockaway and the New York and Hempstead Plains Railroad Companies have been consolidated, thus affording a new route from Hempstead to Bay Ridge. The road is graded from Bay Ridge to Woodhaven, and in running order from Valley Stream to Hempstead. The remainder will take but a short time to be completed.

☞ The State of Arkansas has granted $15,000 per mile for the construction of the Kansas City and Fort Smith Railroad, which will cross the State line near Pineville, and be a connecting link between St. Louis and Chicago and the Great Southern Pacific.

☞ The Elmira *Advertiser* learns, on reliable authority, that the Erie Railway Company has purchased the Tioga Railroad and the Blossburg Coal Mines, paying therefor two millions of dollars.

☞ The Central Branch Union Pacific Railroad Company have made arrangements to extend their road up the Republican river to connect with the Union Pacific at the one hundredth meridian.

☞ Mr. William Lorenz, late Engineer of the Lebanon Valley Railroad, has been appointed Chief Engineer of the Philadelphia and Reading Railroad, in place of Charles E. Byers, deceased, and is now performing the duties of that office.

☞ The gauge of the Ohio and Mississippi Railroad was changed on the 23 inst., from 6 feet to 4 feet 9 inches along its whole length, a distance of 300 miles. The work of altering the gauge was completed between daylight and 11 o'clock, A. M.

THE NEW YORK
(VIADUCT)
RAILWAY COMPANY.

PUBLIC NOTICE.

The undersigned COMMISSIONERS of STOCK SUBSCRIPTIONS to the NEW YORK RAILWAY COMPANY, give notice that the **Books of Subscription** to the Capital Stock of such Company **WILL BE CLOSED** on the

31st day of August, 1871.

UNTIL THAT DAY the Books will remain open for Subscribers at the Banking House of

Duncan, Sherman & Co.,
No. 11 Nassau Street,

and also at the

Bank of the Metropolis,
No. 31 Union Square.

Until the Books of Subscription are closed, ALL SUBSCRIBERS for Stock will have the **Benefit of Interest** upon the several instalments paid, and as allowed to those subscribing within thirty days after the Books were opened.

Dated, NEW YORK, July 24th, 1871.

Alex'r T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

Cape Cod Railroad.

At the annual meeting of the stockholders of this company in Sandwich, on the 19th inst., the old board of directors was re-elected. From the report which was presented we learn that the receipts for the year ending May 31, 1871, were $294,466 16, and the expenses $206 198 25, leaving as net income $88,267 91. Of this latter sum, $63,857 50 were paid in dividends; $13,528 75 for State and United States taxes; $13,066 98 for interest; and $13,309 73 was carried to reserve fund account. The dividends for the year, including taxes paid by the company, are equivalent to 9¾ per cent. of the capital stock. A statement of the net earnings of the road for the last ten years shows that these are equal to an average annual dividend of 11 per cent. on the present capital stock, which is $784,620.

☞ A company has been organized at Hannibal, Ky., for the purpose of building a railroad from that city to Mexico. The name given to the corporation is the Hannibal, Rails and Mexico Railroad. The length of the road will be about 50 miles.

☞ The Little Rock *Gazette* says there are about forty miles of iron now at Argenta for the Cairo and Fulton railroad. Track laying will be commenced in a few days.

☞ The bill consolidating the New York and New Haven and the Hartford and New Haven Railroads has passed both branches of the Connecticut Legislature.

☞ The track of the Wisconsin Central Railroad Company is expected to reach Weyauwega by the middle of August.

Commerce of New York.

The foreign imports at New York for the month of June, 1870 and 1871, are officially stated as follows:

	1870.	1871.
Entered for consumpt'n.	$12,267,278	$14,778,185
Do. for warehousing	10,484,645	13,382,176
Free goods	1,475,026	2,086,100
Specie and bullion	188,150	1,352,006
Total entered at port...	$24,415,094	$31,598,417
Withdrawn fr. wareh'use	8,354,527	8,711,237

The foreign imports at New York for the six months from January 1, were:

	1870.	1871.
Entered for consumpt'n.	$79,876,027	$103,644,062
Do. for warehousing...	65,389,082	77,625,103
Free goods	6,441,746	15,822,807
Specie and bullion.....	7,162,959	4,742,052
Total entered at port...	$158,860,814	$201,834,024
Withdrawn fr. wareh'se	60,434,872	63,198,325

The foreign imports at New York for the fiscal year ending June 30, were:

	1870.	1871.
Entered for consumpt'n.	$151,655,454	$194,498,898
Do. for warehousing...	115,614,843	131,133,036
Free goods	13,358,510	23,097,561
Specie and bullion.....	12,940,161	9,443,737
Total entered at port..	$293,568,968	$358,173,232
Withdrawn fr. wareh'se	115,445,811	114,423,936

The following is a description of imports for the fiscal year ending June 30:

	1870.	1871.
Dry goods.....	$96,414,276	$126,123,210
Gen. merchandise	184,214,531	222,606,285
Specie and bullion....	12,940,161	9,443,787
Total imports.....	$293,568,968	$358,173,232

The revenue from customs at New York for the fiscal year ending June 30, were:

	1870.	1871.
In June.....	$9,740,549 89	$10,092,909 95
Add 5 mos.....	57,841,261 21	63,599,197 98
Six mos..... ...	$67,581,811 10	$73,692,107 93
Fiscal year.....	129,134,119 85	141,421,292 68

The exports from New York to foreign ports in the month of June, were:

	1870.	1871.
Domestic produce..... ..	$16,811,500	$17,482,767
Foreign free goods.....	38,395	71,712
Do. dutiable.....	851,088	890,659
Specie and bullion.....	4,257,362	8,604,738
Total exports	$21,958,345	$26,999,876
Do. exclusive of specie.	17,700,983	18,395,138

The exports from New York to foreign ports for six months from January 1, were:

	1870.	1871.
Domestic produce.....	$82,699,623	$110,265,583
Foreign free goods	273,806	533,100
Do. dutiable	5,317,385	4,263,264
Specie and bullion....	16,840,600	41,554,622
Total exports.....	$105,131,414	$156,616,569
Do. exclusive of specie.	88,290,814	115,061,947

The exports from New York to foreign ports for the fiscal year ending June 30, were:

	1870.	1871.
Domestic produce.	$188,720,230	$213,306,021
Foreign free goods	525,596	611,328
Do. dutiable.....	8,999,561	8,799,517
Specie and bullion....	33,497,155	82,905,497
Total exports.	$231,742,542	$305,622,363
Do. exclusive of specie.	198,245,387	222,716,866

☞ The cars now run regularly to Damariscotta, Me., over the Knox and Lincoln Railroad.

Journal of Railroad Law.

RAILROAD COMPANIES—RESPONSIBILITY AS COMMON CARRIERS—LIABILITY FOR MISTAKE OF AGENT.

The facts in the recent case of Meyer *vs.* The Chicago and Northwestern Railway Company, (24 Wis., 566.) are fully and fairly stated in the following opinion by

COLE, J.—It is perfectly certain that the goods were lost in consequence of the mistake of the agent at Jefferson station, who entered them on the way-bill sent to Chicago as consigned to "T. Weil & Company," instead of "J. Weil & Brothers," as they were marked. The goods were plainly and legibly marked, so that there could be no mistake about the consignees; and it was the obvious duty of the agent to see that they were properly entered on the way-bill. This he did not do, but through carelessness he entered the goods as though consigned to "T. Weil & Company." Consequently when the employees of "J. Weil & Brothers" called for the goods at the freight depot at Chicago, they were told that there were no goods there for them. And the mistake was not discovered until the goods were burned, with the freight depot, shortly after. Now, the question is, should not the company be held responsible for the mistake of its station agent at Jefferson in thus entering the goods on the way-bill sent to Chicago, so that it failed to point out the true consignors?

It seems to us a very plain ground of liability, to hold the company responsible for the negligence and mistake of the agent in failing to enter upon the way-bill the names of the proper consignees. The owner was not at fault, for he had delivered the goods to the station agent at Jefferson, marked in a plain and intelligible manner. And the employees of the consignees called for them at the proper freight depot at Chicago, and were told by the freight agent that they were not there. The goods were entered on the way-bill as consigned to other parties, and as a consequence they were not removed, but were destroyed by fire with the depot in which they were when called for by the assignees. If the freight agent at Chicago had examined the marks upon the goods, or if the station agent at Jefferson had not been guilty of great negligence in entering them upon the way-bill, the loss would not have happened. And it seems to us a very plain proposition, that the company is responsible for these mistakes of its agents. The Jeffersonville R. R. Co. *vs.* Cotton, 29 Ind., 498.

It is said by the counsel for the carrier, that the evidence clearly shows that the goods were safely transported to Chicago, the place of consignment, and placed in the depot of the company, and then its responsibility terminated, before any loss or damage occurred. The Court below, however, instructed the jury that the liability of the carrier continued until it had given notice to the consignee of the arrival of the goods. But whether this was a correct view of the law or not, we do not deem it material to inquire, since the evidence clearly shows that the loss occurred in consequence of the mistake of the Jefferson station agent in entering the names of the consignees upon the way-bill. Had it not been for this gross blunder and mistake, the employees of J. Weil & Brothers would have obtained the goods when they called for them before the fire occurred. It was then in consequence of the negligent acts of the agents of the company, whose duty it was to enter the goods properly in the way-bill, that they were destroyed; and the company upon every principle ought to make good the loss. This being so, the instructions of the Court become immaterial.

The judgment of the Circuit is affirmed.

New Railroads in Maine.

A vote of the people of Bath, 300 yeas to 61 nays, last week authorized a grant of the city's bonds to the additional amount of $243,000 in aid of the Knox and Lincoln railroad. With other resources already in hand, the company has now enough to complete the road, which is now in operation from Bath to Wiscasset, and the rails laid some distance further to Damariscotta. To Rockland, the eastern terminus, the road will be speedily completed, when the seaboard line of Maine will have been finished from the Piscataqua, the western boundary, to Penobscot Bay, a distance of some one hundred and forty miles. This is in addition to the seacoast and inland line of the Maine Central Company, of which the aggregate mileage operated is now some three hundred and thirty-five miles, representing a stock and bond capital, we judge, of some twelve million dollars.

The Knox and Lincoln road will have absorbed in its construction and equipment some $2,800,000, though the distance is only fifty-two miles and the building has been conducted by the company with all practicable economy and without the usual addition of contractor's profits. It is excellently built, equipped with the very best cars and engines, and is pronounced, by all railway men who have gone over it, the smoothest and easiest new road they have ever ridden upon. Indeed, the cars run as smoothly and easily as over the best pieces of old road to be found in the United States.

The president of the company is Oliver Moses, Esq., of Bath, one of the famous ship-builders of Maine, and among his associates in the direction are such substantial citizens as Henry Ingalls, of Wiscasset; Francis Cobb, of Rockland, and others of the leading men of that rich and long-settled portion of the state.

One considerable item of the cost of this road is the crossing or turning of great arms of the sea met on its route, estuaries which receive the rivers that drain an area equal to a third part of New England. The crossing at Bath, the chief harbor of the Kennebec, is effected by a powerful steamboat, on which the cars are ferried across, in like manner as formerly over the head of Chesapeake Bay at Havre de Grace.

At Wiscasset the road touches a harbor, which, considering its roadstead approach from the sea, (latitude 43° 46′ to 44°), is deemed the finest in the world. Never obstructed by ice, with the best anchorage ground, a wide channel, land-locked in every part, this harbor, with its roadstead, is the admiration of every mariner. It is said to be the only one in the world where the Great Eastern steamer can approach at all stages of the tide and at low water swing at her anchors. At the wharfs of Wiscasset there is forty feet of water at low tide, while the long, costly railroad bridge which crosses above the harbor is laid in sixty-one feet of water at high tide. The maximum rise and fall of the tide is twelve feet. The money and work expended on this road would have readily built two hundred miles of railroad in the prairie country of the western states.

In the western part of Maine, the Portland and Rochester road, just completed to the New Hampshire line, was formally opened on the 11th instant. By July next the completion of the Nashua and Rochester road will have supplied the completing link of the short-line railway connection from the waters of New York Bay and Long Island Sound to Casco Bay at Portland and the railway system of Maine.

The Portland and Ogdensburg Railroad is making rapid progress in Maine as well as in Vermont. The Maine end of the enterprise has at its head a man of great resolution, character and resources, General Samuel J. Anderson, who will not be found wanting in any scale of efficient qualities nor in any part fall below the Vermont standard. The Maine division is now opened to North Conway, and enjoying, besides a desirable local traffic, the profitable summer travel which flows to the White Mountains and their neighborhood.

In the eastern part of the state the European and North American road is approaching completion. Large construction parties are urging on the road from either end of the line of uncompleted work, the two parties being supplied with rails from tide-water at Bangor and St. John, N. B., respectively. The officers in charge make no doubt that the construction parties will meet with finished work in season to inaugurate the opening of the entire line of the road in September, as contemplated. This done, the line of railway will be continuous from Halifax to San Francisco. The building of the European and North American line in Maine is of great advantage, present and prospective, to Bangor especially, and is a notable demonstration of what was from the first the true railway policy of Maine, to wit—railroads to the interior in as direct a line as possible, generally northward, from her tide water towns to the interior. People of this generation will doubtless survive to behold in that state the positive and undeniable benefits of this policy, which, now that the East and West travel is fairly supplied with railway facilities, will soon be demonstrated in the construction of roads, probably at first on the cheaper narrow-gauge system, from the seaports of the Atlantic as directly north as may be to the interior of the state, where present resources of traffic, in mineral products and the yield of the forest, await the building, which will soon be followed by increased development of agriculture and manufactures.

For this prospective traffic in Piscataquis county, with its large area of timbered lands, two companies are already contending, to wit: the Maine Central, with its large hold upon the present railway system, and the Piscataquis company, which has its headquarters at Bangor. Surveying parties of the two companies are meeting each other in the Piscataquis towns, and one or both of these energetic corporations will soon have their rails laid to receive the traffic which is already developed at and around the southern shore of Moosehead Lake.—*Stockholder.*

Commerce of Philadelphia.

We compile from the tables of the Philadelphia *North American* the following statistics of the commerce of Philadelphia for the year ending June 30, 1871, compared with those of the previous year:

	Exports, 1870.	Exports. 1871.
In American vessels...	$4,921,796	$6,385,656
In foreign vessels.....	11,981,276	11,517,546
Total.....	$16,903,072	$17,903,202

Among the export values were $442,944 in crude petroleum, $12,266,195 in refined petroleum, $1,006,611 in cooperage, $2,207,876 in breadstuffs, $215,229 in molasses, $228,104 in tallow, $117,019 in lard, $116,403 in pork, $110,000 in gold coin, $17,000 in silver coin.

The imports during the same periods were as follows:

	1870.	1871.
In American vessels...	$9,132,127	$10,108,865
In foreign vessels.....	5,368,670	7,619,141
Total	$14,500,797	$17,728,006

The amount of duties collected was, for the year ending June 30, 1871, $7,196,786 97, against $8,345,794 01 for the previous year.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

DIRECTORS.

Alexander T. Stewart, A. Oakey Hall.
William M. Tweed, John Jacob Astor,
August Belmont, Peter B. Sweeny,
Charles A. Lamont, Levi P. Morton,
James F. D. Lanier, Hugh Smith,
Franklin Osgood, William T. Blodgett,
William Butler Duncan, Richard O'Gorman,
John J. Bradley, Jose F. Navarro,
Charles L. Tiffany, Henry Smith,
William R. Travers, Edward A. Wesley,
Joseph Seligman, Manton Marble,
Richard B. Connolly, John Taylor Johnston,
Henry Hilton.

HENRY HILTON,
President.
HUGH SMITH,
Vice-President.
W. BUTLER DUNCAN,
Treasurer.

EDWARD P. BARKER,
Secretary.

By authority of the Board of Directors of THE NEW YORK RAILWAY COMPANY, and in conformity with the terms of the Act of Incorporation in that respect, the undersigned Commissioners on Stock Subscriptions give public notice for and on behalf of the Directors, and of such Company, that Books of Subscription for the Capital Stock thereof will be opened on WEDNESDAY, the TWENTY EIGHTH DAY OF JUNE instant at the following places in this City, viz:

At the Banking House of
DUNCAN, SHERMAN & CO.,
No. 11 Nassau street.

At the Banking House of the
BANK OF THE METROPOLIS,
No. 31 Union square.

The Company is authorized to construct two Viaduct Railways or branches through the City of New York, on the east and West sides thereof, from a common starting point at or near Chambers-st., between Broadway and Chatham st.; also across the Harlem River and through Westchester County; with power to build additional lines of railway or branches, from time to time, in any part of the City or Westchester County. *The property acquired by the Company is exempted from taxes and assessments during the period allowed for the final completion of the railway in the city.* The Mayor, Aldermen, and Commonalty of New York are authorized and directed, with the approval of the Commissioners of the Sinking Fund, to subscribe for **five millions of dollars** of the stock of the Company, whenever one million of dollars thereof has been subscribed for by private parties. *This conditional amount of stock has been wholly subscribed for and taken by the Directors of the Company.* On the completion of either of the lines of railway to the line of Westchester County, the Supervisors of that County are authorized to issue the bonds of the County to such amount as the Supervisors shall deem expedient, to aid in the construction and extension of the railway in and through that County. For the proper equalization of the interest of shareholders who may subscribe and pay in moneys at different times, the Directors are authorized to issue scrip for interest on such payments, payable out of the earnings.

THE TERMS OF SUBSCRIPTION will be as follows:

TEN PER CENT. of the amount of Stock subscribed for, to be paid in cash at the time of subscription. The residue to be paid as called for by the Board of Directors on a notice of thirty days, but no call at any one time to exceed ten per cent.

Scrip for interest at the rate of seven per cent. per annum will be issued by the Company payable out of the first earnings of the Railway on all installments paid on stock subscribed for within thirty days after the Subscription Books shall be opened.

The Company reserve the right to close the Subscription Books at any time after the twenty-ninth day of July, 1871.

By order of the Board of Directors,

Alexander T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

New York, June 16, 1871.

Camp's Improved Dump Car.

Some time ago we gave from the *National Car Builder* a notice of the above patent. Messrs. A. W. Rhoads & Co., of this place who own the patent, have had built a car at the works of the Wyoming Valley Manufacturing Company in this place, which they have been testing for some days past upon the Lehigh Valley railroad at their excavation for the car shops of the company. Supt. Drumheller and Mr. Frank Montgomery of the L. V. road thoroughly tested the working of the car, and are fully satisfied that there is a great saving of labor in its use, and there is no doubt that the patentees will, so soon as its virtues are known, be unable to fill orders for the car. We gave heretofore a description of the working of the car, which needs but to be seen to be comprehended and appreciated by contractors and railroad men.—*Wilkes Barre Union.*

☞ The grading of the Milford, Hopkinton and Ashland Railroad has been awarded to Mr. John J. Powers of Providence, R. I., one of the roadmasters of the Providence and Worcester Railroad, which corporation will probably run the road in connection with the Milford and Woonsocket Railroad, when finished, which will be in about nine months. The distance is eleven miles.

☞ A company was organized at Spirit Lake, Iowa, on the 6th inst., for the purpose of constructing a road from Spirit Lake in a southeasterly direction through the counties of Buena Vista, Clay and Dickinson, in Iowa, to a junction with the Dubuque and Sioux City road at or near Buena Vista.

Taxes on Interest Coupons.

The following is a copy of the decision of the Solicitor of the Treasury on the liability of corporations to pay taxes withheld under the decision of the Commissioner of Internal Revenue:

DEPARTMENT OF JUSTICE,
OFFICE OF THE SOLICITOR OF THE TREASURY,
WASHINGTON, D. C., July 21, 1871.

SIR.—I have the honor to acknowledge the receipt of your letter of the 3d ult., transmitting one from the auditor of the joint railway companies of New Jersey, and one from the Commissioner of Internal Revenue, in relation to claims for taxes under the act of July 14, 1870, made on said companies by the Internal Revenue Office. It appears that on the 27th of February, 1871, the Commissioner of Internal Revenue decided, in respect to the liability of corporations to a tax on interest coupons under sections 120 and 122 of the act of July 30, 1864, as amended by the act of July 14, 1870, that no tax should be withheld from interest or coupons representing interest falling due and payable within the period of five months from August 1, 1870, to December 31, 1870, and that interest falling due on or subsequent to January 1, 1871, is taxable at the rate of two and a half per cent. If such interest accrued either prior to August 1, or subsequent to December 31, 1870, from so much of it as accrued within the last five months of 1870 no tax whatever is to be withheld. Acting in accordance with this decision, the joint companies of New Jersey, on the 1st of May, 1871, having a coupon interest falling due deducted from the holders of the coupons one and two thirds per cent. tax only, being the proportion of the two and a half per cent. accruing in 1871. On the 11th day of May, 1871, the Attorney General, to whom this question had been referred by the Secretary of the Treasury, having decided that the tax on interest or coupons imposed by the fifteenth section of the act of July 14, 1870, is applicable to interest paid subsequently to August 1, 1870, and prior to January 1, 1871, the Commissioner of Internal Revenue, on the 14th of May, 1871, in accordance with instructions from the Secretary of the Treasury, revoked his former decision and made one in conformity with the opinion of the Attorney General. When the companies who, by the fifteenth section, above referred to, are authorized to deduct the tax in question made a return of the amounts retained for the government to the Collector of the district they were informed of the revocation of the decision of February 27, and a demand was made for a return of the two and a half per cent. Upon application to the Commissioner on the 26th of May, ultimo, requesting that, as they complied with the instructions of the Department in making a return of one and a half per cent. they be permitted to make such return to the assessor, they were informed that he could not accede to the request unless authorized to do so by the Secretary of the Treasury. Upon this state of facts my opinion is asked whether the companies can be legally or equitably held to account for the deficiency that has occurred in consequence of the action of the proper officer of the government.

Such being a brief history of the question involved in this case, I have to say that the Commissioner of Internal Revenue is the recognized authority under the law and in practice, through whom decisions upon questions arising under the Internal Revenue laws are promulgated to the public. His decision of the 27th of February was one, therefore, upon which the applicants in this case had a right to act. The joint railway companies of New Jersey did act upon it, so far as to adjust the interest due upon their coupons and pay the same to the holders thereof. The companies can only be regarded, under the law, as the agent of the government in reserving the tax from their bondholders and paying the same into the Treasury. They acted in this case under the direction of the principal, in the first instance, and by reason of that proper action have become involved in the present controversy. It is, perhaps, fair to assume that, owing to the change of ownership, which is constantly occuring in this form of property, the companies would be unable to enforce the collection of the balance of the tax now held to be due from those to whom the interest was paid, and from whom, in fact, the tax is due, and it could not legally be enforced to the injury of any persons from whom the tax was not due.

I deem it unfortunate for the government that the question has assumed an attitude where the alternative seems to be to compel the Department to forego the collection of a proper tax in the simple manner pointed out by the statute, or expose it to the charge of working a greater or less degree of injustice upon the companies or their bondholders. Under all the circumstances I am of the opinion that legally and equitably the Department is under the necessity of yielding to the present request, and of desisting from enforcing the collection of the tax in question from the companies who prefer the application. Enclosures returned.

I am, very respectfully,

E. C. BANFIELD, Solicitor of the Treasury.

To Hon. GEORGE S. BOUTWELL, Secretary of the Treasury.

Chicago Extension of the Baltimore and Ohio Railroad.

It is known that the engineers of the Baltimore and Ohio Railroad are now engaged in surveying a direct route for the extension of their road from Pittsburg to Chicago, and that when the route is finally determined upon it will be built without delay. The survey is completed, we are informed, from Pittsburgh to Havana, a small station on the Lake Erie Division of the Baltimore and Ohio Railway, eight miles south of Monroeville, Ohio. From thence it is expected, according to the programme now being pursued, the line will run to Defiance on the Toledo, Wabash and Western Railway, crossing on its way the Dayton and Michigan Railway at a point now called Ellsworth. If we are rightly informed, the engineers are now at work on this part of the line. From Defiance it is expected that the engineers will work their way along the Bryan, and through Lagrange and Steuben countries to Laporte.

This route is being pursued under the impression that distance is saved sufficient to atone for a loss of advantages offered by one passing through Toledo. It can be shown, however, that for the line of the Baltimore and Ohio Railroad to come direct from Havana to Toledo, and to run on a line located about midway between the old and air-line route of the Lake Shore and Michigan Southern Railway to Chicago, will only increase the distance about fifteen or twenty miles over the line now in process of survey. And the superior advantages to the Baltimore and Ohio Road of locating this extension through Toledo are so manifest that few of them need only be presented to the President and Directors of that road to persuade them to change their plan accordingly. We wish earnestly to call the attention of the people of Toledo to this subject, that they may take prompt and energetic measures to secure this road before its location elsewhere is fully concluded upon.

We can say that by the route through Toledo the road would afford a paying business forthwith, which the route being surveyed further south would not do, a great part of it lying through a new country, which will not be developed for years to come. Along the line through Toledo the road would cross fewer junction points, and consequently suffer less reduction through competition. At Toledo, also, better connections can be made for through business with the canals and main lines of railway which concentrate here. The Miami and the Wabash and Erie Canals bring a large grain business to Toledo which this road cannot intercept at a point remote from the Lake. Grain freights as all business men know, seek the lake before embarking for the ocean. Here the Baltimore and Ohio Road would get at least a share of the ocean bound freights which it could not get elsewhere.—*Toledo Blade.*

Debt of Boston.

The following statement is from the Annual Report of Mr. Alfred T. Turner, Auditor of Accounts of the City of Boston:

	Total Debt.	Means on hand for paying.	Net Debt.
1865.	$11,497,699 32	$1,621,255 41	$9,876,443 91
1866.	12,180,250 70	3,039,590 32	9,140,660 38
1867.	13,021,463 15	4,440,278 82	8,581,184 83
1868.	14,146,900 65	5,199,369 72	8,947,530 93
1869.	17,304,435 80	6,869,989 11	10,434,446 69
1870.	21,818,411 93	9,215,881 25	12,602,580 68
1871.	26,666,436 78	11,632,959 91	15,033,476 82

The Auditor classifies this debt as follows:

City debt proper	$14,666,690 09
Water debt (net cost of the Water Works)	9,219,896 64
War debt	1,914,500 00
Roxbury debt	663,850 00
Dorchester debt	201,500 00
Total	$26,666,436 73

Kentucky and Gt. Eastern Railroad.

About three months since a railroad company was organized at Cincinnati as the Kentucky and Great Eastern Co., with S.W. Morton, of New York, as President; A. J. Hoddes, as Vice-President, and Generals Fremont and Banks, Judge Cutler, of Marietta, Ohio; J. M. Duke, of Maysville, Kentucky, and James T. Brady, of Pittsburg, Pa., as directors. The object was to construct a road from Cincinnati to Catlettsburg, Kentucky, under a charter granted by the Kentucky Legislature last year.

It now appears that the real plan is to build another railroad from Cincinnati to New York City, through Kentucky, across West Virginia to a point in Virginia; thence by roads now constructing through York and Reading, Pennsylvania to the eastern terminus. Those interested claim that the new route to New York will be one hundred and twenty miles shorter than the route by the Pennsylvania Railroad; and in equaling distances by reason of curves and grades, the new route will be the shortest by a little less than two hundred miles. It is announced that work will be commenced in Kentucky within three months, and that the whole line will be finished in less than three years.

Storing Coal.

The Lehigh Coal and Navigation Company are making surveys of their land a short distance above Mauch Chunk upon which it is proposed to store their coal, mined when the market is not in the condition to take it. The Delaware and Hudson Canal Co. have done this for a long time and find it very profitable. The location has not yet been decided upon. This is a new departure for the old company, and we hope it will be found to be successful in a pecuniary point of view. The coal mined at Summit Hill during the winter, when trade is dull, will be stored on this side of the river, and shipped by canal when prices are better, in the spring and fall. Coal from Newport mines will be stored on the other side of the Lehigh if the company deems it advisable. It is expected that there will be sometimes as high as two or three hundred thousand tons on hand at these yards.—*Mauch Chunk Gazette.*

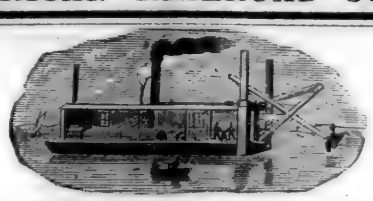
☞ Operations will be begun next week on the railroad between West Amesbury and Newton, N. H., the road connecting with the Boston and Maine road at the latter place. The distance is five miles, and the cost will be about $115,000 William H. Haskill of Amesbury is President of the road.

Port Huron and Owasso Railroad.

Many of our citizens having purchased bonds of the new railroad running from Port Huron to intersect the several trunk lines north of that point, will be glad to know that it is being pushed with becoming vigor. The road is now completed to Lapeer and will reach Flint in two or three months. The line is established west of Flint (keeping on the old "Stuart" route, directly west to Owasso). At the latter point it will intersect the Detroit and Milwaukee road, and from thence it will be carried northwest to the Central. When completed this "cut off" will shorten the distance between all points west, and Suspension bridge to Buffalo, some fifty miles. It can hardly fail to become a profitable link in the great chain of through roads. *Albany Journal.*

Wellington Grey and Bruce Railway.

This company has issued bonds to the amount of $575,724 bearing 7 per cent interest per annum, and the whole amount has we learn been disposed of at very satisfactory figures. About $350,000 (£71,000 stg) has just been taken up in England at 90, the remaining portion of the issue having been subscribed in Canada. The lowest price realized was 87, but only a small amount was sold at this figure. These bonds are subject to acquisition—not absolutely guarantied as some suppose—by the Great Western Railway Company at par, by annual drawings in January and July of each year. This is the full amount of bonds that the Company are entitled to issue—$12,000 per mile—the 48 miles of road from Guelph on to Harriston, the last portion of which is soon to be opened. Altogether the financial management of this road has been conducted with great skill, and so far with complete success.—*Toronto Monetary Times.*



Planting Trees by Railroad Tracks.

The Lake Shore and Michigan Southern Railroad Company have commenced the work of planting trees alongside the tracks of their road—11,000 chestnuts and 10,000 European larches having been planted along its line between White Pigeon and Toledo, through the country where the forests have been mostly cleared away and the supply of timber is scantiest. The work was most thoroughly done, with intention that every tree might live, and the cost including the time of the laborers, who belong to the regular force of the road and did this work in connection with and in addition to their ordinary duties, was an average of eight cents per tree; excluding the labor of the company's ordinary employees the cost was only four cents per tree.

HEYERDAHL, SCHONBERG & CO.,

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines, and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1871.

A DIVIDEND OF FIVE PER CENT. IN CURrency, free of Government tax, has been declared by the Board of Directors of this Company, payable on the 1st day of August next to the holders of full-paid shares registered at the close of the 15th day of July next, after which date and until the 5th day of August next the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer

NOTICE TO CONTRACTORS AND BRIDGE BUILDERS.

DEPARTMENT OF SURVEYS,
224 South Fifth Street, Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until three o'clock P. M. of September 6, 1871, for the construction of a Bridge over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, with approaches to Twenty fifth and Spring Garden streets, in the Fifteenth ward, and to a point about 144 feet westward of Thirtieth street, in the Twenty-fourth ward, as follows:

First. For the Bridge superstructure over the river, including all materials, workmanship, and erecting ready for use. It will be of wrought iron, 348 feet from centre to centre of end posts, and 34 8-10 feet from centre of lower to centre of top chord, and also two trusses for Thirtieth street, to be 84 feet from centre to centre of end posts, and 10 5-10 feet from centre of lower to centre of top chord, also of wrought iron. Detailed plans with complete strain sheets for these bridges, conforming to specifications, to accompany proposals, which on main Bridge shall give prices for both a two and three truss bridge.

Second. For all the iron work on *approaches* to be erected complete, as per plans and specifications.

Third. For the gradation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of the contract. The City reserves the privilege of rejecting any and all bids that may not be satisfactory, and each proposal as herein divided will be considered separately and will be so allotted.

Payments will be made monthly in bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond for the sum of five hundred ($500) dollars has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock.

Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained, on and after the 22nd day of July, inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE
GOLD BONDS
OF THE
RONDOUT AND OSWEGO
RAILROAD.

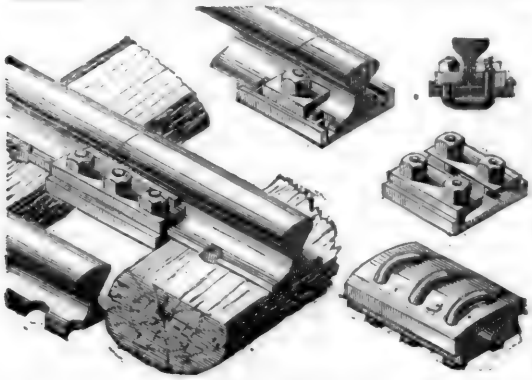
Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.

The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.



Full particulars of the above may be had of, and the Bonds for sale by,

Steamship Company's
LINE TO
California, Japan and China.

VIA PANAMA,
CARRYING MAILS, PASSENGERS AND FREIGHT TO
KINGSTON, JAMAICA, AND PACIFIC COAST OF MEXICO, CENTRAL AMERICA, PERU, AND CHILI.

Steamers leave 15th and 30th each month, except when those days fall on Sunday, then the day previous.

July 29, steamer RISING STAR, Capt H. P. Conner, will leave Pier No. 42, North River, at 12 o'clock noon, for Aspinwall direct, connecting at Panama with steamer COLORADO Capt. Parker, touching at Punta Arenas, Acapulco, and San Jose Guatemala, and also connecting for all Central American and South Pacific ports.

Freight for last-named ports received until 4 P. M. of July 27.

Steamer AMERICA will leave San Francisco August 1, for Japan and China.

For rates of passage, freight and all further information, apply at the Company's office on the pier, foot of Canal street.

☞ FIRST MORTGAGE SINKING FUND LAND GRANT BONDS OF THE ST. JOSEPH AND DENVER CITY RAILROAD COMPANY, WESTERN DIVISION.

The St. Joseph and Denver City Railroad Company, having successfully built and equipped the Eastern Division of its road, extending from the City of St. Joseph, Mo., to the City of Marysville, Kansas, a distance of 112 miles, is now actively engaged in the construction of the Western Division of this line of railway, extending from Marysville, Kansas, to a junction with the Union Pacific Railroad at Fort Kearney Station, a distance, including side tracks, of 170 miles.

For the purpose of building and equipping this road the Company have executed and delivered to the Farmers' Loan and Trust Company, *in trust*, $5,500,000 of First Mortgage Sinking Fund Land Grant Railroad Bonds, in denominations of $1,000, $500 and $100 to be countersigned and issued only in conformity with the Mortgage Deed, which is:

First—For cash.

Second—A limited amount for iron and material. The cash is placed to the credit of the Company in trust, and can be drawn out only in payment for fully completed road, in sections of ten (10) miles each, at the rate of $16,000 or $22,000 per mile, respectively, until the entire completion of the road, when the balance of the loan will be paid over to the Treasurer of the Company for equipment purposes.

The iron (the equal of gold) and materials are brought under the subjection of the mortgage, made to secure the payment of the bonds.

To secure the payment of interest and principal of these bonds the Company have made a *first* (and only) mortgage on their Western Division Road, completed and to be completed, from Marysville to Kearney Station, at a junction with the Union Pacific Road, a distance of 160 miles, with 10 miles side tracks, making a total distance of 170 miles, including rolling-stock, motive power, depots, machine-shops, telegraphs, equipments of every description, rights of way, franchises, cash on deposit in any bank or trust company, and lands lying twenty miles on either side of the railroad, granted to the Company by the United States Government, amounting to 1,500,000 acres, and real and personal property of every description which the Company now own, or may hereafter possess, lying between Marysville and Kearney, and equipments appertaining to this Division of the Company's Road.

The entire property is mortgaged to the Farmers' Loan and Trust Company, of the City of New York, as trustees. The mortgage is dated May 14, 1870, and under it, and as their security, these bonds are issued.

The bonds are now ready for sale and delivery through the undersigned; holders and parties desiring to purchase will recognize that they can do so with perfect safety, as their value is always represented either by lands equal in value and a completed and equipped road—iron or cash in trust company. The mortgage expressly covers cash on deposit in bank or trust company.

The undersigned are authorized to announce the decision of the company to sell their lands on the line of the road.

Under the mortgage deed given to secure these bonds no land can be sold at a less price than $4 per acre.

The lands being mortgaged to secure the payment of these bonds, this lien on any portion of the land can only be removed by paying to the trustees, as mortgagees, the full amount of the purchase money of any land sales.

The fund is applied as follows:

First—To the payment of the interest on the bonds during the construction of the road, and, if necessary, for the space of four (4) years.

Second—To the payment of the principal of the bonds.

The payment of the principal before maturity is not compulsory to the holder of the bonds, but should holders desire to sell, the trustees are authorized to purchase, but not over a premium of fifteen per cent.

Every bond purchased under this authority is immediately canceled.

If the bonds can not be bought at one hundred and fifteen, the trustees are authorized to invest the proceeds of land sales in the bonds of the United States, States of New York, Massachusetts and Illinois, and hold the same as a sinking fund for the redemption of these bonds at maturity.

The following banking corporations of the City of New York are designated depositories of this loan:

Farmers' Loan and Trust Company.
United States Trust Company.
Union Trust Company.
Manhattan Company.

The bonds have thirty years to run from May 14, 1870, payable in gold, in the City of New York.

They bear interest at the rate of eight (8) per cent. per annum, payable in GOLD, free of tax, semi-annually, on the 15th days of February and August, in New York, London, or Frankfort, O. M., at the option of the holder, without notice, and in the currency of the country in which the coupon is presented.

The equivalent of currency is at a uniform rate of exchange, and is expressed in the coupon.

They are coupon bonds, but may be registered in the owner's name, with the coupons on, or they can be converted into a registered bond by the surrender of the coupons and the interest paid to the registered owner at any of the three points where the coupons are payable.

The consolidated mortgage is at the rate of

$15,000 per mile of road, and $2 per acre of land.

The bonds are offered for the present at 97½ and accrued interest, in currency, with the reserved right to advance the price without notice.

All kinds of marketable securities will be received at the current market value, without commission, in payment of this loan.

Expressage relating to the loan will be free.

Maps, pamphlets and documents furnished on application.

It is believed no loan can be offered which rests on a more solid foundation than this loan of the St. Joseph and Denver City Railroad Company.

The most careful and critical examination of the Company's lands by experienced parties, and the estimates of prejudiced persons, have placed their value at not less than $5 per acre, while others estimate them at a higher figure. The offers which the Company have received for them fully justify the assertion that the proceeds of their sale will pay off this loan, and leave the road free of bonded debt. These bonds are receivable at par and accrued interest, in payment of any lands sold under this mortgage.

The Company recognizing the principle that an element of strength in all loans is the provision made for its redemption, and in making their mortgage a consolidated one, covering both road and lands, have wisely made provision for the payment of this loan by the sale of their landed estate, which is not needed in operating the road, but which was granted to the Company by the United States Government for the express purpose of aiding them to construct and operate this road.

The St. Joseph and Denver City Railroad connects at St. Joseph with railways running direct to St. Louis, Hannibal and Toledo on the east, and connecting as it will with the Union Pacific Road on the west, is a very important link in the continental chain of railways. It also has through railway connection with Chicago. A very large part of the line is graded, and track-laying being now far advanced, will continue rapidly until the junction with the Union Pacific Road is made.

We have been at great expense in the examination of this property and the bonds, and are satisfied the investments in this loan will not only be safe, but profitable. We base our calculations on the fact that the First Mortgage Bonds of this Company, on the Eastern Division, lately successfully placed by our firm at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent. advance.

Under all circumstances, we unhesitatingly recommend them.

TANNER & CO., Bankers,
No. 11 Wall Street.

Vera Cruz and Mexican Railway.

The railroad from Vera Cruz to the City of Mexico, according to a recent report of the engineers, is completed for a distance of 186 miles, leaving 110 miles yet to be opened, the length of the entire line, including a branch to Puebla. The gross receipts during the 1870 on the part of the line from the City of Mexico to Puebla, a distance of 116 miles, amounted to $667,000, and the receipts on the line from Vera Cruz to Paso del Macho, a distance of 47 miles amounted to $197,170. During 1870 the passengers carried from Mexico to Puebla were 118,990 in number. The chief obstacle to the completion of this line has been the great Methlac ravine, a natural fissure of formidable dimensions, which is 900 feet long and 370 feet deep. At first it was proposed to cross this ravine by constructing a viaduct, but after a resurvey a plan was adopted by which the road is to run along the cliff of the ravine for some distance until it reaches a spot where the fissure can be bridged by a work of comparatively insignificant dimensions.

☞ Mr. J. C. Sharpless has been appointed to superintend the construction of a narrow gauge railroad connecting Painesville, Ohio, with Lake Erie.

☞ The gauge of the Louisville and Cincinnati Short Line Railroad is to be changed to the narrow gauge on August 13.

Georgia Railroad and Banking Co.

The earnings of this road for the years ending March 31, 1870 and 1871, were as follows:

	1870.	1871.
From passengers	$399,689 65	$395,153 65
" freight	931,302 89	1,082,119 71
" mail	21,037 01	22,825 21
	$1,352,029 55	$1,500,098 57
Expenses, viz:		
Conducting transp	$182,149 12	$228,905 41
Motive power	268,584 62	273,704 77
Maintenance of way	253,137 28	276,009 14
Maintenance of cars	44,240 83	53,939 95
	$748,111 85	$832,559 27
Earnings less expenses	$603,917 70	$667,539 30
Deduct extraordinary expenses, viz:		
New depots	$12,023 16	
New locomotive engines	48,857 67	
New cars	105,232 70	
Old locomotive engines rebuilt	28,567 42	
New tools and stationary engines	4,695 35	
Government tax on gross receipts	4,727 29	
New culverts	1,335 92	
		205,440 01
Net income		$462,099 29

Compared with the previous year the gross errnings of 1870–'71 show an increase of $148,069 02; with an increase in expenses and payments, both ordinary and extraordinary, of $108,800 34 —making an increase in the net profits of $39,-268 68. The President in his report says:

The profits of the company from all sources, may be stated thus:

Receipts from road operations		$1,500,098 57
Dividends on stock, interest and rent		45,338 36
Net receipts from bank earnings		9,216 88
		$1,554,653 76
Charged with expenses and all payments on road account	$1,037,999 28	
Inter'st, salaries, taxes, &c	48,703 46	
		1,086,702 74
Net from all sources		$467,951 02
From these profits two dividends have been declared, $4 each, free from all tax		340,886 30
Balance to reserved fund		$127,064 72

The gross earnings of the road have been very satisfactory, but it will be seen that the expenditures have been very heavy. Whilst outlays continue so heavy for purposes beyond ordinary expenses, the net profit must of course be correspondingly reduced. The extraordinary expenditures are all charged to profit and loss account, and the charges against income are distinguished as ordinary and extraordinary, that the stockholders may the better judge of the economy of management. It will be noticed, that the earnings of the banking department have been small, and somewhat less than the receipts for the previous year. This resulted from the fact that our cash capital (previously small) was mostly absorbed in some extra outlays and investments, by which interest and discount account were of course reduced. Beyond the purposes of a safe fixed agent for railroad purposes, we have not expected to make much profit by banking, until our banking capital can be increased. In truth, large profits by banking are not to be expected without the privilege of issue; especially whilst so many other institutions are paying interest on deposits. As an auxiliary to our other business, however, the means of advancing to merchants and business men, are very desirable, and as one means of supplying this want, the board proposed an increase of capital to an extent not exceeding of $5,000,000; and obtained permission of the Legislature for that purpose. Subscriptions were obtained to the amount of $44,800, and the subscription suspended until the sense of the stockholders could be had on this mode of increasing the resources of the company. The sense of the convention is respectfully asked on this subject. The very heavy outlays necessary for improvement of property, and to secure our Southwestern connections, as explained in our last Annual Report, added to the inducements to increase cash resources in some form. This could only be done by increased subscriptions to capital, by an increase of bonded debt, or by sale of securities. These resources have all been partially resorted to, and by reference to the state of the company now exhibited, and compared with that of last year, you will find

Capital stock increased	$44,800
Bond account increased	65,500
Stocks and bonds of other companies reduced	13,000
	$123,300

These have been very small aids to very heavy expenditures, but unless it be deemed expedient to increase cash capital for banking purposes, the existing resources with the accruing profits, it is hoped, will serve all the necessary wants of the company.

The increase of profits the past year was entirely in the freight department, the passenger receipts having fallen off, as anticipated in the last year's report. The increase in freights was partly from an increased receipt of 32,000 bales of cotton, but mainly from an improvement of our Western connections, and the large increase of our business in that quarter. This business has become very important to us, and constitutes our surest reliance for a summer business. This business was greatly threatened by the dilapidated condition and inefficient management of the State road—and without some change would soon have been lost or greatly reduced—hence the zeal with which all connecting roads offered every facility to consummate a lease to a private company, by which it is believed the danger to this important business will be averted. The stockholders are referred to the remarks of the Superintendent on this subject, whose position has enabled him to speak from close observation and trying experience.

Though the heaviest expenditures have been made for extra purposes, very heavy outlays are still to be made. In fact much heavier expenditures should be made than the resources of the company will warrant, if the policy be adhered to of keeping up the present rate of dividend, and it is believed that no change is at present contemplated.

Further advances to the Macon and Augusta

road will become a necessity, if that road is to be finished and run by this company—the branches should be improved by a better rail on some parts of them, and the whole main line, not already renewed, should be renewed with heavy rail and fish bar, in the style lately adopted on the renewed parts of the road. It is the worst economy to operate an imperfect road, when a company have the means to prevent it. Our road is now safe, and much of it first class; but still there are some rough places requiring ballast and new rail, which should be provided as soon as the means of the company will allow.

The prospects of business for the present year are not very promising. The low price of cotton has left the planters with little or no surplus, or in debt, and all business the past year has been done upon a declining market, and little surplus profit has been left for pleasure, travel, or consumption of luxuries. From present indications, we may anticipate a largely reduced crop of cotton for the present year, and an increase of the provision crop. This seems to be indicated by the reduced shipments of guano, and the increased area devoted to grain crops. This may be better for the country, but it is not favorable to the profits of railroads.

The board will not enlarge, however, on the future prospects of the road. Contingencies are continually presented that no human sagacity could anticipate. The results of the war, and the destruction of Southern capital, have had a tendency to change the channels of trade from Eastern and Western into North and South lines, and whilst Southern roads were dilapidated and impoverished by the war, the Northern and Western roads were strengthened and enriched by it—hence the base lines north of the Potomac, not satisfied with the immense business properly belonging to them, are, it is said, ambitiously crossing the Ohio and encroaching upon Southern soil, upon which Southern enterprise has mainly relied for legitimate profit. By capital from abroad, and by bribery and corrupt legislation at home, all calculations for the future are unreliable, and the future of railroads, and in fact many other interests, are left in doubt and uncertainty. The multiplied dangers of increased competition, by multiplication of competing roads, we have no power to oppose, and can only to some extent counteract their effects by prudence, close economy, and a judicious application of the means remaining to us.

The company have 52 locomotives, 28 passenger, 8 baggage, 2 mail, 413 box, 109 platform, 22 coal, 35 stock, 13 cab, 2 wood and 15 shanty cars. Miles run by engines, 910,753, an increase over the previous year of 111,630. Miles of road in use, 231. Bales of cotton transported, 170,267. Bushels of grain, 553,069. Barrels of flour, 58,027. Nine new locomotives have been added during the year—one passenger and eight freight—also 1 first class passenger, 112 box, 1 mail, 5 stock, 8 platform, 5 coal and 2 wood cars. The outfit of locomotives is now complete, and the stock of cars ample to do all the business that is likely to be influenced over the road. The Superintendent in his report says:

We have laid down during the year, about 23½ miles of new iron on Main Line, 4¾ on the Athens Branch, and not quite one mile on the Washington Branch, in all about 29 miles; this besides 1,728 bars and 394 flanges in our repair shops at Union Point; equal to 2¾ miles track. The track is in very good order, in fact, is in better condition than at any previous time since the close of the war, if not better than ever before. For the next year you will require new iron in quantity and at points as follows: 2 miles below mile post 15; 7 miles, to take the place of the balance of the old "U Rail" between mile post 40 and Camak; 5 miles between Camak and Buckhead, and between Buckhead and mile post 150, about 10 miles; making 24 miles on main line. Also, will need about 5 miles on the Athens Branch, and 2 miles on the Washington Branch, making in all about 31 miles, which is very little more than was laid down during the past year.

The earnings of the Macon and Augusta railroad were $67,382 46; and the expenses, $87,039 90—showing an excess of expenses over receipts of $19,657 44. In addition to which $32,975 36 have been paid on account of that company and the contractors for finishing the road.

In reference to the Lease of the Western and Atlantic Railroad, the Superintendent says:

The business connections of this road with ours and other roads has been greatly improved by the lease of it to a private company. The business of that road is now promptly and satisfactorily done, and the irregularities and delays so embarrassing to connecting roads, and so annoying to the public, have been greatly lessened or entirely removed. The efficient management of railroads, like all other business, requires experience, skill and that close and honest attention which is stimulated by interest, and acquired by experience. These qualifications are rarely expected in employees under political management, where no qualification but party adherence is often required, and where there is no reliance for a continuance in office but party ascendancy. This road was paying nothing to the State, but on the contrary, rapidly accumulating a debt. The disposition made of it was therefore, evidently a wise one for the State, as well as a great relief to connecting roads. Without some change, it would have been impossible to have continued much longer the through connections with the West, in which the merchants and consumers of western produce are so much interested. The writer speaks on this subject from experience. As President of a connecting road, he was obliged to carry for months, from one hundred to a hundred and fifty thousand dollars for the Western and Atlantic railroad, rather than require merchants and consumers in Georgia, at great loss and inconvenience, to send money to the different cities in the West to prepay their freight over this link in the line.

The policy of leasing having been wisely adopted by the State, the policy of the roads in offering their companies as security, to which there is no possible risk, I think equally wise. This gives them some claim to overlook the management of the road, in which they, as well as the citizens, are so much interested.

The following is a condensed statement of the condition of the Georgia Railroad and Banking Company on the 31st of March, 1871:

The road and its outfit		$4,156,000 00
Real estate		114,078 66
Banking house and lot		35,000 00
Road expenses and expenditures for the road	$1,214,568 62	
Incidental expenses & salaries	13,674 56	
Interest on bonds	40,653 49	
Interest account	6,304 45	
Tax to the State of Georgia	1,745 52	
U. S. tax on dividend No. 53	7,901 90	
		1,284,848 54
Materials on hand for road		100 211 17
Stock of other companies		1,253,580 01
Bonds of other companies		65,400 00
Discounted notes		1,139 88
Assessment on stock		207 50
Bills receivable		3,016 44
Note of Western R. R. Company of Alabama		87,813 78
Macon and Augusta R. R. Company		22,593 68
Survey Rabun Gap		1,781 10
Notes of old banks in Augusta		194,591 48
Gold		2,202 50
Cash		177,981 75
		$7,510,446 34

Capital stock		$4,195,600 00
Profit and loss		819,839 41
Income from railroad	$1,540,843 49	
Transp. of the mails	20,786 59	
Dividends on stocks	45,160 86	
Premium on stock sold	177 50	
Rent account	50 00	
		1,607,017 94
Bonds of this company		681,000 00
Bills payable		50,000 00
Dividends unpaid		46,710 62
Due to other corporations and ag'ts.		14,258 09
U. S. tax on coupons of this company retained		723 69
Deposits		3,689 26
Circulation		91,607 33
		$7,510,446 34

President.—JOHN P. KING.

Directors.—E. E. Jones, Edw. R. Ware, Samuel Barnett, Antoine Poullaine, James W. Davies, L. M. Hill, Richard Peters, George Hillyer, Stevens Thomas, James S. Hamilton, Geo. T. Jackson, M. P. Stovall, Thos. J. Burney, D. E. Butler, Josiah Sibley.

Gen'l Superintendent.—E. W. COLE.

Treasurer.—J. MILLIGAN.

Camp's Patent Dump Car.

An improved dump car has been on trial at the point along their road in this city where the L. V. R R. are excavating, which in the trial proved itself to be an excellent affair. The car is constructed to carry three cubic yards of earth in in such a manner that the preponderance of weight is always on the side it dumps toward. The box is mounted upon rockers, and secured from dumping by two hooks geared to a horizontal shaft, which in its turn is geared to a lever to be operated by the brakeman. The car being loaded, the brakeman raises this lever, thus releasing the box from the restraint of the hooks, when the weight of the load rolls the box over until it assumes a position at right angles with that it before occupied, discharging every particle of the load nearly a foot further from the track than by the ordinary gravel car. The brakeman then pulls the box past its centre of gravity, when it rolls back locking itself. An excellent feature of the car is that it will be dumped by the brakeman, allowing the laborers who may be near to continue their work without any stop to assist in dumping it. We understand that railroad men are in favor of its adoption, and that it is likely to soon come in use on the L. V. R R. Messrs. A. W. Rhoads & Co. of this city are the patentees.—*Scranton Rep., July* 24.

Foreign Commerce of Boston.

The exports of domestic produce for the six months ending June 30, 1871, amounted to $7,810,468, against, $5,600,902 for the corresponding period in 1870, showing a gain this year of $2,209,566. The re-exports of foreign merchandise in the same period of 1871 were $781,445, against $1,055,290 in 1870. The total value of foreign goods imported from Jan. 1 to June 30, 1871, was $31,442,721, while the imports during the corresponding period in 1870 were $25,698,257, showing an increase this year of $5,744,464. The amount of duties collected at the Custom House on imports during the first six months of 1871 was $10,523,467 69, against $9,639,062 61 for the corresponding period of 1870, showing a gain thus far this year of $884,405 08. The total number of vessels of all classes which have entered the port of Boston from foreign ports from Jan. 1 to June 30, 1871, was 1606, against 1484 in the same period last year, an increase of 122; and the foreign clearances during the corresponding months were 1436 this year, against 1396 last year, showing a gain of 40.

Railroads of New York.

The following is an abstract of the Report of the State Engineer and Surveyor upon the Railroads of the State of New York, as prepared by S. H. Sweet, Deputy State Engineer and Surveyor for the year ending September 30, 1870:

Number of companies from which annual reports are required, operated by steam	164
Same, operated by horse power	106
Number of companies organized during the year	42
Number of enactments relating to railroads passed during the year	51

STOCK AND DEBTS.

Roads operated with steam:	
Amount of capital stock by charter and acts of the Legislature	$335,370,210 00
Amount of capital stock subscribed for	213,232,606 40
Amount of capital stock paid in as by last report	135,523,388 11
Amount of capital stock now paid in	234,225,159 07
Amount of funded debt as by last report	57,112,855 48
Amount now of funded debt	107,238,276 93
Amount of floating debt as by last report	2,675,753 07
Amount now of floating debt	5,069,554 88
Total amount now of funded and floating debt	112,307,831 81
Roads operated with horse power, &c.:	
Amount of capital stock by charter and acts of the Legislature	$27,809,300 00
Amount of capital stock subscribed for	17,418,450 00
Amount of capital stock paid in as by last report	16,472,870 00
Amount of capital stock now paid in	16,763,480 00
Amount of funded debt as by last report	9,176,888 10
Amount now of funded debt	9,726,324 40
Amount of floating debt as by last report	734,948 40
Amount now of floating debt	938,215 71
Total amount now of funded and floating debt	10,664,540 11

COST OF CONSTRUCTION AND EQUIPMENT.

Roads operated with steam	$249,228,896 19
Roads operated with horse power, &c	23,481,268 74

CHARACTERISTICS OF ROADS.

Roads operated with steam:	
Length of road in miles	7,165.84
Length of road laid	4,773.60
Length of double track, including sidings	1,650.63
Length of branches laid	1,417.33
Length of double track on same	88.63
Length of equivalent single track	7,930.19
Number of engine houses & shops	293
Number of engines	1,675
Number of first class passenger cars	1,229
Number of second class cars	251
Number of baggage, mail and express cars	484
Number of freight cars	34,051
Roads operated with horse power, &c.:	
Length of roads in miles	884.74
Length of roads laid	309.81
Length of double track, including sidings	175.04
Number of dummy cars	25
Number of passenger cars	1,787
Number of freight cars	76
Number of horses and mules	10,315

BUSINESS OF THE YEAR—ROADS OPERATED WITH STEAM.

Passenger transportation:	
Miles run by passenger trains	13,916,438
Number of passengers, all classes, carried in cars	24,550,753
Number of miles travelled by passengers, or number of passengers carried one mile	912,626,984
Freight transportation:	
Miles run by freight trains	20,091,689
Number of tons carried in freight trains	20,972,212
Total movement of freight, or number of tons carried one mile	2,654,146,549
Classification of freight:	Tons.
Products of the forest	1,431,056
Products of animals	1,539,425
Vegetable food	3,557,363
Other agricultural products	709,303
Manufactures	1,650,597
Merchandise	2,070,448
Other articles	9,088,827
Not classified	525,193
Total	20,572,212
Roads operated with horse power, &c.:	
Number of passengers carried in city cars	154,591,871

EARNINGS AND PAYMENTS—EARNINGS.

Roads operated with steam:	
From passenger business	$20,694,357 82
Form freight business	45,162,057 27
From other sources	3,693,028 94
Total earnings	$69,549,444 03
Roads operated with horse power, &c.:	
From passenger business	$9,220,959 79
From freight business	52,659 36
From other sources	250,273 78
Total	$9,523,892 83

PAYMENTS OTHER THAN FOR CONSTRUCTION.

Roads operated with steam:	
For transportation expenses	$46,132,947 01
For interest	6,494,859 15
For dividends on stock	11,974,343 40
Amount carried to surplus fund	570 600 11
Not included above	4,205,705 53
Total payments	$69,378,455 20
Roads operated with horse power, &c.:	
For transportation expenses	$7,859,928 78
For interest	690,490 21
For dividends on stock	935,502 00
For all other payments	195,808 25
Total payments	$9,681,729 24

ACCIDENTS.

	Roads operated with steam.	Roads operated, horse-power.
Number of passengers killed	15	4
Number of passengers injured	48	54
Number of employees killed	107	2
Number of employees injured	107	—
Number of others killed	147	23
Number of others injured	149	49
Total number killed	269	29
Total number injured	264	103

REDUCTIONS FROM THE FOREGOING RESULT.

Roads operated with steam:	
Average number of miles travelled by each passenger	37.13
Average number of passengers in each train	65.58
Average number of miles each ton of freight was transported	129.02
Average number of tons in each freight train	126.98
Aggregate movement of passenger trains is equivalent to passing over the road	2,362 times
Aggregate movement of passenger trains is equivalent to passing over the entire single track	1,824 times
Aggregate movement of freight trains is equivalent to passing over the road	3,548 times
Aggregate movement of freight trains is equivalent to passing over the entire single track	2,739 times
Average number of trains passing daily over the road, about	16 2-10
Average number of trains passing daily over the entire single track	12½
Average cost per mile of road, for maintaining roadway	$2,672.32
Average cost per mile of road, for repairs of machinery	1,566.40
Average cost per mile of road, for operating road	8,718.61
Average cost per mile of single track, for maintaining roadway	2,063.30
Average cost per mile of single track, for repairs of machinery	1,209.42
Average cost per mile of single track, for operating road	2,871.14
Average sum received for carrying one passenger one mile	2.2675 cents.
Average sum received for transporting one ton of freight one mile	1.7016 cents.
Average number of miles travel for each passenger killed	660,841,798
Average number of miles travel for each passenger either killed or injured	14,486,142
Average number of passengers carried for each one killed	1,636,717
Average expense is 67.42 per cent. of all the earnings.	
Street railroads:	
Average sum received for carrying each passenger	5.9641 cents.
Average cost of carrying each passenger	4.0843 cents.
Average expense is 82.53 per cent. of the gross earnings.	
Average number of passengers carried for each one killed	38,467,968
Average number of passengers carried for each one either killed or injured	2,665,379

Deductions from the reports of several of the principal companies for nine years, showing, First. Average sum received per ton per mile for freight. Second. Average cost per ton per mile transporting freight. Third. Percentage of transportation expenses to gross earnings.

	1870. Av. per ton per mile. Rec'd for transporting.	Cost of transporting.	Per cent. of transport'n expenses on gross earn'gs.
Name of road.			
Erie Railway	1.38	0.98	74.62
Lake Shore and Mich. Southern	1.59	1.04	62.93
New York Central & Hudson Riv.	1.86	1.15	63.36
New York and Harlem	6.57	4.45	62.21
Ogdensburg and Lake Champl'n	2.57	1.62	62.08
Rensselaer and Saratoga	3.95	2.65	59.63
Rome, Watert'wn & Ogdensburg	3.75	2.92	64.12
Syracuse, Binghamton & New York	1.42	0.76	58.34

The following shows the number of miles of railroad opened for public travel in this State each year:

Yr.	Miles.	Yr.	Miles.	Yr.	Miles.	Yr.	Miles.
1831	17	1841	51	1851	227	1861	9
1832	23	1842	153	1852	237	1862	38
1833	1	1843	64	1853	371	1863	56
1834	31	1844	64	1854	109	1864	47½
1835	25	1845	62	1855	56	1865	118
1836	78	1846	[illegible]	1856	33½	1866	56½
1837	64	1847	25	1857	33	1867	94
1838	31	1848	244	1858	11	1868	169½
1839	55	1849	151	1859	23½	1869	370½
1840	None	1850	297	1860	72	1870	370½

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "§."

American Railroad Journal

Saturday, August 5, 1871.

Stock Exchange and Money Market.

The offerings of Money have been in excess of the more urgent requirements of street and mercantile interests, and rates have continued in favor of responsible borrowers, within the range of from 2@5 mainly 3 per cent., on call and at 4½@7, chiefly 4½@6 per cent. per annum on very choice to good business credits. Lenders have been eager to place balances, in a controllable form, at the going rates. The city banks, and the U. S. Sub Treasury have again enlarged their reserve of legal tender notes; and the Government office has also added nearly a million to its coin balances. The receipts of the Office in July were $71,987,704, against disbursements of $71,488,136, leaving the aggregate cash balance at the close of the month $67,059,180, against $66,559,613 at the close of June. The city banks, last week, reported a loss of $1,158,248 of specie, with a gain of $1,548,760 of legal tender notes, and of $1,282,941 of deposits. They reduced their loan and discount averages $16,439 and their circulation $11,061. The city bank exchanges, last week, averaged $70,659,029; and thus far, this week, 72½ millions daily. The banks now hold $19,102,637 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $913,862 of specie and of $503,983 of currency, as the result of the week's business. The receipts of the office were $4,224,060 in coin, and $3,824,555 in currency; payments, $3,310,198 in coin, and $3,020,572 in currency. The office received $3,128,000 in coin or its equivalent, from customs; and disbursed $1,058,140 of coin interest.

The specie reserve of the city banks according to the latest return is $16,983,739, against $30,263,890 same time last year. The city bank deposits are now $257,018,004 against $227,555,701 week ending July 30, 1870. The legal tender reserve amounts to $73,963,430 against $54,837,951 same time last year. The circulation now stands at $30,360,125, against $33,005,533 same time last year. The loans are now $300,052,285, against $281,939,843 at this date last year.

The U. S. Sub-Treasurer retired, last week, $2,889,373 of coin certificates received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $5,408,445 in currency, and $61,758,237 in coin, against a balance a week previous of $6,089,145 currency, and $60,222,872 coin.

Government revenues have given a fair yield to the National Treasury during the week. The excises yielded last week about 3¾ millions, thus far since July 1, $14,236,057. The customs at the port of New York, last week were $3,047,373.; and at the outports, equal to about a million more, all in coin, or coin certificates.

The amount of U. S. currency outstanding, August 1, was $396,197,386.

Gold has been rather steadier as to price, and offered with less urgency, yet has not been actively dealt in, on any account, particularly by speculative operators. The depression, early in the week, in the foreign exchanges, has been against a buoyant movement at the Gold Board. The specie outflow has been on a reduced scale. The customs call has been fair, exceeding a daily average of half a million dollars. The range of the price during the week, has been from 111⅞@112⅜, and the closing quotation on Wednesday was 112@112⅛ against 112⅜ the preceding Wednesday. The outflow, last week, was $1,053,584; on Tuesday of this week, $61,000; and on Wednesday, $108,679. The Gold Exchange Bank clearances have been as follows: July 27, $20 917.000; July 28, $32,134.000; July 29, $28,428,000; July 31, $25,385,000; August 1, $24,387,000; August 2, $17,884,000.

Government received at this port, from customs, in July, $12,459,997 in coin or coin certificates, against $11,139,760 same month in 1870.

The Treasury Department on Wednesday controlled a coin reserve of $88,742,710, including $19,468,700 on private deposit, represented by outstanding coin certificates.

The customs at this port on Wednesday were $596,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 31, 1871, $58,977,509, against $60,536,787 same time in 1870.

The export drain was $1,053,584 last week, against $6,935,847, same week preceding year. The shipments since January 1, 1871, have been $50,937,341, against $33,968,032 same time in 1870,

The customs demand for Gold last week, averaged $507,895 a day; thus far, this week, it has averaged $778,500 a day, or equal to a weekly aggregate of $4,671,000. The arrivals of specie from Europe, Havana and other foreign ports since Jan. 1, 1871, have been $3,346,156 against $7,317,101 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $88,147,685 against $77,051,932 same time in 1870.

The foreign exchange market has been dull and rates have been quoted lower, on a more liberal offering of bills. At the close, a steadier range of prices was noted, without, however, anything like an active inquiry for drafts. The offerings of produce bills were up to a full average. Bankers' sixty day bills on London closed on Wednesday at 109¾@110; sight bills on London, 110¼@110⅛.

The produce exports from this port, week ending with July 31, were to the currency value of $4,277,661.

Government securities have been in fair demand but the light offerings of bonds of all issues have been against free operations. Prices closed buoyantly on the general list, influenced, to some extent, by the favorable debt exhibit of August 1st, which shows a further reduction of $8,701,977 in the aggregation of the national indebtedness, since July 1. The highest figures for the Public Funds of the United States in London, known since 1865, were quoted by cable on Tuesday.

Under the official programme for August, Government will sell, during the month, at least, seven millions of Gold, as follows: Thursday, August 3, $1,000,000; Thursday, August 10, $2,000,000; Thursday, August 17, $1,000,000; Thursday, August 24, $2,000,000; Thursday, August 31, $2,000,000. And buy in five millions of Five Twenties, as follows: Wednesday, August 2, $1,000,000; Wednesday, August 9, $1,000,000; Wednesday, August 16, $1,000,000; Wednesday, August 23, $1,000,000; Wednesday, August 30, $1,000,000.

On Wednesday, Government bought in only $162,750 of Five-Twenties at 112@112 12, ex-interest. The amount of bonds offered was $1,647,750@112@112 99.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116@116¼; U. S. Five-Twenties of 1862, 114½@114⅝; U. S. Five-Twenties of 1864 at 113⅝@113⅞; U. S. Five-Twenties of 1865, 114@114¼; U. S. Five-Twenties of 1865 consolidated, 112⅝@112¾; U. S. Five Twenties of 1867, 113@113⅛; U. S. Five-Twenties of 1868, 113⅛@113⅜; U. S. Ten-forties at 113⅜@113½; U. S. Six per cent. currency bonds, 114⅛@114¼.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 19.	July 26.	Aug. 2.
Consols	93¾	93⅝	93½
U. S. 5-20's of 1862	92½	92⅝	93
U. S. 5-20s, 1865	92¼	92¼	92¾
" 1867	91⅜	91⅝	91⅞
" 10-40s	91½	91½	92
Erie	24¼	——	24⅛

State bonds have been in moderate demand at fairly supported prices.

Railway bonds have been in comparatively fair demand at generally steady prices. Central Pacific Sixes closed on Wednesday at 98½@98¾. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in request at 92 per cent. and accrued interest. Union Pacific Sixes closed on Wednesday at 87¼@87½.

Business in Railway and miscellaneous share property has been held throughout the week with evident confidence in the easy workings of the money market, and of buoyancy in values in the immediate future. The speculation, however, has been devoid of spirit. At the close, there was rather more animation apparent.

General business has been less active, with produce values quoted, in most instances, depressed. Middling upland cotton closed more steadily on Wednesday at 19¾ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,943,994 bales, against 2 825,856 bales same time last year; exports 3,115,521 bales, against 2,175,157 bales same time last year; stock at the ports at latest dates, 163,273 bales, against 112,998 bales same date 1870.

At the Live Stock Markets, Beeves have been in better supply and less request at from 7@12 cts; Veals active at 4½@10½ cts; Sheep in demand at 4½@6¾ cts; Lambs at 6 @9½cts; Swine, 5¼@5⅝cts per lb., all live weight. The week's receipt were 8,669 Beeves, 2,498 Veal Calves, 32,098 Sheep and Lambs; and 23,367 Swine.

Foreign goods have been in moderate demand as a rule, at less buoyant prices. The week's imports of foreign goods reached $8,395,362, including $3,475,044 of dry goods.

Ocean freights have been moderately active and rates have been again generally quoted firmer.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Georgia 6s, 83½; do., 7s, 93; do. 7s, gold, 98¼; South Carolina 6s, new Jan. and July, 58½; New York State 7s, Bounty Loan, 108½; Kentucky 6s, 99⅞; North Carolina 6s, special tax, 20; Alabama 8s, R. Virginia State Bonds.

To the uninitiated the occasion of the wide variation in the daily quotations of the various issues of Virginia State 6s is altogether inexplicable, and at the request of the Baltimore *American* Messrs. Wilson, Colston & Co., bankers of that city, who make dealing in Virginia bonds a specialty of their business, have prepared a statement showing what the quotations represent and why the variations exist, which we commend to the attention of our readers:

Before the war the credit of no State was higher than that of Virginia: all of her engagements were met promptly, and the prices of her bonds always ruled high amongst first-class securities.

After the war her first attention to her debt was on January 1, 1866, when she funded the interest due and unpaid on her debt from July 1, 1861, being five years' 30 per cent, into new bonds, commonly called "1866 bonds," and this operation was repeated on January 1, 1867, for the interest due in the previous year, for which "1867 bonds" were given. These 1866 and 1867 bonds carry the interest on the face of them from the 1st of January of the respective years, 33 per cent. in the one case and 27 per cent. in the other. On July 1, 1867, the State resumed the payment by paying 2 per cent. of the 3 per cent. due semi-annually, and crediting the 1 per cent. to holders on the State books in the case of registered stock, and issuing coupons in the case of coupon bonds. This was maintained until January 1, 1869, since which time no interest has been paid.

The "funding act," passed at the last session of the Legislature, after reciting the fact that West Virginia, at its formation, contained one-third of the area and population of the old State, and that in the formation of that State it was provided that West Virginia should take upon herself a just proportion of the debt of the Commonwealth as it existed prior to July 1, 1861, provided for the funding of all the existing bonds and stocks, with all accrued interest, into a new debt, of which two-thirds is issued in new bonds on which the State of Virginia promises to pay interest punctually, and the remaining one third is issued in a certificate on which interest is deferred until a settlement can be had with West Virginia. These bonds are denominated respectively "Virginia consolidated bonds" and "Virginia deferred certificates."

The prices of the former issues are regulated by the amount of accrued interest carried with each class, as follows: Old coupon bonds, 15 per cent.; old registered, none; 1866 bonds, 33 per cent., and 1867 bonds 27 per cent. They are now all about equal in real price except the old coupon bonds, which are about 3 per cent. higher in proportion at this time, which is generally attributed to the European demand for that particular class.

No provision has been made for the payment of interest on the deferred certificates, but it is un-

INVESTMENT SECURITIES.

JAY COOKE & Co. are now selling, and recommend as a profitable and safe investment for all classes, the First Mortgage 7-30 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on 23,000 Acres of Land to every mile of track, or 500 acres for each $1,000 Bond. They are exempt from United States tax; principal and interest are payable in gold. Denominations; Coupons, $100 to $1,000; Registered, $100 to $10,000.

Northern Pacific 7-30s are at all times receivable, at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price.

The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres in the most fertile portion of the Northwest, and the demand for the Company's lands for settlement already exceeds the ability of the Government to complete the surveys. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of U. S. Five-Twenties, who wish to convert them into a first-class railroad security, can do so at a present profit of about 12 per cent., while increasing their interest income nearly one-fourth, by exchanging them for Northern Pacific 7-30s.

All marketable stocks and bonds will be received in exchange at their highest current price. Full information, maps, pamphlets, etc., will be furnished on application to any agent for the loan, or to JAY COOKE & Co., New York, Philadelphia or Washington.

Catskill and Schoharie Valley Railroad.

The articles of association of this company have been filled, and it is probable the construction of the road will be entered upon without delay. It will extend from Catskill to Central Bridge in Schoharie county, passing through Albany county, and will be about forty-miles in length. The following are its directors: Charles L. Beach, Joseph Cornell, Hiram Van Steenburgh, J. A. Cooke, A. M. Osborn, Jacob H. Meech, Charles E. Franch, Lemuel L. Penfield, Oscar T. Humphrey, and Joshua Fiero, Jr., all of Catskill; Charles L. Cornish, of New York City; Liberty P. Moore and Wm. Paddock, of Durham, Greene county.

☞ The Chartiers Valley road has been completed. It extends from Mansfield, on the Panhandle line, 12 miles west of Pittsburg, southwest 26 miles to Washington, Pa., on the Hempfield railroad, 32 miles west of Wheeling.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

PUBLIC NOTICE.

The undersigned COMMISSIONERS of STOCK SUBSCRIPTIONS to the NEW YORK RAILWAY COMPANY, give notice that the **Books of Subscription** to the Capital Stock of such Company **WILL BE CLOSED** on the

31st day of August, 1871.

UNTIL THAT DAY the Books will remain open for Subscribers at the Banking House of

Duncan, Sherman & Co.,
No. 11 Nassau Street,

and also at the

Bank of the Metropolis,
No. 31 Union Square.

Until the Books of Subscription are closed, ALL SUBSCRIBERS for Stock will have the **Benefit of Interest** upon the several instalments paid, and as allowed to those subscribing within thirty days after the Books were opened.

Dated, NEW YORK, July 24th, 1871.

Alex'r T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

Jones' Falls Improvement.

The board of commissioners to examine plans for the Jones' Falls improvement have appointed as engineers Strickland Kneass, of Philadelphia, and Major W. P. Craighill, of the United States corps of engineers, now in charge of harbor works in Maryland, Virginia and North Carolina. Mr. Kneass is now and has been, for fifteen years, chief engineer and surveyor of the city of Philadelphia. He has had large experience in hydraulic engineering, and enjoys a high reputation in the department of science. Major Craighill has been recommended to the board by some of the most scientific men in the country. The board being satisfied of their fitness for the proposed work, tendered these gentlemen the appointment, which they have accepted. They will at once enter upon the examination of plans for the Jones' falls improvement, and as soon as practicable, give the results of their examination to the board.

☞ The contract for the graduation and masonry of the Buffalo Valley Branch Railroad has been awarded to Messrs. Yutzy & Scott, who have contracted to do the work for $17,000, and to finish it before the 1st day of November. This road is to extend from the town of Berlin (Somerset county, Pa.,) near Cumberland, to a point on the Pittsburg and Connellsville Railroad, west of Myers' mills, where it connects with the latter road.

☞ Grading and laying down the rails on the track of the Addison (Vt.) Railroad is progressing rapidly, and the cars are expected to run in October next.

☞ Work is progressing rapidly on the St. Paul and Winona Railroad between Minnesota City and Winona.

Journal of Railroad Law.

RAILROAD COMPANIES—WHEN LIABLE AS CARRIERS OF GOODS MARKED "C. O. D"—LIABILITY TERMINATED BY A DELIVERY MERELY.

The facts in the recent case of The Chicago and Northwestern Railway Company *vs.* Merrill (48 Ill., 425), are fully and clearly stated in the following opinion by

LAWRENCE, J.—This was an action of assumpsit brought against the railroad company to recover for the value of some castings sent over their road, from Geneva to Winnebago in this State. The goods were marked as follows: "John L. Page, Winnebago, goods by R. R. cars, care of American Express Company, C. O. D," and were shipped by the railroad with the directions thus marked on them. They were safely delivered to Page upon the freight. He proved insolvent, and Merrill the consignor having failed to recover the price of his goods from him, has brought this suit against the company, and recovered a verdict and judgment in the Circuit Court.

There is no possible ground upon which this judgment can be sustained upon the record before us. We held in the case of the American Express Company *vs.* Lesem, 39 Ill., 313, that in an action against an express company, the plaintiff might aver in his declaration, and prove upon the trial in what sense the characters C. O. D. were used in the business of express companies and what was the usage of those companies in regard to packages thus marked, and what responsibilities assumed by giving a receipt with those characters written upon it. But in the case at bar, although the goods were marked C. O. D. the receipt given by the company contained no such characters, nor any language indicating an undertaking on the part of the company to collect from the consignee the price of the goods. Not only that, but there is not a scintilla of evidence in the record, that this railway company ever undertakes the duties of a collecting agent or that it recognizes the characters C. O. D. when inscribed upon an article of transportation, as imposing upon itself any additional duties or obligations.

And not only was there an entire absence of evidence showing such usage, but the direct reverse was positively proven. Besides all this, it was also shown that no bill for the price of the goods was delivered by the consignor to the company, so that, if it had desired to collect their value from the consignee, upon delivery, it had not the means of doing so.

Under these circumstances, we are utterly unable to see upon what ground the liability of the railroad company can be made to rest. It simply undertook by its receipt to transport these goods to Winnebago, and there safely deliver them to John L. Page, who is named in the receipt as consignee. This it did, and there its liability ended. It is true on the box was written, besides the name of Page, as consignee, the words, "care of American Express Company." But in the receipt given to appellee by the company, Page was named as the consignee, and nothing is said about the express company, and we understand these words upon the box as merely indicating that, if Page, the consignee, could not be found to receive the goods, the appellant might deliver them into the care of the express company. But Page did appear, and claimed the goods, and the appellant delivered them to him as it was his duty to do. And if it could be held that the express company, and not Page, should be regarded as the consignee of the goods, it appears that the station agent of the railway company at Winnebago, who received the goods, was also the agent of the express company, so that, in either event, the appellant made a proper delivery. The judgment must be reversed.

Judgment reversed.

Port Huron and Lake Michigan Railroad.

The earnings of the Port Huron and Lake Michigan railroad (which was only completed to Lapeer in May) from the 1st January to the 1st July, 1871, were: From freight and passengers carried over the road, $61,318 48. The operating and maintenance expenses for the same time were $18,320 57—being about thirty per cent. of the gross earnings. The section of this road from Lapeer to Flint (twenty miles) will be completed before the first of October, and from Flint to Owasco (twenty-four miles) during the ensuing winter or spring.

☞ The track of the western division of the Connecticut Western Railroad was laid to the State line of New York, near Millerton, on the 24th ult., and connected with the Dutchess and Columbia Railroad.

The Canals of New York.

EXTRACTS FROM THE REPORT OF THE STATE ENGINEER AND SURVEYOR.

The State canals, for convenience in construction and the superintendence of repairs, are divided into three divisions, Eastern, Middle and Western; each under the charge and supervision of a Canal Commissioner, a Division and Resident Engineer.

EASTERN DIVISION.

Names of canals:	Miles.
Erie canal from Albany to east bank of Oneida Lake canal	133.58
Albany basin (called one mile for tolls, by chapter 200, Laws of 1849)	.77
Port Schuyler and West Troy side cut	.35
Pond above Troy dam	3.00
Champlain canal and Waterford side cut	66.00
Glen's Falls feeder and pond above	12.00
Black River canal	35.33
Black River feeder and pond above dam	12.09
Delta feeder	1.38
Black River improvement	42.50
Total miles	307.00

This division has been in charge of E. H. Crocker, division engineer, and Peter Hogan, resident engineer.

MIDDLE DIVISION.

Names of canals:	Miles.
Erie canal from east side of Oneida Lake canal to east line of Wayne county	68.58
Navigable feeders to Erie canal:	
Limestone	.80
Butternut	1.55
Camillus	1.00
	3.35
Oneida Lake canal	7.00
Oswego canal	38.00
Cayuga and Seneca canal	22.77
Crooked Lake canal	8.00
Chemung canal and feeder	39.00
Chenango canal	97.00
Oneida River improvement	20.00
Seneca River towing path	5.75
Baldwinsville canal and improvement to Jack's Reef	12.50
Cayuga inlet	2.00
Total miles	323.95

This division has been in charge of M. S. Kimball, division engineer, and Howard Soule, Jr., resident engineer. The Chenango canal extension has been in charge of Charles L. McAlpine, resident engineer.

WESTERN DIVISION.

Names of canals:	Miles.
Erie canal from east line of Wayne county to Buffalo	148.50
Genesee Valley canal from Rochester to Milgrove	113.50
Dansville branch of Genesee Valley canal	11.00
Genesee feeder at Rochester	2.25
Genesee feeder at Oramel	.75
Total miles	276.00

This division has been in charge of Daniel Richmond, division engineer, and J. Nelson Tubbs, resident engineer.

From the above statements, it will be seen that there are 906.95 miles of navigable canals and feeders, and there are also 5.68 miles of unnavigable feeders, making a total of 912.63 miles of canals and feeders under the supervision of this department, exclusive of the Chenango canal extension, in process of construction.

The total length of navigable canals and feeders, with rivers and lakes connected artificially therewith, in the State of New York:

	Miles.
Total length of artificial canals and feeders	906.95
Length Hudson river, New York to Waterford	155.00
Lake Champlain, Whitehall, to Rouse's Point	111.00
Oneida lake	22.00
Cayuga lake	39.00
Seneca lake	35.00
Crooked lake	19.00
Delaware and Hudson canal (in this State)	87.00
Junction canal	18.00
Total	1,392.95

Statement showing the cost of construction of the New York State canals, together with the cost of repairs, maintenance and collections; also the total amount of tolls received from each. (Each canal is credited with the amount of tolls upon the tonnage contributed to the Erie, and charged with its proportions of repairs and maintenance upon the same, up to and including 1866):

	Expenditures. Construction, &c.	Repairs, &c.	Receipts from tolls.
Erie & Champ.	$46,018,234	12,900,333	81,057,168
Oswego	3,490,949	4,639,219	9,283,230
Cayuga & Sen.	1,520,542	1,200,044	2,184,300
Chemung	1,273,261	1,794,649	2,012,575
Crooked Lake	333,287	459,374	520,416
Chenango	2,782,124	1,022,026	737,285
Black River	3,224,779	498,866	242,603
Genesee Valley	5,827,813	1,689,303	1,306,918
Oneida Lake	64,837	123,234	65,180
Baldwinsville	23,556	25,085	1,261
Oneida R. imp.	146,944	25,005	204,288
Seneca R. towp	1,488	20	5,251
Cayuga inlet	2,968	....	4,596
Totals	$64,710,832	24,377,108	97,625,066
Total cost of construction, as above			$64,710,832
Total interest on same			98,736,654
Total cost maintenance, repairs and collection			24,377,114
Total interest on same			27,268,895
Total from commencement to completion			$210,093,495
Aggregate receipts from tolls, with interest			202,619,510
Present cost to the State of the entire canal system			$7,473,985

The number and tonnage capacity of the boats built and registered in each year since 1857 has been as follows:

Year.	Boats.	Tons.	Av'ge boats.
1857	329	37,510	114
1858	255	47,880	109
1859	206	20,150	98
1860	403	48,355	120
1861	619	95,230	154
1862	850	142,470	168
1863	771	119,170	177
1864	399	56,235	141
1865	200	28,795	144
1866	485	74,630	154
1867	520	80,360	155
1868	387	64,470	167
1869	298	46,640	157
	5,722	841,845	

Comparative statement of the total tonnage movement over the New York State canals, New York Central Railroad and Erie Railway, from 1860 to 1869, inclusive:

Year.	N.Y. State canals. Tons moved one mile.	N.Y. Cent. R.R. Tons moved one mile.	Erie Rl'wy. Tons moved one mile.
1860.	809,524,596	199,331,392	214,084,395
1861.	863,623,507	237,392,974	251,350,127
1862.	1,123,548,430	296,963,492	351,092,285
1863.	1,034,130,023	312 195,796	403,670,861
1864.	871,335 150	314,081,410	422,013 644
1865.	343,915,779	264,993,626	388,557,213
1866.	1,012,448,034	331,075,547	478,485,772
1867.	958,362,953	362,180,606	549,888,422
1868.	1,033,751,268	366,199 786	595,699,225
1869.	919,153,611	474.419,726	817,829,190
	9,469,793,424	3,158,734,355	4,619,798,173

It appears from the foregoing, that since 1860 the canals have moved about twenty-four per cent. more freight than the New York Central and Erie railroads together; and that the average was nineteen per cent. greater than the business for that year, and that the average yearly business on the railroads for the same period was eighty-nine per cent. greater than the business for the year 1860. Thus, notwithstanding the active competition with which the canals have had to contend—the railroads continually extending their lines and connections—the average business for the ten years shows a fair increase over preceding years.

As between the two railroad lines, the above table is not a fair comparison, as the Erie operated 264 more miles of road in 1869 than in 1860, while the New York Central operated only thirty-seven miles more.

The following shows the cost of construction and equipment of the three lines:

	Cost.	Miles.
New York State canals	$80,710,832	900
New York Central Railroad.	37,603,687	593
Erie Railway	64,131,959	823
	$183,446,488	2,316

The total number of tons moved one mile on all the canals and railroads in the State, in the ten years from 1860 to 1869 inclusive, was 19,662,593,782; of this amount, the canals, with an average of less than seven and one-half months in each year, transported 48 2-10 per cent., or very nearly one-half; and all the railroads, in operation the whole time, transported 51 8-10 per cent. In several of these years the canals transported more freight in seven and one-half months than all the railroads in the State did in the whole twelve months.

In 1860 there were 3,146 miles of railroads in operation in this State; and in 1869, 4,430 miles; an increase of 1,284 miles.

The capacity of a canal (all things being equal) is determined by the number of lockages that can be made in a definite time; it is therefore important that the locks should receive such attention as will insure to the canals their full capacity.

An improvement known as the tumble gate has been introduced upon several locks within the past two or three years, and has been found to work so well and to be so much superior to the present form of gate that I am of the opinion they should be substituted, whenever the gates now in use at the head of the lock require renewing. This should be done on the Erie canal at least.

Another improvement has been presented, with which it is proposed to utilize the power now lost in the passage of the feed water between the locks, by applying it to machinery for opening and closing the gates without the aid of manual labor, and for aiding the boat to enter and leave the lock, thereby shortening the time of the lockage. Permission has been granted the inventor by the Canal Board, to make a trial at lock number thirty-seven on the Erie Canal. Should the experiment prove what is claimed for it, the invention would be of great importance.

I still retain the opinion, expressed in my last annual report, that the direct solution of the question of the practicability and economy of navigating the canals with steam power, can be more speedily and satisfactorily arrived at by immediately placing the matter in he thands of the Canal Board. It was then stated: "The question of the practicability of navigating the canals with steam as a motive power should be settled at the earliest practicable moment, and I would recommend that an appropriation be made of not less than $20,000, and authority given to the Canal Board to have such experiments and examinations made as would determine the best methods of applying steam to canal navigation, and that said board be empowered to employ a competent engineer to assist in such investigation."

Heretofore the experiments have been left entirely at the risk and expense of the inventors, most of whom, it seems, have not been fully acquainted with the principles involved in the navigation of contracted or artificial channels, which differ widely from the laws governing the navigation of open or unlimited water-ways, and which may account for the failure of these experiments in many instances. Upon this point, it was said in the report for 1868:

"Attempts have hitherto been made to substitute steam for horse-power upon the canal. These have all thus far failed, probably from the fact that the machinery used was not properly proportioned to the work which it was designed to perform, and that too high a rate of speed was sought to be obtained. The law connecting the resistance offered to bodies moving in water with the power required to overcome such resistances, may be stated as follows:

"The resistance varies as the square of the speed, and the power exerted varies as the cube of the speed: hence if two horses were sufficient to tow a boat at a speed of two miles an hour, the number required to tow the same at a speed of four miles per hour would be $[2 - 43 \div 23 = (2\times64) \div 8]$ 16 horses. It appears, therefore, in order to double the speed, the propelling power must be increased eight times. The obvious effect of the double speed would be to reduce the time of transit one-half; this, however, would be secured only at an expenditure for propulsion eight times as great as that due to a speed of two miles per hour.

"The foregoing determinations and comparisons are based upon the assumption that two horses will tow a loaded boat at a speed of two miles per hour upon the canal; as shown by Mr. D' Aubuisson's formula, forty-four per cent more power is required to maintain the same speed upon the canals than in an indefinite fluid. For example, as shown in a former calculation from D' Aubuisson's formula, the traction of resistance encountered upon the Erie Canal with the large class of boats, carrying 210 tons, at a speed of two miles an hour, is 428 lbs., requiring about three horses; then the resistance, at a speed of four miles an hour would be $[(43\times428) \div 23] = 3,424$ lbs., requiring over twenty three horses.

If steam power should be provided sufficient to obtain an average speed a little in excess of that realized from present horse power, then it might undoubtedly be successfully and economically employed upon our canals.

I would recommend that authority be given the Canal Board to employ a competent engineer to prepare designs and plans for the construction, on the most approved plan, of one boat, with machinery complete, to be placed on the canals for trial at the earliest practicable moment, and that a sufficient appropriation be made for defraying the expenses of the same.

In conclusion, I would respectfully call the attention of the Legislature to the reports of the Division Engineers, herewith submitted, in which will be found a full description of the condition of all the canals, reservoirs, and feeders. They give in detail the extent and character of work done and to be done on repairs under the supervision of this department, and the cost of said work.

Respectfully submitted.

VAN R. RICHMOND,
State Engineer and Surveyor.

Railroads in Minnesota.

We doubt if our own citizens fully realize the rapid progress of railroad enterprises in Minnesota. It is known that advances are being made in various directions but the summing up of results has usually been delayed until the close of the year, and therefore very few manifest great interest in tracing the lines of constant progression from week to week and month to month.

The work on the main line of the St. Paul and Pacific has been prosecuted with such energy that we are now promised an excursion to Breckinridge, on the Red River of the north, two hundred and sixteen miles distant from St. Paul, by the 15th of September next. The whole line is graded, and the cars running to Morris, one hundred and fifty-nine miles from St. Paul, and the iron is being laid at the rate of more than a mile each day.

Orders have been received to place under contract the line from Sauk Rapids to Brainerd, and to have the same completed before the first of January.

The road from Saint Cloud to Pembina by way of the Sauk Valley will also be prosecuted with great vigor during the season, and it is believed Sauk Centre will be reached before "the snow flies."

The Northern Pacific Railroad is completed to Oak Lake, nearly one hundred miles west of the Mississippi, and is taking long strides "toward the far West, where rolls the Oregon."

The Railroad from St. Paul to Hudson, connecting with the West Wisconsin at that place, is under contract and will be pushed to completion at the earliest practicable moment. The iron, rolling stock, &c., is now on the way from the East.

The St. Paul and Chicago Railroad (from St. Paul to Wisconsin) is completed to Lake City, and will probably reach Winona in November.

The Hastings and Dakota Railroad is nearly completed from Farmington to Shakopee, and will reach Corver, and probably beyond that point, the ensuing fall.

The line from Minneapolis to White Bear Lake is nearly completed, and that from Minneapolis to Carver, will be in operation in November.

The St. Paul and Sioux City Railroad moves on steadily towards its destination, and it is believed that in less than a year St. Paul will be connected by iron bands with the metropolis of Dakota.

The railroad from St. Peter to New Ulm is under contract, and will be in operation in less than a year.—*St. Paul Pioneer.*

☞ The work of laying the rails was commenced on the Rome and Clinton railroad at Rome, N. Y., on the 19th ult. Satisfactory progress is being made, and if there should be no interruption the work will be completed by the last of August.

☞ The work on the Honduras railroad, suspended during the war, has been resumed.

Centennial Anniversary of American Independence.

The following is a copy of the act passed by the National Legislature to provide for celebrating the one hundreth anniversary of American independence, by holding an international exhibition of arts, manufactures, and products of the soil and mine, in the city of Philadelphia, and State of Pennsylvania, in the year eighteen hundred and seventy-six;

Whereas the Declaration of Independence of the United States of America was prepared, signed and promulgated in the year seventeen hundred and seventy-six, in the city of Philadelphia; and whereas it behooves the people of the United States to celebrate, by appropriate ceremonies, the centennial anniversary of this memorable and decisive event, which constituted the fourth day of July, anno Domini seventeen hundred and seventy-six, the birthday of the nation; and whereas it is deemed fitting that the completion of the first century of our national existence shall be commemorated by an exhibition of the national resources of the country and their development, and of its progress in those arts which benefit mankind, in comparison with those of older nations; and whereas no place is so appropriate for such an exhibition as the city in which occurred the event it is designed to commemorate; and whereas, as the exhibition should be a national celebration, in which the people of the whole country should participate, it should have the sanction of the Congress of the United States: therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That an exhibition of American and foreign arts, products and manufactures shall be held, under the auspices of the Government of the United States, in the city of Philadelphia, in the year eighteen hundred and seventy-six.

Section 2. That a Commission to consist of not more than one delegate from each State, and from each Territory of the United States, whose functions shall continue until the close of the exhibition, shall be constituted, whose duty it shall be to prepare and superintend the execution of a plan for holding the exhibition, and, after conference with the authorities of the city of Philadelphia, to fix upon a suitable site within the corporate limits of the said city where the exhibition shall be held.

Section 3. That said Commissioners shall be appointed within one year from the passage of this act by the President of the United States, on the nomination of the Governors of the States and Territories respectively.

Section 4. That in the same manner there shall be appointed one commissioner from each State and Territory of the United States, who shall assume the place and perform the duties of such commissioner or commissioners as may be unable to attend the meetings of the commission.

Section 5. That the commission shall hold its meetings in the city of Philadelphia, and that a majority of its members shall have full power to make all needful rules for its government.

Section 6. That the Commission shall report to Congress at the first session after its appointment a suitable date for opening and for closing the exhibition; a schedule of appropriate ceremonies for opening or dedicating the same; a plan or plans of the buildings; a complete plan for the reception and classification of articles intended for exhibition; the requisite custom house regulations for the introduction into this country of the articles from foreign countries intended for exhibition; and such other matters as in their judgment may be important.

Section 7. That no compensation for services shall be paid to the commissioners or other officers provided by this act from the treasury of the United States; and the United States shall not be liable for any expenses attending such exhibition, or by reason of the same.

Section 8. That whenever the President shall be informed by the Governor of the State of Pennsylvania that provision has been made for the erection of suitable buildings for the purpose, and for the exclusive control by the commission herein provided for of the proposed exhibition, the President shall, through the Department of State, make proclamation of the same, setting forth the time at which the exhibition will open and the place at which it will be held; and he shall communicate to the diplomatic representatives of all nations copies of the same, together with such regulations as may be adopted by the commissioners, for publication in their respective countries.

Approved March 3, 1871.

European and North American Railway—Western Extension.

The report of this company which was presented at the recent Annual Meeting in St. John, N. B., states the receipts on capital account to have been $117,204 07; and the expenditure, $81,157 60—leaving a balance of $36,046 47; to which should be added the balance from previous year, $9,953 36—making the amount to the credit of the company in the Bank of Montreal to 31st May, 1871, $46,029 83, which will shortly be used to pay for rolling stock. The report says:

With regard to the traffic operations of the line the Directors have to present the report and accounts to 31st December last, as rendered by Mr. E. R. Burpee, Managing Trustee. The revenue for thirteen previous months was for

Passengers	$45,528 55
Freight	29,125 40
Mails and Sundries	4,391 65
Total	$79,045 60
Whilst the working expenses for the same time were,	$65,647 95
And the net revenue	$10,397 95

The working expenses include a large amount for repairs of damages to the works caused by the serious storms of the winter of 1869-70. There was 55 255 passengers and 33,329 tons of freight carried during the same period.

A statement of the revenue and working expenses for the five months ending 31st May, as compared with a corresponding period of the previous year, is also submitted. This statement shows an increase for that time in the revenue of $14,065 13, and in the working expenses of $3,447 31, and in the net revenue of $10,617 82.

The passengers carried for the same period were 20,289 against 16,410.

Under the terms of the agreement entered into with the E. & N. A. Railway Company of Maine, dated 18th November, 1869, the Trustee is required to pay the net revenue to the Maine Company, who protect the interest coupons due from time to time on the bonds of this company.

The Directors regret that they were compelled to resort to the only alternative left to collect unpaid stock. Legal proceedings were therefore instuted against the greater number of delinquent subscribers. One of these suits was tried at the St. John Circuit Court, in February last, before his Honor Mr. Chief Justice Ritchie, when a verdict was given for the plaintiffs, and the decision of the Court of Frederickton upon the points of law reserved is shortly expected.

Now that the line is completed and in successful operation, the directors hope that all persons indebted for stock subscriptions will pay the amount without further contentions, and enable the Company to fulfill their engagements and provide a further supply of Rolling Stock which is already much needed and will soon be indispensable to meet the requirements of the traffic with the United States, in which this city is so largely and deeply interested.

In September last, a contract was entered into between the Carleton, City of St. John Branch Railway Company and Mr. E. R Burpee, Civil Engineer, by which Mr. Burpee agreed to build their line of Railway from Fairville to Carleton, a distance of about 3 1-2 miles. This contract Mr. Burpee has very nearly completed and this Company have leased the line.

The Western Extension Railway trains now leave and arrive at Carleton daily, and convenient terminal accommodations will soon be established near the ferry landing.

The Directors have also to report that they have issued the exclusive right of ferriage in the harbor of St. John for the period of twenty years, from 1st May last. They are convinced that the public accommodation would be greatly improved if the Railway Company possessed and controlled the ferries. The Directors, therefore, took the earliest opportunity of effecting an arrangement with the city authorities by which the ferries are now operated by this Company, and steps have been taken to procure a new ferry boat and to provide improved floats and facilities for doing the business on both sides of the harbor.

The Directors have further to report that they have purchased the property of the Hon. John Robertson, in Carleton, situated north of Rodney wharf and the Ferry landing, and extending from Union street to low water mark.

They were of opinion that no proper terminal accommodation for this important line of Railway could be provided at Saint John, unless this property was secured. They have, therefore, bought it on the most favorable terms; and tracks are now being laid upon a portion of it. The price to be paid is $37,000, as follows: five per cent on the completion of the title, and the balance with interest, one-third in five years, and the remaining two-thirds in one, two and three years after the expiration of the five years. This property is subject to an annual rental of $976 38.

The Directors have much pleasure in stating that that portion of the line of the European & North American Railway in Maine, between Mattawaumkeg and the St. Croix will, without doubt, be completed early in October next, when through trains will be run between St. John and Bangor, etc.

A resolution was then adopted authorizing the issue of $600 000 by the New Brunswick Company to the Maine Company on terms of an agreement dated 18th November, 1869.

The following gentlemen were elected Directors for the next year:—Alex. Jardine, Lewis Carvill, W. B. Robinson, Thomas R. Jones and Robert Robinson. The meeting then adjourned.

At a subsequent meeting of Directors Alex. Jardine, Esq., was re-elected President, and T. Barclay Robinson, Esq., Secretary-Treasurer.

☞ A large force of workmen are employed on the Western Maryland railroad near Smithsburg, Washington county, in making necessary repairs preparatory to laying the track. The work on the various sections of the road is progressing finely. A large force of workmen are now engaged on the eastern side of the mountain, and it is confidently expected that they will have the road completed and trains running to Savillasville by the 10th of August.

☞ The Committee appointed in June to examine the several routes proposed for the Reading and Lancaster Narrow Gauge Railroad, have reported that the road and equipment of the same will cost $647,932. The length of the road is forty-five miles.

☞ The new railroad from West Amesbury to Newton (Mass.) has been contracted for, and operations have already begun. The road connects with the Boston and Maine road at Newton, which has a lease of it for 99 years, at five per cent.

derstood that whatever interest shall have accumulated when a settlement with West Virginia is made will be included in such bonds as may then be issued.

☞ There is some prospect that the Boston, Hartford and Erie Railroad will be speedily completed to Willimantic. Laborers are engaged in the work of grading the track; the iron has been purchased in England for the rails, and these will be laid as soon as they arrive.

☞ The first rail on the Denver and Rio Grande railroad was laid on the 28th ult. Rolling stock and iron enough have been received to complete 100 miles of the road.

☞ Isaac Butts has been elected President and John Bell Vice President of the Cobourg, Peterboro' and Marmora Railway and Mining Co. W. P. Chambliss is managing director.

☞ Work on the Milwaukee and Manitowoc Railroad was commenced at Sheboygan on the 26th ult.

☞ Contractors for the Menominee extension of the Chicago and Northwestern Railway are actively at work at Peshtigo.

☞ The survey of the Brownsville and Glasgow Junction railroad has been commenced.

CIVIL AND MECHANICAL ENGINEERING, at the Rensselaer Polytechnic Institute, Troy, N. Y. A higher and more practical Course of Instruction will be given here than has ever been attempted elsewhere in this country. Re-opens Sept. 13th. For the Annual Register, containing improved Course of Study, and full particulars, apply to PROF. CHARLES DROWNE, Director.

FORTIEH DIVIDEND

WASHINGTON INSURANCE CO.,

No. 172 BROADWAY,

NEW YORK, July 28, 1871.

A DIVIDEND of FIVE PER CENT. has been declared, payable Aug. 1, free of tax.

WM. K. LOTHROP, Secretary.

TO CONTRACTORS.—Superior Steam Dredges, Steam Hoisting Derricks, Upland Excavators, Stationary and Marine Engines and all kinds of Machinery made to order by the POUND MANUFACTURING CO., Lockport, N. Y.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1871.

A DIVIDEND OF FIVE PER CENT. IN CURrency, free of Government tax, has been declared by the Board of Directors of this Company, payable on the 1st day of August next to the holders of full-paid shares registered at the close of the 15th day of July next, after which date and until the 5th day of August next the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer

NOTICE TO CONTRACTORS AND BRIDGE BUILDERS.

DEPARTMENT OF SURVEYS,
224 South Fifth Street, Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until three o'clock P. M. of September 6, 1871, for the construction of a Bridge over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, with approaches to Twenty fifth and Spring Garden streets, in the Fifteenth ward, and to a point about 144 feet westward of Thirtieth street, in the Twenty-fourth ward, as follows:

First. For the Bridge superstructure over the river, including all materials, workmanship, and erecting ready for use. It will be of wrought iron, 348 feet from centre to centre of end posts, and 34 8-10 feet from centre of lower to centre of top chord, and also two trusses for Thirtieth street, to be 84 feet from centre to centre of end posts, and 10 5-10 feet from centre of lower to centre of top chord, also of wrought iron. Detailed plans with complete strain sheets for these bridges, conforming to specifications, to accompany proposals, which on main Bridge shall give prices for both a two and three truss bridge.

Second. For all the iron work on *approaches* to be erected complete, as per plans and specifications.

Third. For the gradation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of the contract. The City reserves the privilege of rejecting any and all bids that may not be satisfactory, and each proposal as herein divided will be considered separately and will be so allotted.

Payments will be made monthly in bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond for the sum of five hundred ($500) dollars has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock.

Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained, on and after the 22nd day of July, inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE

GOLD BONDS

OF THE

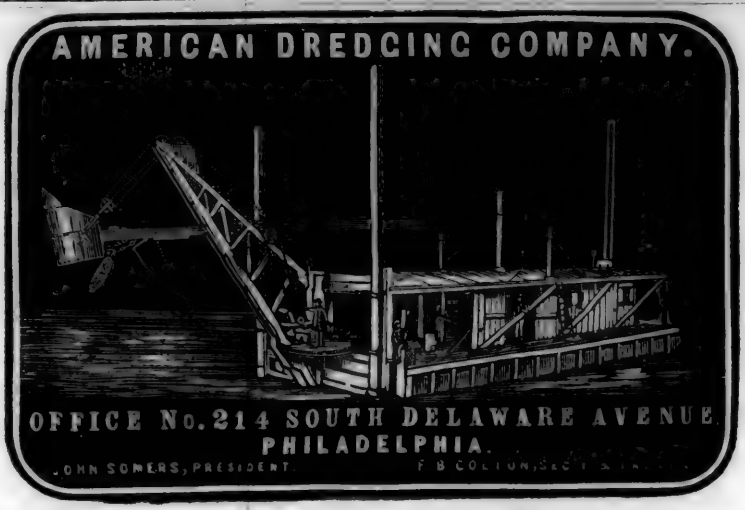
RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

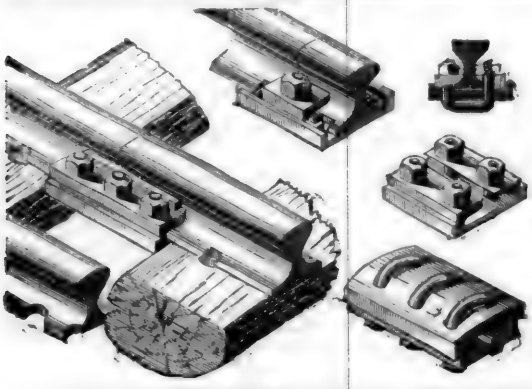
It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.



The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,



9 Wall Street, New York City,

☞ FIRST MORTGAGE SINKING FUND LAND GRANT BONDS OF THE ST. JOSEPH AND DENVER CITY RAILROAD COMPANY, WESTERN DIVISION.

These bonds can now be had from the undersigned, or through the principal banks and bankers of the United States.

They have thirty (30) years to run, bearing Eight per Cent. (8 per cent.) Interest, payable on 15th days of August and February in each year. The Principal and Interest are payable in *Gold*. The Principal in New York; the Interest in New York, London and Frankfort-on-Main, free of tax. They are Coupon Bonds, but can be registered or converted into Registered Bonds, and are receivable at par and accrued interest in payment for the Company's land sales. The payment of the principal and interest is secured by a first and only mortgage on the Company's Lands, granted by the United States in 1866, lying on the line of this road, amounting to 1,500,000 acres, the railway of the Western Division extending from Marysville, Kansas, to a junction with Union Pacific Road at Fort Kearney, a distance of 170 miles, together with the Equipments appertaining, Franchises, Rights of Way and Personal Property.

The mortgage is made to the Farmers' Loan and Trust Company of New York, as Trustees.

The Bondholders are amply protected by the terms of the Mortgage Deed, which prohibits a sale of the Company's lands at less than four ($4) dollars per acre, and a release of the lien of this Mortgage upon any portion sold until the purchase money is paid to the Trustees, who are authorized to apply the same to the payment of these Bonds, either by purchase or to the Sinking Fund, for their redemption at maturity. This will more than extinguish the debt and leave the railway and equipments free. The security for the payment of these Bonds is therefore beyond all contingency.

The location of the line of the St. Joseph and Denver City Railroad is a commanding one, from the fact that it is a practical extension westwardly of the Hannibal and St. Joseph, the next Land Grant road after the Illinois Central. The St. Joseph and Denver City Railroad is fed at its eastern terminus (St. Joseph) by railway lines coming direct from Hannibal, St. Louis, Chicago, and local roads converging at St. Joseph. Its business is therefore secured. Its connection with the Union Pacific road opens up the through middle route across the Continent, and is of national importance. This is reflected in the fact that the quantities of letters and telegrams which we have received during the few days the Bonds have been for sale, applying for these securities, indicate the quick response of the American people in support of internal improvements, while at the same time they make a good investment.

Price for the present, 97½ and accrued interest in currency.

Expressage relating to the Bonds free. Marketable Securities received in exchange.

We have been at great expense in the examination of this property and the bonds, and are satisfied the investments in this Loan will not only be safe but profitable. We base our calculations on the fact that the First Mortgage Bonds of this Company, on the Eastern Division, lately successfully placed by our firm at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent. advance.

Under all circumstances, we unhesitatingly recommend them.

TANNER & CO., Bankers,
No. 11 Wall Street.

The Continental Fast Freight Line.

The Continental Fast Freight Line, a joint organization of the Baltimore and Ohio, Marietta and Cincinnati, and Ohio and Mississippi Railroads, who own and manage it, promises to be one of the best equipped and best managed lines that have reduced freight transportation to a science. The management of the Baltimore and Ohio Road has always watched opportunities in the direct interests of the shareholders, and the present scheme of a grand continental line owned and managed by the Baltimore and Ohio and associate companies will undoubtedly recommend itself to the public favor as containing the all important essentials of quickness and cheapness. With these special characteristics the Continental line was inaugurated yesterday, with an equipment of one thousand new freight cars, and by means of the bridge over the Ohio River at Parkersburg, and the now uniform gauge of the Ohio and Mississippi Road with that of the Baltimore and Ohio and Marietta and Cincinnati lines, an unbroken communication is opened between Baltimore and St. Louis, giving a new Atlantic port to the great West and Southwest.

There are already nine lines of ocean steamers running to and from Baltimore in connection with the Baltimore and Ohio Road, and such is the enterprise of President Garrett that he has succeeded in negotiating with the Messrs. Allan, of steamship celebrity, for the running of an Allan line of steamships between Baltimore and Liverpool, commencing regular trips in August next, thus securing additional prompt and regular ocean passage for not only the Continental line traffic, but for the whole export and import business of the country, served by the Baltimore and Ohio Road and its connections. Such a combination of gigantic interests will undoubtedly insure success.

The new bridge over the Ohio River at Bellair has virtually lessened the time between the East and all places on the Central Ohio and Lake Erie divisions of the Baltimore and Ohio Road for freight purposes by one day, and shippers have become so alive to the importance of this, that we understand the business of the Company has increased to an extent demanding an immediate large addition to the rolling stock, which will be effected in time for the fall trade.—*Columbus Statesman.*

Steam on City Railroads.

Certain citizens of New Jersey having requested the opinion of Samuel McElroy, a Brooklyn engineer, as to a new railroad which proposes to use the tracks of certain horse railroads, especially whether steam could be used on the city streets, and locomotives run on the city roads, Mr. McElroy answered:

Passenger or platform cars provided with simple and powerful engines could be advantageously used on a line of this kind, capable of carrying extra cars and of moving over 200 passengers on each train. The present horse-railway tracks could be used for the auxiliary locomotives. These locomotives can be run without smoke or sparks, and with less danger to horses than full sized engines.

As between the slow and expensive operation of long passenger roads by horse power or steam, the difference is strongly in favor of the latter in cost of operating, and by the use of light auxiliary locomotives, the expenses for maintenance of track would be comparatively small. There is probably a difference of not less than 20 per cent. of gross receipts in favor of a plan of this kind in annual working out-lay. Between a horse car and steam movement of 5½ miles, the relative time would be as 45 minutes to 20 minutes from Montclair to the city depot.

This system is applicable to any horse railroad connecting with Newark, having a proper depth of rail. It is equally applicable to nearly all the horse railroads in New York city and Brooklyn, and the introduction of steam power will soon supercede and drive away the prejudices of our people. It is only a question of time.

Richmond and Danville Railroad.

Including the "Piedmont Railroad" owned by and operated in connection therewith.

The reports of this company for the years ending September 30, 1869 and 1870, show the operations and their results of said years as exhibited in the annexed figures.

Gross earnings—	1869.	1870.
From passengers	$208,489 95	$253,770 50
" freight	375 191 02	405,701 27
" express freight	11,891 98	18,992 30
" U. S. mail	13,612 48	13,614 48
" telegraph line	216 37	288 29
	$609,402 80	$692,366 93
Expenses ordinary and extraordinary—		
Transportation	$189,165 89	
Way maintenance	213,855 05	
Machinery, repairs, etc.	55,415 03	
General, viz: offices, salaries, &c	31,910 97	
	$490,346 94	
Less credits not properly chargeable against yr's operations	22,713 05	
		467,633 89
Leaving a balance of		$224,733 04

As compared with previous years earnings the above shows an increase of $82,964 13, viz: in passenger traffic $45,280 64, in freight traffic $30,570 25, in express traffic $7,100 32 and in telegraph $71 92. The increase in working expenses was $115,300 94, viz: in transportation $27,299 54, in maintenance of way $79,428 02, in maintenance of machinery $5,033 48 and in general expenses $3,449 90. From this showing the increased earnings have not kept pace with the increased expenses by $32,336 81, or by nearly 40 per centum. The chief increase of way expenses has been in the amount of new iron laid and large expenditures on bridges, trestles, culverts, depot improvements, &c. The machinery department has also received considerable accessions in cars, &c. The increase under head of general expenses is accounted for by increased amount of internal taxes paid on passengers, $1,528 95, and balance of salaries due to officers on previous year's account, $1,920 95. The following statement compares the cost per mile run by *all* trains in 1869–70, and the previous fiscal year, in cents:

	1870.	1869.
Maintenance of way	54.87	41.80
" machinery	14.80	16.39
Operating and other expenses	53.42	55.18
Total	123.09	112.87

—and the following shows the expenses per mile run, divided among revenue trains only:

	1870.	1869.
Maintenance of way	59.95	45.42
" machinery	15.16	18.02
Operating and other expenses	58.38	61.03
Total	134.49	124.47

Thus it will be seen, as above stated, that the increased expenditures (when compared with the increased traffic) are wholly on account of new iron, materials and supplies used in improving the roadway, and rendering it safer for travel and more economical for general business. So much indeed has been added to the productive value of the property.

The number of passengers and the mileage of travel in 1868–9 and 1869–70 compares as follows:

	Number of passengers.	Miles of travel.
1868–69	88,828	4,860,625
1869–70	103,629	6,698,740

The increase in passengers was 14,801 and in mileage, 1,838,115. Distance traveled in 1869–70, 65 miles to each passenger, the fares averaging 3.79 cents per mile. First class passengers, 81,196, and second class, 22,378. Through passengers, 16,560—east 7,783, and west 8,777. Way passengers 87,069, east 42,452 and west 44,617. Increase of through passengers in 1869–70 over previous year, 6,674, and of way passengers, 8,127.

The passenger traffic for the last five years has been as follows:

	Passengers.	Mileage.	Receipts.	Fares.
1865–66.	67,939	4,169,289	$204,983 27	5.61 cts.
1866–67.	79,906	4,106,364	204,983 27	4.90 "
1867–68.	85,662	4,086,398	182,650 93	4.49 "
1868–69.	88 828	4,860,625	208,928 91	4.29 "
1869–70.	103,629	6,698,740	258,770 59	3.79 "

This statement exhibits a gradual reduction in the average rate received per passenger per mile during the period embraced equal to 32½ per cent. In this series of years the average distance traveled was 51, 51, 47, 55 and 65 miles, showing an extraordinary movement in so brief a period.

The tonnage traffic of the two last years compares as follows:

	Tons.	Mileage.
1868–69	99,823,30	6,271,192
1869–70	120,958,84	7,545,929

The increase of tonnage moved is thus shown to have been 21,635.54 tons, and of mileage, 1,274,737 miles. Average rate per ton shows a decrease of 0.25 cent per mile, having been in '69–'70 5.37 cents as against 5.99 cents in previous year.

The character of the freight (tons of 2,000 lbs.) moved in the years embraced was as follows:

	'69–'70.	'68–'69.
Products of forest	11,958.08	9,791.50
" mines	84,483.02	24,905.98
" animals	8,577.68	2,924.09
Vegetable food	15,002.00	11,403.46
Other agricultural products	13,207.38	15,988.06
Manufactures	17,670.49	13,408.10
Merchandise	6,751.91	6,757.90
Non-specified articles	16,686.52	13,868.57
Express freight	1,671.86	776.26
Total	120,958.84	99,823.30

The gross increase in tons of all classes in 1869–70 over the previous year was 21 per cent, and the increase in mileage was 20 per cent. There was an increase of all classes except that of other agricultural products, under which comes unmanufactured tobacco, and merchandise. The leaf or unmanufactured tobacco and stems received at Richmond in 1869–70 was as follows:

	Packages.	Pounds.
Hogsheads	8,960	12,866,872
Tierces and tubs	8,101	4,622,677
Boxes	1,109	323,049
Total	18,170	17,812,098
Stems, hogsheads	878	1,426,426
Total unmanufactured		19,238,524
In 1868–69		28,797,153
Decrease over previous year		4,585,629

Average weight of hogsheads 1,486, of tierces 570, and of boxes 291 pounds, equal to 18,397 hogsheads, or 9,619 tons. In 1868–69 the receipts were 11,898 tons. Decrease, 2,279 tons.

The receipts of manufactured tobacco were:

	Packages.	Pounds.
1868–69	26,345	2,050,065
1869–70	45,426	3,130,724

The total of raw and manufactured tobacco received at Richmond was—1868–69 12,923 and in 1869–70, 11,184 tons—showing a decrease of 1,739 tons.

The following is a comparative summary of the total tonnage of the road for the five years ending 30th September, 1870:

	Tons.	Mileage.	Receipts.	Rate.
1865–66	68,121	4,169 028	$381,772 56	9.85 cts.
1866–67	81,638	5,924,892	399,500 32	6.74 "
1867–68	88,679	6,129,789	363,000 92	6.50 "
1868–69	99,223	6,271,192	375,191 62	5.99 "
1869–70	120,959	7,545,929	405,701 27	5.37 "

By this table it will be seen that there has been a gradual reduction in the average amount charged per ton on all classes of freight transported for the period embraced equal to 46½ per cent.

The road-bed and superstructure of the road have been considerably improved during the last fiscal year (as before observed); 1,096 tons of new rails have been put in the track of the R. and D. R. R. equal to 12.63 miles, or a total since the war of 3,388 tons, and cross-ties to the amount of 63,319 have been removed and replaced with new ones during same year, or a total of 387,781 since the war. On the Piedmont R. R. 24,653 cross-ties were replaced with new ones in 1869–70. With these and other renewals and improvements the general condition of the line is pronounced to be excellent.

The mileage of locomotives in 1869–70 was 379,898 miles. Passenger, mail and express cars run 903,876 miles, burden cars 1,583,800 miles and service cars 269,757 miles. Total movement of cars, 2,756,943 miles.

The following abstract shows the physical elements of the R. and D. R. R., and separately of the Piedmont Railroad:

	R. and D. R. R.	Piedmont R. R.
Length of main line	140.50	48.50
Length of Rocketts Branch	1 52	....
Sidings and turnouts	11.25	1.98
Total equivalent single track	153.27	50.48
Sum of ascents going west, feet	2,128	1,240
Sum of ascents going east, "	1,743	818
Whole ascent and descent overcome, feet	3,871	2,058
Average ascent and descent pr mile, feet	27.55	42.43
Maximum grade going west, ft	60.01	67.58
Sum of straight line, miles	92.88	32.14
Sum of curve line, miles	47.64	16.36
Minimum radius on main line, feet	637.30	996 57

During the past year connection was made by a branch track with the Richmond, Fredericksburg and Potomac Railroad; and a similar connection is in progress so as to reach the Richmond and York River Railroad.

The company have now 25 locomotives. The car stock consists of 17 passenger, 8 baggage, mail and express, 125 box, 64 platform (all 8 wheel), and 49 coal (6-wheel), making a total of 264 cars, also 5 road and service cars.

The company pay the Piedmont company (which payment is simply taking from one pocket and putting into the other) a lease rental of $45,000 per annum.

The Auditor's statement of receipts and disbursements for the year ending September 30, 1870, is as follows:

RECEIPTS.

Balance on hand from previous years	$20,901 23
Transportation and connections	749,710 11
Express and railroad company balances	84,141 64
Wages returned by paymasters	1,323 14
Bills payable discounted	233,653 40
Bills received collected & discounted	9,774 38
U. S. and P. O. transportation	15,241 16
Coal and Manufacturing Co's transp.	13,464 13
Sundry accounts and loans on coal	29,785 67
Sales of old materials	2,049 64
Total	$1,156,994 50

DISBURSEMENTS.

Maintenance of roadway and real estate	$67,012 66
Maintenance of machinery	18,872 79
Operating expenses	67,296 81
Paymasters	204,796 60
Bills payable	275,228 23
Interest	141,180 62
Internal revenue	7,194 40
Salary account	19,182 00
Insurance	2,320 00

Stocks due and unpaid		18,702 50
Piedmont R. R. stock account		1,488,500 00
Piedmont R. R. Co's balances due		205,269 11
R. and T. River R. R. connection		25.953 04
R., Y. and Pot. R. R. connection		7,313 02
Sundries, per ledger		71,952 67
Cash in banks		17,788 10
Total		$16,680,577 19

On February 22, 1867, the Legislature of Virginia passed an act entitled "An Act to authorize the Richmond and Danville Railroad company better to provide for its liabilities by the creation of a new mortgage. A full copy of this act, given below, will enable readers to understand the conditions under which the consolidated mortgage bonds of the company were issued. The text of the act reads as follows:

Whereas, by virtue of an act of the General Assembly, passed the 9th day of February, 1853, entitled an act to provide for the completion of the Richmond and Danville railroad, and for a loan of money to said company, a loan of six hundred thousand dollars was made by the State to the Richmond and Danville Railroad Company, secured by mortgage conveying the net income and property of said company, executed by the President thereof to the Board of Public Works, and bearing date the 19th day of March, 1853, of which said loan a considerable part has been heretofore paid; and whereas the said company has at different times, before and subsequent to the said mortgage, created other incumbrances on its property, some of which remain in part unsatisfied, and it being deemed desirable, as well for the interests of the State as a stockholder therein as to aid the said company in the prompt discharge of its obligations, that the liabilities of the company, other than to the State, should as far as practicable be consolidated under one lien, the property of said company being known to be an ample security for both private and State debt:

1. *Be it therefore enacted*, That it shall be lawful for the President and Directors of said company to issue the bonds of said company in such a form and at such rate of interest as they may deem expedient, to an amount not exceeding the sum of two millions of dollars, and to secure the payment of the principal and interest of the same by deed of trust or mortgage on all the net tolls and receipts of the company, and all its property, real and personal, for the purpose of meeting the current demands against the said company, and of consolidating its entire liabilities by funding its floating debt, and extinguishing, by exchange or purchase, its outstanding bonds now held under previous incumbrances.

2. *Be it further enacted*, That the mortgage or deed of trust above authorized to be made shall take precedence of, and have priority over the mortgage to the State of Virginia referred to in the preamble to this act; the State hereby waiving her right to enforce satisfaction of the balance of her claim under said last mentioned mortgage, until the amount of all bonds issued under this act shall have been fully paid; and the State hereby consents that such payment may be enforced by a sale of the trust subject according to the terms of the deed or mortgage authorized by this act, should such sale at any time become necessary.

3. This act shall be in force from its passage.

PRINCIPAL OFFICIALS OF COMPANY.

President.—A. S. Buford.

State Directors.—Thomas Alfred Jones. William L. Owen. William T. Sutherlin.

Stockholding Directors—A. T. Stokes. J. M. Edmunds.

Superintendent.—Thomas Dodamead.

Secretary and Auditor.—John D. Blair.

Treasurer.—E. A. Barber.

Legal Domicile of company, Richmond, Va.

Lanesboro and Nineveh Railroad.

The new railroad from Lanesboro and Nineveh, to form a direct line between the Albany and Susquehanna Railroad and the coal fields of the Delaware and Hudson Canal Company, is nearly completed, and already a quantity of the rolling stock to be used upon it has been shipped to Nineveh from Albany. It is reported that the first locomotive will pass over the whole length of the road to-day. The ties on the Albany and Susquehanna Railroad, between Albany and Nineveh, have been prepared for laying the third rail for the narrow gauge line between Montreal and Philadelphia, and before many weeks the line will be completed by laying the rails, which are distributed along the Albany and Susquehanna Railroad, and opening the road between Lanesboro and Scranton. The broad gauge through line to the West, by connecting at this city with the Erie Railway, will be maintained. By its broad gauge and narrow gauge tracks, the Albany and Susquehanna Railroad will be a through line between the East and West and North and South.—*Binghamton Republican, Aug.* 2.

☞ The Commissioners of the Intercolonial Railway have purchased from the contractors for the Eastern Extension Railroad 2 locomotive engines for $17,000, and 25 platform cars, at a total cost of $10,000, as well as two first-class passenger cars and one second class car, at a total cost of $8,150, for use on that part of Eastern Extension Railroad, open between Painsec Junction and Amherst.

☞ The right of way of the New England railway has been taken up from Greenwood furnace to Fort Clinton; and legal process has been begun for acquiring title to the land at the Hudson river for the approach to the Highland Bridge, on the west side, which cannot be had by purchase. On the east side there has been no difficulty in obtaining the right of way from the owners.

☞ The fourth great span of the Connecticut River Bridge at Middletown is completed and will be swung off the falseworks in a few days. The deflection of span No. 3 was but one-eighth of an inch, when the shams were taken out.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.
Central Pacific (in gold):

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Years ending	Railroad: Main Line.	Branch Line.	2d Track and Sidings.	Railroad in progress.	Rolling Stock: Engines.	Cars: Pass.	Cars: B. M. R.	Cars: Freight.	Companies. RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, August 12, 1871.

Stock Exchange and Money Market.

Money has been offered quite freely by the banks, and by private lenders, and rates have been quoted easy for the borrowing interests, on the basis of 2@5 mainly 3 per cent., on call and at 4@7, chiefly 4½@6 per cent. per annum on very choice to good business credits. There has been a very moderate inquiry noted for accommodation, particularly on speculative account. The mercantile demand has been the most urgent, in preparation for the marketing of the grain crops, and the revival of activity, in connection with the Fall season, in the business line. The city banks, in their last weekly return exhibited a loss of nearly 8⅝ millions of specie, and a reduction of nearly 4⅝ millions in their deposits while reporting an addition of close on three-fourths of a million to their loan and discount averages. On the other hand, the U. S. Sub-Treasury showed a further gain of nearly two millions of specie, and $45,473 of currency, as the result of the week's movements. The city banks, last week, reported a loss of $3,619,286 of specie, $70,987 of legal tender notes, and of $4,625,577 of deposits. They increased their loan and discount averages $717,976 and their circulation $123,502. The city bank exchanges, last week, averaged $78,223,805; and thus far, this week, 78 millions daily. The banks now hold $16,589,668 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $1,963,030 of specie and $45,473 of currency, as the result of the week's business. The receipts of the office were $4,621,533 in coin, and $4,777,897 in currency; payments, $2,658,503 in coin, and $4,732,335 in currency. The office received $3,891,000 in coin or its equivalent, from customs; and disbursed $705,161 of coin interest.

The specie reserve of the city banks according to the latest return is $13,364,453, against $26,742,592 same time last year. The city bank deposits are now $252,392,427 against $220,819,800 week ending August 6, 1870. The legal tender reserve amounts to $73,892,443 against $52,287,188 same time last year. The circulation now stands at $30,236,623, against $32,943,144 same time last year. The loans are now $300,770,261, against $281,182,144 at this date last year.

The U. S. Sub-Treasurer retired, last week, $3,521,973 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $6,318,735 in currency, and $63,279,294 in coin against a balance a week previous of $5,408,445 currency, and $61,758,237 coin.

Government revenues have been yielding quite liberally, since our last, in both forms of customs and excises. The excises yielded last week about three millions, thus far since July 1, $17,003,000. The customs at the port of New York, last week were $3,696,873; and at the outports, equal to about 1¼ millions more, all in coin, or coin certificates.

Gold has been quoted stronger as to price, on a very moderate offering. The demand, however, has not been active, either on speculative account or for shipment. The main call has been for Custom House purposes, to pay duties on goods intended for the Fall season, now about opening. The range of the price during the week, has been from 111⅞@112¾, and the closing quotation on Wednesday was 111⅞@112 against 112⅛ the preceding Wednesday. The specie outflow, last week, was $565,675; on Tuesday of this week, $225,000; and on Wednesday, $112,056. The Gold Exchange Bank clearances have been as follows: August 3, $16,663,000; August 4, $17 020,000; August 5, $16,128,900; August 7, $16,285,000; August 8, $20,552,000; August 9, $18 508.000.

The customs at this port on Wednesday were $578,000.

The customs demand for Gold last week, averaged $648 500 a day; thus far, this week, it has averaged $658,200 a day, or equal to a weekly aggregate of $3,959,200. The arrivals of specie from Europe, Havana and other foreign ports last week were $94,232 and since Jan. 1, 1871, have been $7,424,449 against $7,360,688 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $94,025,430 against $78,711,632 same time in 1870.

Government disbursed through the U. S. Sub Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 31, 1871, $59,923,085, against $61,869,193 same time in 1870.

The export drain was $565,675 last week,

against $3,578,271, same week preceding year. The shipments since January 1, 1871, have been $51,503,016, against $37,797,903 same time in 1870.

In the line of foreign exchange, business has been on a restricted scale and with a freer offering of bills, rates have been depressed, closing weak. Bankers' sixty day bills on London closed on Wednesday at 109⅝@109⅞; sight bills on London, 110⅛@110⅜.

The produce exports from this port, week ending with Aug. 8, were to the currency value of $5,200,713.

Government securities have shown increased firmness, on a limited offering of nearly all issues, while the demand has been somewhat brisker. There has been a livelier export inquiry for the older issues of the Gold bearing bonds at buoyant prices.

On Wedesday afternoon, dispatches by cable from London, reported that Mr. Richardson, U.S. Ass't Secretary of the Treasury, now in the English capital, had successfully completed the negotiation of the unmarketed balance of the U. S. Five per cent. funding loan, with Messrs. Jay Cooke, McCulloch & Co. The immediate effect of the report in London was a sharp advance in the price of U. S. Securities, leading also to a general stiffening of values in the New York market.

Under the official programme for August, Government proposes to sell Gold, during the month, as follows: Thursday, August 10, $2 000,000; Thursday, August 17, $1,000,000; Thursday, August 24, $2,000,000; Thursday, August 31, $2,000,000. And buy in of Five Twenties, as follows: Wednesday, August 16, $1,000,000; Wednesday, August 23, $1,000,000; Wednesday, August 30, $1,000,000.

On Wednesday, Government bought in only $20,100 of Five-Twenties at 111 99, ex-interest. The amount of bonds offered was $445,100 at 111 99@114⅛.

U. S. sixes of 1881 closed here on Wednesday of the current week at 116⅞@117⅛; U. S. Five-Twenties of 1862, 115@115¼; U. S. Five-Twenties of 1864 at 114@114¼; U. S. Five-Twenties of 1865, 114⅜@114½; U. S. Five-Twenties of 1865 consolidated, 112¾@112⅞; U. S. Five-Twenties of 1867, 114⅜@114½; U. S. Five-Twenties of 1868, 113¾@114; U. S. Ten-forties at 113⅝@113⅞; U. S. Six per cent. currency bonds, 114¼@115.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 26.	Aug. 2.	Aug. 9.
Consols	93⅝	93½	93¾
U.S. 5-20's of 1862..	92⅝	93	93⅞
U. S. 5-20s, 1865....	92¼	92¾	93⅝
" 1867	91⅝	91⅞	92⅝
" 10-40s	91½	92	93
Erie.	——	24⅛	24⅝

State bonds continue in moderate demand at about previous prices.

Railway bonds have been in request, mostly for investment purposes, at generally steady prices. The chief business has been through the commission houses. Central Pacific Sixes closed on Wednesday at 98½@98¾. The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in request at 92 per cent. and accrued interest. Union Pacific Sixes closed on Wednesday at 88.

The earnings of the Central Pacific R. R. in June and July were $1,614,475, against $1,512,378 same months last year; and thus far in 1871, $4,924,920, against $4,210,463 same time in 1870, showing a gain of $714,457 for the expired seven months of the current year.

Business in Railway and miscellaneous share property has been moderately active, with rather more spirit noticeable in the speculative dealings, and a stronger market as to values.

General business has been on a moderate scale, in most kinds of Produce, with considerable irregularity as to values. Flour closed heavy; Wheat and Corn, firmer; Provisions, depressed. Middling upland cotton closed on Wednesday at 19⅜ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,954,754 bales, against 2 831,663 bales same time last year; exports 3,123,183 bales, against 2,180,580 bales same time last year; stock at the ports at latest dates, 161,102 bales, against 106,474 bales same date 1870.

At the Live Stock Markets, Beeves have been in fair request at from 7@12½ cts.; Veals at 4½@10½ cts.; Sheep at 4@6½ cts.; Lambs at 6@8½ cts.; Swine, 5@5⅜ cts per lb., all live weight. The week's receipts were 6,057 Beeves, 2,742 Veal Calves, 29,041 Sheep and Lambs; and 21,484 Swine.

Foreign goods have been in less demand as a rule, at about former prices. The week's imports of foreign goods reached $6,441,548 including $2,902,364 of dry goods.

Ocean freights have been less active owing to the scarcity of room and the firmness of shipowners.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—North Carolina 6s, special tax, 18½; do. Fund Act, 1866, 84; do. 1868, 31; Georgia 6s, 84; do., 7s, 92; do. 7s, gold bonds, 98⅜; South Carolina 6s, new Jan. and July, 58⅛; Ohio 6s, 1886, 106; do., 1881, 104½; New York State 7s, Bounty Loan reg., 108¼; Louisiana 6s, Levee bonds, 70; St. Louis and Iron Mt. 1st mort., 92; Toledo, Peoria and Warsaw 1st mort., E. D., 88⅞; do. W. D., 87; Clev., Paines. and Ash. old bonds, 95; Central of New Jersey new bonds, 101; Morris and Essex const. bonds, 92; New York Central 6s, sub. bonds, 90; Albany and Susquehanna 2d mort., 95; Galena and Chicago 1st mort., 100; Long Dock bonds, 90½; Cedar Falls and Minnesota 1st mort., 83¾; South Side R. R., 75; New York and New Haven R. R., 155; Western Union Tel., 61⅛; Brunswick City Land, 8⅛; Adams Exp., 84¾; Wells-Fargo Exp., 46¾; Am. Mer. Union Exp., 56½; U. S. Exp., 55½; Consol. Coal of Md., 38¼; Maryland Coal, 30¼; American coal, 50; American Flag, gold, 0.15; Black Hawk gold, 0.40; Lacrosse gold, 0.20.

Philadelphia.—West Jersey R. R., 62¼; do. 7s, 103¼; Huntingdon and Broad Top Mt. R. St. Joseph and Denver City Railroad.

The coupons and interest on the First Mortgage Eight per cent. Gold bonds of the St. Joseph and Denver City Railroad Company, both Eastern and Western Divisions, due August 15, 1871, at New York, will be paid at the office of the Farmer's Loan and Trust Company, free of tax. A circular descriptive of the Bonds of the Western Division of this road, and the security upon which they are based, will be found on the first page of this week's issue. It will be observed that while the principal is payable in gold in New York thirty years hence, the interest is also payable in gold semi annually in the cities of New York, London, and Frankfort-on-the-Main, free of tax. The payment of the principal and interest is secured by a first and only mortgage on the Company's Lands, granted by the United States in 1866, lying on the line of this road, and amounting to 1,500,000 acres, the railway of the Western Division, extending from Marysville, Kansas, to a junction with Union Pacific Road at Fort Kearney a distance of 170 miles, together with the Equipments appertaining, Franchises, Rights of Way and Personal Property. They are Coupon Bonds, but can be registered or converted into Registered Bonds, and are receivable at par and accrued interest in payment of the Company's land sales. The value of these bonds, may be inferred from the fact that similar bonds on the Eastern division of this road, previously disposed of at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent. advance.

It should be borne in mind that this company has already constructed and equipped the Eastern division of its road, extending from St. Joseph to Marysville, a distance of 112 miles, and that it is a practical extension westwardly of the Hannibal and St. Joseph railroad, which is the next land grant road after the Illinois Central.

The St. Joseph and Denver City Railroad connects at St. Joseph with railways running direct to St. Louis, Hannibal and Toledo on the east, and connecting as it will with the Union Pacific Road on the west, is a very important link in the continental chain of railways. It also has through railway connection with Chicago. A very large part of the line is graded, and track-laying being now far advanced, will continue rapidly until the junction with the Union Pacific Road is made.

The entire property is mortgaged to the Farmer's Loan and Trust Company, of the City of New York, as trustees. The mortgage is dated May 14, 1870, and under it, and as their security, these bonds are issued.

The bonds can now be had at 97½ and accrued interest in currency, from Messrs. TANNER & Co., Bankers, 11 Wall st., N. Y., or through the principal banks and bankers in the United States.

The Washington Insurance Company.

The evidence of the continuous success of this ever reliable and substantial incorporation is observable in our advertising columns, which announce its *fortieth* dividend; this time, five per cent., making a total of twelve per cent. for the year. Next to the admitted high ability, and the untiring energy of its officers, the "Washington" is mainly indebted for its unrivalled prosperity, to the participation system, which is unquestionably. the safest, most economical, and altogether most satisfactory plan of effecting insurance from loss or damage by fire. By it, the policy-holder becomes a joint participant in the profits of the company, to the amount of seventy-five per cent. of the total, and for a number of years passed, with the "Washington," these scrip dividends have amounted to fifty per cent. per annum. Thus those persons who have been shrewd enough to avail themselves of this great advantage, by embracing participation, have effected their insurance at just half the established rates. And withal there is no extra risk to the policy holder, as he assumes no liability; nor is it necessary that he should, as the "Washington," besides its capital of $400,000, has accumulations which make its total cash assets over $800,000. The headquarters of this sterling company is at No. 172 Broadway. It writes fire and inland navigation policies, either participation or in the old style, as desired, and insure buildings, merchandise, household furniture, rents, leases, and all kinds of personal property. It emphatically stands in the very front rank of our leading City underwriting incorporations.

☞ The Lynchburg *Republican* announces, on the authority of Gen. Wickham, vice president of the Chesapeake and Ohio Railroad Company, that what is termed the Clifton Forge connection with Lynchburg has been determined upon. The present round about line of the road from the Forge northeastwardly, via Staunton, has a number of heavy grades, which will be avoided by the shorter and better line southeastwardly through Lynchburg. Gen. Wickham is reported as also stating that the same company would continue its connection, on an air-line, from Lynchburg to Richmond.

☞ The directors of the New York West Shore and Chicago Railroad Company have elected J. M. Consteney, President; W. M. Richards, Treasurer; L. M. Gurthie, Secretary; and Charles B. Stuart, Engineer-in Chief.

☞ The receipts of the New Jersey Southern Railroad line for the four months ending with July, 1871, were $216,634 81; and for the corresponding period of the previous year, $158,206 18—showing an increase of $58,478 13.

☞ The total shipments of Coal from Cumberland, Md., for the year 1871, up to July 29th, were 1,289,390.69 tons, of which 815,327.12 tons were by Baltimore and Ohio Railroad, and 474,062.17 tons by Chesapeake and Ohio canal.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

PUBLIC NOTICE.

The undersigned COMMISSIONERS of STOCK SUBSCRIPTIONS to the NEW YORK RAILWAY COMPANY, give notice that the **Books of Subscription** to the Capital Stock of such Company **WILL BE CLOSED** on the

31st day of August, 1871.

UNTIL THAT DAY the Books will remain open for Subscribers at the Banking House of

Duncan, Sherman & Co.,
No. 11 Nassau Street,

and also at the

Bank of the Metropolis,
No. 31 Union Square.

Until the Books of Subscription are closed, ALL SUBSCRIBERS for Stock will have the **Benefit of Interest** upon the several instalments paid, and as allowed to those subscribing within thirty days after the Books were opened.

Dated, NEW YORK, July 24th, 1871.

Alex'r T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

Illinois Central Railroad.

The statement of this Company for the month of July, 1871, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	2,814.07 for	$26,663 59
Acres Int. Fund Lands sold	.....	.....
Acres Free Lands sold	680.00 for	14,212 00
Total sales during month of July, 1871	3,494.07 for	$40,875 59
To which add Town Lot Sales		1,203 06
Total of all	3,494.07 for	$42,078 65
Cash collected in July, 1871		$181,450 79

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 402 Miles.	Total. 1109 Miles.
Freight	$440,582 00	$47,640 00	$488,222 00
Passengers	110,447 10	34,809 70	145,256 80
Mails	6,375 00	3,059 33	9,434 33
Other sources	69,000 00	2 940 67	71,940 67
Tot. July, '71.	$626,404 10	$88,449 70	$714,853 80
Tot. act'l earn'gs, July, '70	$499,187 30	$112,028 69	$627,215 99

☞ The Oil Creek and Allegheny River Railroad Company having leased the Union and Titusville Railroad, all communications will, until further notice, be addressed to the general office, Corry, Pa.

☞ Jarvis Lord and James Bellows, of Rochester, and S. B. Sprague, of Ithaca, have taken the contract for the construction of the Geneva and Ithaca Railroad.

☞ W. G. Peck has been appointed superintendent of the Vineland (N. J.) Railroad.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of July, were:

ENTERED FOR CONSUMPTION.

	1870.	1871.

☞ The Commissioners of the Intercolonial Railway have awarded the following contracts: No. 18, McDonald & Co., for $934,833; No. 19 Nelson & McGow, $245,475; No. 6, Gough & Co., $206,600; No. 3, Berlinquet & Co., $462,444; No. 4, Smith & Pitblado, $438,318. Several of the contracts previously awarded, have been re-let.

Journal of Railroad Law.

RAILROAD COMPANIES—WHAT DOES NOT CONSTITUTE NEGLIGENCE—LIABILITY OF PARENTS FOR NEGLIGENCE OF YOUNG CHILDREN.

The facts in the late case of The Pittsburg, Fort Wayne and Chicago Railway Company *vs.* Brumstead (48 Ill., 221), are fully and clearly stated in the following opinion by

BREESE, CH. J.—This was an action of trespass, on the case, brought to the Cook Circuit Court, by Thomas Brumstead, against the Pittsburg, Fort Wayne and Chicago Railway Company to recover damages for an injury to a minor son, occasioned by the careless management of the locomotive and train of the defendants. The injury occurred at a station, on the defendants' road, in the State of Indiana, called Castello.

The cause was tried by a jury, who returned a verdict against the pefendants of four thousand five hundred dollars. A motion for a new trial was made by the defendants, which was overruled. On the plaintiff remitting, at the instance of the Court, three thousand dollars of the verdict, thereupon judgment was entered against the defendants, for the sum of fifteen hundred dollars.

To reverse this judgment, the defendants have appealed to this Court, and several points are made, which we will notice.

It appears the injured party was a child about four years of age, living with his parents in close proximity to the defendants' railway track. On the day of the accident, he was left, by his mother, who had occasion to visit a neighbor, in charge of his sister, a girl fourteen years of age, and while she was engaged in some necessary duty in the house, the boy, without her knowledge, left the house, and soon after was found, to all appearances, dead, near the track, and was taken up and brought to his house, one of his feet crushed, and otherwise wounded. It appears, a private cart road crossed the track near the dwelling of the boy's parents, which was used, without question, by every one who had occasion to use it. It was on this road this accident occurred, and was occasioned by an express train running, with great velocity into a push car in advance of it, going in the same direction of the train, and such was the force of the collision that the push car was shattered to pieces, a fragment of which struck the boy, who was on the private road, and some considerable distance from the place of collision.

The first point made by appellants is, that the child was a trespasser on appellants right of way, and his parents, in suffering him to be there, were guilty of such a degree of negligence as to furnish a complete defense to the company for an injury which would not have occurred but for this wrongful intrusion, unless the company shall be shown to be guilty of negligence so gross as to imply a willingness to inflict the injury.

The place where the accident occurred was, in fact, on appellants' right of way, though not upon the track. The boy was struck while on a road used by the public, which crossed the track, and where he, in common with the rest of the public, had a right to be, until the company should forbid, or prevent, so much of its right of way from use by the public.

The next point made by appellants is, that the parents of this child were guilty of great negligence in leaving him with his young sister. We cannot perceive, admitting it is a duty of the most imperious obligation resting upon parents, to use vigilence in the care of their offspring of tender years, that the parents of this child were wanting in this requirement. A mother cannot be always, at all hours, with her child, nor is there any necessity she should be, nor is it practicable. She must perform her accustomed avocations; and in one moment a child of four years of age may escape from her notice; it cannot be otherwise. The parents of this boy, the evidence shows, were in a very humble walk of life, who had, the mother especially, something more important to do than to watch her child, lest he came to harm. She had to contribute her labor to feed and clothe him, and it is unreasonable to demand she should have no other employment than to guard her child from danger. Leaving the child with his sister, a girl of fourteen years of age, and who appears, from her testimony, to be intelligent and affectionate, was not negligence. It was unavoidable, and she was trustworthy and competent to take the charge of the child. What would be the public judgment of a rule of law which should forbid a mother to have a child four years of age, with his sister of fourteen, while their mother was providing for their sustenance, or enjoying herself by a short visit to a neighbor? Such a rule would not receive the sanction of any Court, and is not to be found in any adjudged case, or in any legislative enactment and has no reason in its favor. There was no negligence of the mother, and the child was in a place where he had a right to be, and at a safe distance from the railroad track.

The remaining point is, there was no negligence on the part of those having the train in charge.

On this point, the evidence establishes negligence in two particulars: first, in loaning the push car to be used by strangers, and second in not stopping the train in time to avoid collisions.

The loan of the push car, by the company's agent to persons not accustomed to its use, was a species of carelessness, nay, recklessness, with which we did not suppose a faithful and competent agent could be chargeable. When the agent loaned it, he knew it was in violation of his instructions, the result of which might be pecuniary loss to his employers. His wrong act was, in part, the cause of this disaster, and life-long injury. But above and beyond this, the conduct of the engine driver, in charge of the express train, admits of no justification or palliation. It is impossible to believe he did not see the signals excited persons were making, warning the driver of danger, and it is beyond all controversy, he could, if he had been ordinarily careful, have stopped the train in time to avoid collision with the push car, which was in plain sight for more than a mile. The fact that he supposed the push car was under the conduct of section men, who would take it off the track on the approach of a train, is no justification for his recklessness in crushing it to pieces. He should have known the car was not under the control of railroad employees, by the fact they did not attempt to remove it from the track on the signal being given. Not attempting it, the driver should at once have slackened speed, and broke up the train. This he could

easily have done, and it was negligence of the grossest kind in omitting it, and, for the consequences, the company must be responsible. A railroad company has no right to keep in its service such a reckless man.

It is also made a point by appellants, that the Court erred in refusing to give instructions moved by them, numbered two, three, four and eleven.

The substance of number eleven was contained in the eighth instruction given for appellants, and the other instructions above specified were properly refused. Instruction numbered two, leaves out of view negligence of their employees in running the train, even if the child was a trespasser on the right of way, the driver had no right to run over him and crush him. Instruction three is liable to the same criticism, and so is number four.

Perceiving no error in the record, the judgment must be affirmed.

Judgment affirmed.

New Jersey Southern Railroad.

The Capital Stock ($4,000,000), and First Mortgage Bonds($2,000,000), of this Company having been admitted to dealings at the New York Stock Exchange, the following particulars in reference to the road will be of interest:

The New Jersey Southern Railroad Company obtained its rights under the foreclosure and sale of the Delaware and Raritan Bay Railroad, Sept. 14, 1869, since which it has added very materially to its importance by purchasing nearly all of the stock of the Long Branch and Sea Shore Railroad and operating the road, and by constructing a road from Whitings, on its own line, to Pemberton, N. J., where it connects with the Camden and Amboy Railroad, making the distance to Philadelphia but eighty-nine miles from Sandy Hook. At Farmingdale it connects with the Freehold and Jamesburg Agricultural Railroad; at Whitings, with the Barnegat railroad; at Atsion, with the Vineland Railroad, forming a new outlet to New York from Delaware and Maryland; and at Tom's River with the Wareton Railroad. The Williamstown Railroad, from Atco to Glassborough, is also under contract.

The former opposition by the Camden and Amboy Railroad has been entirely removed, and a perpetual running arrangement has been made with the "Joint Companies of New Jersey," the latter furnishing all the necessary terminal facilities at Philadelphia. The arrangements for taking freight by this line to Philadelphia, and the South, have been but recently completed, but a gratifying increase in receipts is already manifest, which will doubtless improve as the line becomes better known. The transfer office is at No. 120 Broadway, and the stock is registered by the Farmer's Loan and Trust Company. The officers of the Company are:

President, ASHBEL GREEN, New York; Vice-President, GEO. B. UPTON, Boston; Treasurer, HENRY G. MARQUAND, New York.

Directors—Henry M. Alexander, New York; Wm. S. Sneden, Red Bank, N. J.; Samuel T. Dana, Boston; John J. Stockton, Trenton, N. J.; Samuel H. Gookin, Boston; George B. Upton, Boston; James A. Gould, New-York; Boston Van Vliet, New York; Ashbel Green, New York; Samuel G. Wheeler, Jr., New-York; Charles W. Huntington, Boston; Benjamin Williamson, Elizabeth, N. J.; Cortlandt Parker, Newark, N. J.

☞ Trains are now running over the Duxbury and Cohasset Railroad as far as Marshfield, and within two miles of Brant Rock, and will be completed to the terminus at South Duxbury by the 17th of August. The road is operated by the Newport and Old Colony Railroad Company.

The Public Debt Statement.

The following is a recapitulation of the public debt statement July 31, 1871:

DEBT BEARING COIN INTEREST.	
Five per cent. bonds	$275,307,300 00
Six per cent. bonds	1,608 444,350 00
Total	$1,883,751,650 00
Accrued interest	29,397,707 13
DEBT BEARING INTEREST IN LAWFUL MONEY.

Central Branch Union Pacific	1,600,000	8,000 00
Western Pacific	1,970,000	9,850 00
Totals	$64,618,832	$323,094 16
Interest paid by United States	$12,692,475 41	
Interest repaid by transportation of mails, etc.	3,063,865 33	
Balance of interest paid by United States	9,628,610 08	

☞ W. O. Hughart has been elected President, John H. Page, Jr., Secretary, and W. H. Ijams Treasurer of the Baltimore, Pittsburg and Chicago Railroad Company. The directors are: Wm. Keyser, P. H. Garrett and W. F. Burns, of Baltimore, and James Laughlin, Jr., W. D. Wood and George F. McLane of Pittsburgh.

☞ The Vineland Railroad from Winslow to Vineland, (N. J.,) is now in running order and ready for traffic. It will be pushed through to Atsion as rapidly as possible.

☞ Mr. Wm. H. Appleton, of the firm of Appleton & Co., of New York has been elected President of the Port Royal Railroad Company.

Portland, Rutland, Oswego and Chicago Railway.

At the convention held on the 26th ult. in Portland for the purpose of promoting the location and construction of the line from that city to Chicago, Mr. Hamlin, in his speech on the occasion, explained the object of the bill introduced by him in the United States Senate on the 19th of last January, in aid of the project. In summing up he said:

It secures direct and rapid communication between the West and Europe by finding an ocean outlet 200 miles nearer Europe than any other in the United States that has commercial advantages and prevents the extortions of combinations by placing a regulating power in the hands of the Government. It does not take a dollar from the public treasury or ask a foot of land. It asks the Government to become a guarantor, by the issue of its bonds, and receive as security the first mortgage bonds of a first class corporation, on such terms as will protect the nation from loss in any contingency.

The new features of this bill in railroad legislation and its consequence to New England, if sanctioned by the General Government, will make the following notice from an intelligent correspondent in Maine of the Boston *Journal* of special interest. The correspondent attended the convention at Portland, and we judge that, in part, his explanation of this new railroad legislation and the project itself is condensed from Senator Hamlin's speech. He writes as follows:

Mr. Hamlin, Jan. 19, 1871, asked and obtained by unanimous consent, leave of the U. S. Senate to bring in a bill "to secure cheap transportation of breadstuffs and provisions from the West to the seaboard, at uniform rates throughout the year."

This bill is the first of the kind introduced to the attention of Congress—a novelty in its way. It provides for a contract by the Postmaster General with the P., R., O. and C. Railway Co. to construct and maintain a double-track line of railway, with an adequate equipment, and with steel rails and iron bridges from Portland Harbor, by the most practicable route, westerly across the States of Maine, New Hampshire, Vermont, and New York, to Oswego, and thence by the most direct practicable line to the city of Chicago.

Upon the completion and equipment of forty miles of the road, the Secretary of the Treasury is to issue to the Company United States Bonds, payable in thirty years, to the amount of $50,000 per mile, which issue shall constitute *ipso facto* a first mortgage on the whole line of the road and property of the Company, and so on for every forty miles completed. The interest and bonds as they fall due to be paid by the Company: the location to be approved by an engineer appointed by the President of the United States; and the railway is declared to be a "National highway and a post road;" Congress to pass all needful laws for protection of the same; and it is made the duty of each State through which it passes to cede jurisdiction over the territory occupied by the road. In case of failure to pay the interest on bonds, it is made the duty of the Postmaster General to take possession of the line and run the road at the expense of the company, and Congress shall dispose of it "as to justice and equity may appertain." The rate of fares and freight to be established by the company shall be subject to revision and alteration by Congress, and to be uniform throughout the year. Government may at any time take possession of the road, franchise and property of the company, paying such compensation therefor as may be awarded by commissioners.

These provisions, with others, are elaborated in the bill. The company is said to be composed of gentlemen in the several States through which the road is to pass, probably under a charter from

each State, with an organization, and authority to connect with other roads by purchase or otherwise, the united roads forming the Portland, Rutland, Oswego and Chicago Railroad Co., with which the U. S. Government is to contract, and to which it is to furnish the $50,000 per mile if the enterprise is successful. Of the two grand divisions of the road, the one from Portland to Oswego—400 miles—it was the immediate purpose of the convention last week to provide for. The larger division, from Oswego to Chicago—600 miles—is to be left out for the present. With the eight railroad companies between Portland and Oswego a basis of union has been agreed upon. The project is a magnificent one, and doubtless will engage the attention of Congress chiefly through the influence of Western members.

Virginia and Maryland Railroad.

At the last session of the Virginia Legislature a charter was granted to a company to build a railroad from some point on the Potomac between White's Ferry and Knoxville to Manassas Junction, connecting with the Londoun and Hampshire Railroad at some point west of Goose Creek—that is, at Leesburg or Hamilton, and running through the magnificent marble quarries of Londoun county. This road will be one of great importance, not only to the region of country through which it runs, but to Washington city. It will give us a new and short connection with the West and North west, and will open up in and through Londoun county as fine a region of country as there is any where. The books for the subscription of stock were recently opened in Leesburg, and the amount of stock necessary to organize the company and begin the construction of the road was promptly taken. A meeting of the shareholders was then called at Nokesville, Prince William county, on the 22d July. At this meeting a majority of the commissioners and all of the shareholders were represented, and the company was organized. The following shareholders were elected Directors: Governor Henry D. Cooke, Alexander R. Shepherd, Hon. Isaac D. Budd (of Loudoun), J. A. Partridge, J. V. W. Vandenburgh, Chauncey H. Snow (of Prince William), and Alexander Johnston. The Directors then held a meeting and elected the following officers: President, Governor Henry D. Cooke; Vice President, Chauncey H. Snow; Treasurer, Major J. V. W. Vandenburgh; Secretary, Alexander Johnston. An executive committee, consisting of the Hon. Isaac D. Budd, Alexander Johnston and the President, was appointed. The gentlemen who have taken charge of this enterprise, as will be seen, are such as will put it through. Although it is a new company, and the grading and masonry of a considerable portion of the route has already been completed, and a reconnoissance will at once be made to ascertain the most feasible point to cross the Potomac, which will probably be at the Point of Rocks or Berlin. Hon. Isaac D. Budd, of Loudoun county, who is a man of energy and shrewdness, has taken great interest in this improvement and evidently recognizes in it something higher than mere local interests. Although wedded to the interests of his own country—one of the finest in Virginia—he manifests great interest in the prosperity of the National Capital.—*Washington Republican.*

The Miramar Railroad.

The Boonsboro' (Washington Co., Md.,) *Odd Fellow*, of 26th ult., gives the following facts in reference to this road:

The Miramar railroad, built last year, runs from Shippensburg, Pa., to the Susquehanna, opposite Harrisburg, a length of thirty eight miles. It is proposed to extend this road southward from Shippensburg, by Waynesboro', Pa., and Boonsboro', Md., to the Potomac river. The railroad company, on the 3d instant, passed resolutions to give bond for the construction of the road to Waynesboro' whenever $200,000 should be subscribed towards it. From Bridgeport, opposite Harrisburg, on the Susquehanna, to Shippensburg, the distance is thirty eight miles. The estimated cost of road and equipment to this point is $1,000,000. The distance from Shippensburg to Waynesboro' is about twenty miles; from Waynesboro' to Boonsboro' about seventeen, and from Boonsboro' to the Potomac about eight or nine miles—making in all about eighty-five miles. The construction and equipment of the road (taking the estimate as far as to Shippensburg as a basis) would be about $2,500,000. It is probable that Boonsboro' will be called upon to subscribe from $60,000 to $70 000. The engineers are now engaged in surveying the route through to that town.

A Three Foot Gauge Railway in Georgia.

The contract for grading, bridging, laying the track and completing the first twenty miles on the North and South Railroad has been awarded to Messrs. A. J. Lane & Co, and John T. Grant & Co. on a joint bid made by the two firms. Theirs was the lowest of the thirty-five put in. The specifications require work to be commenced within twenty days. A gauge of three feet was adopted.

The stock ($500,000) required by the charter before Directors can be elected has been secured by the Columbus, Harris, Heard, Rome and La Grange subscriptions, and it is said that the stockholders will meet in forty days to elect officers. The road has been pushed to its present favorable condition by the corporators, who are clothed under the charter with all the powers of Directors until the regular organization. Large subscriptions are yet to be obtained of Polk, Harrison, Carroll, Muscogee and Floyd counties.

This, we believe, is the beginning of narrow gauge railway systems in Georgia, which will be carried to such an extent as will modify greatly the policy of management of our existing broad gauge system. The present policy is extremely low rates for what are technically known as through freights and "full rates for local freight;" for example, a traveller from New Orleans to New York is required to pay only one cent per mile for transportation, while the Georgian is made to pay five cents per mile for his transportation between points within the State. Again, the Columbus people, we are told, found it cheaper last winter to ship cotton to Selma, Alabama, for reship ment to New York, than to ship directly from Columbus to Savannah or New York. This is one feature in railroad policy that is directing public opinion to the narrow gauge system, to avoid the evils of discrimination in tariff rates by cheaper rates for local freight and transportation. Another feature, which makes the narrow gauge system almost imperative, is the necessity for a system that will cost less in construction than our present expensive broad gauge system, to bring into use the many thousand acres of unoccupied lands throughout the State. These lands are now of little value either to the State or the owners. Our people have not the means to build broad gauge roads. But narrow gauge roads are no longer an experiment under British experience, and they come within the means of any community within the State.—*Columbus Sun.*

The New Columbia and Augusta Railroad.

Col R. R. Bridgers, the President of the Wilmington, Columbia and Augusta Railroad, we mentioned a few days ago, has concluded to continue his road from Columbia, whither he will soon run by the short cut from Sumter, to Augusta. With a road already in operation from Columbia to Augusta, this must be considered a bold stroke. He proposes to run an air line, as near as the nature of the country admits, and thus save from twenty to twenty five miles over the Charlotte Road, which runs to within a few miles of Edgefield Court House, and terminates at Graniteville. The new road will thus have the advantage in distance and, therefore, in time. For these reasons it will doubtless have the greatest share of the passenger trade, and most likely carry the mail. As to through business, neither road will break bulk in Columbia, and each will carry just whatever it can drum up at its northern terminus. The route will go mostly through a section of country hitherto undeveloped, tangential now and then with the Charlotte and Augusta, and perhaps to a slight degree with the South Carolina Railroad. It may, therefore, reasonably expect a considerable local business. There will certainly be a lively competition in Columbia, and Augusta bids fair to become one of the greatest railroad centres in the land.—*Charleston News.*

Virginia Valley Railroad.

A telegram to the Richmond *Dispatch*, dated Lexington, August 1, says:

"The Valley Railroad Company met here today. The representation was full. The amount of subscription necessary to secure the subscriptions of Baltimore city and of the Baltimore and Ohio Railroad Company was reported raised and the cash quotas provided for. The company organized permanently. Mr. Robert Garrett, as president, and fifteen directors were elected—the same as were elected at a former meeting. Propositions were submitted by different sections along the line offering large subscriptions and a right of way free of land damages if the road be run on their routes. A corps of engineers is already in the field making a permanent location."

Augusta and Port Royal Railroad.

The Augusta (Ga.) *Constitutionalist*, of the 29th ult. states that the Augusta and Port Royal railroad has been purchased by Mr. James Appleton and some other gentlemen of New York and South Carolina, and then adds:

When this road shall be finished we will have a short and direct route to one of the best ports on the Atlantic coast, and so much trouble and delay will be saved in shipping goods. The chief object in building railroads now is to obtain as short routes as possible. The Port Royal railroad will materially shorten the distance between the great producing country of the West and of the sea, all produce from New York being now sent to Charleston.

☞ The receipts of the Raleigh and Gaston Railroad for the year ending May 1, 1871, were $348,422, and the operating expenses, $204,277—leaving a balance of $144,145. The following gentlemen have been chosen directors for the ensuing year: Wm. J. Hawkins, Paul C. Cameron, A. M. McPheters, J. B. Batchelor, Geo. Little, Walter Clark and S. S. Royster. The officers are: President, Wm. J. Hawkins, Superintendent, A. B. Andrews; Treasurer, W. W. Vass. Dr. Hawkins is also President of the Chatham Railroad largely owned and controlled by the Raleigh and Gaston Railroad Company.

☞ The Washington and Ohio Railroad is to run from Washington city through Loudoun, Clarke, Frederick, Hampshire, &c., to the Ohio. It is partially constructed through Loudoun to Hamilton, and from this latter point bids are invited for contracts for the thirty-one miles to Winchester, to be completed by May, 1872. The company has mortgaged its whole line to raise nine millions to complete the road. Hon. Lewis McKenzie is President of the Company.

☞ The track of the Sugar River Railroad has been laid beyond Bradford into the town of Newbury, and will be pushed ahead speedily towards the Newbury Summit.

☞ The property of the Staten Island Shore Railroad Company, recently sold at Auction, was purchased by James Moore, for $31,000.

☞ The Tuckertown railroad is nearly finished.

Cincinnati and Indianapolis Junction R. R.

The officers of the Cincinnati, Hamilton, and Dayton and the Cincinnati and Indianapolis Junction Railroads, with the approval of the respective Boards of Directors, have entered into a contract by which the latter Railway is to pass into the hands of the former, and to be operated in connection therewith. The Cincinnati *Commercial* says that under this arrangement the Junction Road turns over a majority of its common stock and $500,000 of preferred stock, being one half of the amount issued by the company, to the Cincinnati, Hamilton and Dayton Railroad, as the property of the latter. This will give the Cincinnati, Hamilton and Dayton complete control of the road, and makes another direct road in one interest from this city to Indianapolis. The equipment of the Junction Road is estimated at $300,000. It is encumbered by a first mortgage to secure $1,200,000, a second for $800,000, and a third for $800,000, yet to be issued. It owes a floating debt of about $1,000,000, and has issued a preferred stock of over $1 000,000.

☞ George Batchelder has been elected Superintendent of the Eastern (Mass.) Railroad, *vice* Jeremiah Prescott, resigned.

FORTIETH DIVIDEND

WASHINGTON INSURANCE CO.,

No. 172 BROADWAY,

NEW YORK, July 28, 1871.

A DIVIDEND of FIVE PER CENT. has been declared, payable Aug. 1, free of tax.

WM. K. LOTHROP, Secretary.

CIVIL AND MECHANICAL ENGINEERING, at the Rensselaer Polytechnic Institute, Troy, N. Y. A higher and more practical Course of Instruction will be given here than has ever been attempted elsewhere in this country. Re-opens Sept. 13th. For the Annual Register, containing improved Course of Study, and full particulars, apply to PROF. CHARLES DROWNE, Director.

ENVELOPES.

SAMUEL RAYNOR & CO.,

115 & 117 William street,

New York.

Manufacture every style of envelope, from the smallest drug size to the largest official; and any size, pattern, shape, or quality wanted for railroad companies, express and insurance companies, banks, bankers and brokers. All well made and gummed. Samples given when requested.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1871.

A DIVIDEND OF FIVE PER CENT. IN CURrency, free of Government tax, has been declared by the Board of Directors of this Company, payable on the 1st day of August next to the holders of full-paid shares registered at the close of the 15th day of July next, after which date and until the 5th day of August next the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer

NOTICE TO CONTRACTORS AND BRIDGE BUILDERS.

DEPARTMENT OF SURVEYS,
224 South Fifth Street, Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until three o'clock P. M. of September 6, 1871, for the construction of a Bridge over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, with approaches to Twenty fifth and Spring Garden streets, in the Fifteenth ward, and to a point about 144 feet westward of Thirtieth street, in the Twenty-fourth ward, as follows:

First. For the Bridge superstructure over the river, including all materials, workmanship, and erecting ready for use. It will be of wrought iron, 348 feet from centre to centre of end posts, and 34 8-10 feet from centre of lower to centre of top chord, and also two trusses for Thirtieth street to be 84 feet from centre to centre of end posts, and 10 5-10 feet from centre of lower to centre of top chord, also of wrought iron. Detailed plans with complete strain sheets for these bridges, conforming to specifications, to accompany proposals, which on main Bridge shall give prices for both a two and three truss bridge.

Second. For all the iron work on *approaches* to be erected complete, as per plans and specifications.

Third. For the gradation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of the contract. The City reserves the privilege of rejecting any and all bids that may not be satisfactory, and each proposal as herein divided will be considered separately and will be so allotted.

Payments will be made monthly in bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond for the sum of five hundred ($500) dollars has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock

Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained, on and after the 22nd day of July, inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly. A contract has just been made with the pioneer Narrow Gauge Road—3 ft. Gauge—on this Continent—(The Denver and Rio Grande R. W.)—for 100 cars; also for a Georgia Road.

Comparative weights of Narrow and Full Gauge Cars sent by mail free of charge.

NEW YORK

State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE

GOLD BONDS

OF THE

RONDOUT AND OSWEGO

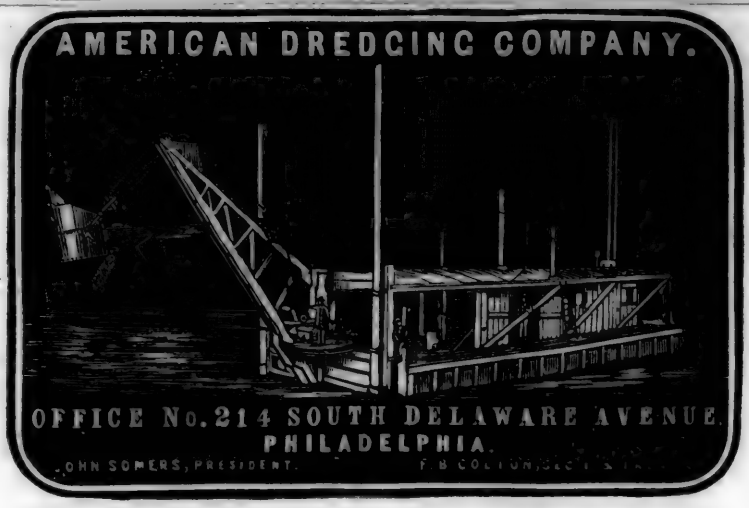
RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

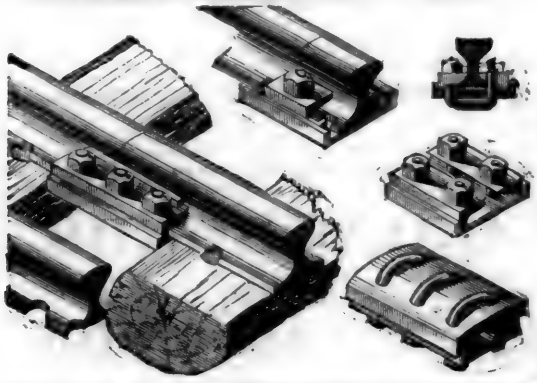
It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.



The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,



9 Wall Street, New York City,

Financial Agents of the R. & O. Company.

Contract for BUILDING and OPERATING at any point required.

New York Saturday, August 19, 1871.

☞ FIRST MORTGAGE SINKING FUND LAND GRANT BONDS OF THE ST. JOSEPH AND DENVER CITY RAILROAD COMPANY, WESTERN DIVISION.

These bonds can now be had from the undersigned, or through the principal banks and bankers of the United States.

They have thirty (30) years to run, bearing Eight per Cent. (8 per cent.) Interest, payable on 15th days of August and February in each year. The Principal and Interest are payable in *Gold*. The Principal in New York; the Interest in New York, London and Frankfort-on-Main, free of tax. They are Coupon Bonds, but can be registered or converted into Registered Bonds, and are receivable at par and accrued interest in payment for the Company's land sales. The payment of the principal and interest is secured by a first and only mortgage on the Company's Lands, granted by the United States in 1866, lying on the line of this road, amounting to 1,500,000 acres, the railway of the Western Division extending from Marysville, Kansas, to a junction with Union Pacific Road at Fort Kearney, a distance of 170 miles, together with the Equipments appertaining, Franchises, Rights of Way and Personal Property.

The mortgage is made to the Farmers' Loan and Trust Company of New York, as Trustees.

The Bondholders are amply protected by the terms of the Mortgage Deed, which prohibits a sale of the Company's lands at less than four ($4) dollars per acre, and a release of the lien of this Mortgage upon any portion sold until the purchase money is paid to the Trustees, who are authorized to apply the same to the payment of these Bonds, either by purchase or to the Sinking Fund, for their redemption at maturity. This will more than extinguish the debt and leave the railway and equipments free. The security for the payment of these Bonds is therefore beyond all contingency.

Holders of 5-20s, and especially those who do not desire to be paid off at the Treasury Department, can now exchange their Governments for these Bonds at a *good and substantial profit*.

The location of the line of the St. Joseph and Denver City Railroad is a commanding one, from the fact that it is a practical extension westwardly of the Hannibal and St. Joseph, the next Land Grant road after the Illinois Central. The St. Joseph and Denver City Railroad is fed at its eastern terminus (St. Joseph) by railway lines coming direct from Hannibal, St. Louis, Chicago, and local roads converging at St. Joseph. Its business is therefore secured. Its connection with the Union Pacific road opens up the through middle route across the Continent, and is of national importance. This is reflected in the fact that the quantities of letters and telegrams which we have received during the few days the Bonds have been for sale, applying for these securities, indicate the quick response of the American people in support of internal improvements, while at the same time they make a good investment.

Price for the present, 97½ and accrued interest in currency.

Circulars, maps, pamphlets, documents, &c., furnished upon application.

Expressage relating to the Bonds free. Marketable Securities received in exchange.

We have been at great expense in the examination of this property and the bonds, and are satisfied the investments in this Loan will not only be safe but profitable. We base our calculations on the fact that the First Mortgage Bonds of this Company, on the Eastern Division, lately successfully placed by our firm at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent. advance.

Under all circumstances, we unhesitatingly recommend them.

TANNER & CO., Bankers,
No. 11 Wall Street.

Blue Ridge (S. C.) Railroad Securities.

Among the matters of local finance which was before the South Carolina Taxpayers' convention held last May was the question of the validity of $4,000,000 of bonds of the Blue Ridge railroad, ndorsed in the name of the State, of which $3,100,000 have been issued by the company and pledged as collateral security. The convention referred the question to Messrs. Porter & Conner, of Charleston, and Hon. James Chesnut, of Kershaw, for their legal opinion, which has now been rendered. They say that the conditions upon which the bonds were to be used have not been complied with, that the action of the company in pledging the bonds was in violation of law, and that it is a very serious question whether the State is liable for the bonds thus illegally used.

Chicago, Danville and Vincennes Railroad.

The construction of this important road is rapidly approaching completion, the track being already laid to within 20 miles of Danville.

A very large force is at work upon the remainder of the line; the iron is upon the ground; ties, splice bars, spikes, &c., are distributed on each unfinished mile, and if the weather is favorable, the contractors are confident of their ability to lay the "last rail" by the 10th of September.

☞ Active measures are being taken to construct the Peachbottom railroad with the narrow gauge between the Susquehanna river and Oxford. A stock basis of $75,000 is required for this. The subscriptions already reach $3,000 per mile, and it is estimated that an increase to $4,000 will warrant the commencement of the enterprise. It is to make a connection with this route, that the building of the Wilmington and Western railroad is urged forward.

Atlantic and Great Western Railway.

Communications announce the final rescue from danger of this property, representing a total of 13,000,000*l.*, of which the largest proportion is held in England and on the Continent. The line (510 miles in length) forms one of the grand outlets to the West, but its access to New York being by the Erie, with which it is connected at Salamanca, it had fallen under the control of the directors of that concern, owing to an agreement entered into with them at a time before it was known that any such agreement meant simply ruin. Mr. James McHenry, the president, has, however, incessantly labored in the interest of all concerned to wrench it from these hands, and, with unflinching financial support from Messrs. Bischoff-heim and Goldschmidt, his sagacity has resulted in complete success. As the line runs in its course through three States—New York, Pennsylvania, and Ohio—a legal battle had to be fought in each. About a fortnight back news was received of the redemption of the New York section. A week later a similar announcement came with regard to the Pennsylvania section, and to day the final notification has arrived concerning that of Ohio. A process of foreclosure in the several States has enabled the property to be bought in for the rightful owners, and now their trustees —General M'Clellan, Senator Thurman, and Mr. W. B. Duncan (Duncan, Sherman, and Co.) have possession of the whole, including lands, lines, rolling stock, and assets of every description. To reorganise and develop all its resources is their only remaining task, and meanwhile, after the instances incessantly recorded from New York during the past few years of judicial corruption and shameless brigandage, it is a matter of rejoicing, in which all the respectable classes in America will heartily share, to record the consummation that has in this case been achieved.—*London Rail way Times, Aug.* 5.

Hannibal and St. Joseph Railroad.

The receipts from traffic for the years ended August 31, 1869 and 1870, were as follows:

	1869.	1870.
Passenger traffic	$1,153,632 37	$1.258,225 25
Freight do.	1 565,128 56	1,882,070 86
Mail and miscel	122,916 39	128,194 28
Kansas City Bridge—tolls and rents	320 15	71,734 49
Total	$2,841,997 47	$3,340,224 88

The expenditures on account of operating and repairs were:

Train service	$109,528 98	$147,184 28
Station do.	174,460 85	189,325 24
Water do.	18,902 87	21 314 02
Engine do.	112,481 78	148 392 97
Car do.	24 327 38	42,960 65
Mail	2 875 00	2,833 27
Loss & dam'ge(fr'ght)	20,802 91	11,455 03
Do. Do. (stock)	55,727 05	57,610 61
Stationery & printing	27,017 82	25,431 31
General expenses	99 971 76	90,411 64
Taxes	46,743 16	51,587 44
Foreign agencies	55,104 73	70,289 17
Roads, bridges and fences (repairs)	647,672 22	609,871 53
Buildings (repairs)	33,382 71	36,168 02
Locomotives (repairs)	163,313 30	205,734 72
Cars—pass. and baggage (repairs)	64,768 26	62,928 68
Cars—fr'ght (repairs)	148,046 86	128,753 93
Cars—road (repairs)	5,366 97	5,741 76
Oil and waste	21,626 83	34,355 15
Fuel	119,083 32	152,636 67
Telegraph	24,931 04	31,036 10
Kansas City Bridge	1,697 96	11,484 66
Miscellaneous	47,999 47	109,101 16
Transfer	52,354 31	
Total	$2,078,183 55	$2,240,558 01
Net earnings	$763,813 92	$1,099,666 87

The following amounts were expended in construct'n & equipm'nt. $1,090,934 52 $831,268 85

The aggregates of the value accounts for the last seven years sum up as follows:

	Earnings.	Expenses.	Profits.	Construction, &c.
	$	$	$	$
1863-64.	1,788,034	1,155,660	632,374	215,416
1864-65.	2,135,872	1,872,035	263,837	470,073
1865-66	2,359,013	2,200,503	158,509	627,160
1866-67.	1,716,270	1,427,998	288,272	362,248
1867-68.	2,184,168	1,371,652	812,516	421,013
1868-69.	2,841,997	2,078,184	763,813	1,090,935
1869-70.	3,340,225	2,240,558	1,099,667	831,269
Total	16,365,579	12,346,590	4,018,988	4,018,114
An. av.	2,337,940	1,763,799	574,141	574,016

The amounts of money used in construction and equipment for the seven years was as follows:

New freight cars	$922,202 96
New passenger and baggage cars	306,978 57
New locomotive engines	826,382 83
Repairs of locomotives used on road work	62,439 59
New buildings	323,817 86
Roads, bridges and fences	1,377,182 61
Station service	152 00
Water service	11,751 76
Engine service	53 340 73
Repairs of road cars	50,370 73
Oil and waste	7,857 54
Fuel	45,110 91
Miscellaneous	30,525 54
Total	$4,018,113 63

As at present organized the roads of the Hannibal and St. Joseph company consists of a main line extending from St. Joseph to Hannibal, 207 miles. At the first named point connecting with the St. Joseph and Denver City Railroad, already in operation to Marysville, Kansas, and in rapid progress to Fort Kansas, Neb., where it will unite with the Union Pacific Railroad; and with the Kansas City, St. Joseph and Council Bluffs Railroad, which traverses the Missouri Valley in Missouri and Iowa from Kansas City to Council Bluffs, Omaha and Sioux City. At Hannibal the east terminus of the main line it connects with the Hannibal and Naples Railroad and through it with the Toledo, Wabash and Western Railroad and the whole net work of eastern lines to the Atlantic ports. At Palmyra a branch 15 miles in length extends to Quincy, at which point a magnificent bridge spans the Mississippi, and enables this road to connect with the Chicago lines as well as the Toledo, Wabash and Western Railroad, &c. From Cameron to Kansas City, 53 miles, another branch projects, and crossing over the Missouri River on the new bridge (owned by this company) connects with the Kansas Pacific and the numerous other railroads forming the southwestern system, reaching to New Mexico and the Gulf of Mexico. A glance at the map will at once impress the mind that the roads of this company, from their geographical position, will secure to them a very important share of the transcontinental trade and travel and almost a monopoly of a wide breadth of country on both sides of them.

The equipment of the road at the close of the fiscal year 1869-70 was as follows: Locomotive engines (10 added in year), 79; Coaches in good condition (8 new) 30; smoking cars, 4; coaches (old), 8 and used as way cars 5—47; mail and express cars (12-wheel), 3; mail and baggage 1, and baggage (28 feet) 3—7. Freight cars—grain and merchandise, 162; combination, 648; open stock, 124; platform, 233; coal, 85—1,247. Also, dump cars 26, hand cars, 70, way cars with freight trains 26—122. The sleeping car equipments, formerly owned by the company, was disposed of to the Pullman Palace Car company November 1, 1869. The increase in the freight equipment in 1869-70 was 410 cars, of which 110 were manufactured at the Hannibal shops. Additional engines and cars are called for.

The operations of the company in 1868-69 and 1869-70 compare as follows:

PASSENGER TRAFFIC.

Westward:	1868-69.	1869 70.
Local passengers	133,154	149,266
" " mileage	5,882,780	6,055,482
" " revenue	$309,386 85	$281,778 32
Through passengers.	35,179	49 609
" " mileage	7 744,186	10,908,941
" " revenue	$328,341 65	$441,711 62
Total passengers	168,333	198,876
" " mileage	13,268,866	16,974,423
" " revenue	$637,738 51	$723,489 94
Eastward:		
Local passengers	123,351	137,079
" " mileage	5,475,654	5,985 882
" " revenue	$276,288 57	$262,746 81
Through passengers.	24,048	23,387
" " mileage	5,288,245	6 263,222
" " revenue	$239,505 29	$271,988 44
Total passengers	147,399	165,467
" " mileage	10,763,899	12 249,104
" " revenue	$515,893 86	$534,735 25
East and west:		
Passengers	315,733	364,343
" mileage	24,390,765	29,223,527
" revenue	$1,153,632 37	$1,258,225 25

The average rate of fare per mile (cents) was in 1868 69 4.73, and in 1869-70, 4.30½. This shows that while the passenger mileage has increased 20 per cent., the earnings therefrom have been increased scarcely 9 per cent.

FREIGHT TRAFFIC.

West:	1868 69.	1869 70.
Tons carried	258,195	302,175
Tons one mile	32,886,232	54,155,246
Revenue	$1,204,199 51	$1,465,741 47
East:		
Tons carried	110,768	109,656
Tons one mile	11,396,174	16,703,608
Revenue	$360,929 05	$416,329 39
West and East:		
Tons carried	363,963	411,831
Tons one mile	44,282,406	70,858 854
Revenue	$1,565,128 56	$1,882,070 86

These figures show an increase of 65 per cent. in tons carried one mile westward while the earnings have been increased but 21¾ per cent.; and an increase of 46 per cent. in tons one mile eastward, with an increase in earnings of but 15.4 per cent.

The cattle, hogs and lumber traffics in the two last years compare as follows:

	1868 69.	1869 70.	
Cattle	59,729	84,433	Inc. 24,704=40 p.c.
Hogs	116,116	89,315	Dec. 26,801=80 p.c.
Lumber, M.ft	62,763	102,179	Inc. 39,416=60 p.c.

The shipments from Hannibal and Quincy in 1869-70 amounted to 62,328 and 15,894 respectively, or in total 78,222 tons. In the previous year they were 43,710 and 12,383, or a total of 56,093 tons. Increase for Hannibal, 18,618 tons,

or 40 per cent., and for Quincy 3,511 tons, or 80 per cent.

The following is a summary of the general operating account (receipts and expenditures) for the seven years from September 1, 1863 to August 30, 1870:

Passenger receipts		$6,174,953 08
Freight do.		9,112,901 64
Miscel. do.		946,542 38
Military account		171,724 43
Kansas City bridge, rents and tolls		67,484 96
Missouri river packets (net)		211,827 86
Capital stock		957 00
Interest, discount & exchange (net)		11,171 24
Lots and lands sold		1,281 95
Total		$16,698,944 54
Operating expenses	$16,325,082 38	
Land department	224,074 82	
Sundries	140,970 15	
Cash & cash assets	8,817 19	
		16,698,944 54

Distributed to the years embraced, viz: Sept. 1, 1863 to August 31, 1870 the receipts were as follows:

	Passenger.	Freight.	Miscellaneous.	Military.	K. City Bridge.	Packets.	Total of sundries.
1863–'64	$487,801 41	$1,104,527 27	$107,724 46	$48,871 78	$	* 129,589 64	$285 00
1864–'65	794,617 03	1,159,609 12	166,250 24	61,003 19		6,434 36	11,000 00

In the same period of seven years the expenses and other disbursements were as follows:

	Expenses.†	Land Dep't.	Sundries (7 years):
1863–'64	$1,361,246 16	$10,917 98	Right of way
1864–'65	2,287,891 35	18,612 89	Plain bonds paid in Missouri
1865–'66	2,729,012 36	32,790 01	Quincy & Palmyra R.R. paid in cash
1866–'67	1,917,617 30	33,114 81	Approach to Quincy Bridge
1867–'68	1,689,824 71	52,028 04	Kansas & Cameron R. R. & bridge
1868–'69	8,052,284 04	51,825 82	Sundry accounts
1869–'70	8,287,554 40	24,785 77	Cash and cash assets
	$6,174,953 08	$224,074 82	

Other receipts during the period embraced, less amounts paid therefrom, &c., $13,410 19.

The sums total of receipts and expenses balancing as in first account at $16,698,944 54.

The financial condition of the company, as per general or capital account of August 31, 1870, furnishes the following details:

State bonds at 20 years		$1,500,000 00
State bonds at 30 years		1,500,000 00
		$3,000,000 00
Capital stock 41,517 shares		4,151,700 00
Preferred stock * 50,872.24 shares		5,087,224 00
Six year 10 p. c. mortgage bonds	$69,000 00	
Three year notes	810,000 60	
Two year notes	1,024,300 00	
Fifteen yr 8 p. c. bonds	1,209,500 00	
Quincy and Palmyra R. R. bonds	500,000 00	
Kansas City and Cameron R. R. bonds	1,200,000 00	
		4,812,800 00
Land fund, cost of securities purchased and cancelled by the trustees and delivered to the company		2,273,640 38
New mort. land bonds	$1,503,700 00	
New mort. conv. bonds	5,600 00	
		1,509,300 00
Balance of account		681,279 80
Total		$21,465,944 18
Construction, Sept. 1, 1863		$6,141,845 70
Construction, 1863 to 1870		1,525,945 16
		$7,667,790 86

Telegraph		17,156 44
Depot grounds, &c. (net)		115,146 05
Depot buildings, offices, &c.		519,004 34
Right of way		59,897 24
Interest Sept. 1, 1863	$4,981,807 76	
Interest (net) June	1,461,309 00	
		6,443,116 76
Q. and P. R.R. and cost of approach to Quincy bridge		339,703 97
Kansas City and Cameron R. R. and bridge		2,240,694 56
Land debt, Sept. 1, 1863	$92,906 19	
Land debt, 1863 to 1870	244 992 47	
		337,898 66
State sinking fund		1,900 00
Fiscal agency account		179,365 35
Total		$21,465,944 16

The Land Department Account stood as follows at the close of the fiscal year 1869–70:

Sales of 467,126.60 acres of land	$4,818,582 02
Sales of 936 village lots	130,965 67
Interest to maturity of contracts	1,208,377 51
The amounts paid are	$6,157,925 20
Principal	$2,127,125 17
Interest (direct)	479,189 38
Interest (additional)	16,266 03
	2,622,580 58
Unsettled payments on contracts including interest to maturity	$3,473,172 33

The receipts paid on account of sales and interest have been disposed of as follows:

For $220,500 old land bonds and interest	$236,321 65
For $172,500 new land bonds and interest	175,103 07
For 1,457.12 shares pref. stk. @83⅓	121,426 67
Remittances to trustees	2,090,085 90
Total	$2,622,937 29

The trustees' account Dec. 31, 1869, shows purchase of new bonds, costing	$1,669,450	$1,740,783 99
Premiums of exchange &c	$1,865 80	
Incidental exp., &c.	966 48	
Salaries of three trustees	25,000 00	
		27,632 28
Remittances, as above	$2,090,085 90	
Interest and premium	12,760 72	
	$2,102,846 62	
Balance of trustees' account		334,225 35
Total		$2,102,846 62

The following directors were elected November 7, 1870:

James F. Joy, Detroit, Mich.; Nathaniel Thayer, Sidney Bartlett, John A. Burnham, H. H. Hunnewell, and James H. Blake, Boston, Mass.; James Craig, St. Joseph, Mo.; John V. L. Pruyn, Albany, N. Y.; and William H. Neilson, New York city.

President.—James Craig, St. Joseph, Mo.

Chairman of Board.—James F. Joy, Detroit, Mich.

Treasurer of Fiscal Agency.—R. S. Watson, Boston, Mass.

Secretary and Treasurer.—John L. Lathrop, Hannibal, Mo.

Sup't and Chief Engineer.—George H. Nettleton, Hannibal, Mo.

Land Commissioner.—Edward Wilder, Hannibal, Mo.

Fiscal Agency, Boston, Mass.

General Office, Hannibal, Mo.

Vera Cruz and Mexican Railway.

A further portion of the line of the Mexican Railway Company, between Apixaco and Vera Cruz, has been opened for traffic; and Mr. Mills, the general manager, has just reported to the London Directors that the Company is now carrying all the goods forwarded from Vera Cruz in the direction of the capital, Mexico. Between Vera Cruz and Paso del Macho, the distance is 47 miles; the carters, who formerly carried by the ordinary route, now use the line exclusively, and it is found that the same is the case with every additional mile that is opened. The line is gradually obtaining the entire traffic, both goods and passengers, of the country. It will shortly be opened to Cordova, and then the receipts from the passenger traffic will considerably increase, as the merchants and principal inhabitants of Vera Cruz will remove their families up the country in that direction during the hot season. The opening to Cordova was expected to take place about the middle of last month. Meanwhile, the receipts of the Vera Cruz section, during the first four months of the year, amounted to 98,723 dollars, against 67,687 dollars in the corresponding period of 1870.

Chesapeake and Ohio Railroad.

The corrective survey of the Ironton, Portsmouth and Cincinnati railroad has been completed and the result, accompanied by profile maps, estimate of cost of construction, &c., will be laid before the officers of the Chesapeake and Ohio Railroad Company in the course of a few weeks for inspection. The whole distance from Columbia to Portsmouth by this air line route is 92 to 93 miles, which can be reduced to 90 miles when the road is permanently located, with a maximum grade of 35 feet, and no abrupt curves. The grading will not, it is considered, cost over one million dollars.

* In 1863–'4 deficit, $74,036 14, and in 1867–'8, $28,121 84—total deficit, $102,157 98, which deducted from the total of the packet account $313,985 84, leaves as above a total income from packet service of $211,827 86.

† Including operating expenses, materials, new equipment, construction, buildings, fences, &c., paid from income account and sundries.

* This stock is entitled to 7 p. c.; and any surplus after dividing 7 p. c. to both capital and preferred stocks, is to be divided equally between the two classes of stock.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, August 19, 1871.

Stock Exchange and Money Market.

Continued ease has been the feature of the call loan market, with Money reported available, in a controllable form for the lenders, in large amounts at the very low rates which have prevailed for a long time past. The speculative inquiry for aid has been somewhat brisker, in harmony with the enlarged movements in Gold and Stocks, but the wants of street borrowers have been quite promptly met at the ruling figures. In the discount line, with the growing activity in the Fall trade, there has been a more urgent demand for accommodation, with less partiality shown by lenders to long date acceptances. The current quotations for Money at the close were 2@5 mainly 3 per cent., on call and at 4½@9, per cent. per annum on very choice to fair business credits, with the bulk of the business in the latter reported in mercantile notes, grading strictly choice to prime, and rated at 5@7 per cent. per annum. The city banks, in their last weekly exhibit, show a loss of 1½ millions of legal tender notes, a million of specie, and 1⅛ millions of deposits, with an enlargement of about 1⅝ millions of their loan and discount averages, and a small addition to their item of circulation. The U. S. Sub Treasury increased its currency balance 2⅞ millions, and its coin reserve, over a quarter of a million, as the result of the week's business. The city banks, last week, reported a loss of $1,002,704 of specie, $1,502,093 of legal tender notes, and of $1,147,147 of deposits. They increased their loan and discount averages $1,630,136 and their circulation $48,786. The city bank exchanges, last week, averaged $79,347,216; and thus far, this week, 86½ millions daily. The banks now hold $14,369,477 of specie and legal tender notes, in excess of the 25 per cent. of their liabilities required by the national banking Act. The U. S. Sub-Treasury office in this city reported a gain of $294,887 of specie and $2,887,889 of currency, as the result of the week's business. The receipts of the office were $4,397,672 in coin, and $5,356,665 in currency; payments $4,103,286 in coin, and $2,468,776 in currency. The office received $3,549,000 in coin or its equivalent, from customs; and disbursed $675,968 of coin interest.

The specie reserve of the city banks according to the latest return is $12,361,749, against $24,104,302 same time last year. The city bank deposits are now $251,245,280 against $215,074,494 week ending August 13, 1870. The legal tender reserve amounts to $72,390,400 against $51,976,262 same time last year. The circulation now stands at $30,285,409, against $32,909,166 same time last year. The loans are now $302,400,397, against $278,647,619 at this date last year.

The U. S. Sub-Treasurer retired, last week, $3,307,544 of coin certificates, received for customs.

The U. S. Sub-Treasury, on Thursday morning of this week, held a balance of $9,548,974 in currency, and $64,293,526 in coin against a balance a week previous of $6,318,735 currency, and $63,279,294 coin.

Government revenues show a fair yield. The excises yielded last week about 2⅝ millions, and thus far since July 1, $19,622,722. The customs at the port of New York, last week were $3,461,544; and at the outports, equal to about 1½ millions more, all in coin, or coin certificates.

Gold has been more active at a higher range of price, under freer speculative inquiries, a good customs call, and a less liberal supply, available for prompt delivery. The borrowing demand has been more urgent, and extreme rates have been exacted for the use of coin, from day to day. At the close, there was less buoyancy in the general movement. The range of the price during the week, has been from 111½@112¾, and the closing quotation on Wednesday was 112¼@112⅜ against 112 the preceding Wednesday. The specie outflow, last week, was $727,500; on Tuesday of this week, 96,300; and on Wednesday, $283,000. The Gold Exchange Bank clearances have been as follows: August 10, $74,190,000; August 11, $89,453,000; August 12, $67,786,000; August 14, $44,577,000; August 15, $47,564,000; August 16, $47,784,000.

The customs at this port on Wednesday were $746,000.

Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt from Jan. 1, to July 31, 1871, $60,599,053, against $61,844,699 same time in 1870.

The customs demand for Gold last week, averaged $591,500 a day; thus far, this week, it has averaged $750,000 a day, or equal to a weekly aggregate of $4,500,000. The arrivals of

specie from Europe, Havana and other foreign ports since Jan. 1, 1871, have been $7,424,449 against $7,360,688 same time in 1870. The total customs revenue of the Government, in coin, at this port, since January 1, 1871, has been $97,577,219 against $83,304,849 same time in 1870.

The export drain was $727,500 last week, against $2,902,528, same week preceding year The shipments since January 1, 1871, have been $52,180,517, against $39,912,847 same time in 1870.

Foreign Exchange has been in much better supply and decidedly cheaper, with a limited inquiry noted from all sources, closing however with more steadiness. Bankers' sixty day bills on London closed on Wednesday at 109@109¼; sight bills on London, 109½@109¾.

The produce exports from this port, week ending with Aug. 15, were to the currency value of $3,959,636.

Government securities have been offered very sparingly and all the older issues of the interest-bearing obligations have been in good request at firmer and buoyant prices. The successful negotiation of the United States Five per cent. Funding Loan, in Europe and here, of which we made note last week, has tended to stimulate the investment call for the several issues of the public funds.

Under the official programme for August, Government proposes to sell Gold, during the month, as follows: Thursday, August 17, $1,000,000; Thursday, August 24, $2,000,000; Thursday, August 31, $2,000,000; And buy in of Five Twenties, as follows: Wednesday, August 23, $1,000,000; Wednesday, August 30, $1,000,000.

On Wednesday, Government bought in a million of Five-Twenties at 112 12@112 24, ex-interest. The amount of bonds offered was $1,770,400 at 112 12@112 87½.

U. S. sixes of 1881 closed here on Wednesday of the current week at 118@118⅛; U. S. Five-Twenties of 1862, 114⅝@114⅞; U. S. Five-Twenties of 1864 at 114@114⅛; U. S. Five-Twenties of 1865, 114⅛@114⅜; U. S. Five-Twenties of 1865 consolidated, 113@113⅛; U. S. Five-Twenties of 1867, 113½@113⅝; U. S. Five-Twenties of 1868, 114¼@114½; U. S. Ten-forties at 113¾@114; U. S. Six per cent. currency bonds, 115⅝@115⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 2.	Aug. 9.	Aug. 16.

Central Pacific 6s	——	——	81½
Union " "	——	——	69¾

* or 90⅞@91 ex-sep. coupon.

State bonds have been in less liberal supply and fair demand at steadier prices.

Railway bonds have been in more general request, mostly for investment purposes, at stronger prices for the favorites of the older loans. The chief business has been through the commission houses. Central Pacific Sixes closed on Wednesday at 99¼@99½.

Business in Railway and miscellaneous share property has shown more activity with decided buoyancy in the current values of the speculative favorites.

The subscriptions to the St. Joseph and Denver City Railroad (Western Division) 8 per cent. bonds for the first two days of the present week are $200,000. More than a fifth of this Loan has already been marketed, within the very short period during which it has been open to subscription. The present price of the Bonds is 97½ cents and accrued interest in currency. Messrs. Tanner & Co., the financial agents of the Loan, after a thorough examination of the property which is represented by the mortgage, unhesitatingly recommend the Bonds as constituting a safe and profitable investment; and as an indication of the basis of their opinion, they refer to the fact that the First Mortgage Bonds of the same Company, on the Eastern Division, lately successfully placed by their firm at 97½, have advanced to 102 and accrued interest making them equal to 106.

The Chesapeake and Ohio R. R. First Mortgage six per cent. gold bonds have been in quite active demand at 92 per cent. and accrued interest. This Loan is being market d at a rate considerably in excess of the Money requirements of the Company, notwithstanding the fact that the work of construction is being vigorously prosecuted on the unfinished portion of the road, (195 miles,) of which ninety miles will be completed within the next six weeks, and added to the 227 miles already in actual operation. This will leave but 105 miles to be constructed, in order to give a through line of railway communication direct from Richmond to the Ohio River, where connections will be at once established with all the leading points of the West. It is confidently expected that the enterprise will be brought to completion in the Summer of the coming year. Union Pacific Sixes closed on Wednesday at 88@88¼.

General business has been fairly active, since our last. Breadstuffs and Provisions closed less buoyantly. Middling upland cotton closed on Wednesday at 18½ cts. per lb. The receipts at all the ports, since Sept. 1, have been 3,964,550 bales, against 2 837,232 bales same time last year; exports 3,127,690 bales, against 2,188,548 bales same time last year; stock at the ports at latest dates, 149,875 bales, against 96,220 bales same date 1870.

At the Live Stock Markets, Beeves have been in moderate request at from 8@12½ cts.; Veals at 4@10 cts.; Sheep at 4@6½ cts.; Lambs at 6@9 cts.; Swine, 5@5⅜ cts per lb., all live weight. The week's receipts were 6,749 Beeves, 2,556 Veal Calves, 34,205 Sheep and Lambs; and 20,944 Swine.

Foreign goods have been in fair demand as a rule, with a steadier market noted. The week's imports of foreign goods reached $9,690,472 including $4,039,796 of dry goods.

Ocean freights have been moderately active but rates have been quoted lower on a rather better supply of room.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Bellville and Southern Illinois R.R. 1st mort. 8s, 96; Ohio and Miss. consol. bonds, 93½; do. 2d mort., 86; Central of New Jersey new bonds, 101¼; Toledo, Peoria and Warsaw 1st mort., E. D., 89; do. 2d mort., 78½; New York Central sub. bonds, 90; Galena and Chicago 1st mort., 100; Cedar Falls and Minnesota 1st mort., 83¾; Chicago and Northwestern Int. bonds, 95; Gt. Western 1st mort., 1888, 91¾; Albany and Susq. 2d mort., 94¾; Hannibal and Naples 1st mort., 88; Long Dock bonds, 90¼; Rome, Watertown and Ogdensburg R. St. Joseph and Denver City Railroad.

A few years ago the idea of a Pacific Railroad was looked upon as chimerical. No skill in construction, it was argued, could enable the inherent difficulties to be surmounted. Indians would destroy the tracks, and snow would prevent the passage of trains. These fears time has shown to be groundless. Neither one nor two tracks will suffice for the business, and each of these in time must connect on both sides with roads which serve as tributaries and feeders. Many of these will shorten the original distance—as, for instance, the new St. Joseph and Denver City road does. Beginning in Missouri, it extends through Kansas, in one of the most fertile sections of that country, and abridges travel by one hundred miles. Commerce will take this path, instead of going a long, round-about way; and there will soon be an immense local traffic.

The Eastern Division of this road is entirely built and trains running beyond Marysville. The Western Division, from Marysville to Fort Kearney, a space of 160 miles, with ten miles of other track, is now rapidly approaching completion. To faciliate them in carrying on this work the directors have issued First Mortgage Land-Grant Bonds on this Western Section, running for thirty years, and bearing interest at eight per cent. in gold, free of tax.

The financial agents of the road are Messrs. Tanner & Co., the well-known bankers of Wall Street, who have just had such great success in placing the bonds of the Eastern Division. These were originally offered at 97½, the same price that the new ones are held at; and under careful management rapidly went up, until they now stand at 102 and accrued interest, amounting to 106. The Western Section is rapidly building, and the fertile soil and healthy climate will attract there an early tide of immigration.

The security of the bonds is perfect. In the first place, the mortgage not only extends over the road, but over twenty miles of land on each side of the track, amounting to 1,500,000 acres, granted to the Company by the United States Government for the express purpose of aiding the enterprise; in the second place, the amount which can be mortgaged is limited to half of the value; and, in the third place, the funds are retained and the trusteeship for the bondholders undertaken by the Farmer's Loan and Trust Company of New York. All the conceivable requirements of good bonds are united in these; good security, high interest, and convenience of payment. Bondholders residing abroad will be paid either in London or Frankfort-on-the-Main, and in the United States at New York.

The total issue of this loan is $5,500,000, and since the 1st of August, the sales have amounted to about one-fourth of the whole. These bonds are secured, in addition to the railroad property and franchises, by a land grant of 1,500,000 acres of the finest agricultural land in the State. The sales of land by the Union Pacific Railroad Company, published a few days ago, average $4.35 per acre. The lands on the Denver road are of much superior quality, but even at $4.35 per acre the 1,500,000 acres will realize about $1,000,000 more than the whole issue of bonds.

Persons desirous of investing in a first class security, bearing a high rate of interest, are referred to the circular on the first page of this paper, and also to maps and documents which may be had on application to Tanner & Co., No. 11 Wall Street, New York City.

☞ The Loudoun (Va.) *Enterprise* of the 1st instant says that work on the whole line of the Alexandria and Fredericksburg railroad is proceeding with vigor. The road bed will be ready for the reception of the rails next month, when track-laying will be commenced and rapidly prosecuted to completion. The erection of all the bridges on the line is under way, and is progressing at the same pace with the other portions of the road.

☞ The Ohio Falls Car Works delivered cars and coaches to the value of $195,458 10 during the month of July, which is certainly the largest month's work ever delivered in the United States, and probably the largest in the world.

BANKING AND FINANCIAL.

Harvey Fisk. A. S. Hatch.

☞ OFFICE OF FISK & HATCH.

BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 Nassau-st., New York, Aug. 14, 1871.

The successful negotiation of the new Government Five per Cent. Loan, and the calling in of $50,000,000 of Five-twenties, to be paid in gold, shows that hereafter from five to four per cent. will be the highest rate of interest paid on the bonds of the United States. Hence, investors who desire a larger income, with equal security, are withdrawing a part of their funds from Government bonds, and are seeking to place their money where it will be equally safe and more remunerative. Railroad bonds of the highest class are believed to offer the greatest advantages, and among the best of these are the First Mortgage Gold Bonds of the Chesapeake and Ohio Railroad, which promises to be one of the most remunerative, popular and useful of the great through routes connecting the Mississippi Valley with the seaboard. The Company has no floating debt, and it is under the management of men of well-known experience, character, ability and wealth. It is already in operation for 227 miles. In 40 days 95 miles more will be opened, making 322 miles completed; and as about 5,000 men are constantly at work upon it, the remaining 105 miles, which will finish the road, are expected to be opened next Summer. The Road has low grades and light curves, which secure an economy of transportation expenses. It is considerably shorter than the great competing lines, passes through a rich agricultural and mineral district, the deposits of iron and coal being inexhaustible. The bonds are an absolute thirty years security, and, if obtained in exchange for Five-twenties, the investor adds nearly twenty per cent. to his capital, besides retaining six per cent. gold interest.

Price, 92 and accrued interest from May 1. The Bonds are in denominations of $1,000, $500, and $100. FISK & HATCH.

☞ The Cincinnati and Baltimore Railroad will be completed and put in operation by January 1, 1872. It is simply a Western continuation of the Marietta and Cincinnati Railroad. Its termini are the Buckeye race track and the Plum-street depot, in Cincinnati. It is seven miles long, being one mile shorter than the present route into Cincinnati.

☞ A change of the gauge of the Louisville and Cincinnati Short Line Railroad from five to four feet eight and a-half inches commenced at daylight on the 13th inst., and was successfully completed at seven in the evening. Regular trains are now running.

☞ The officers of the Geneva and Ithaca Railroad Company are: C. M. Titus, of Ithaca, President; R. M. Steede, of Romulus, Vice-President; A. S. Chew, of Geneva, Treasurer, Col. J. W. Paine, of Geneva, Secretary.

☞ The new railroad from Lowville to Carthage, (N. Y.) is now nearly completed and is in running order to within two or three miles of Carthage. The extension to Watertown will be ready by the first of September.

Journal of Railroad Law.

RAILROAD COMPANIES—CANNOT EXPEL PASSENGER BETWEEN REGULAR STATIONS.

The facts in the late case of The Chicago and Northwestern Railroad Company *vs.* Peacock (48 Ill., 253), are fully and clearly stated in the following opinion by

WALKER, J.—The first question presented on this record is, whether an action of trespass will lie against a railroad company, where the conductor forcibly ejects a passenger, between stations on the road, because he refused to pay his fare. It is urged that case is the proper remedy, and that trespass will not lie. In the case of The St. Louis, Alton and Chicago Railroad Company *vs.* Dalby, 19 Ill., 353, it was, after full argument, and upon mature deliberation, determined that the action of trespass would lie against such a company, for forcible injuries inflicted by their employees, while in the discharge of their duties in operating their road, upon a passenger. And after reading appellants' argument in this case, we see no reason for dissatisfaction with the conclusion there announced, nor do we feel the least inclination to modify, or abridge it in its operation. We believe the rule to be sound, and strictly in analogy to the principles of the common law, which is the base of our system of jurisprudence.

It is also urged that this case is clearly distinguishable from that, inasmuch as the plaintiff in that case was at no time in the wrong, while in this case, appellee placed himself in the wrong by refusing to pay his fare, when called for by the conductor. We are not able to perceive that this creates or forms any well defined distinction in fact, and none in principle. The facts slightly differ, but so slightly as to form no well grounded distinction. In that case, the conductor wrongfully used force to eject a passenger from the train, after he had paid his fare, and because he refused to pay an extra charge for failing to procure a ticket, which he had applied for, but could not obtain of the agent, and after the assault and ill usage, he paid the extra charge, and was permitted to remain on the train.

The thirty-fourth section of the general law regulating our railroads, declares that "if any passenger shall refuse to pay his fare or toll, it shall be lawful for the conductor of the train, and the servants of the corporation, to put him out of the cars at any usual stopping place the conductor may select." And this provision has been held to apply to all railroads in the State. This, then, renders it lawful to put a passenger from the cars at any usual stopping place, when he refuses to pay his fare, and, by implication, makes it unlawful to put such a passenger off at any other place. Then, when the conductor expelled appellee, between stations on the road, he did an unlawful act. And, in this, the two cases are alike. Trespass was maintained in Dally's case, because he had done no act, or failed to perform any, which authorized the conductor to put him from the train at that or any other place; while, in this case, appellee had done no act which authorized the conductor to eject him from the cars at the place where it was done. He failed to pay his fare when it was demanded, which authorized the conductor to require him to leave the train at a regular stopping place, and, at such a place, he would have been required to request him to leave the cars, and, in case he refused, to then employ such force, and only such, as would be necessary, to remove him from the cars.

In Dally's case, the road was held liable because the conductor used force where the law did not warrant it. In this case force was employed where the law prohibited it, and hence the two cases are alike. In this case, it is true, appellee refused to pay his fare, but the law had said that, for that, the conductor should not remove him from the train, except at a regular station. The law, so far from sanctioning the force used in this case, had, on the contrary, forbidden it. By the use of force in this case, in ejecting appellee between usual places for stopping on the road, it was a trespass of its servants, precisely as in Dally's case. Had the conductor stopped his train and ordered appellee to get off, and he to avoid altercation, had obeyed, then, as no force would have been employed in wrongfully putting him from the train, the case would no doubt have been the proper remedy. It will be observed, that the Court in Dally's case, in stating the case, and not trespass, would lie, only refers to doing a lawful act in a careless and negligent manner, and not to the performance of an act which the law has prohibited, as in this case, with force and violence. What is there said, would apply to putting a passenger, who refuses to pay his fare, from the cars at a regular station. Because appellee had failed to perform a legal and moral duty, it did not authorize the conductor to take the law in his own hands, and, in violation of the statute, forcibly expel him at a place prohibited by the law.

It is next urged that the conductor was warranted in what he did, because appellee said to the conductor, that if he would stop the train he would get off, as he had passed the station where he had intended to leave the train, and when it was stopped he refused to leave. While such conduct is highly improper, and it is well calculated to try the patience of any conductor, and which no doubt subject appellee to damage for the wrong, and may be a mitigating circumstance in the case, we cannot hold that it was a justification of the acts of the conductor. The law had prohibited him from forcibly expelling appellee at that place, and the offer to get off there, which was retracted, did not amount to a license to use the force and violence employed in ejecting him.

It is insisted that the damages found by the jury are excessive, and so much so, as to require a reversal of the judgment. A careful examination of the evidence in the case, shows that appellee did not receive any serious and lasting injuries; his face was scratched and the skin was abranded slightly, on one or two places on his limbs. He, however, says he was kicked and hurt. Even conceding this to be true, he seems, the next day, which was Saturday, and the next Monday to have been about attending to his business. It does not appear that he was confined to his room even, much less being confined to his bed, from the injuries; he does not appear to have lost any time or suffered pecuniarily from those injuries; he does not seem to have been compelled to seek medical advice nor to have incurred any expense from his injuries. And when it is remembered that he committed the first wrong by refusing to pay his fare and having proposed to get off if the conductor would stop the train, and then refused when the train was stopped, we think a thousand dollars damages as excessive and grossly excessive. That sum was held to be so in The Chicago, Burlington and Quincy Railroad *vs.* Parks, 18 Ill., 460, and The Terre Haute, Alton and St. Louis R. R. *vs.* Vanatta, 21 Ill., 188, and the judgment of the Court below, in each of those cases, was reversed for that reason. It is true, that in this case there was more violence employed than in either of those, but it seems to bear no proportion to the verdict of the jury.

It may be urged, that the life of appellee was endangered, but it appears that if it was, it resulted from his efforts to again get upon the car after he had been expelled, and the train had started. He seems to have been ejected some three or four miles, only, from a station, and in the immediate vicinity of a house and in a settled neighborhood. And although in the night and when the weather was cold, still he does not have seemed to have suffered pain, injury to his health, or any great inconvenience. That he suffered in dignity, and some personal injury, there is no doubt, but when we see that he did the first wrongful act and when we consider the extent of the injuries inflicted upon him we are constrained to say that we regard the verdict as excessive, and while railroads, like individuals, must be held to the performance of every duty, they at the same time like individuals are entitled to the protection of the law, and in case where they are parties we will look at the circumstances in determining whether damages are excessive which juries have found against them. Had this been a verdict against an individual under the same circumstances it would have appeared palpably excessive.

The Court below erred in refusing to grant a new trial, and the judgment of the Court below must be reversed and the cause remanded for a new trial.

Judgment reversed.

From the Atlanta New Era.

Narrow Gauge Railroads.

Narrow gauge railroads are now the subject of discussion in railroad circles, and by railroad managers and incorporators throughout the whole country. It has suddenly been discovered that a narrow gauge railroad would do all the business required of a broad gauge; and, at the same time, cost only half as much to construct, equip, and operate it.

As a narrow gauge railroad has for several years been in highly successful operation in Wales, this recent *discovery* is a tangible fact, and the construction of a narrow gauge road in this country would not be, and is not, an experiment.

But what is a narrow gauge railroad?

The gauge now most in use North is four feet eight and a half inches, while in the South five feet is the usual width. All the narrow gauge roads I know of being in course of construction, are being built with three feet gauge, and those contemplated in Georgia and other Southern States are for three feet guage, while the great Southern Pacific Company have about agreed to adopt a narrow gauge, but it is three feet and a half.

This State's endorsement of bonds is contingent upon the road asking such indorsement building a *first class* road, as to materials and workmanship.

A great draw back to incorporators of contemplated roads in Georgia, to which "State aid" has been guaranteed by the Legislature, is, "Will a

narrow gauge track be considered 'first class, and, if so, how narrow?"

Certainly, the Southern Pacific will be a first class railroad, and will not the 8½ feet gauge, to be adopted by that road, be regarded as narrow as first class could be considered?

I hope it will not!

I think railroad projectors in Georgia, in building roads 3 feet wide, will commit proportionately, as great a mistake as did those who built 5 feet gauge roads; and, before five years, will see their error and heartily wish they had built them more narrow.

The successful road in Wales is two feet in gauge, and they wish it was but *eighteen inches*.

A road with three feet gauge can be built, equipped and operated for sixty per cent. of the amount five feet gauge requires, while a two feet gauge can be built, equipped, and operated for forty per cent. of the amount a five feet gauge requires, and do all the work required of any road in the South.

The locomotives would weigh four to eight tons instead of twenty to forty tons.

The cars would weigh two or three tons instead of ten to thirty tons.

The iron would weigh twenty-five pounds to the yard instead of sixty pounds, and in this proportion the entire two feet gauge road.

Instead of a passenger train weighing, without passengers, seventy tons (and mighty costly tons) dragging its weary way over the broad gauge, grinding and tearing the track to pieces, averaging forty passengers, the two feet gauge train, weighing twenty-five tons, would glide rapidly and safely along with its fifty passengers, all comfortable, cozy, and good natured.

Instead of a freight train, the engine and sixteen cars weighing two hundred tons, (very expensive tons) and carrying sixty to seventy-five tons of mixed freight, the two feet gauge freight train of the same number of cars, weighing sixty tons, would walk over the track with the same quantity of freight.

The experience of the Wales two feet gauge railroad managers is, that cars are much less liable to run off the track than on broad gauge roads, and the speed at which trains may be safely run is only to be governed by the capacity of the locomotive. Now, as there are doubts whether a quite narrow track, say two feet, would be deemed first class, the question ought to be settled. It is not the business a road does that makes its road bed and track first class; neither is it its width or immense dead weight of motive power and rolling stock. If it can be satisfactorily demonstrated that a two feet gauge road can do the business of a five feet gauge road in Georgia—let it be regarded as first class, provided it is well built of good material. Let us have no wide three feet roads; let us have narrow, two feet roads, and Georgia will soon be a gridiron, and the richest and most prosperous State in the Union. A. L. HARRIS.

Virginia Valley Railroad.

A correspondent of the Richmond (Va.) *Dispatch*, writing from Staunton on the 10th inst., has the following:

The agents of the Valley railroad have called upon the city to pay up 30 per cent. of the $150,000 voted by the people to the said road, and as soon as the necessary papers are prepared the bonds will be issued and the road put under contract. There are two lines surveyed from this place to Harrisonburg, and President Garrett has offered to locate the road on the line that subscribes most liberally to its construction. The upper line, called the Bridgewater route, will most probably get the road, as such men as Major J. Marshall McCue and others are active in soliciting subscriptions, and have a considerable amount already subscribed.

☞ The contract to build the Cayuga Lake Shore Railroad has been let to Colton Smith, of Massachusetts.

The Harrisburg Car Manufacturing Company.

From an article in a late number of the *American Railway Times*, we condense an interesting description of one of the latest manufacturing establishments in Harrisburg:

A co-partnership of several capitalists was formed in the fall of 1853, to erect the Harrisburg Car works, with a paid up capital of $25,000. A tract of ground containing 2½ acres, bounded on one side by the Pennsylvania Central railroad, and on another side by the Pennsylvania canal, was purchased, and the erection of the necessary buildings commenced. These were completed in March, 1854, and the company immediately went into operation. During the first year they employed an average of 50 hands. The receipts for manufactures during the first year amounted to $100 000, while the expenditures were only $93,000, leaving $5,000 net profit on the investment.

Although working with a limited capital and proportionate facilities, yet under the energetic and skillful management of the superintendent, Mr. W. T. Hildrup, their reputation as car builders had increased to such an extent, that with the increased demand for cars, the company were obliged in 1863 to reorganize as a stock company, increasing their capital to $75,000. Three and one-half acres of ground were purchased, and additional buildings erected, and the works run to their fullest capacity; and in 1871 we find their capital increased to $300,000, with facilities second to none, turning out eight eight wheeled cars complete each day.

In 1867 the company commenced the making of machinists' tools, such as lathes, planing machines, drills, &c., and so great was the success in this department that in 1869 the company found it necessary to increase the capacity of this branch. To erect the necessary buildings they purchased twenty acres of ground on Allison's hill, about three-quarters of a mile from the car works proper, and thereon erected the large and substantial building known as the Harrisburg Foundry and Machine works, a branch of the company, at a cost of $150,000. These works went into operation on the 1st of November, 1870.

During the month of March, 1871, the company were obliged to erect a large boiler shop, adjoining the foundry and machine works, for making boilers for oil tank cars, steam purposes, &c. The foundation was commenced March 1st, the building finished on the 15th, and operations commenced on the 20th of the same month.

In 1868 the company purchased the large steam saw and planing mill, together with four acres of ground, below Mulberry street, about one mile distant from the main works, as a valuable auxiliary to the car building department. Last year this department turned out over 5,000,000 feet of lumber, the receipts amounting to over $125,000.

The Car works now occupy six acres of ground, and the company employ 440 men in the different shops, the product being about $2,000.000 yearly. The foundry and machine works occupy four acres and employ 85 hands, with a capacity of some $125,000 per annum. The saw mill has 37 hands employed, turning out some 5,000,000 feet per annum, while the boiler shop has fifty hands, capable of turning out eight oil tanks per week, or a product of $125.000 per year.

WILLIAM CALDER, Esq., is president of the company, and W. T. HILDRUP, Esq., is treasurer and general superintendent of the works.

It will be observed that this company, with its latest and most improved machinery, and with the facilities of conducting the building of cars in all its branches, having one of the best locations in the country, and with every facility for cheap and convenient tranportation, besides being at the very headquarters for iron, coal and lumber—the three heaviest items in their business being cheaper than at any other point in the country—they must necessarily possess unrivalled advantages for manufacturing cars with the greatest economy and dispatch.

THE NEW YORK (VIADUCT) RAILWAY COMPANY.

PUBLIC NOTICE.

The undersigned COMMISSIONERS of STOCK SUBSCRIPTIONS to the NEW YORK RAILWAY COMPANY, give notice that the **Books of Subscription** to the Capital Stock of such Company **WILL BE CLOSED** on the

31st day of August, 1871.

UNTIL THAT DAY the Books will remain open for Subscribers at the Banking House of

Duncan, Sherman & Co.,
No. 11 Nassau Street,

and also at the

Bank of the Metropolis,
No. 31 Union Square.

Until the Books of Subscription are closed, ALL SUBSCRIBERS for Stock will have the **Benefit of Interest** upon the several instalments paid, and as allowed to those subscribing within thirty days after the Books were opened.

Dated, NEW YORK, July 24th, 1871.

Alex'r T. Stewart,
John Jacob Astor,
Levi P. Morton,
} Commissioners on behalf of the Company.

Marquette and Ontonagon Railroad.

At a meeting of the stockholders of the Marquette and Ontonagon and the Bay de Noquet and Marquette Railroad companies, held on the 29th of July, the agreement for the consolidation previously made by the directors of the two companies was unanimously ratified. The name of the new corporation is the Marquette and Ontonagon Railroad Co., and it is now possessed of all the former property of the two companies. Its directors were named in the articles of consolidation as follows:

Joseph S. Fay, Francis C. Foster, Edmund W. Clap, Joseph Iasigi, Joseph S. Greenough, Boston; T. P. Goddard, Providence, R. I.; Edwin Parsons, New York; Peter White and S. P. Ely, Marquette.

At a subsequent meeting of the directors the following officers were chosen:

Joseph S. Fay, President.
S. P. Ely, Vice President.
Joseph F. Greenough, Sec. and Treasurer.
D. H. Merritt, Superintendent.

The company has forty miles of track, with rolling stock sufficient to move a million tons of freight in a single year, the present time card providing for forty-six regular and eighteen extra trains, daily. The track and rolling stock is in the best possible condition, and the general management equal to that of any of the more pretentious lines, east or west. Since the appointment of M. Merritt as superintendent, many needed improvements have been made, and the road is now run at a less cost and to better advantage than ever before. We of the iron district certainly have reason to be proud of our railway, without which Marquette would be a wilderness, and our iron interest of far less importance.—*Marquette Mining Journal.*

☞ The European and North American railroad, between St. John and Bangor, is rapidly approaching completion. There are nine miles of track yet to be laid, the rails and sleepers for which are on the ground.

Blue Ridge Railroad.

Some weeks ago it was announced in these columns that arrangements were then progressing for an effective program me looking to the early completion of this great enterprise, so long cherished by the people of this State. The consummation of these arrangements are now made public. The State stock in the Blue Ridge Railroad has been purchased by an association of gentlemen, embracing leading citizens and influential capitalists of this State, together with persons of ample means and influence in New York. This stock has been transferred upon the condition that the State shall be protected from loss upon the $4,000,000 guaranteed bonds, and that the road shall be completed within five years from the date of transfer. The sum agreed to be paid for the stock is merely nominal it is true, but the new company amply reimburses the State by affording protection from any loss upon the State guarantee, and by rapid completion of the enterprise. Besides, it is agreed that the State shall receive $10,000 per annum for five years after the completion of the road, as a further payment for the stock now transferred.

The plan for the completion of the road is to change the gauge to three feet, and surveys will be commenced without delay to make the contemplated alteration. It is believed that the narrow gauge, as it is termed, will answer every purpose for the most extensive business and traffic ever claimed for this road. The subject has been thoroughly matured, and all the sources of information exhaustively explored with a view to the proposed change. The facilities for meeting the demands of trade and commerce are confidently expected to prove adequate under the narrow gauge system, while the lessened expenses of construction and the low cost of operating the road when completed, afford the strongest inducements for a trial of this system which is attracting so much attention throughout the civilized world. In proof of the assertion that this plan has been carefully considered, we will state that Col. James P. Low, Chief Engineer of the Blue Ridge Railroad, has in press an elaborate report on the subject of narrow gauge railways, in which the system is thoroughly discussed and its merits and demerits explained. The adaptation of the three feet gauge to the wants of commerce in this State is reduced to an absolute certainty by facts and figures. The report will likewise contain valuable information and interesting statistics concerning the Blue Ridge Railroad, and we shall look for its publication with anxiety.—*Anderson Intelligencer.*

☞ A correspondent of the Baltimore *Sun*, writing from Washington says: "The Washington and Richmond railroad is being pressed forward with vigor. Everywhere in this neighborhood cuttings, embankments, culverts and bridges are all under full complements of hands. Some preliminary movements looking to a legal trial of the right of that company to take possession of the Alexandria and Washington turnpike for the bed of their road have been made, but no legal action is yet taken."

☞ We learn that a sufficient quantity of iron to complete the Port Huron and Lake Michigan railroad from Lapeer to Flint has been received at Port Huron, and that there is no doubt of the completion of that section of the road before the 1st of October. Ample funds to pay for the iron between Flint and Owasso have been procured, and that section of the road will be immediately put under contract. The earnings of the road on the section completed—from Port Huron to Lapeer—from passengers and freight for the month of July, reached $17,871.42.

☞ The Baltimore and Potomac Railroad Company has awarded the contract for arching the tunnel by which the road runs under the city of Baltimore from Cathedral to Arch street, to Mr. Henry E. Loane, of that city. The length of the tunnel is nearly a mile and a half, all of which is first excavated, to be filled in when the arch is erected, except about one hundred feet. This is said to be one of the largest contracts for brick-work ever awarded in Baltimore, involving as it will the use of more than fifteen millions of brick.

☞ The Worcester (Md.) railroad has given a standing order for sixty tons of iron per week till the road is completed. It is expected that the work of laying the track will progress as far as Newark by the middle of September, and that by the 15th or 20th of October the road will be at Snow Hill.

☞ A despatch from St. Pauls, Minn, says the North Pacific railroad from Duluth westward to Crow Wing, on the Mississippi river, a distance of 125 miles, has been accepted from the contractors.

FORTIETH DIVIDEND

WASHINGTON INSURANCE CO.,

No. 172 BROADWAY,

NEW YORK, July 28, 1871.

A DIVIDEND of FIVE PER CENT. has been declared, payable Aug. 1, free of tax.

WM. K. LOTHROP, Secretary.

CIVIL AND MECHANICAL ENGINEERING, at the Rensselaer Polytechnic Institute, Troy, N. Y. A higher and more practical Course of Instruction will be given here than has ever been attempted elsewhere in this country. Re-opens Sept. 13th. For the Annual Register, containing improved Course of Study, and full particulars, apply to PROF. CHARLES DROWNE, Director.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1871.

A **DIVIDEND** OF FIVE PER CENT. IN CURrency, free of Government tax, has been declared by the Board of Directors of this Company, payable on the 1st day of August next to the holders of full-paid shares registered at the close of the 15th day of July next, after which date and until the 5th day of August next the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer

NOTICE TO CONTRACTORS AND BRIDGE BUILDERS.

DEPARTMENT OF SURVEYS,
224 South Fifth Street, Philadelphia.

SEALED PROPOSALS will be received at the Department of Surveys until three o'clock P. M. of September 6, 1871, for the construction of a Bridge over the river Schuylkill, on the site of the Suspension Bridge at Fairmount, with approaches to Twenty fifth and Spring Garden streets, in the Fifteenth ward, and to a point about 144 feet westward of Thirtieth street, in the Twenty-fourth ward, as follows:

First. For the Bridge superstructure over the river, including all materials, workmanship, and erecting ready for use. It will be of wrought iron, 348 feet from centre to centre of end posts, and 34 8-10 feet from centre of lower to centre of top chord, and also two trusses for Thirtieth street, to be 84 feet from centre to centre of end posts, and 10 5-10 feet from centre of lower to centre of top chord, also of wrought iron. Detailed plans with complete strain sheets for these bridges, conforming to specifications, to accompany proposals, which on main Bridge shall give prices for both a two and three truss bridge.

Second. For all the iron work on *approaches* to be erected complete, as per plans and specifications.

Third. For the gradation and masonry, to include curbing and paving, as per specifications and plans.

Each bid must be made upon blanks prepared, otherwise they will not be accepted, and every bidder must submit the names of two persons of undoubted responsibility, who will be bound with them as security for the faithful completion of the contract. The City reserves the privilege of rejecting any and all bids that may not be satisfactory, and each proposal as herein divided will be considered separately and will be so allotted.

Payments will be made monthly in bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

Each bid must be accompanied by a certificate from the Law Department that a proper bond for the sum of five hundred ($500) dollars has been filed there, in accordance with the ordinance approved May 25, 1860.

The contractor or contractors, in making their proposals, shall do so with the understanding that if their proposal shall be accepted, that every dispute or difference which may arise shall be decided by the Chief Engineer and Surveyor, from whose decision there shall be no appeal.

All bidders are invited to be present at the opening of proposals offered on said day, at 3½ o'clock

Plans may be seen and examined at the Department of Surveys, where specifications and blank proposals may be obtained, on and after the 22nd day of July, inst.

STRICKLAND KNEASS,
Chief Engineer and Surveyor.

YORK CAR WORKS.

NEW YORK

State Railroad Bonds.

A First-Class Home Investment.

FIRST MORTGAGE

GOLD BONDS

OF THE

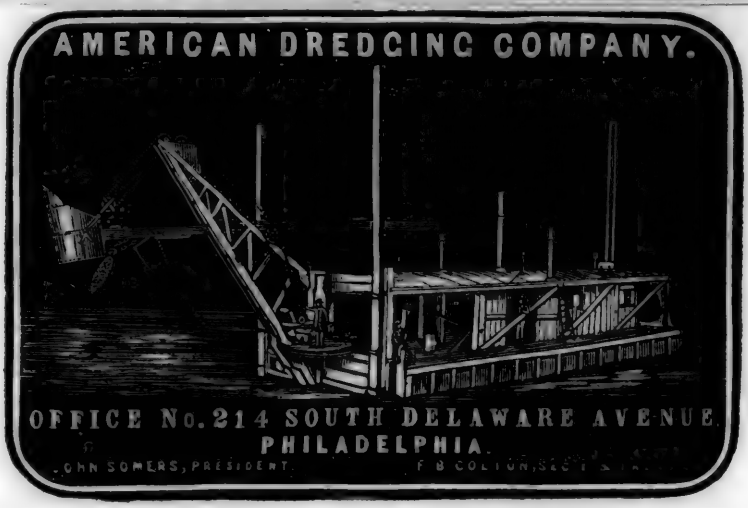
RONDOUT AND OSWEGO RAILROAD.

Principal and Interest payable in Gold.

SEVEN PER CENT. SEMI-ANNUALLY.

This Road covers 100 miles of the most direct possible line between the Great Lakes and deep water navigation on the Hudson River, the whole line of which will be completed and in operation on or before October 1, 1872, and give a new line of road to Lake Ontario and the West 25 miles shorter than any line that can be found.

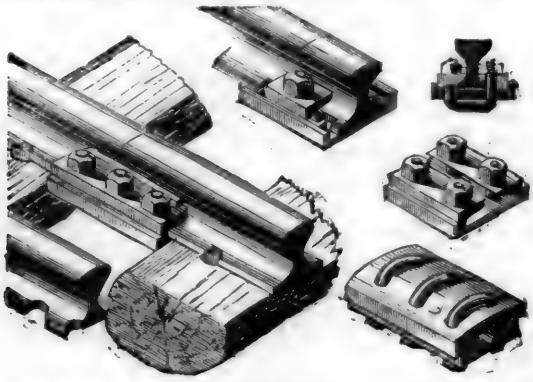
It passes through the Cement, Flag-Stone, and Lumber regions of Ulster County, and the rich agricultural bottoms of Delaware and Greene Counties, all of which have not heretofore been reached by railroad facilities, and from which sections the formation of the country prevents the construction of a competing line.



The 36 miles of road operated for three months is already paying net earnings equivalent to 7 per cent. gold on its cost of construction and equipments. The issue of Bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this city. Price of the Bonds 90 in currency.

Full particulars of the above may be had of, and the Bonds for sale by,

EDWD. HAIGHT & CO.,



9 Wall Street, New York City,

Financial Agents of the R. & O. Company.

☞ FIRST MORTGAGE SINKING FUND LAND GRANT BONDS OF THE ST. JOSEPH AND DENVER CITY RAILROAD COMPANY, WESTERN DIVISION.

These bonds can now be had from the undersigned, or through the principal banks and bankers of the United States.

They have thirty (30) years to run, bearing Eight per Cent. (8 per cent.) Interest, payable on 15th days of August and February in each year. The Principal and Interest are payable in *Gold*. The Principal in New York; the Interest in New York, London and Frankfort-on-Main, free of tax. They are Coupon Bonds, but can be registered or converted into Registered Bonds, and are receivable at par and accrued interest in payment for the Company's land sales. The payment of the principal and interest is secured by a first and only mortgage on the Company's Lands, granted by the United States in 1866, lying on the line of this road, amounting to 1,500,000 acres, the railway of the Western Division extending from Marysville, Kansas, to a junction with Union Pacific Road at Fort Kearney, a distance of 170 miles, together with the Equipments appertaining, Franchises, Rights of Way and Personal Property.

The mortgage is made to the Farmers' Loan and Trust Company of New York, as Trustees.

The Bondholders are amply protected by the terms of the Mortgage Deed, which prohibits a sale of the Company's lands at less than four ($4) dollars per acre, and a release of the lien of this Mortgage upon any portion sold until the purchase money is paid to the Trustees, who are authorized to apply the same to the payment of these Bonds, either by purchase or to the Sinking Fund, for their redemption at maturity. This will more than extinguish the debt and leave the railway and equipments free. The security for the payment of these Bonds is therefore beyond all contingency.

Holders of 5-20s, and especially those who do not desire to be paid off at the Treasury Department, can now exchange their Governments for these Bonds at a *good and substantial profit*.

The location of the line of the St. Joseph and Denver City Railroad is a commanding one, from the fact that it is a practical extension westwardly of the Hannibal and St. Joseph, the next Land Grant road after the Illinois Central. The St. Joseph and Denver City Railroad is fed at its eastern terminus (St. Joseph) by railway lines coming direct from Hannibal, St. Louis, Chicago, and local roads converging at St. Joseph. Its business is therefore secured. Its connection with the Union Pacific road opens up the through middle route across the Continent, and is of national importance. This is reflected in the fact that the quantities of letters and telegrams which we have received during the few days the Bonds have been for sale, applying for these securities, indicate the quick response of the American people in support of internal improvements, while at the same time they make a good investment.

Price for the present, 97½ and accrued interest in currency.

Circulars, maps, pamphlets, documents, &c., furnished upon application.

Expressage relating to the Bonds free. Marketable Securities received in exchange.

We have been at great expense in the examination of this property and the bonds, and are satisfied the investments in this Loan will not only be safe but profitable. We base our calculations on the fact that the First Mortgage Bonds of this Company, on the Eastern Division, lately successfully placed by our firm at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent. advance.

Under all circumstances, we unhesitatingly recommend them.

TANNER & CO., Bankers,
No. 11 Wall Street.

Chesapeake and Ohio Railroad Bonds.

The calling in of 50 millions of five-twenty bonds by the Government, has created some excitement among the multitudes of frugal investors, who, in all parts of the country have put their hard-earned savings into Government bonds. These worthy persons are looking anxiously for some investment equally safe and yielding a fair rate of interest. Messrs. FISK & HATCH, the well-known Bankers of New York, have examined the various bonds offering, and announce the result in our paper to-day. They find that for the wants of holders of five-twenties who wish for bonds equally safe and more remunerative, the first mortgage bonds of the *Chesapeake and Ohio Railroad* offer special advantages. This firm accordingly pledge their established reputation as government bankers, to the announcement that the bonds in question are as thoroughly safe and trustworthy as the five-twenties themselves. They are also cheap. By the conversion proposed the investor adds nearly 20 per cent. to his capital, and retains his 6 per cent. gold interest besides. The Chesapeake and Ohio Railroad promises to be one of the most remunerative of the great through routes connecting the Mississippi Valley with the seaboard. The line is now in operation for 227 miles, and is reported to be doing a prosperous, increasing business. Next month 95 miles more will be opened, making 322 miles complete. On part of the western division, Steel Rails are being laid where they are needed to accommodate the traffic. The coal and iron deposits through which this division of the road passes are rich and easily worked as they lie near the surface, and already an active industry is developing throughout this valuable belt of hitherto un-

developed mineral and agricultrual wealth. Five thousand men are constantly at work upon the remaining 105 miles of this division, which will finish the whole road to be opened next summer.

In addition to the local business there are advantages which cannot fail to attract through business to this great trunk line. First, it is much shorter than either of the other through routes connecting the sea-board with the great rich Mississippi Valley; and, secondly, it has light curves and low grades, which secure safety and economy in the working the road. Its position, also, exempts it from the winter obstruction by snow which often shuts up other roads, and greatly increases their expenses of operation. The earnings of the road so far as constructed are large. Everybody who holds Five-Twenties is anxiously inquiring as to the best method of converting them. The information furnished above is therefore timely, and will be esteemed by a large class of frugal persons who are anxious to put their money where it will not only be safe, but where it will yield them a fair, reliable income.

Shipping Buildings by Railroad.

A new enterprise has recently been inaugurated in Chicago on a large scale, viz: the building of ready made houses for shipment to the sparsely settled districts of the interior, where skilled labor is scarce, and the facilities for house-building meagre. It now appears that the enterprise has proved an immense success. The *Tribune* of that city contains the following:

In visiting the new harbor at South Chicago we noticed three of the cars of the Union Pacific Railroad Company loaded with four complete two story dwellings, containing seven rooms each, with partitions, stairs, doors, windows, sash and casing, roofs, and trimmings for doors and windows, complete, and which can be placed in complete condition for occupancy in two hours after being unloaded from the cars. This is the first shipment on an order for two hundred dwellings given to the South Chicago Building Company. The buildings are constructed under the patent and direction of D. S. Whittenhall, and will be furnished in every variety, and at prices that give them an attraction and merit over any other buildings now used for the accommodation of population in new localities.

James River Improvement.

A report has been submitted to the Richmond (Va.) city council, showing that the work of removing obstructions from James River, under United States contract, is progressing with satisfactory rapidity. Under another contract with the United States engineer department the American Dredging Company, of Philadelphia, will soon complete their work of opening the cut-off at Dutch Gap, giving a depth of eighteen feet at high water, and a width of not less than one hundred feet. Under another contract with the United States engineer department, Messrs. Kalenback & Barton are about to open a channel through the rock at Rocketts Reef, giving a depth of eighteen feet at high water, and a width of one hundred and twenty-five feet.

Narrow Gauge Railroads.

The British Government appointed in 1869 a commission to consider what gauge should be adopted for "the Indus Valley and other projected railways." After more than a year of careful investigation their commission has reported, and within the last month the Indian authorities have decided upon the width of three feet three inches for all State lines. This action extends the narrow gauge system to lines nearly 10,000 miles in aggregate length, intended to give all needed facilities to vast areas of territory and immense populations. It is the most important endorsement the narrow gauge system has yet received, and will greatly influence decisions as to the width of the gauge the world over.

Vicksburg and Meridian Railroad.

The reports of this company for the fiscal years ended February 28, 1870 and 1871, show the following comparative earnings:

	1869–70.	1870–71.
Passenger	$198,168 78	$217,278 86
Freight	254,627 46	288,934 39
Express	.....	5,138 34
Government	15,094 47	4,191 39
Incidental	5,847 32	10,270 77
Mail	40,798 62	14,152 47
Total gross earn'gs	$483,536 65	$539,966 22

The expenditures for the same two years compare as follows:

Transportation	$77,309 87	$90,490 78
Motive power	74,462 45	93,751 85
Maintenance of way	151,746 76	147,550 12
" of cars	17,589 11	23,917 20
Total operating exp.	$321,057 69	$355,709 95
Earnings less expenses	$162,478 96	$184,256 27

The operating force on the road during the year consisted of 21 locomotive engines, and cars as follows—passenger 8, baggage 6, caboose 6, box freight 69, flats 71, and wrecking 1—total, 161 cars. The cars are in general old and requiring continual repairs, which forbids the economical management of the line. The rebuilding and overhauling this stock during the past year however has been very considerable.

The General Superintendent reports the roadway to be in a better condition than at any time since the close of the war. It is well ditched and the cuts are in fair condition. Defective and dangerous rails are being rapidly replaced with new or re-rolled rail, the latter being reported to be wearing better than the recently purchased rail.

The number of passengers carried during the year was 94,182 against 88,413 during the previous year; of these 44,612 were carried east and 48,875 west. Comparing the results of the two last years the following is shown:

	1869–70.	1870–71.
Mileage of passengers	3,519,368	3,738,977
Earnings	$204,397 93	$220,059 04
Earnings per passenger	2 31	2 33¼
Earnings per mile	cts. 5.92	5.85

The tonnage shipped on the road in the two last years compares as follows:

	1869-70.	1870 71.
Gross tonnage	50,819	57,559
Revenue per ton	$5 16	$5 02
Revenue per ton per mile	cts. 3.67	3.57

The through tonnage amounted to 7.976 and 9,286 in the years respectively, and the local tonnage to 42,843 and 48,278 tons. The increase in the cotton movement is extraordinary, having been in 1870, only 36,655 and in 1871 an advance to 51,011 bales. The other principal articles of tonnage in 1870–71 were—flour and meat, 97,158 barrels; potatoes and apples, 5,519 barrels; pork and beef, 7,290 barrels; oil and liquor, 4,574 barrels; lime and cement, 10,308 barrels; molasses, 4,646 barrels; corn, 108,831 sacks; bacon and lard, 4,846,592 pounds; sundries, 20,456,256 pounds; iron, 3,954,868 pounds; live stock, 621 head; lumber, 4,094,848 feet, and poultry, 785 coops.

Included in transportation expenses are $76,357 42, which ought to be considered as extraordinary, viz: new iron $19,554 78, new engines $9,523 78, new cars $19,691 13, other items $16,916 98, and material on hand, bought and paid for, $10,668 78. The President in his report says:

The increase in expenditures over those of last year is attributable to two plain causes—the advance in the price of labor and the heavier purchase of new rails, new cars and new locomotives in the past than in the previous year, making, in the aggregate, the sum of $24,902 15 in excess of expenditures for the same items the year before. There is no doubt, but for the severe stringency of the times, the earnings for the year would have been greater, with a reduced per centage of expenses to gross earnings. The low price at which the last crop of cotton was sold seriously depressed the pecuniary condition of this region, limiting the people in their purchases, as well as railroad travel, strictly to the demands of a pressing necessity.

The outward freights from 1st September to the 28th February last fell off $19,606 67, as compared with the same period of time in the preceding year.

The books of the company show that, notwithstanding there was an excess of 14,353 bales of cotton over the previous year, yet, with that increase of tonnage, there is a decrease in the general tonnage of 5,088 tons altogether in outward freights and mainly consisting of Western produce.

The outward freights from 1st September, 1869, to 1st February, 1870, five months, amounted to	$93,519 62
And for the corresponding five months ending 1st February, 1871	73,912 95
Showing a decrease of	$19,606 67
For the corresponding five months of the two years, as above, the passenger receipts show also a decrease of	6,890 31
The comparative receipts for freights forwarded from Vicksburg for the last two years shows for the year ending February 28, 1870	$143,062 62
And for the year ending Feb. 28, 1871	163,256 95
Showing an increase in favor of the past year of	$20,194 33

We regard these as highly encouraging indications, showing that, even under the adverse circumstances we have referred to, the gross earnings for the year exhibit a decided improvement.

During the cotton season, for want of outward freights, the cars were often sent empty after cotton, paying mileage only in one direction. It is essential to the profitable working of the road that its business and receipts should be drawn from both directions, which, unfortunately, has not been the case with the road. The nearer that system of operation can be brought to equalization the more economical and profitable will be the result.

During the fiscal year which has just closed the conversion of the past due bonds has been continued successfully. There have been issued up to this date, of the new 7 per cent. mortgage bonds due in 1890:

First class, red endorsed	$718,000
Second class, blue endorsed	850,000
Third class, black endorsed	127,000
Fourth class, unendorsed	1,108,000
Making a total of	$2 798,000

There are about $140,000 of the bonds and other obligations, including interest, yet to be converted.

The net earnings of the road not having sufficiently increased, the payment of the coupons on these bonds is made as heretofore, viz: 4-7th in cash and 3-7th in preferred stock.

The whole amount of preferred stock issued to 1st March was $581,876 68

The honorable preferred loan made by the bondholders and other creditors to aid the company in the reconstruction of the road, etc., amounts to $225,437 89. The time for the payment of this loan has not yet been fixed. It bears 8 per cent. interest, payable semi-annually, in January and July. The interest for the past year has been promptly met.

The floating debt of the company has, during the past year, been reduced $17,106,78, leaving the amount due on 28th February, 1871, $81,310 57, distributed as follows:

Bills payable (a portion not yet due)	$63,312 85
Old pay rolls	13,452 71
Old open accounts	4,545 01

The amount of the floating debt due 1st March, 1868, was $281,015 35, showing that since that date there has been paid $199,704 78.

An Act amendatory of the charter of this company was passed by the Legislature in July, 1870, authorizing the issuance by the company of preferred stock; and also an act authorizing the company to make an extension of its railroad track to the Mississippi river—both of which acts were duly accepted by this company as a part of its charter; and a written notice of such acceptance was given to the Secretary of State, who acknowledged receipt of the same.

The Western railroad, a link of 45 miles between Selma and Montgomery, was completed last December. Soon after which we had the satisfaction of welcoming the arrival at Vicksburg, of a locomotive and freight train from Savannah, belonging to the Central Railroad of Georgia, with consignment of rice and other merchandise for Vicksburg; and returning, it took back a full load of cotton for Savannah. By the completion of that link, Vicksburg is placed in railroad connection, on the shortest practicable line, with Montgomery, Columbus, Macon, Savannah, Brunswick and all other important railroad points in South Alabama and Georgia.

The Alabama and Chattanooga Railroad is on the eve of completion, with which this road will make close connection at Meridian, and will give much the shortest line from Vicksburg to New York and Norfolk.

The North Louisiana and Texas Railroad, when completed to Shreveport, will be to this a valuable connecting road. There is, however, a gap of ninety miles yet to be closed between Monroe and Shreveport. With the completion of the Texas Pacific Railroad, and with that gap closed, this road would be a link in the great chain on the shortest line between San Diego, on the Pacific; and New York and all Southern Atlantic seaports. When that line is completed, the amount and value of freight and travel which would be poured on this road can be more easily imagined than estimated. The time by rail from New York to San Diego would be five or six days, and from San Diego to China and Japan by steamers about twenty days. Add the time from Liverpool to New York—say ten days—making the time from Liverpool to China and Japan, from thirty-five to forty days.

When the first invoice of tea, silks, &c., direct from China, arrived at Chicago, via the Union Pacific Railroad, it was deemed of sufficient importance to celebrate the event by the firing of cannon, and rejoicing of the citizens as the opening of a direct trade between the Asiatic cities, and the United States.

The immense trade between the United States and China and Japan, countries numbering something like five hundred millions of people, about one half the human race—has heretofore been carried on by the long voyage round Cape Horn—or by India or Egypt—by the operating of these great railroad lines between the Atlantic and Pacific sea ports, the Western and Southern cities being so much nearer to the Pacific coast, will doubtless become the general marts, for the distribution of the teas, silks, nankeens and other commodities exported from China and Japan—and from the geographical position of Vicksburg, it will be 1,285 miles nearer to Shanghai in China, than will be the City of New York.

We regard these signs of prosperity as grounds for a strong confidence, that at no distant day, this company will have the ability to pay out of its net earnings the full interest on its entire debt; and the stockholders may also find ground for a reasonable hope of an advance in the value of their stock.

The Treasurer's account for the last past year exhibits the following figures:

Receipts from road and connections		$675,698 99
Sales of real estate		18,785 07
Bills receivable collected		743 15
Interest account		1,453 64
Bills payable issued		15,259 70
Land scrip issued		5,795 28
Special loan fund		4,408 33
New mortgage bonds		5,800 00
Sundries		652 73
Total receipts		$728,596 89
Transportation and maintenance	$355,709 95	
New iron, engines and cars	48,796 69	
Agents, $82,588 69; foreign roads, $59,466 82, and loss and damage, $420	142,475 51	
Contingent expenses	4,681 90	
General salaries	10,537 42	
Tax account	528 41	
Bills payable	39,680 66	
Bills receivable	23,231 98	
Interest account	6,102 66	
Special loan fund	56 559 79	
Land scrip	5,610 13	
Land purchased	260 00	
Extension to Mississippi river	131 00	
Balance March 1, 1870	29,438 13	
Balance February 28, 1871	4,870 66	
Total expenses and disbursements		$728,596 89
